Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the financial statements

We were engaged to audit the accompanying financial statements of The Berkline Associates Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013 and the related statements of changes in net assets available for benefits for the years then ended, and the statement of accumulated plan benefits as of December 31, 2013 and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note I, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity as of December 31, 2014 and 2013, and for the years then ended, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements, other than that derived from the certified information described in Note I, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

THE BERKLINE ASSOCIATES PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

A. Description of Plan:

The following description of The Berkline Associates ("Berkline") Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Effective July 2002, NCFII Holdings, Inc., an entity created to oversee the LifeStyle Furnishings International Ltd.'s (the "Company" or "LFI") Plans and a subsidiary of Masco Corporation ("Masco"), became the Plan Sponsor for the Plan.

1. *General.* The Plan is a defined benefit pension plan covering eligible employees at Berkline, a former subsidiary of the Company and prior to that, Masco. The Plan Sponsor is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan is a cash balance plan which, before it was frozen, provided for individual participant retirement accounts that increase with benefit credits based on annual compensation and investment income. These individual accounts are portable so that each vested participant who terminates from the Plan is entitled to remove their balance.

The Plan is administered by Masco's Pension Trust Investment Committee ("Committee"), which is a committee of members of management of Masco. The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

Effective December 31, 2001, in anticipation of the sale of the assets and business of Berkline, all benefit accruals under the Plan were frozen. As a result, there will be no increases in benefits under the Plan, and no new participants will be added to the Plan, from and after December 31, 2001.

2. *Pension Benefits.* Participants with five or more years of credited service at the time the Plan was frozen or who have attained normal retirement age (65) are entitled to vested annual pension benefits beginning at normal retirement age. Generally, employees may elect to receive their pension benefits in the form of a joint and survivor annuity, lifetime annuity, or period certain annuity.

Pursuant to the Plan agreement, participants who left the Company after vesting in the Plan but before becoming eligible for early retirement may elect to receive their benefit payment any time after the earlier of reaching Early Retirement Age or at the end of the fourth calendar year following the participant's severance date. Considering the Plan freeze date, most participants became eligible for this payment effective January 1, 2006. Participants in this situation were notified of their benefit options during the 2006 Plan year by the Company.

THE BERKLINE ASSOCIATES PENSION PLAN

NOTES TO FINANCIAL STATEMENTS, Continued

A. Description of Plan, concluded:

3. *Death and Disability Benefits.* If a vested participant dies before retirement, a pre-retirement survivor annuity is paid to the participant's beneficiary. This survivor annuity is payable on the first day of the calendar month following the participant's death or as soon as practicable thereafter. Disability retirement benefits are subject to offsets as described in the Plan agreement.

4. *Funding Policy.* The contributions of the Company are designed to fund an amount which falls between the minimum contribution requirements and the maximum deductible allowance, as determined annually under the provisions of the Internal Revenue Code ("IRC"). The yield on investments of the Plan serves to reduce future contributions that would otherwise be required to provide for the defined level of benefits under the Plan. The Company's contributions for 2014 and 2013 met or exceeded the minimum funding requirements of ERISA. The Company made contributions of \$690,000 and \$740,000 for the 2014 and 2013 Plan years, respectively. No participant in the Plan is required to make a contribution under the Plan.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

B. Accounting Policies:

The following is a summary of significant accounting policies (in accordance with accounting principles generally accepted in the United States of America) followed in the preparation of these financial statements.

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from these estimates and assumptions.

Risks and Uncertainties

The Plan's invested assets ultimately consist of common and preferred stocks, private equity and hedge funds, corporate debt securities, government and other debt securities, collective trust fund and short-term and other investment securities.

THE BERKLINE ASSOCIATES PENSION PLAN

NOTES TO FINANCIAL STATEMENTS, Continued

B. Accounting Policies, continued:

Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the value of investment securities in the near term could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions and the actuarial present value of accumulated plan benefits are prepared based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition

Investments represent the Plan's pro rata interest in the fair value of the net assets of the Masco Corporation Retirement Master Trust ("Master Trust") as determined by The Northern Trust Company ("Trustee"). The Plan's Committee determines the Plan's valuation policies utilizing information provided by its investment advisor and Trustee. See Note D for a discussion of fair value measurement.

Investment transactions are reflected on a trade-date basis. Realized gains and losses on investments are based on average cost. Interest income is recognized on the accrual basis of accounting. Dividend income is recorded on the ex-dividend date. Income from other securities is recorded as earned on an accrual basis.

The Plan presents in the statements of changes in net assets available for benefits the investment income from its interest in the Master Trust. The investment income is comprised of the net appreciation (depreciation) in the fair value of its investments which consists of the Plan's pro rata interest in the realized gains or losses and the unrealized appreciation (depreciation) of the investments of the Master Trust. Also included are the Plan's pro rata share of the interest and dividend income of the Master Trust. Such pro rata allocations are made monthly based on the Plan's weighted average interest in the fair value of the Master Trust net assets.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

B. Accounting Policies, concluded:

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in investment income, net presented in the accompanying statements of changes in net assets available for benefits.

Recently Issued Accounting Pronouncements

In May 2015 the Financial Accounting Standards Board ("FASB") issued updated guidance related to fair value measurement and the disclosures for investments in certain entities that calculate net asset value ("NAV") per share (or its equivalent). Under the updated guidance, investments for which fair value is measured at NAV per share (or its equivalent) using the practical expedient should not be categorized in the fair value hierarchy disclosure. The updated guidance is effective for the Plan for fiscal years beginning after December 15, 2016 and shall apply retrospectively to all periods presented. The Plan's administrator is currently evaluating the impact the updated guidance will have on the Plan's financial statements.

In July 2015, the FASB issued guidance which simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. The guidance is three-part and relates to (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted. The Plan's administrator is currently evaluating the impact the updated guidance will have on the Plan's financial statements.

With respect to the Master Trust's investments in private equity and hedge funds, the Master Trust had, at December 31, 2014 and 2013, commitments to contribute up to \$22 million and \$31 million, respectively, of additional capital to such funds representing the Master Trust's aggregate capital commitment to such funds less capital contributions made to date. The Master Trust is contractually obligated to make additional capital contributions to certain of its private equity funds upon receipt of a capital call from the private equity fund. The Master Trust has no control over when or if the capital calls will occur. Capital calls are funded in cash and generally result in an increase in the carrying value of the Master Trust's investment in the private equity fund when paid.

Securities Lending:

During 2006, Masco Corporation entered into an agreement with The Northern Trust Company authorizing the Trustee to lend securities held in the Master Trust to third parties. The Trustee must obtain collateral from the borrower in the form of U.S. Government securities, irrevocable bank letters of credit, or cash. The cash collateral is invested in interest bearing accounts with The Northern Trust Company. The total collateral for the securities loaned as of December 31, 2014 and 2013 was \$51,164,504 and \$55,469,813, respectively, of which \$121,225 and \$154,385 was non-cash for the years ended December 31, 2014 and 2013, respectively. Both the collateral and the securities loaned are marked-to-market on a daily basis so that all loaned securities are fully collateralized at all times. The Master Trust has a corresponding liability (equal to the collateral) to repay the collateral upon return of the securities. In the event that the loaned securities are not returned by the borrower, the Trustee will purchase equivalent securities by applying the collateral to the payment of the purchase price and demand from the borrower any remaining amounts due and owing. All recoveries will be credited to the Master Trust when received.

THE BERKLINE ASSOCIATES PENSION PLAN

NOTES TO FINANCIAL STATEMENTS, Continued

C. Investments, concluded:

The fair value of securities loaned by the Master Trust as of December 31, 2014 and 2013 is \$49,564,649 and \$54,132,161, respectively, as shown below by type of securities:

	<u>2014</u>	<u>2013</u>
Common stocks	\$43,457,145	\$46,856,256
Corporate debt securities	4,862,088	6,019,399
U.S. Government debt securities	<u>1,245,416</u>	<u>1,256,506</u>
	<u>\$49,564,649</u>	<u>\$54,132,161</u>

The Master Trust and the Trustee each receive a percentage of the net income derived from securities lending activities based on the type of securities. Income earned by the Master Trust related to securities lending activities during 2014 and 2013 was \$175,891 and \$191,152, respectively, net of bank fees of \$75,211 and \$81,762 for the years ended December 31, 2014 and 2013, respectively.

Although the securities lending activities are collateralized as described above, they involve both market and credit risk. In this context, market risk refers to the possibility that the borrowed securities will not be fully collateralized upon a sudden material change in the fair value of the loaned securities or the collateral. In 2014 and 2013, based on improving market conditions, the Master Trust did not incur any liability related to the securities lending activities.

Security lending in the Master Trust is handled via an electronic platform provided by Equilend, a joint venture of various securities lending agents and security borrowers, in which the Northern Trust Company, the Trustee, has an equity interest. Fees are not charged to the Master Trust for use of the services but are paid by the Trustee.

Since Northern Trust has a financial interest in the successful operation of Equilend, Equilend has obtained a Prohibited Transaction Exemption from the U.S. Department of Labor. The exemption (a) enables Northern Trust to use Equilend's platform for lending the securities of plans and (b) permits Equilend to sell or license ancillary products to Northern Trust or to a plan to which Equilend is a party-in-interest.

D. Fair Value Measurements:

The Plan follows fair value guidance (Accounting Standards Codification ("ASC") 820) that defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. The guidance defines fair value as "the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date." Further, it defines a fair value hierarchy, as follows: Level 1 inputs as quoted prices in active markets for identical assets or liabilities; Level 2 inputs as observable inputs other than Level 1 prices, such as quoted market prices for similar assets or liabilities or other inputs that are observable or can be corroborated by market data; and Level 3 inputs as unobservable inputs that are supported by little or no market activity and that are financial instruments whose value is determined using pricing models or instruments for which the determination of fair value requires significant management judgment or estimation.

The Trust has a target asset allocation of the investment portfolio that was developed with the objective of achieving an expected rate of return and reducing the volatility of asset returns. Our investments seek to minimize the volatility of the value of the Plan assets relative to pension liabilities and ensure Plan assets are sufficient to pay Plan benefits. We use a portfolio mix of equity investments and fixed-income securities to obtain these objectives. Equity securities are invested in individual securities or funds that are expected to mirror broad market returns for equity securities. Over time, these equity investments are expected to earn higher returns with more volatility than fixed-income investments. Risks in these investments are broadly diversified by geography, market capitalization, manager mandate size, investment style and process. To minimize asset volatility relative to liabilities, a portion of Plan assets are allocated to fixed-income investments that are exposed to interest rate risk. Rate increases and decreases generally will result in a corresponding increase or decrease in fixed-income assets, with offsetting increases or decreases in the present value of liabilities. The fixed-income portfolio invests in corporate bonds, bond index funds or U.S. Treasury securities.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Common and Preferred Stocks and Short-Term and Other Investments: Valued at the closing price reported on the active market on which the individual securities are traded, or based on the active market for similar securities. Certain short-term and other investments are valued based on NAV which approximates fair value at December 31, 2014 and 2013, respectively. Such basis is determined by referencing to the respective fund's underlying assets. There are no unfunded commitments or other restrictions associated with these funds.

THE BERKLINE ASSOCIATES PENSION PLAN

NOTES TO FINANCIAL STATEMENTS, Continued

D. Fair Value Measurements, continued:

Private Equity and Hedge Funds: Valued based on an estimated fair value using either a market approach or an income approach, each of which requires a significant degree of judgment. There are no quoted market prices, and sufficient information is not readily available for the Company to utilize a valuation model to determine the fair value for each fund; as such, these funds are valued at NAV. These investments are evaluated, on a non-recurring basis, for potential other-than-temporary impairment when impairment indicators are present, or when an event or change in circumstances has occurred, that may have a significant adverse effect on the fair value of the investment. There is no active trading market for these investments and they are for the most part illiquid. Due to the significant unobservable inputs, the fair value measurements used to estimate fair value are a Level 3 input.

Corporate Debt Securities: Valued based on the active market for similar securities or on estimated fair value. For a portion of Corporate Debt Securities there is no active trading market and they are for the most part illiquid. Due to the significant unobservable inputs for these securities, the fair value measurements used to estimate fair value are a Level 3 input.

Government and Other Debt Securities: Valued based on either the closing price reported on the active market on which the individual securities are traded, the market for similar securities or on estimated fair value. For a portion of Government and Other Debt Securities there is no active trading market and they are for the most part illiquid. Due to the significant unobservable inputs for these securities, the fair value measurements used to estimate fair value are a Level 3 input.

Common Collective Trust Fund and Securities Lending Collateral Pool: Valued based on NAV, which approximates fair value as of December 31, 2014 and 2013, respectively. Such basis is determined by reference to the respective fund's underlying assets, which are primarily marketable equity and fixed income securities. There are no unfunded commitments or other restrictions associated with these funds.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS, Continued

E. Income Tax Status:

The Internal Revenue Service ("IRS") determined and informed the Company by letter dated June 10, 2013 that the Plan and the related trust are designed in accordance with applicable sections of the IRC. The Plan has since been amended; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

F. Related Parties:

Certain Plan investments are investments managed by the Plan's Trustee. Therefore, the purchases and sales qualify as party-in-interest transactions. Additionally, the Master Trust participates in Securities Lending programs of the Trustee.

G. Actuarial Present Value of Accumulated Plan Benefits:

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) beneficiaries of employees who have died. Benefits under the Plan are based on employees' credited years of service. Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial present value of accumulated plan benefits is determined by an actuary from Towers Watson and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

THE BERKLINE ASSOCIATES PENSION PLAN

NOTES TO FINANCIAL STATEMENTS, Concluded

G. Actuarial Present Value of Accumulated Plan Benefits, concluded:

The significant actuarial assumptions used in the valuation as of December 31, 2013 were (a) life expectancy of participants – the Plan changed to the RP-2014 annuitants and non-annuitants blue collar adjusted mortality tables with a generational MP-2014 improvement scale in 2014, (b) retirement age assumptions (the assumed weighted average retirement age was 65 for 2013), and (c) investment return (the assumed rate of return of 7.25 percent in 2013). The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2014. Had the valuations been performed as of December 31, there would be no material differences.

H. Plan Termination:

Although there is no present intent to terminate the Plan, if the Plan were to terminate at some future time, the net assets of the Plan will first be allocated to provide benefits for participants as prescribed by ERISA and its related regulations. All remaining net assets, to the extent unfunded vested benefits exist, will be paid by the Pension Benefit Guaranty Corporation or in accordance with the Plan document, up to applicable limitations. Plan termination priorities are available from the Pension Benefit Guaranty Corporation.

I. Summary of Financial Data Provided by the Trustee:

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by the Trustee as complete and accurate and was not subjected to any auditing procedures performed by the independent auditors.

- a. Plan interest in Master Trust, net, excluding private equity and hedge funds, as shown on the accompanying statements of net assets available for benefits of \$4,925,649 and \$5,050,524 as of December 31, 2014 and 2013, respectively.
- b. Plan interest in Master Trust, Investment income, net, excluding private equity and hedge funds, as shown in the accompanying statements of changes in net assets available for benefits of \$151,231 and \$594,228 for the years ended December 31, 2014 and 2013, respectively.
- c. Total Master Trust net assets, interest, dividends and net appreciation, excluding private equity and hedge funds, as shown in the accompanying Note C.

J. Subsequent Events:

The Plan has evaluated subsequent events through September 30, 2015, the date the Berkline Associates Pension Plan financial statements were available to be issued. No events were identified that required disclosure within the financial statements.

Mortality

For all participants: The prescribed mortality assumption under IRC §430(h)(3)(A) using static tables with separate mortality rates for annuitants and non-annuitants.

Retirement

Participants with deferred benefits are assumed to retire at age 65.

Disability Rates (per 100 employees)

None.

Compensation Increases

Not applicable.

Future Increases in Social Security

Not applicable.

Future Increases in Maximum Benefits and Plan Compensation Limitations

Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC §415. Plan compensation is limited to the maximum presently allowed under IRC §401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.

Representative Termination Rates (per 100 employees) not Due to Disability, Retirement or Mortality

Not applicable.

Form of Payment

Participants for whom it was determined by the prior actuary and the plan administrator that the Individual Balance Account was more valuable are assumed to elect the lump sum option at age 65.

Other Participants are assumed to elect the normal form for a single person.

Plan Name:	The Berkline Associates Pension Plan

SCHEDULE SB ATTACHMENTS

At-Risk Form of Payment

The at-risk assumption for assumed form of payment is the same as the not-at-risk assumptions, since that meets the at-risk requirement.

All participants are assumed to elect the lump sum option (if the Individual Balance Account was more valuable) or the normal form for a single person.

Marriage

80% of males and 70% of females are married. The male spouse is assumed 3 years older than the female spouse.

Employees

It was assumed there will be no new or rehired employees.

Plan Compensation

Not applicable.

Asset Method

Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings 7.25%, with such expected earnings limited as described in IRS Notice 2009-22. The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2013 plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V – Summary of plan provisions

Plan Sponsor

NCFII Holdings Inc. C/O Masco Corporation

Plan

The Berkline Associates Pension Plan (includes these prior plans: The Berkline Corporation Salaried Retirement Plan and the Berkline Corporation Hourly Retirement Plan)

Effective Date and Most Recent Amendment

The plan was originally effective January 1, 1994 (plans merged at this date had earlier respective effective dates). The last amendment reflected herein was effective December 31, 2008.

Plan Year

The twelve-month period ending December 31, 2014.

Coverage and Participation

All employees, except salesmen, are eligible to participate in the Plan. An employee becomes a participant on the first of the month following one Year of Service. Participation was frozen effective December 31, 2001.

Years of Service

One Year of Service is earned for each calendar year in which at least 1,000 hours of service are credited. Participants ceased to accrue Years of Service as of March 26, 2002 with the sale of the Company. All covered locations have been closed and there are no remaining active participants. All participants are either retired or terminated with vested benefits.

Normal Retirement Benefit

Normal Retirement Date: Age 65

Benefit Formula: The Accrued Benefit.

Normal Form of Benefit: Single life annuity, if unmarried, and 50% Joint & Survivor annuity, if married, actuarially equivalent to the single life annuity.

Accrued Benefits

The Accrued Benefit is the monthly benefit equal to the actuarial equivalent of the Individual Balance Account.

Prior Annuity Formula: The Annuity Benefit of a Participant who was a Participant in a Prior Plan shall not be less than the amount determined in accordance with the applicable Prior Plan, calculated as if the Participant had terminated employment on December 31, 1993. The types of benefits under the prior annuity formula are:

Hourly Employees: monthly annuity at Normal Retirement Age based on the appropriate Credited Service multiplied by a dollar benefit level.

Salaried Employees: monthly annuity at Normal Retirement Age based on Final Average Earnings, less a Primary Social Security benefit offset.

No Participants accrued any additional benefits under the Plan after December 31, 2001.

Individual Balance Account (Cash Balance Plan)

An Individual Balance Account (IBA) was established for each Participant, the initial balance of which was the value of the Participant's accrued benefit, as determined under the applicable Prior Plan as of December 31, 1993.

For all plan years beginning after December 31, 2001, no additional Company Credits will be made to the Individual Balance Accounts of Participants.

Interest Credits shall be credited at the end of each calendar year equal to 5% of the beginning of year IBA until the date of distribution. The credits shall be applied to a Participant's IBA as of the last day of the calendar year or, if earlier, as of the last day of the month next preceding the Participant's Annuity Starting Date.

Early Retirement Benefit

Eligibility: Age 55 with 5 or more Years of Service.

Benefit: The greater of the Actuarial Equivalent of the Individual Balance Account, or, if the Participant was a Participant in a Prior Plan, the benefit accrued under the Prior Plan, reduced by respective reduction factors under each Prior Plan.

Early Retirement Reduction Factors: For Hourly employees and the Salaried employees' portion of the benefit which is calculated based on Final Average Earnings, 0.25% for each completed calendar month by which the Annuity Starting Date precedes the Normal Retirement Date. For Salaried participants hired after July 1, 1985, the reduction of the Final Average Earnings portion of the benefit shall be 0.50% for each complete calendar month by which the Annuity Starting Date precedes the Normal Retirement Date.

For the Salaried employees' offset portion of the benefit based on the Primary Social Security Benefit, the factors are:

Age	Reduction Factor
64	.8988
63	.8103
62	.7325
61	.6639
60	.6032
59	.5493
58	.5013
57	.4583
56	.4199
55	.3853

Vested Benefits upon Termination of Service

Vesting: Participants are 100% vested upon completion of 5 Years of Service.

Termination Benefit: In the event a Participant separates from service after earning a vested right to his Accrued Benefit, but before becoming eligible for Early Retirement Benefits, he may elect to receive his vested Accrued Benefit as a deferred retirement benefit, commencing at his Normal or Early Retirement, or, if earlier, a lump sum distribution after a 4-year waiting period.

The Early Retirement reduction factors are the same as those used for the Salaried employees' offset portion of the benefit. If the Participant commences his benefit before age 55, the age 55 benefit shall be further reduced based on the actuarial equivalent basis used for conversion to optional annuity forms.

SCHEDULE SB ATTACHMENTS

Surviving Spouse Benefit

Eligibility: All Participants eligible for a Vested Deferred Benefit who are married at date of death automatically receive coverage.

Benefit: In the event of a Vested Participant's death prior to benefit commencement, the surviving spouse is entitled to a benefit equal to 100% of the Participant's Individual balance Account. In lieu of a lump sum payment, the Spouse may elect to receive the benefit in the form of an annuity. In no event will the annuity be less than the Actuarial Equivalent of the Pre-Retirement Survivor Annuity, which is calculated assuming that the Participant had retired on the day before his death with a 50% Joint and Survivor Annuity. If the Participant dies before age 55, the benefit would be determined as though the Participant survived to retire at age 55, electing a 50% Joint and Survivor Annuity, and died on the day after retirement.

Postponed Retirement Benefit

The benefit amount for Vested Participants who commence after their Normal Retirement Date will be actuarially increased from their Normal Retirement Date. The postponed retirement benefit is the greater of such benefit and the monthly benefit actuarially equivalent to the IBA balance as of retirement.

Optional Forms of Retirement Income in Lieu of Normal Form

Available to all participants:

Single Life Annuity; For participants with an IBA, lump sum payment of accrued benefit commencing at Normal or Early Retirement, or if earlier, a lump sum distribution after a 4-year waiting period; automatic lump sum payment for values under \$1,000.

Available to participants in the Prior Plans:

50%, 75% or 100% Joint & Survivor benefit; 5, 10, and 15 Year Certain and Life Annuity; Level Income Option.

Actuarial Equivalence for determining lump sum equivalent of accrued benefit, or the annuity equal to the IBA, is the PPA lump sum mortality with 3-segment interest rates. Actuarial equivalence for conversion to all other optional annuity forms is the Revenue Ruling 2001-62 Mortality and 6% interest.

Changes in Plan Provisions since Last Actuarial Valuation
