Note 1. Plan Description

The following description of the L&M Radiator 401(k) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering employees of L&M Radiator, Inc. (the Company, Employer, or Plan Administrator). Employees 18 years of age or older are eligible to participate in the Plan on the first day of the month after one month of service. Nonresident aliens, seasonal employees, consultants, interns, leased employees, and union employees, unless required by a collective bargaining agreement, are not eligible for the Plan. For the purpose of the Company's discretionary matching contribution, eligibility occurs when the employee is 18 years or older, has completed one month of service, and is employed on the last day of the plan year. For the purpose of the Company's discretionary profit sharing contribution, eligibility occurs when the employee is 18 years or older, has worked 1,000 hours during a plan year, is employed on the last day of the plan year, and does not participate in the L&M Radiator, Inc. Pension Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may contribute up to 100 percent of their eligible compensation according to the Plan's provisions and the maximum dollar amount allowed by the Internal Revenue Code (IRC). Participants who have attained 50 years of age before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute as rollovers amounts representing distributions from other qualified defined benefit or defined contribution plans and certain IRAs. Participants direct the investment of Plan contributions into various investment options offered by the Plan.

The Company may elect to make a discretionary matching contribution to the Plan. The Company made a matching contribution equal to 20 percent of employee deferrals up to 4 percent of eligible compensation for the year ended December 31, 2014.

The Company may also elect to make discretionary profit sharing contributions to the Plan. The Company made a discretionary profit sharing contribution equal to 4 percent of eligible compensation for the year ended December 31, 2014.

Participant accounts: Each participant's account is credited with the participant's contributions, the Company's contributions, and an allocation of investment income, and is charged with an allocation of administrative expenses and investment loss. Allocations are based on the participant's eligible compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participant and Company matching contributions and the earnings thereon are immediately vested. Company profit sharing contributions and the earnings thereon are subject to a vesting schedule based on years of continuous service. A participant will be 100 percent vested after three years of credited service. Notwithstanding the above, participants shall, however, become 100 percent vested in their account upon attaining retirement (age 65), early retirement (age 55) while still employed, their death, or becoming totally and permanently disabled.

A partial plan termination occurred in 2014 and all affected participants were fully vested.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balances. Note transactions are treated as transfers between the investment fund and the note account. Note terms range up to five years, or longer if the note proceeds are used for the purchase of a principal residence. The notes are secured by the balance in the participant's account and bear a fixed rate of interest. Interest rates at December 31, 2014 ranged from 5.25 percent to 7.00 percent. Principal and interest are paid ratably through regular payroll deductions or remitted directly by participants.

Payment of benefits: Upon termination of employment or death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in the form of lump-sum or installment payments. The Plan also allows for in-service withdrawals at age 59½ or in the case of financial hardship, subject to certain restrictions. If the value of a participant's vested benefit is less than $1,000, the benefit will be paid in a lump sum.

Forfeitures: Forfeited nonvested accounts amounted to approximately $21,000 and $11,000 at December 31, 2014 and 2013, respectively. These accounts are used to pay plan expenses and to reduce Company contributions. During 2014, the Plan used approximately $10,000 of forfeited nonvested accounts to reduce Company contributions.

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in the supplemental schedule, Schedule H, line 4i—schedule of assets (held at end of year).

Benefit payments: Benefits are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Certain other administrative expenses are paid directly by the Plan. Certain asset management and administrative expenses of the Plan are charged against the Plan's investment results.

Recent accounting pronouncements: During May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent).* The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of net assets available for benefits. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. Plan management is currently evaluating the impact this update will have on the Plan's financial statements.

During July 2015, FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*, collectively referred to as the Update. The purpose of this Update is to simplify plan accounting.

- The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.
- The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan,* as a direct filing entity, disclosure of that investment's strategy will no longer be required.
- The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The Update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. Plan management is currently evaluating the impact this Update will have on the Plan's financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 1, 2015, the date the financial statements were available to be issued.

Note 4. Fair Value Measurements

FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
    - Quoted prices for similar assets or liabilities in active markets
    - Quoted prices for identical or similar assets or liabilities in inactive markets
    - Inputs other than quoted prices that are observable for the asset or liability
    - Inputs that are derived principally from or corroborated by observable market data by correlation or other means

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Mutual funds are valued at the net asset values, based on publicly quoted active market prices, of shares held by the Plan at year-end.

Collective trust fund: The collective trust fund is valued at net asset value per share based on the underlying investments comprising the fund, as reported in the fund's audited financial statements.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

The significance of transfers between levels is evaluated based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2014, there were no transfers in or out of Levels 1, 2, or 3.

The following sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

	Assets at Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3	Total

The following presents additional disclosures of the Plan's investments whose fair value is estimated using net asset value per share as a practical expedient, when fair value is not readily determinable, as of December 31, 2014 and 2013.

	Investments as of December 31, 2014 and 2013				
	Fair Value as of December 31, 2014	Fair Value as of December 31, 2013	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Collective trust fund (a)	$ 1,682,511	$ 1,859,303	$ -	Daily	None

(a) The fund seeks to provide investors with a moderate level of stable income without principal volatility. The fund invests in investment contracts and security-backed contracts. An investment contract is a contract issued by a financial institution to provide a stated rate of return to the buyer of the contract for a specified period of time. A security-backed contract has similar characteristics to a traditional investment contract and is comprised of two parts: the first part is a fixed-income security or portfolio of fixed-income securities; the second part is a contract value guarantee (wrapper) provided by a third party. Wrappers provide contract value payments for certain participant-initiated withdrawals and transfers, a floor crediting rate, and return of fully accrued contract value at maturity.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their Company contributions. As disclosed in Note 1, a partial plan termination occurred in 2014 and all affected participants were fully vested.

Note 6. Income Tax Status

Effective January 1, 2011, the Plan has adopted the Newport Retirement Services, Inc. Defined Contribution Volume Submitter Plan and Trust. The Internal Revenue Service (IRS) has issued an opinion letter stating that the Newport Retirement Services, Inc. Defined Contribution Volume Submitter Plan and Trust is acceptable under Section 401 of the IRC. The volume submitter plan has been amended since receiving the opinion letter. However, the Plan Administrator believes the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7. Party-in-Interest Transactions

Newport Retirement Services, Inc. (Newport) provides administrative services, and therefore, these transactions qualify as party-in-interest transactions. Administrative expenses consist of $20,428 for fees paid to Newport during 2014.

Note 8. Risks and Uncertainties

The Plan invests in investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the 2014 statement of net assets available for benefits.
