The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Trust Fund

A trust fund has been established by the execution of a trust agreement with a trustee, and is maintained for the purpose of this Plan. The assets of the trust are held, invested and disposed of by the trustee, in accordance with the terms of the trust agreement, for the benefit of the participants and their beneficiaries.

Contributions

Contributions made by participants are based upon a salary deferral agreement. Participants may elect to defer up to 50% of their pre-tax compensation, subject to Plan Committee rules and certain statutory limitations ($17,500 in 2014 and in 2013). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions up to $5,500 in 2014 and in 2013. Participants may elect to defer after-tax contribution (Roth). Participants may also rollover amounts from other qualified defined benefit or deferred contribution plans.

Participant Accounts

Each participant's records are in the form of a Compensation Deferral Contribution Account and Rollover Account. Each participant's account is credited with the participant's contribution and allocations of other Plan additions and deductions. Allocations are based on participants' account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their salary deferral contributions and rollovers, plus earnings thereon.

Note 1. Description of the Plan – continued

Payment of Benefits

Amounts in the participant's account are available for distribution upon retirement, death, disability, termination of employment, termination of the Plan, attainment of age 59-1/2 or hardship.

Plan Operating Expenses

Plan operating expenses are paid by the employer. Loan processing and other participant requested services fees are deducted from the accounts of participants who have requested loans or services.

Plan Termination

Although it has not expressed any intent to do so, the employer has the right to terminate the Plan at any time.

Notes Receivable from Participants

Loans are available to participants on a nondiscriminatory basis. The maximum loan amount is 50% of participant vested account balance or $50,000. Generally, the term of the loan may not exceed five years. Loans bear interest at the rate determined at the date of borrowing and are repaid in level installments through payroll deductions on a semi-monthly basis. Loans to participants as of December 31, 2014 and 2013 bear interest at rates ranging from 4.25% to 7.75%. The loans are secured by the participants' account balances. Loan transactions are treated as transfers between the investment funds and the participant loan fund.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements are described in Note 6.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividends date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions.

Payment of Benefits
Benefits are recorded when paid.

Note 3. Tax Status

The Plan adopted a volume-submitter plan sponsored by Fidelity Management & Research Company. The volume-submitter plan received an opinion letter dated March 31, 2014 from the Internal Revenue Service, stating the volume-submitter plan, as then designed, meets the requirements of the applicable sections of the Internal Revenue Code (IRC). Although the plan has been amended since receiving the opinion letter, the Plan committee and the Plan's legal counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 3. Tax Status – continued

Accounting principles generally accepted in the United States of America require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more-likely-than-not, based on the technical merits, to be sustained upon examination by the relevant tax authority. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 7. Party-in-Interest Transactions

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. Accordingly, loans to participants and transactions with investment funds managed and held by the trustee are considered party-in-interest transactions.

Certain Plan investments are shares of mutual funds issued and managed by Fidelity Investments.

Note 7. Party-in-Interest Transactions – continued

Fidelity Workplace Services LLC is the record keeper of the Plan.

Fidelity Management Trust Company is the trustee of the Plan.

Fidelity Workplace Services LLC and Fidelity Management Trust Company are subsidiaries of Fidelity Investments.

Note 8. Fair Value Measurements

The Plan's investments are stated at fair value in accordance with Accounting Standards Codification ("ASC") 820. ASC 820, *Fair Value Measurements,* which defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 establishes a fair value hierarchy that prioritizes the inputs, which are summarized as follows:

Level 1
Valuation is based upon quoted prices for identical securities in active markets.

Level 2
Valuation is based upon inputs other than quoted prices for similar securities in active markets and quoted prices for identical or similar securities in markets that are not active.

Level 3
Valuation is based upon inputs that are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Money market fund and mutual funds are valued at the net asset value (NAV) of shares held by the plan at year end. There have been no changes in the valuation methodologies used at December 31, 2014 and 2013.

Note 8. Fair Value Measurements – continued

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

	Fair Value December 31, 2014	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
