PARMA COMMUNITY GENERAL HOSPITAL 403(B) PLAN

Notes to Financial Statements

December 31, 2014 and 2013

(1) Description of Plan

The following description of the Parma Community General Hospital 403(b) Plan (the Plan) provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan established on September 1, 2008, to provide retirement benefits and a means of capital accumulation to employees of Parma Community General Hospital (the Hospital, Plan Sponsor). All permissible employees of the Hospital, as defined in accordance with the universal availability standards, are eligible to enroll on their date of hire.

The Plan is administered by the Hospital's Benefits Committee (Committee), which is a committee of members of the Hospital's management. The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Hospital's Board of Trustees.

Effective January 1, 2015, eligible employees of the Plan will become participants of the University Hospitals Health Systems, Inc. 401(k) Retirement Plan. Participant balances remain within the Plan as of December 31, 2014.

(b) Contributions

Each year, participants may contribute any whole percentage of eligible pretax annual compensation, as defined in the Plan. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the Plan. Contributions are subject to certain Internal Revenue Code (IRC) limitations.

(c) Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of Plan earnings. Allocations of plan earnings are based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are immediately vested in their contributions plus actual earnings thereon.

(e) Participant Investment Account Options

The Plan offers participants the services of an independent investment advisor to manage investments based on individual participant risk profiles. Participants may opt out of this service and direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers a variety of mutual funds and an insurance investment contract as investment options for participants.

Notes to Financial Statements

December 31, 2014 and 2013

(f) Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive a lump sum amount or installment payments equal to the value of the participant's vested interest in his or her account.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

(b) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

(c) Investment Valuation and Income Recognition

Investments of the Plan are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See note 6 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The financial statements are prepared on a contract value basis. See note 5 regarding the valuation of the MetLife Growth Plus Account.

(d) Payment of Benefits

Benefits are recorded when paid.

(e) Administrative Expenses

Certain expenses of the Plan are paid by the Plan Sponsor and are not included in the statements of changes in net assets available for benefits. Fees paid by participants to manage their accounts are charged directly to the participant's account and are included in administrative expenses. Other investment related expenses are included in net appreciation of fair value of investments.

Notes to Financial Statements

(3) Investments

The following presents investments that represent 5% or more of the Plan's net assets:

	December 31	
	2014	2013
American Funds EuroPacific Growth Fund	\$ 22,600	22,533
American Funds Growth Fund of America Fund	28,053	23,695

Royce Value Fund Service	17,837	15,852
Vanguard 500 Index Signal Fund	22,371	18,219
MetLife Growth Plus Account	59,396	54,001

During the years ended December 31, 2014 and 2013, the investment gain and net appreciation (depreciation) in the Plan's investments (including investments bought, sold, and held during the year) as certified by the Trustee of the Plan were as follows:

	2014	2013
Interest and dividend income:		
Mutual funds	\$ 8,645	3,956
Unallocated insurance contracts	1,697	1,481
Total interest and dividend income	10,342	5,437
Net (depreciation) appreciation in investments at fair value as determined by quoted market price for mutual funds	(1,535)	19,449
Total investment income	\$ 8,807	24,886

(4) Information Prepared and Certified by the Custodian

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Metropolitan Life Insurance Company (MetLife), the custodian of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments from participants:

- Investments, at fair value
- Net appreciation (depreciation) in fair value of investments
- Interest and dividends
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

PARMA COMMUNITY GENERAL HOSPITAL 403(B) PLAN

Notes to Financial Statements

December 31, 2014 and 2013

(5) Investment Contract with Insurance Company

The Plan has a benefit-responsive guaranteed investment contract with Metropolitan Life Insurance Company (MetLife) through the MetLife Growth Plus program. MetLife maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statements of net assets available for benefits at contract value. Contract value, as reported to the Plan by MetLife, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan believes that the contract value is the same as the fair value and accordingly, no adjustment from fair value to contract value is reflected in the accompanying statements of net assets available for benefits.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is determined at the sole discretion of the issuer, but may not be less than 3%. Such interest rates are reviewed for resetting on a quarterly basis. The quarterly crediting interest rates and average yields were approximately 3% for the years ending December 31, 2014 and 2013.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan document (including complete or partial termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contract does not permit MetLife to terminate the agreement and require the Plan to settle at an amount different than contract value.

(6) Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

PARMA COMMUNITY GENERAL HOSPITAL 403(B) PLAN

Notes to Financial Statements

December 31, 2014 and 2013

- Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Unallocated insurance contract: Unallocated insurance contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see note 5). In determining the reasonableness of the methodology, the Investment Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements

December 31, 2014 and 2013

A summary of changes in Level 3 assets for the year ended December 31, 2014, are as follows:

		Unallocated insurance contracts
Balance at December 31, 2013	\$	54,001
Contributions		3,698
Interest and dividend income		1,697
Balance at December 31, 2014	\$	<u>59,396</u>

(7) Related Party and Party-in-Interest Transactions

Certain Plan investments, including the insurance investment contract, are managed by MetLife. MetLife is the custodian as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of the investments.

The Plan has also engaged a third party to provide investment advisory services to participants. Fees paid by participants to the third party totaling \$67 and \$44 are included in administrative expenses for the years ended December 31, 2014 and 2013, respectively. The plan sponsor pays directly any other fees related to the Plan's operations.

(8) Plan Termination

Although it has not expressed any intent to do so, the Hospital has the right under the Plan to terminate the Plan subject to the provisions of ERISA. Upon termination, participants will remain fully vested in their accounts.

(9) Tax Status

The Plan has been designed to qualify under Section 403(b) of the IRC. The terms of the Plan have been prepared to conform with the sample language provided by the IRS in Revenue Procedure 2007-71. The Plan is required to operate in conformity with the IRC to maintain the tax-exempt status for plan participants under Section 403(b). The Plan Administrator and the Plan's tax counsel believes the Plan is currently being operated in compliance with the applicable provisions of the IRC and, therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Hospital believes the Plan is no longer subject to income tax examinations for years prior to 2011.

Notes to Financial Statements

December 31, 2014 and 2013

(10) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(11) Subsequent Events

The Plan has evaluated events that have occurred subsequent to the year ended December 31, 2014 through September 30, 2015, which is the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.
