HAKS 401(K) AND PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

NOTE 1 - DESCRIPTION OF PLAN

The following description of the HAKS 401(k) and Profit Sharing Plan (the "Plan") for the employees of HAKS Engineers, Architects and Land Surveyors, P.C. (the "Company") provides only general information. For a more complete description of the Plan's provisions refer to the document governing the Plan.

General

The Plan is a defined contribution and profit sharing plan. On December 19, 2006 the Plan entered into an Accumulation Contract Fixed Dollar Annuity purchase option with separate account investments with Transamerica Financial Life Insurance Company ("Transamerica"). This Plan has no fixed dollar amount of retirement benefits. The retirement benefit will depend on the amount of employees of the Company and account balances at the time of retirement. Excluded from eligibility are union employees, non-resident alien employees, employees from a stock acquisition or merger or summer interns.

The Plan is subject to the provisions of the Employee Retirement Income Retirement Act of 1974 (ERISA).

Tax Status of the Plan

The Internal Revenue Service has determined and informed the Company by a letter dated May 30, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Services. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions. Any unallocated assets of the Plan would be allocated to participant accounts and distributed in such a manner as the Company may determine.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Company Contributions and Vesting

The Plan provides that the employer may make matching contributions equal to a discretionary percentage, to be determined by the employer, of the employees' salary reductions. If the employees' deferral contributions exceed the 402(g) limitation plus the catch-up limitation, if applicable, in effect for a calendar year, the employer may not make a matching contribution on the basis of that excess amount.

The employer may elect to make a discretionary non-elective (profit sharing) contribution. The amount of this profit sharing contribution may be any amount, including zero.

Eligibility for the employer discretionary non-elective (profit sharing) plan is full-time employees of the Company who are age twenty-one or older and have completed 250 hours within three consecutive months of employment. Eligibility for the profit sharing component is full-time employees of the Company who are age twenty-one or older and have completed one year of service. The participant becomes 100% vested on the Company contributions upon completion of five years of service.

Employee Contributions

Each year participants may contribute up to the maximum allowable amount of pretax annual compensation, as defined in the Plan, the IRC and related regulations. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers fifty one separate account investment choices. Additional profit sharing amounts may be contributed at the option of the Company and are invested in a portfolio of investments as directed by the individual participants. Contributions are subject to certain limitations.

Effective January 1, 2012, eligible employees are automatically enrolled in the Plan with 3% being deducted from the employees' pay and invested in the Vanguard Target Retirement Portfolios. After the first full year in the Plan, the employee contribution level is increased 1% each year to a maximum of 6%. Employees have the option of not participating by accessing their account on-line and completing a change in enrollment form to decrease or increase their contribution rate or to not participate.

Participant Separate Accounts

Each participant's account is credited with the participant's contributions, and Company matching contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $500 and up to a maximum equal to the lesser of $50,000 or 50% of their 100% vested account balance. Participants may not have more than two loans at a time. The loans are secured by the balance in the participant's account and bear interest at prime rate plus 1% which is commensurate with local prevailing rates as determined quarterly by the Plan administrator. The principal loan balance as of December 31, 2014 and 2013 was $717,226 and $741,999, respectively. The interest rate for the years ended December 31, 2014 and 2013 was 4.25%. As of December 31, 2014, there were 119 loans outstanding relating to 76 participants. As of December 31, 2013, there were 142 loans outstanding relating to 83 participants.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, annual installments over a period of not more than the assumed life expectancy of the participant/beneficiary, or various forms of annuities, as provided in the Plan document. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

Forfeited accounts

Amounts that are forfeited due to a participant's termination of employment prior to vesting in the Company contributions made on the participant's behalf are used to reduce the required Company contribution in subsequent periods as well as Plan expenses. The balance in the forfeiture account as of December 31, 2014 and 2013 totaled $31,580 and $17,956, respectively.

Rollover Contributions

Contributions from a qualified retirement plan established by a new participant's previous employer may be "rolled over" into the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets for Benefits presents the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by investment advisors, custodians, and insurance company. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on the investments bought and sold as well as held during the year.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in the net appreciation of fair value of investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest is recorded on the accrual basis. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. No allowance for credit losses has been recorded as of December 31, 2014 and 2013.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Contract with Transamerica

In 2006, the Plan entered into a fully benefit-responsive investment contract with Transamerica. Transamerica maintains the contributions in its general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract.

The investment contract is presented on the face of the Statements of Net Assets Available for Benefits at fair value, with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer. The fair value of the investment contract at December 31, 2014, and 2013 was $3,497,879 and $3,855,903, respectively. Transamerica establishes an effective annual rate of interest. Such interest rates are reviewed on a quarterly basis for resetting. Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974, as amended. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable of occurring. The investment contract does not permit the insurance entity to terminate the agreement prior to the scheduled maturity date. The average yields earned by the investment contract are as follows:

	2014	2013
Based on actual earnings	1.10%	1.20%
Based on interest credited to participants	1.10%	1.20%

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits

Benefits paid to participants are recorded when paid.

Contributions

Contributions from employees are recorded as they are withheld from the participant's wages. Contributions from the Company are recorded in the period in which the related participant contributions are due.

Subsequent Events

The plan has evaluated subsequent events through September 1, 2015, the date the financial statements were available to be issued.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service are recorded as a liability with a corresponding reduction to contributions if excess is not refunded by March 15, 2015 and 2014, respectively. The Plan distributed the 2014 and 2013 excess contributions of $30,029 and $28,123 to the applicable participants prior to March 15, 2015 and 2014, respectively.

NOTE 3 - INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The following information, included in the accompanying financial statements and supplemental schedule was obtained from information supplied to the Plan administrator and certified as complete and accurate by Transamerica Financial Life Insurance Company, the custodian of the Plan.

	2014	2013
Insurance company pooled accounts	$25,455,049	$21,169,443
Net appreciation in fair value	$ 1,323,770	$ 2,928,098

The following table presents investments that represent 5 percent or more of the Plan's net assets that are separately identified:

	Fair Value December 31, 2014	Fair Value December 31, 2013
Transamerica Stable Value Focus	$3,497,879	$3,855,903

NOTE 4 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Insurance Entity Pooled Separate Accounts

Transamerica Financial Life Insurance Company provides varying kinds of investments in separate accounts. The separate account contains several sub-accounts, each of which is invested solely in the shares of a specified portfolio. The participant may select from among the various alternatives and periodically change their selections.

NOTE 4 - FAIR VALUE MEASUREMENTS (CONTINUED)

Those portfolios that invest in mutual funds or domestic equity securities are measured using quoted prices in active markets for identical assets. Those investing in portfolios in fixed maturity securities are measured based on the pricing data provided by outside valuation service providers who in turn generally use the mean of bid and ask prices but may also use alternative observable pricing inputs for certain securities.

The method described above may produce a fair value amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. The Plan evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2014 and 2013, there were no transfers in or out of levels 1, 2, or 3.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

NOTE 5 - ROLLOVERS CONTRIBUTIONS

Participants may also rollover amounts from other qualified plans. An aggregate of $562,875 and $582,238 was rolled into the Plan during the year ended December 31, 2014 and 2013, respectively, and is included in rollovers on the statement of changes in net assets available for benefits.

NOTE 6 - RELATED PARTY TRANSACTIONS

Transamerica Financial Life Insurance Company is the custodian of the Plan and therefore Transamerica and its affiliates are paid through revenue sharing, rather than a direct payment. Transamerica provides administrative and record keeping for the Plan. During the year ended December 31, 2014 the Plan made a direct payment for professional fees to the accountant of $8,500, which was not covered by revenue sharing.

NOTE 7 - RISK AND UNCERTAINTIES

The Plan invests in an annuity accumulation contract of which contains subaccounts for each participant. These investment vehicles are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment choices, it is at least reasonably possible that changes in the values of investment securities will occur in the near term.

NOTE 7 - RISK AND UNCERTAINTIES (CONTINUED)
and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

The investment securities are not FDIC insured and may lose value and are not guaranteed by a bank.
