To the Investment Committee  
Durr Heavy Construction, LLC 401(k)  
Retirement Savings Plan  
Harahan, Louisiana

In planning and performing our audit of the financial statements of Durr Heavy Construction, LLC 401(k) Retirement Savings Plan (the "Plan") as of and for the year ended December 31, 2014, in accordance with auditing standards generally accepted in the United States of America, we considered Durr Heavy Construction, LLC 401(k) Retirement Savings Plan's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

We were engaged to perform a DOL limited-scope audit of those financial statements as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Our audit did not include all of the procedures required by auditing standards generally accepted in the United States of America and did not include a consideration of internal control relating to the information summarized in Note 4 to those financial statements. Because of the significance of the information that we did not audit, we were unable to, and did not, express an opinion on those financial statements.

Our consideration of internal control was for the limited purpose described in the preceding paragraphs and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies, and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the Plan's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiencies in Durr Heavy Construction, LLC 401(k) Retirement Savings Plan's internal control to be significant deficiencies:

Eligible Wages – Fringe Pay

It was noted during the course of the audit that employee compensation for certified payroll was inadvertently excluded from participant's eligible wages. Management elected to self-correct and remit 3% of both the employee deferral and Plan Sponsor matching contributions in the amount of \$3,190 inclusive of gains related to the fringe pay compensation for the 2014 plan year. We recommend the Plan Sponsor annually review the definition of plan compensation as documented by the Plan and review the setup of the payroll system to ensure the payroll system is consistent with the Plan document.

Employer Matching Contributions

During our testing of contributions, we noted that two participant's year-to-date match amounts were not correct as the match should have been based on 4% of the participant's eligible compensation. The match was inadvertently capped by the payroll system at the participant's eligible compensation when the participants reached the deferral limit during the plan year. Management has elected to correct the Employer matching contribution and remit 100% of the matching contributions in the amount of \$1,153 inclusive of lost earnings related to the match correction. We recommend that the Plan management implement policies and procedures to ensure the Employer matching contribution calculations are accurate before amounts are remitted to the Plan.

During our audit, we also became aware of deficiencies in internal control other than significant deficiencies and material weaknesses. The following matters are opportunities for strengthening internal controls and operating efficiency:

Eligible Wages – Auto Allowance

During detailed testing of contributions and participant data, we noted that auto allowances were not included in the calculation of eligible compensation. The adoption agreement does not specifically exclude auto allowances, but was amended January 1, 2013 to exclude non-cash compensation as management's intent for exclusion of auto allowances from participant's eligible compensation. We recommend that the adoption agreement be amended to specifically exclude auto allowances as it is not considered a form of non-cash compensation.

We will review the status of these comments during our next audit engagement. We have already discussed many of these comments and suggestions with various Plan personnel, and we will be pleased to discuss them in further detail at your convenience, to perform any additional study of these matters, or to assist you in implementing the recommendations.

Prior year comments and follow up:

*Vesting and Forfeiture Calculations*

During our audit procedures for the 2013 Plan year, we noted a participant had an error in the calculation of their forfeited balance. Based on the participant's years of service prior to termination, the participant was entitled to 100% of the employer match portion of the participant's account. However, only 80% of the employer match portion of the participant's account was distributed to the participant. The plan sponsor corrected the error in August 2014 by distributing the remaining balance in the participant's account along with any interest the participant would have earned during the period.

Distributions and forfeitures were tested during our audit procedures and no errors were noted in the vesting and forfeiture calculations.

*Fidelity Bond*

During the 2013 audit, it was noted that the Third Party Administrator, Lincoln Trust Co., recommended the fidelity bond for the Plan be increased from \$300,000 to a minimum of 10% of the Plan's assets. We suggest that management increase the fidelity bond in accordance with the Lincoln Trust Co.'s recommendations.

It was noted that a fidelity bond was obtained during the year covering \$500,000 and effective as of September 30, 2014.

*Utilization of Forfeiture Account Balance*

Per IRS regulations, plan sponsors are not authorized to hold forfeiture suspense accounts with unallocated monies beyond the plan year in which they arise. We suggest that the plan sponsor use any remaining forfeited funds towards expenditures authorized by the plan document in the following plan year.

Per review of the forfeiture suspense account, we noted that the forfeiture balance at the beginning of the year, and the forfeitures that accumulated during the year were used by the Plan to pay Plan expenses during the 2014 Plan year.

*Minutes*

During the 2013 audit it was noted the Plan Administrative Committee does not document actions taken in committee meetings. Meetings should be documented in written minutes in order to provide verification of the actions and decisions relating to Plan's policies, procedures, intentions, or actions. We recommend that the Plan Sponsor maintain minutes on all meetings held by the Plan Administrative Committee.

We reviewed the investment committee meeting minutes held on November 12, 2014.

**DURR HEAVY CONSTRUCTION, LLC 401(K)**  
**RETIREMENT SAVINGS PLAN**  
NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2014 AND 2013

**Note 1 - Description of Plan and Summary of Accounting Policies -**

Description of Plan

The following description of Durr Heavy Construction, LLC 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a 401(k) defined contribution plan adopted January 1, 1999. It covers all eligible employees of Durr Heavy Construction, LLC and Circle E Contracting, LLC (collectively, the Company) who are at least 21 years of age and have one year of service as defined in the Plan adoption agreement. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute a percentage of their annual compensation, not exceeding the dollar limit set by law. The employer will make a Safe harbor non-elective contribution to the account of each eligible employee in the amount of 3% of the employee's eligible compensation plus 50% of the amount of the employee's deferrals exceeding 3%, not to exceed 5%. At its discretion, the Company may also elect to make discretionary contributions; however, the Company did not make any discretionary contributions in 2014 and 2013.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's matching and discretionary contributions, and an allocated portion of the Plan's earnings. Allocations are based upon participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeited Accounts

Forfeited non-vested accounts are used to reduce future employer contributions and to pay administrative expenses. The balance of forfeited non-vested accounts at December 31, 2014 and 2013 was \$45 and \$1,855, respectively. In 2014, plan expenses were reduced by \$4,459 from forfeited non-vested accounts.

Payment of Benefits

Upon termination of service, a participant whose vested account balance does not exceed \$5,000 valued at the time of the distribution will receive an immediate lump-sum payment. A participant whose vested account exceeds \$5,000 valued at the time of distribution may elect, upon termination of service, to receive a lump-sum distribution or rollover to a qualified plan equal to the value of his or her account.

### Vesting

Participants are immediately vested in their voluntary contributions and the Employer Safe-Harbor matching contributions. Vesting in the Company's discretionary contributions is based on the following vesting schedule.

| <u>Years of<br/>Vesting Service</u> | <u>Percentage<br/>Vested</u> |
|-------------------------------------|------------------------------|
| One                                 | 0%                           |
| Two                                 | 20%                          |
| Three                               | 40%                          |
| Four                                | 60%                          |
| Five                                | 80%                          |
| Six or More                         | 100%                         |

### Basis of Accounting

The financial statements of the Plan are prepared in accordance with the accrual basis of accounting. All assets are participant directed and are valued at current fair value as quoted by the custodians of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net Investment Gain (Loss) includes gains and losses on investments sold during the year as well as appreciation and depreciation of the investments held at the end of the year.

Benefits are recorded when paid.

### Administrative Expenses

All administrative expenses of maintaining the Plan are paid by the Plan and included in the financial statements. Investment related expenses are included in net investment gain from investments.

### Investment Contracts

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required, the Statement of Net Assets Available for Benefits presents fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. As of December 31, 2014 and 2013 the Plan had no fully benefit-responsive investment contracts.

### Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

## Risks and Uncertainties

The plan invests in various mutual funds. These funds are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with these accounts, it is at least reasonably possible that changes in the values of the funds will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

## Subsequent Events

The Plan evaluated subsequent events and transactions through September 24, 2015, which is the date the financial statements were available to be issued.

### **Note 2 - Plan Termination -**

Although they have not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

### **Note 3 - Investments -**

The following investments at December 31, 2014 and 2013 represent 5% or more of the Plan's net assets.

|                                                                                           | 2014       | 2013       |

### **Note 4 - Fair Value Measurements -**

The fair value measurement accounting literature provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three broad levels. Level 1 inputs to the valuation methodology are based on unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access. Level 2 inputs are based primarily on quoted prices for similar assets in active or inactive markets and/or based on inputs that are derived principally from or corroborated by observable market data by correlation or other means. Level 3 inputs are unobservable and are based on assumptions market participants would utilize in pricing the asset.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2014 and 2013:

Mutual Funds - The fair value of the mutual funds is based on quoted net asset values of the shares held by the Plan at year end.

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

#### Note 5 - Tax Status -

The Company has adopted a prototype plan which received a favorable determination from the Internal Revenue Service. The Plan itself has not separately applied for recognition of tax-exempt status. The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and is currently being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. generally accepted accounting principles require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. With few exceptions, the Plan is no longer subject to income tax examinations for years prior to 2011.
