Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditor's Report

To the Plan Administrator and Participants
L&M Radiator, Inc. Pension Plan
Hibbing, Minnesota

Report on the Financial Statements

We have audited the accompanying financial statements of L&M Radiator, Inc. Pension Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2013, the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of December 31, 2014 and 2013, and changes therein for the years then ended, and its financial status as of December 31, 2013, and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter – Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2014, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Notes to the Financial Statements

Note 1. Plan Description

The following description of the L&M Radiator, Inc. Pension Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan was established October 1, 1961, and amended throughout the years to comply with tax legislation. The Plan was last amended on December 13, 2013. The Plan is a noncontributory defined benefit pension plan that provides retirement benefits for eligible employees of L&M Radiator, Inc. (the Company and Sponsor), except for employees covered by a collective bargaining agreement, non-resident aliens with no US source income and leased employees. Effective January 1, 2004, the Plan was amended to freeze participation in the Plan and, therefore, there are no new participants to the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Company is the sponsor and administrator of the Plan. Plan assets are managed and invested by trustees, who are certain officers and employees of the Company. The third party administrator, Charles Schwab Institutional, provides record keeping and reporting services.

Benefits: Participants are eligible to receive fully vested benefits from the Plan upon the attainment of Normal Retirement Age (65). The benefits are based on the fractional rule. The normal monthly benefit is determined based on the "Years of Service" and the "Average Monthly Compensation" of the Participant. The "Average Monthly Compensation" of a Participant at any date is the highest monthly average of their compensation for any five consecutive years that yield the highest average.

A Participant who has received credit for 10 years of vesting service and has attained age 60 is entitled to reduced early retirement benefits under the Plan. There is also provision for entitlement to benefits on account of late retirement and disability. A disabled participant becomes immediately vested in his or her benefits and then receives the actuarial equivalent of the accrued benefit payable at Normal Retirement Age.

Benefits under the Plan are paid at Normal Retirement Age in the form of a Qualified Joint and Survivor Annuity. Optional forms of benefit include a monthly life annuity, a monthly life annuity for 120 months, a 50 percent contingent life annuity, a 66 2/3 percent contingent life annuity, a 75 percent survivor annuity, and a 100 percent contingent life annuity. Death Benefits under the Plan are payable in the form of a Preretirement Survivor Annuity. If the present value of the vested accrued benefit is a small amount as defined in the Plan, the Plan administrator may permit an immediate lump sum cash-out.

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of Plan assets available for benefits and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits as of the date of the financial statements, and changes therein. Actual results could differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

L&M Radiator, Inc. Pension Plan

Notes to the Financial Statements

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial present value of accumulated plan benefits: Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on the highest monthly average compensation as noted in Note 1. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits was determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of January 1, 2014, are as follows:

Mortality rate:	2014 Annuitant and Non-Annuitant Mortality Tables (Static)
Retirement:	Age 65
Interest discount rate:	7.5 percent
Social Security:	3.50 percent increase in the Nation Average Wage Index
Marital status:	75 percent of active employees are assumed to be married
Actuarial method:	Present value of accumulated benefits

The assumption changes from the previous year's valuation were as follows: the mortality table changed from the 2013 Internal Revenue Service (IRS) prescribed mortality table to the 2014 IRS prescribed mortality tab.

The actuarial valuation was performed as of January 1, 2014. There were no significant differences between December 31, 2013 and January 1, 2014 that would cause the actuarial valuation not to be accurate as of December 31, 2013.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan was to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Benefit payments: Benefits are recorded when paid.

Notes to the Financial Statements

Administrative Expenses: The Plan's expenses are paid either by the Plan or the Sponsor, as provided by the plan document. Expenses that are paid directly by the Sponsor are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Recent accounting pronouncement: During July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*, collectively referred to as the Update. The purpose of this Update is to simplify plan accounting.

- The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.
- The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan*, as a direct filing entity, disclosure of that investment's strategy will no longer be required.
- The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The Update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. Plan management is currently evaluating the impact this Update will have on the Plan's financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events through September 28, 2015, the date the financial statements were available to be issued.

Note 3. Investments

The following presents the fair values of investments. Investments that represent 5 percent or more of the Plan's net assets as of December 31, 2014 or 2013, are separately identified.

	December 31,	
	2014	2013
Investments at fair value:		
American Funds Amcap Fund	\$ 2,672,838	\$ 2,379,232
BlackRock Equity Dividend Fund	2,619,414	2,395,530
PIMCO Total Return Fund	1,932,225	1,680,308
Dodge & Cox Income Fund	1,873,348	1,630,533
American Funds Europacific Growth Fund	1,750,985	1,591,905
Harbor International Fund	1,630,214	1,537,825
JP Morgan Mid Cap Value	1,432,985	1,244,514
PIMCO All Asset Fund	1,313,210	1,098,186
Morgan Stanley Mid Cap Growth Fund	1,158,480	1,146,208
Other investments less than 5 percent	6,205,763	6,620,076
	<u>\$ 22,589,462</u>	<u>\$ 21,324,317</u>

During 2014, the Plan's mutual funds (including those bought, sold, and held during the year) depreciated in value by \$467,307, and during 2013, the Plan's mutual funds appreciated by \$1,654,366.

Note 4. Fair Value Measurements

FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
 - o Quoted prices for similar assets or liabilities in active markets
 - o Quoted prices for identical or similar assets or liabilities in inactive markets
 - o Inputs other than quoted prices that are observable for the asset or liability
 - o Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

L&M Radiator, Inc. Pension Plan

Notes to the Financial Statements

The following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Money market fund: Money market fund is valued using the amortized cost method, which is cost plus accretion of discount or minus amortization of premium over the period ending at maturity of the underlying investments, which approximates fair value determined from or corroborated by observable market data by correlation or other means.

Mutual funds: Mutual funds are valued at the net asset values, based on publicly quoted active market prices, of shares held by the Plan at year-end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

The significance of transfers between levels is evaluated based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2014, there were no transfers in or out of Levels 1, 2, or 3.

The following sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013.

	Assets at Fair Value as of December 31, 2014

Note 5. Funding Policy

The Sponsor's funding policy is to make an annual contribution to the Plan in an amount estimated to be sufficient to provide the Plan with assets with which to pay pension benefits to the Plan's participants. The contribution requirements are determined annually by the Plan's actuary, Towers Watson, as of January 1 of the Plan year. The Sponsor's contributions for 2014 and 2013 equaled or exceeded the minimum funding requirements of ERISA.

Note 6. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. governmental agency, up to the applicable limitations as discussed below.
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Sponsor and the level of benefits guaranteed by the PBGC.

Note 7. Income Tax Status

The IRS has determined and informed the Company by a letter dated April 27, 2012, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 8. Party-in-Interest Transactions

The investments are managed by Charles Schwab Institutional, the custodian, and Advanced Capital Group provides investment advisory services; therefore, all transactions qualify as party-in-interest. Fees paid by the Plan for investment advisory services amounted to \$55,095 and \$48,382 for the years ended December 31, 2014 and 2013, respectively.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

The monthly average of total pay received for the five consecutive years out of the latest 10 years which gave the highest average.

Accrued Benefit Adjustment

The quotient of a) divided by b), not to exceed 1.00.

- a) Years of credited service to date.
- b) Years of credited service projected to normal retirement date.

Integration Level

The monthly average of the Social Security taxable wage bases (in effect under Section 230 of the Social Security Act) for each year in the 35-year period ending with the year the employee attains Social Security retirement age.

Normal Retirement Benefit

1. Age: Attained age 65.
2. Form: Married participants will receive a 100% joint and survivorship annuity. Single participants will receive a monthly annuity payable for ten years and life thereafter.
3. Amount (accrued benefit): The sum of (a), (b) and (c) (maximum of \$4,166.67), multiplied by (d):
 - (a) 1.40% of average compensation multiplied by expected credited service at normal retirement date (maximum of 20 years).
 - (b) 0.70% of average compensation multiplied by expected credited service at normal retirement date in excess of 20 years (maximum of 15 years).
 - (c) 0.58% of average compensation in excess of the integration level multiplied by expected credited service at normal retirement date (maximum of 35 years).
 - (d) Accrued benefit adjustment.

Early Benefit

1. Age: Attained age 60.
2. Service: Ten years of vesting service.
3. Form: Same as normal retirement benefit.
4. Amount: Accrued benefit on early retirement date reduced by 1/15 for each year payments precede normal retirement date.

Late Retirement Benefit

1. Age: No maximum age.
2. Form: Same as normal retirement benefit.
3. Amount: The greater of the accrued benefit on the late retirement date or the actuarial equivalent of the accrued benefit as of the normal retirement date.

Termination Benefit

1. Vesting Percentage: 100% after five years of vesting service.
2. Form: Same as normal retirement benefit with income deferred until normal retirement date.
3. Amount: Accrued benefit on date of termination multiplied by the vesting percentage.

Disability Benefit

1. Eligibility: Totally and permanently disabled.
2. Form: Monthly income payable until normal retirement, death, or recovery and a deferred annuity payable at normal retirement date.
3. Amount: Accrued benefit on date of disability.

Survivor Annuity Death Benefit

1. Eligibility: Qualified married participant fully or partially vested in an accrued benefit.
2. Form: Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
3. Amount: If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 100% survivor annuity in effect, then died the next day.

Changes in Plan Provisions since Last Actuarial Valuation

There have been no changes in the provisions valued since the preceding valuation.

Assumed Cost of Living Adjustments

None.

Inclusion Date

Employees are first included in the valuation on the valuation date coincident with or next following the enrollment date on which the employee becomes a participant.

Plan-related Expenses

The amount included this year for plan-related expenses is \$54,000 (.25% of fair value of assets at the beginning of the year, rounded up to the nearest \$500).

Mortality

The prescribed mortality assumption under IRC §430(h)(3)(A) using static tables with separate mortality rates for annuitants and non-annuitants.

Retirement

Age 65.

Disability Rates (per 100 employees)

The rates at which participants become disabled by age and gender are shown below:

Percentage becoming disabled during the year		
Age	Males	Females
25	0.0854%	0.1094%
30	0.0986%	0.1395%

60	1.4774%	1.1792%
65	0.0000%	0.0000%

Disabled Mortality

Rates as specified in Revenue Ruling 96-7.

Compensation Increases

Table S-5 from the Actuary's Pension Handbook plus 3.00%.

Future Increases in Social Security

For purposes of determining target normal cost and the additional Funding Target for maximum deductible contribution purposes, the National Average Wage Index is assumed to increase by 3.50% per annum.

Future Increases in Maximum Benefits and Plan Compensation Limitations

Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC §415. Plan compensation is limited to the maximum presently allowed under IRC §401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.

Representative Termination Rates (per 100 employees) not Due to Disability, Retirement or Mortality

V Table from August 1992 Pension Forum published by the Society of Actuaries, multiplied by 0.55.

Percentage leaving during the year		
Attained Age	Males	Females
20	10.23%	10.23%
25	7.48%	7.48%
30	5.56%	5.56%
35	4.35%	4.35%
40	3.58%	3.58%
45	3.03%	3.03%
50	2.48%	2.48%
55	0.00%	0.00%

Form of Payment

Single participants are assumed to elect the ten-year certain and life annuity.

Married participants are assumed to elect the 100% joint and survivor annuity.

Marriage

For purposes of valuing the pre-retirement surviving spouse's benefit, 75% of eligible participants are assumed to be married and male spouses are assumed to be three years older than female spouses.

Employees

It was assumed there will be no new or rehired employees.

Asset Method

Under this method, the valuation assets are equal to the average of three values (all determined without regard to receivable contributions), the result increased by the discounted present value of contributions expected to be made after the valuation date based on the prior plan year PPA effective interest rate. This amount is then subject to a 10% corridor around the market value of assets (including the discounted present value of receivable contributions) as of the valuation date. The three values used to develop the average value are: the market value of assets as of the current valuation date, the adjusted market value of assets as of the prior valuation date and the adjusted market value of assets as of the second prior valuation date. The adjusted market value as of a relevant valuation date is equal to the market value of assets as of the prior valuation date increased by actual plan contributions and assumed return on plan assets and decreased by actual plan disbursements after that date until the current valuation date. The algebraically equivalent development of this method (pursuant to IRS Notice 2009-22) is shown in Section 2.4. Because expected investment returns under this method are limited under WRERA, over time it is more likely to produce an actuarial value that is expected to be less than the market value of assets.

Participant Data

Employee data was supplied by L & M Radiator, Inc. as of January 1, 2014.

Tax Policy

The actuarial valuation performed for the plan year ending December 31, 2014 is used to determine the maximum deductible contribution for the tax year ending December 31, 2014.

Benefits not Included in Valuation

None.

PBGC Premium Funding Target

The Alternative Premium Funding Target was determined using the assumptions described above.

Nature of Actuarial Calculations

The results documented in this report are estimates based on data that may be imperfect and on assumptions about future events. Certain plan provisions may be approximated or deemed insignificant and therefore are not valued. Assumptions may be made about participant data or other factors. Reasonable efforts were made in this valuation to ensure that items that are significant in the context of the actuarial liabilities or costs are treated appropriately, and not excluded or included inappropriately.

A range of results, different from those presented in this report could be considered reasonable. The numbers are not rounded, but this is for convenience only and should not imply precision, which is not inherent in actuarial calculations.

The assumptions selected for this valuation other than those prescribed by law, generally reflect long-term average expectations. If overall future plan experience is less favorable than assumed, the relative level of plan costs or contribution requirements determined in this valuation will likely increase in future valuations. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for the measurements (such as the end of an amortization period); and changes in plan provisions or applicable law. It is beyond the scope of this actuarial valuation to analyze the potential range of future pension contributions, but we can do so upon request.

Changes in Assumptions and Methods Since Last Actuarial Valuation

- The mortality table changed from the 2013 IRS-prescribed mortality table to the 2014 IRS-prescribed mortality table.
- The segment interest rates used to calculate the funding target and the funding normal cost were updated from an applicable month of January 2013 to January 2014 and reflect the interest rate corridors of MAP-21 as extended by HATFA, as applicable.
