INDEPENDENT AUDITORS' REPORT

Continental NA Automotive Union Pension Plan (Huntsville):

We were engaged to audit the accompanying financial statements of the Continental NA Automotive Union Pension Plan (Huntsville) (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with generally accepted accounting principles in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with generally accepted auditing standards in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient and appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by State Street Bank and Trust Company and Frank Russell Trust Company (collectively, the "Trustees"), except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that State Street Bank and Trust Company held the Plan's investment assets and executed investment transactions from March 1, 2014 to December 31, 2014, and that Frank Russell Trust Company held the Plan's investment assets and executed investment transactions from January 1, 2013 to February 28, 2014. The plan administrator has obtained certifications from the Trustees as of and for the years ended December 31, 2014 and 2013, that the information provided to the plan administrator by the Trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient and appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule of Reportable Transactions for the year ended December 31, 2014 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

CONTINENTAL NA AUTOMOTIVE UNION PENSION PLAN (HUNTSVILLE)

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2014 AND 2013

1. DESCRIPTION OF PLAN

The following description of the Continental NA Automotive Union Pension Plan (Huntsville) (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a noncontributory defined benefit plan sponsored by Continental Automotive, Inc. (the "Employer"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Master Trust - Prior to March 1, 2014, the assets of the Pension Plan for Hourly-Paid Employees of Continental Automotive, Inc. and Certain Affiliated Companies and the Pension Plan for Salaried Employees of Continental Automotive, Inc. and Certain Affiliated Companies were maintained, for investment purposes only, on a commingled basis in the Continental Tire North America, Inc. Pension Master Trust. Effective March 1, 2014, the Continental Tire North America, Inc. Pension Master Trust's agreement was amended to permit the assets of the Continental NA Pension Plan, the Pension Plan for Hourly Employees of Continental NA Automotive and the Continental NA Automotive Union Pension Plan (Huntsville) to also be maintained, for investment purposes only, on a commingled basis in the Continental Tire North America, Inc. Pension Master Trust and the master trust's name was changed to the Continental Automotive, Inc. Master Trust (the "Master Trust").

Effective March 1, 2014, the assets of the Plan are maintained, for investment purposes only, on a commingled basis with the assets of the Pension Plan for Hourly-Paid Employees of Continental Automotive, Inc. and Certain Affiliated Companies, the Pension Plan for Salaried Employees of Continental Automotive, Inc. and Certain Affiliated Companies, the Continental NA Pension Plan and the Pension Plan for Hourly Employees of Continental NA Automotive (collectively, the "Participating Plans") in the Master Trust. These plans do not own specific assets of the Master Trust, but rather a proportionate beneficial interest or investment percentage. Accordingly, each plan's investment percentage changes regularly, based on daily transactions specific to each plan. Investment income for each fund is allocated to each plan based on the relationship of each plan's beneficial interest in the fund to the total beneficial interest of all plans in the fund.

Pension Benefits - Participants with one or more years of credited service are entitled to monthly pension benefits beginning at the normal retirement age of 65. Participants who lose seniority under the labor agreement prior to age 65 and have 5 or more years of credited service (and are not eligible for early retirement or other plan benefits) or lose seniority after the later of age 65 or the fifth anniversary of their participation in the Plan are vested in a deferred pension service which was earned prior to April 1, 2004 and counted for vesting purposes. The monthly normal retirement benefit, payable for life, is based on a dollar amount that is assigned to the participant's benefit class code (as defined in the plan document) multiplied by the participant's number of years of credited service. Only service credited after March 31, 2004 is counted in calculating the monthly pension amount.

For a deferred pension benefit, the former employee can elect to start his or her benefit at the earlier of age 65 (computed using the normal retirement formula described above using the number of years of credited service as of the date he or she lost seniority), age 60 (computed using the benefit formula described above with a reduction equal to 5/9 of 1% multiplied by the number of months by which the participant is less the age of 65 at the date his/her pension commences), or at the attainment of ages 55 through 60 if the combined age and years of credited service add up to 85 or more (computed using the benefit formula described above multiplied by a percentage specified in the plan document which is based on the participant's age when his or her pension commences, and ranges from between 42.5% at age 55 to 66.7% at age 60).

The Plan provides an early retirement benefit to participants who are: (a) age 60 to 64 with 10 years or more years of credited service, (b) age 55 to 59 with a combined age and years of credited service adding up to 85 or more, or (c) less than age 55 with at least 30 years of credited service. Service accrued prior to April 1, 2004 is counted in determining eligibility for early retirement. Only service credited after March 31, 2004 is counted in computing the monthly pension amount. The early retirement benefit amount is the sum of: (i) a basic pension amount computed as the normal retirement benefit using credited service up to the participant's early retirement date multiplied by an early retirement percentage specified in the plan document (this percentage, which is based on the participant's age when his or her pension commences, ranges from between 21% at age 42 to 100% at age 62 or older). If the participant retires early with 30 or more years of credited service or 85 or more points, (i) the basic pension amount is recalculated after the participant attains age 62 and one month, with no reduction for commencing benefits prior to age 62 and one month), (ii) an early retirement supplement (which is paid to participants with 30 or more years of credited service prior to the attainment of age 62 and one month), and (iii) an interim supplement (which is paid to participants with less than 30 years of credited service and prior to the attainment of age 62 and one month). The early retirement supplement is calculated as the difference between the total monthly benefit amount specified in the plan document, which is based on the benefit commencement date and the basic pension amount computed in (i) above. The interim supplement amount is calculated by multiplying the number of months of credited service times the appropriate interim supplemental rate (specified in the plan document) divided by 12. The early retirement supplement or interim supplement amounts are reduced or eliminated if the participant is entitled to receive Social Security benefits, becomes reemployed by the Employer, or if the total monthly pension payments paid by the Plan would exceed 70% of the participant's final base pay.

Effective February 26, 2011, the Huntsville plant was closed. As a result of the plant closing all benefits in the Plan were frozen effective the closing date. Future benefit obligations will be paid according to the plan document as of the closing date.

Effective January 25, 2012, the Employer executed a settlement agreement with the Pension Benefit Guaranty Corporation ("PBGC") to resolve an alleged liability related to ERISA Section 4063. The agreement requires the Employer to make four annual "excess contributions" to the Plan of \$3,600,877 beginning February 14, 2012 for the 2011 plan year through February 14, 2015 for the 2014 plan year. In addition, the Employer established and maintains a letter of credit in the amount of \$8,700,000 through January 16, 2016 and Continental AG, the Parent company established a guaranty of \$12,500,000 that will remain in effect through December 15, 2015 to cover any required contributions not made by the Employer due to default.

Effective December 19, 2013, the Employer reached an agreement with the PBGC whereby any obligation to make pension plan contributions in excess of those otherwise required by Section 412 of the Internal Revenue Code ("IRC") are suspended. In addition, the Employer was permitted to release its letter of credit in favor of PBGC or any pension plan and Continental AG has been released of its guaranty.

Effective August 1, 2014, the Employer amended the Plan to offer a voluntary pension election window program to provide certain deferred vested participants a one-time opportunity to receive distribution of their vested accrued benefit under the Plan in the form of a single lump sum payment or in the form of an immediate annuity. Benefit payments that resulted from this voluntary early retirement window policy was approximately \$1,947,000.

Death and Disability Benefits - If a participant with five or more years of service dies at age 55 or older, an immediate benefit is payable to the participant's surviving spouse in the form of a 50% joint and survivor annuity. If the participant's death occurs prior to age 55, spousal benefits commence on the first day of the month following the 55th anniversary of the participant's birth date unless the lump sum present value of such benefits is less than \$5,000, in which case the spouse is entitled to an immediate lump sum payment in lieu of future monthly payments.

If an active participant with 10 or more years of service becomes permanently and totally disabled, at any age, unreduced retirement benefits are payable for life or until permanent and total disability ceases. Disability recipients may elect to receive benefits under one of several actuarially equivalent forms of payment.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in accordance with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

Concentration of Credit Risk - As of December 31, 2014, substantially all cash was maintained by a single major financial institution. At times, cash at this financial institution may be in excess of the Federal Depository Insurance Corporation insurance limit.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. See Note 4 for disclosure of fair value measurements.

Effective March 1, 2014 the Plan began participating in the Master Trust to hold the investment assets. Investments, and the income therein, are allocated to the Plan based on the Plan's participation in investment options within the Master Trust. Accordingly, the Plan's investment gain for the year ended December 31, 2014, includes its allocable share of the Master Trust's interest and dividend income and net appreciation in fair value of investments since March 1, 2014.

Prior to participating in the Master Trust, the Plan's purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation in fair value of collective trust funds included the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions - Contributions to provide benefits under the Plan are made solely by the Employer. The contributions of the Employer are designed to be in amounts sufficient to meet the minimum funding requirements of Section 412 of the IRC, as determined by the actuary retained by the plan administrator. No Employer contributions were necessary or made during the year ended December 31, 2014 to satisfy the minimum funding requirements of ERISA. The Employer's contributions for the year ended December 31, 2013 were \$409,015, which exceeded the minimum funding requirements of ERISA.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

Administrative Expenses - The Plan's expenses are paid either by the Plan or by the Employer, as provided in the plan document. Expenses that are paid directly by the Employer are excluded from the accompanying financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are reflected as a reduction of net appreciation in fair value of collective trust funds in the accompanying statements of changes in net assets available for benefits.

Subsequent Events - In preparing the financial statements, the plan administrator has evaluated subsequent events through October 1, 2015, which is the date the financial statements were available to be issued.

3. INVESTMENTS

All investment information disclosed in the accompanying financial statements, including investments held, plan interest in the Continental Automotive, Inc. Master Trust's income, and net appreciation in fair value of collective trust funds, was obtained or derived from information supplied to the plan administrator, and certified as complete and accurate by State Street Bank and Trust Company ("State Street") for the period from March 1, 2014 to December 31, 2014 and Frank Russell Trust Company ("Russell") for the period from January 1, 2013 to February 28, 2014 (collectively, the "Trustees").

The following table presents investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2014 and 2013:

	<u>2014</u>	<u>2013</u>
Plan interest in the Master Trust	\$ 24,213,149	*
Russell Fixed Income I Fund	*	\$ 10,423,945
Russell Enhanced Index US Equity Fund	*	\$ 5,570,265
Russell Equity I Fund	*	\$ 4,174,338
Russell Large Cap Defensive Equity Fund	*	\$ 4,168,333
Russell Small Cap Fund	*	\$ 1,408,406
Russell Alliance International Markets Fund	*	\$ 1,383,379

* Does not represent 5% or more of the Plan's net assets available for benefits for the respective year.

The net appreciation in fair value of collective trust funds reported in the accompanying statements of changes in net assets available for benefits for the year ended December 31, 2014 are entirely attributable to the collective trust funds owned by the Plan prior to participating in the Master Trust.

As of December 31, 2014, the Plan also has interest-bearing cash held outside of the Master Trust by KeyBank National Association ("KeyBank"). The interest-bearing cash balance has been certified as complete and accurate by KeyBank as of and for the year ended December 31, 2014. No interest income was earned by the fund during the year ended December 31, 2014. The Plan did not have interest-bearing cash as of and for the year ended December 31, 2013.

Interest-bearing cash	\$ 195,299

4. FAIR VALUE MEASUREMENTS

Generally accepted accounting principles in the United States of America provide the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under generally accepted accounting principles in the United States of America are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust and the Plan has the ability to access.
Level 2	<p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none"> Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used as of December 31, 2014 and 2013.

Collective trust funds: Valued at the net asset value ("NAV") of units of a bank collective trust. The NAV, as provided by the Trustees, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. There are no unfunded commitments as of December 31, 2014 and 2013.

Interest-bearing cash: Valued as of the ending cash balance plus any accrued interest held by the Plan as of year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan administrator believes the Master Trust's and the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014. The following table does not include the Plan's interest in the Master Trust because that information is presented in a separate table (Note 5).

5. INTEREST IN MASTER TRUST

Effective March 1, 2014, the assets of the Plan are maintained, for investment purposes only, on a commingled basis with the assets of the Participating Plans in the Master Trust. The investment in the Master Trust represents the Plan's proportionate interest in the assets of the Master Trust. The Plan's investment in the Master Trust represented approximately 3% of the total net assets of the Master Trust as of December 31, 2014.

The interest and dividend income from investments and the net realized and unrealized appreciation in fair value of investments in the Master Trust are allocated to the Participating Plans based upon their percentage ownership in the Master Trust.

The following is a summary of the financial information of the Master Trust as of and for the year ended December 31, 2014.

The fair value of assets in the Master Trust, as certified by State Street, as of December 31, 2014 is as follows:

Collective trust funds	\$ 933,367,761
------------------------	----------------

The following table presents investment income for the Master Trust, as certified by Russell for the period from January 1, 2014 to February 28, 2014 and by State Street for the period from March 1, 2014 to December 31, 2014:

Net appreciation in fair value of collective trust funds	\$ 80,262,327
Interest and dividend income	<u>165,206</u>
Total investment income	<u>\$ 80,427,533</u>

For the year ended December 31, 2014, the Plan's share in the Master Trust's investment income was 2%.

6. RISKS AND UNCERTAINTIES

The Master Trust's and the Plan's investments include funds which invest in various types of investment securities and in various companies within various markets. Investment securities are exposed to several risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the accompanying financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the accompanying financial statements.

7. TAX STATUS

The IRS has determined and informed the Employer by a letter dated May 2, 2011, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel, believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Generally accepted accounting principles in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits of any tax period in progress. The plan administrator believes it is no longer subject to income tax examinations for the years prior to 2011.

8. PLAN TERMINATION

Although it has not expressed any intention to do so, the Employer has the right under the Plan, pending approval of applicable requirements under the collective bargaining agreements, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- Benefits attributable to employee contributions, taking into account those paid out before termination.
- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding the Plan's termination.
- Other vested benefits insured by the PBGC (a U.S. government agency) up to the applicable limitations.
- All other vested benefits (that is, vested benefits not insured by the PBGC).
- All nonvested benefits.

Any funds remaining after the satisfaction of all liabilities under the Plan with respect to participants, transferred retirees or their beneficiaries shall be returned to the Employer. In the event of a partial termination of the Plan, the interests in the Plan of all participants affected by such partial termination shall be fully vested and non-forfeitable to the extent funded as of the date of such partial termination.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Employer and the level of benefits guaranteed by the PBGC.

9. TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain investments of the Plan are managed by the Trustees, as defined by the Plan, and therefore, these transactions qualify as exempt party-in-interest transactions. Certain administrative expenses related to the administration of the Plan were paid by the Plan. Certain other third party administrative expenses were paid by the Employer on behalf of the Plan. These transactions qualify as exempt party-in-interest transactions.

10. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the plan are accumulated based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2014. Had the valuation been performed as of December 31, 2013 there would be no material differences.

The significant actuarial assumptions used in the valuations as of December 31, 2013 were:

Discount rate	4.90%
Mortality basis after normal retirement age	2014 PPA separate annuitant/non-annuitant tables
Expected long-term return on assets	4.90%, net of expenses in the amount of \$119,250

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The total actuarial present value of accumulated plan benefits as of December 31, 2013, was as follows:

Vested benefits:	
Inactive participants receiving benefits	\$ 5,050,420
Inactive participants with deferred benefits	<u>24,244,705</u>
Total vested benefits	29,295,125
Nonvested benefits	-
Total actuarial present value of accumulated plan benefits	<u>\$ 29,295,125</u>

The change in the actuarial present value of accumulated plan benefits for the year ended December 31, 2013, was as follows:

Actuarial present value of accumulated plan benefits as of beginning of year:	<u>\$ 32,673,909</u>
Increase (decrease) during the year attributable to:	
Increase for interest due to decrease in discount period	1,253,830
Change in actuarial assumptions	(2,154,481)
Benefits paid	(2,451,965)
Benefits accumulated and gains	<u>(26,168)</u>
Net decrease	<u>(3,378,784)</u>
Actuarial present value of accumulated plan benefits as of end of year:	<u>\$ 29,295,125</u>

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

**Actuarial Methods for Funding
Asset Methods**

The asset valuation method is an average of the adjusted market value for each month during the last 6 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions

Form of benefits	
• Automatic form for unmarried participants	Life annuity
• Automatic form for married participants	65% joint and survivor annuity.
• Optional forms	Joint and survivor annuity (100%, 75%, 65%, 50%)
• Optional form conversion factors	51GAM for males (five-year setback for females) and the applicable interest rate used by the PBGC as of the first day of the plan year preceding the determination date.
Miscellaneous	
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415 in effect when employment terminated and accrued benefits were determined.

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as restated and amended through Amendment #3, dated December 18, 2012, are included in this valuation:

- **Most recent plan amendments included:** Amendment #3, dated December 18, 2012.
- **Plan amendments excluded:** None.
- **Late retirement increases:**
 - *Active participants:* Not applicable
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan Provision Changes Since Prior Valuation

Maximum benefit amounts under IRS rules were updated from 2013 to 2014.

Schedule SB, line 24 — Change in Actuarial Assumptions

The following assumption changes have occurred since the January 1, 2013 valuation.

- The expense component of normal cost increased from \$186,000 to \$198,000 to reflect our expectations for the current plan year.
- The benefit commencement age for deferred vested participants was changed from 65 to 62.
