1. DESCRIPTION OF THE PLAN:

The following description of the PNG Telecommunications, Inc. 401(k) Plan (the 'Plan') provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established January 1, 1999 covering eligible employees of PNG Telecommunications, Inc. (the 'Company' or 'Employer'). To be eligible to participate in the Plan, an individual must have completed at least six months of service with the Company and have attained the age of eighteen. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ('ERISA') and the Internal Revenue Code of 1986, as amended (the 'Code').

Contributions

Participants may elect to contribute to the Plan, on a pre-tax basis, 401(k) contributions and catch-up contributions (up to limits set by the Plan and the Code) and Roth contributions on a post-tax basis. Participants are also permitted to deposit into the Plan distributions from other qualified plans. Employees are automatically enrolled in the Plan to contribute 2% unless they elect to opt out or contribute a different percentage.

The Company matches 50% of the first 6% of eligible participant compensation. The match is discretionary. The Company may also make additional discretionary profit sharing contributions. The Company made no discretionary profit sharing contributions for 2014.

Participants direct the investment of their contributions as well as the Company's contributions into various investment options offered by the Plan.

Participant accounts

A participant's account is credited with the contributions made to the Plan on behalf of the participant and adjusted for earnings and losses thereon. Participant accounts may also be charged with an allocation of certain administrative expenses of the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the vested amount that is in such participant's account at any given time.

Vesting

Participants are immediately 100% vested in their 401(k) contributions, catch-up contributions and rollover contributions, as adjusted for earnings and losses thereon. Participants vest in Company contributions in accordance with the terms of the Plan and are fully vested after five years of credited service with the Company.

Notes receivable from participants

A participant may borrow from their account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The term of the loan cannot exceed five years unless the loan is used to acquire a principal residence, in which case the term may be longer. The loans are secured by the balance in the participant's account and bear interest at the prime rate of interest. Principal and interest are paid ratably through payroll deductions.

Payment of benefits

Distributions may generally be made to a participant upon the participant's retirement, death, or termination of employment with the Company. Upon termination, participants whose accounts that do not exceed \$5,000 will be rolled over to Centera Bank if a distribution is not requested. Those with balances greater than \$5,000 may elect to leave their funds in the Plan or choose other options. Participants are entitled to benefits beginning at normal retirement age (65), or at an early retirement date if the participant is age 55 and has 5 years of vested service.

In-service distributions are permissible from the Plan for participants that have obtained the age of 59 1/2. Participants electing in-service distributions may elect to receive all or a portion of their vested benefits in a lump sum payment.

In conditions of "financial hardship", a participant may apply to the plan administrator for approval to withdraw that portion of their elective deferrals necessary to meet the financial hardship, subject to the limitations of the Plan and the Code.

Death benefits

A participant's vested account balance remaining in the Plan will be paid to the participant's beneficiary.

Forfeited accounts

At December 31, 2014 and 2013 forfeited non-vested accounts totaled \$3,552 and \$4,915, respectively. These accounts may first be used to offset future employer contributions and next to pay Plan expenses. In 2014, forfeitures in the amount of \$20,214 were used to reduce employer contributions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**Basis of accounting**

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of estimates

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted

transactions under the terms of the Plan. The Plan invests in investment contracts through a guaranteed interest contract. As required by professional standards, the statements of net assets available for benefits present the fair value of the investment in the guaranteed interest contract as well as the adjustment of the investment in the guaranteed interest contract from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis. At December 31, 2014 and 2013, the fair value approximated the contract value; therefore, no adjustment was necessary.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Expenses for investment management and record keeping services are paid by the Plan and included in administrative expenses. Fees related to the administration of notes receivable from participants and payment of benefits are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent events

The plan has evaluated subsequent events through September 25, 2015, the date the financial statements were available to be issued.

3. INVESTMENTS:

The Plan provides for participant-directed investment programs for investments. Investments of employee contributions and employer contributions can be made into various funds in accordance with each participant's election.

Investments whose fair value represents 5 percent or more of the Plan's net assets available for benefits at December 31, 2014 and 2013 are as follows:

	<u>2014</u>	<u>2013</u>
American Europacific Growth Fund R5	\$ 299,440	275,330
Harbor Capital Appreciation Fund I	448,484	398,316
Ridgeworth Large Cap Value Equity Fund I	476,513	435,695

Vanguard 500 Index Fund Signal	**	687,589
Vanguard 500 Index Fund Admiral	774,595	**
Metropolitan West Total Return Bond Fund I	695,318	592,336
Standard Stable Asset Fund A (at contract value)	256,457	251,055

** Less than 5 percent of net assets or not held at end of year

During the year ending December 31, 2014, the Plan's investments (including gains and losses on investments bought and sold as well as held during the year) appreciated in value by \$138,061.

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below.

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the quoted net asset value (NAV) of shares held by the Plan at year end.

Guaranteed interest contract: The insurance contract is valued at contract value, which represents contributions, plus earnings credited at the guaranteed rate, less participant withdrawals, transfers and administrative expenses. The record keeper has represented that contract value approximates fair value since participant transactions are executed at contract value without adjustment.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements:

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Guaranteed Interest Contract	\$251,055	Discounted Cash Flow Method	Crediting interest rate	1% - 2.53%

5. GUARANTEED INTEREST CONTRACT WITH STANDARD INSURANCE COMPANY:

In 2012 the Plan entered into a fully benefit-responsive guaranteed interest contract with Standard Insurance Company (The Standard). The Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed interest contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed interest contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed interest account. Contract value, as reported to the Plan by The Standard, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1 percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger

with another plan). (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring. The guaranteed interest contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yields earned by the guaranteed interest account are as follows:

<u>Average yields:</u>	<u>2014</u>	<u>2013</u>
Based on actual earnings	2.35%	2.53%
Based on interest rate credited to participants	2.35%	2.53%

6. RELATED PARTY TRANSACTIONS:

Certain Plan investments are managed by The Standard. The Standard is the Plan's record keeper and Reliance Trust is the custodian as defined by the Plan and, therefore these transactions and related earnings qualify as party-in-interest transactions. Fees for investment management services are paid by the Plan. The Company provides certain accounting, recordkeeping and administrative services to the Plan for which it is not compensated.

7. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan. If the Plan is terminated, participants will become 100% vested in their accounts, to the extent they are not already vested.

8. INCOME TAX STATUS:

The sponsor of the prototype plan document for the Plan obtained its latest opinion letter from the Internal Revenue Service (IRS) on March 31, 2014, stating that the Plan and related trust as then designed was in accordance with applicable sections of the Code. The Plan has been amended since receiving the opinion letter. The Plan itself has not received a determination letter from the IRS. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

9. RISK AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. INFORMATION CERTIFIED BY THE CUSTODIAN:

The following information provided by Reliance Trust Company was certified to be complete and accurate with respect to the following:

- (a) The assets held by the Reliance Trust Company at December 31, 2014 and 2013 as well as the transactions involving these assets from January 1, 2014 to December 31, 2014.
- (b) The amount of investment income for the period from January 1, 2014 to December 31, 2014.
- (c) The Schedule of Assets Held at End of Year at December 31, 2014.

11. SUBSEQUENT EVENT:

Effective July 1, 2015, the Plan was amended to reduce the service requirement to become eligible for the Plan. The amendment reduced the service requirement from 6 months to 2 months.
