1 Description of Plan

The following description of the Cleveland Museum of Natural History DC Retirement Plan ("the Plan") provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General:

The Plan, which was originally effective August 1, 1976, was amended and restated effective January 1, 2009. The Plan is a defined contribution plan covering all employees of the Cleveland Museum of Natural History (the "Museum") who meet the eligibility requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility:

All employees of the Museum are eligible to participate upon reaching age twenty-one and completing two years of service.

Contributions:

Employer contributions - The Museum makes a contribution equal to 5% of the participant's compensation.

Rollover contributions from other Plans are also accepted, providing certain specified conditions are met.

Contributions are subject to limitations on annual additions and other limitations imposed by the Internal Revenue Code as defined in the Plan agreement.

Participants' Accounts:

403(b) accounts - Each participant's account is credited with the employer contributions, earnings and losses thereon and distributions from the participant accounts.

Vesting:

All participants are 100% vested in employer contributions and rollover contributions made to the Plan.

Forfeitures:

Forfeited non-vested accounts totaled $5,421 and $5,421 as of December 31, 2014 and 2013 respectively. Future employer contributions will be reduced by these amounts.

1 Description of Plan, Continued

Other Plan Provisions:

Normal retirement age is 65.

Payment of Benefits:

Upon termination of service by reason of termination, retirement, death or total and permanent disability, a participant receives a lump sum amount, partial payment, annuity or installment payment equal to the value of his or her account.

Investment Options:

Upon enrollment in the Plan, a participant may direct any contributions to any of the investment options offered under the Plan.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

Valuation of Investments:

Investments held by the Custodian are stated at fair value as described in Note 4.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Fees:

Substantially all administrative fees are paid by the Museum.

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

2 Summary of Significant Accounting Policies, Continued

Risks and Uncertainties:

The Plan's investment include investments in variable annuities, mutual funds, pooled separate accounts and fully allocated insurance accounts with carrying degrees of risk, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statement of Net Assets Available for Plan Benefits.

Subsequent Events:

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through September 24, 2015, which is the date the financial statements were available to be issued.

3 Tax Status

On March 16, 2010, the Internal Revenue Service stated that the Museum, was qualified as a tax-exempt organization under 501 (c) (3) of the Internal Revenue Code. The Plan has not applied for a determination letter. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the Plan Administrator believes that the Plan is qualified and the related trust was tax-exempt as of the financial date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2014, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions.

4 Fair Value Measurements

As defined in FASB ASC 820, "Fair Value Measurements", fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. In determining fair value, the Plan utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and/or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable firm inputs. The Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the examination of the inputs used in the valuation techniques, the Plan is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

* Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

* Level 2: Inputs to the valuation methodology include:
  * Quoted prices for similar assets or liabilities in active markets;
  * Quoted prices for identical assets or similar assets or liabilities in inactive markets;
  * Inputs other than quoted prices that are observable for the asset or liability;
  * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

* Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Mutual Funds:

The fair value of the mutual funds are based on daily Net Asset Values determined in an active market. These are classified in the Level 1 category of the valuation hierarchy.

Variable Annuities:

The fair value of the variable annuities are based on daily Net Asset Values. These are classified in the Level 2 category of the valuation hierarchy. Participant transactions (purchases and sales) may occur daily.

4 Fair Value Measurements

Pooled Separate Account:

The fair value of the pooled separate account is based on the net fair value of the underlying assets. The underlying investments are valued at fair value based on appraisals of the underlying real estate investments. The fair value is allocated among the contract holders based on a unit value. These fall into the Level 3 category of the valuation hierarchy.

Participant transactions (purchases and sales) may occur daily. Transfers out of the pooled separate account are limited to one per calendar quarter. Although the underlying assets of the pooled separate account cannot be quickly sold and converted to liquid assets, the TIAA General Account provides the pooled separate account with a liquidity guarantee.

Guaranteed Annuity:

The fair value of the guaranteed annuity is backed by TIAA's claims-paying ability, guarantees principal and any additional interest rate additions declared. The fully allocated insurance account is classified in the Level 3 category of the valuation hierarchy.

The following table presents the financial instruments carried at fair value, on a recurring basis, as of December 31, 2014, by valuation hierarchy (as described previously):
