1. DESCRIPTION OF PLAN

The following description of the United Medical Systems 401(k) Profit Sharing Plan and Trust ("the Plan") is provided for general purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan for the benefit of the employees of United Medical Systems (DE), Inc. ("the Company"). The Plan covers substantially all full time employees of the Company who have attained the age of twenty-one and have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions – Participants may contribute up to 60% of their earnings in any Plan year, as defined. Participants who have attained age 50 by year-end may also make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Plan calls for non-discretionary employer matching contributions in an amount equal to 50% of employee pre-tax contributions, subject to a maximum of 4% of eligible compensation contributed to the Plan. Discretionary profit sharing contributions may be made as determined by the Company. The Company made no discretionary profit sharing contributions in 2014 and 2013. Participants are allowed to make contributions to the Plan during the year up to the amount allowed under the Internal Revenue Code. The Plan also provides that certain limitations may be imposed on participant's contributions in order to comply with statutory requirements.

Participants' accounts – Each participant's account is credited with the participant's contributions, and allocations of employer-matching contributions, and investment earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting and forfeitures – Participants are immediately vested in their contributions and actual earnings thereon. Employer matching contributions and profit sharing contributions vest ratably over the first five years of the participant's employment with the Company. Employment termination prior to being 100% vested results in a forfeiture of the non-vested portion of employer contributions. Forfeitures are used to reduce administrative expenses or future employer contributions. Forfeited nonvested accounts totaled $69,891 and $83,684 at December 31, 2014 and 2013, respectively.

Payment of benefits – Benefits are paid in the form of lump-sum cash distributions, installment distributions over a period of time, or direct rollovers equal to the value of the participant's vested interest in his or her account.

Expenses – The Company pays certain administrative expenses of the Plan, unless the Company directs that the expenses be paid by the Plan. Participant notes receivable set up and maintenance fees are paid directly by the participants through a reduction in their account. Investment management and recordkeeping fees are paid by the Plan through a reduction of investment income (net appreciation or depreciation) from the related investment option.

1. DESCRIPTION OF PLAN (CONTINUED)

Participant notes – Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loan must be repaid through payroll withholding over a period not to exceed five years, except for the purchase of a primary residence, in which case the repayment period is extended to ten years. The loans are secured by the balance in the participant's account and bear interest at a fixed rate as determined by the Plan administrator based on the local prevailing interest rates. The interest rate was 8.5% for 2014 and 2013.

Amendment and termination – Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to amend or terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Recent Accounting Pronouncements – On July 31, 2015, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960) Defined Contribution Pension Plans (Topic 962)*, which is designed to simplify accounting for employee benefit plans. Part I of this update designates contract value as the only required measure for fully-benefit responsive investment contracts. Part II of this update eliminates the requirement to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation for investments by general type. Part III of this update establishes a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year end, when the fiscal period does not correspond with a month end. The ASU is effective for fiscal years beginning after December 15, 2015 with earlier application permitted. The Plan has adopted this update for the year ended December 31, 2014 and has applied the provisions of the ASU retrospectively for Part II. Part I and Part III are not applicable for this plan.

Investment valuation and income recognition – The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participant notes – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon the terms of the plan document.

Payment of benefits – Benefits to participants are recorded when paid.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of estimates – The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and uncertainties – The Plan provides for various investment options. Investment securities, in general, are exposed to various risks, such as interest rate, credit and market risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent events – The Company has evaluated subsequent events through September 29, 2015, the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The investment information included in the accompanying financial statements and supplemental schedule was obtained from data that has been certified as complete and accurate to the plan administrator by Fidelity Management Trust Company, the trustee of the Plan. Incorporation of this financial information in the accompanying financial statements and supplemental schedule is based solely on that certification.

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2: Inputs to the valuation method include: quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3: Inputs to the valuation method are unobservable and significant to the fair value measurement.

4. FAIR VALUE MEASUREMENTS (CONTINUED)

The asset or liability's fair value measurement within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

	Level 1	Level 2	Level 3	Total
Mutual funds:				
Blended funds	$ 1,033,083	$ -	$ -	$ 1,033,083

5. TAX STATUS

On March 31, 2008, the Internal Revenue Service stated that the volume submitter plan document adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself. The Plan has been amended since adopting the volume submitter Plan. However, the plan administrator and the plan's tax counsel believes that the Plan is currently designed and being operated in compliance with the applicable requirements of IRC.
