Evenflo Company, Inc. 401(k) Retirement Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of the Evenflo Company, Inc. 401(k) Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information. The plan was effective July 1, 2000.

General: The Plan is a defined contribution plan covering substantially all hourly employees of Evenflo Company, Inc. (the Company) who have 30 days of service and have attained age 21. Temporary employees must have one year of service or 1,000 hours of service. The Pension Committee of the Company controls and manages the operation and administration of the Plan. Bank of Montreal Harris Bank, N.A. (BMO) serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions: Each year, participants may contribute up to 75% of their pretax annual compensation, as defined in the Plan document, subject to certain Internal Revenue Code (IRC) limitations. Plan provisions include automatic enrollment at 3% and a minimum contribution for current participants of 3%. The Company contributes 50% of the first 6% of base compensation that a participant contributes to the Plan each pay period, not to exceed 3% of the employee base compensation. Additional amounts may be contributed at the discretion of the Company's Pension Committee. No such additional discretionary contributions were made for the year ended December 31, 2014. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Participant accounts: Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Company's matching contribution and Plan earnings and charged with withdrawals and participant forfeitures. Participants direct the investment of their contributions into various investment options. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions, plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on a three year graded vesting schedule. A participant is 100% vested after three years of credited service; however, upon retirement, death, or disability, a participant immediately becomes 100% vested.

Forfeitures: At December 31, 2014 and 2013, forfeited non-vested accounts totaled \$2,305 and \$2,361, respectively. These accounts will be used to reduce future employer contributions. During the year ended December 31, 2014, employer contributions were reduced by \$2,627 from forfeited non-vested accounts.

Payment of benefits: Upon retirement, death, or other interruption of continuous service, a participant may generally elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or in installments. Upon termination, benefits relating to a participant's contributions and vested employer contributions are distributed.

Notes receivable from participants: Participants may borrow from their fund accounts up to a maximum of \$50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates equal to the trustee prime rate determined as of the time the application for the loan is made. The participant loans must be repaid over a period not to exceed five years, unless the purpose of the loan is to acquire, construct, or substantially rehabilitate a dwelling that is to be used as a principal residence for the participant, in which case the loan period may not exceed 15 years. Principal and interest is paid ratably through payroll deductions.

Evenflo Company, Inc. 401(k) Retirement Plan

Notes to Financial Statements

Note 1. Plan Description (Continued)

Administration of Plan assets: Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Contributions: Participant contributions are recognized when withheld. Employer discretionary contributions are recognized concurrently with participant contributions.

Payment of benefits: Benefits are recorded when paid.

Investment contracts: Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in contracts through a common collective trust. The Statement of Net Assets Available for Benefits presents the fair value of the investment in certain common collective investment funds as well as the adjustment of the investment in certain common collective investment funds from fair value to contract value related to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Investment securities, in general are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Reclassifications: Certain reclassifications have been made to the prior year financial statements to conform to current year presentation. These reclassifications had no effect on the previously reported net assets available for benefits.

Notes to Financial Statements

Note 2. Significant Accounting Policies (Continued)

Subsequent events: The Company has evaluated subsequent events for potential recognition and/or disclosure through October 7, 2015, the date the financial statements were available to be issued.

Note 3. Investments and Information Certified by the Plan's Trustee

The Plan's asset information included throughout the Plan's financial statements and supplemental schedule as of December 31, 2014 and 2013 and for the year ended December 31, 2014 was prepared by or derived from information provided by the trustee and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that information provided to the Plan administrator by the trustee related to these assets are complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Notes 4 and 5 and the supplemental schedule related to the Plan's assets.

BMO also certified to the completeness and accuracy of \$351,487 of net appreciation in fair value of investments, \$66,002 of interest and dividends and \$10,841 of interest income from notes receivable from participants for the year ended December 31, 2014.

Note 4. Investments

All Plan investments at December 31, 2014 and 2013 were held by BMO, the trustee of the Plan. The Plan's mutual funds (including funds bought, sold and held during the year) appreciated in value by \$351,487 during 2014.

The fair values of individual investments that represent 5% or more of the Plan's net assets at December 31 are as follows:

	2014	2013
Mutual funds:		
Calamos Growth Fund A	\$ 314,674	\$ 292,554
BMO Balanced Allocation Fund	1,002,933	*
BMO Aggressive Allocation Fund	376,986	*
BMO Diversified Stock Fund	*	385,033
BMO Growth Balanced Fund	*	930,456
BMO Stable Principal Fund**	*	269,873
Federated Mdt Stock Trust SS	306,573	307,184
Mass Investors Growth Stock Fund	788,435	708,749
Vanguard 500 Index Fund - Sign	1,356,178	1,183,510
Collective investment funds:		
BMO Employee Benefit Stable Principal Fund	276,056	656,002

* Fund represents less than 5% of total net assets for the year.

The Plan has a stable value fully benefit responsive investment contract with BMO and Plan contributions are maintained in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value, which is the appropriate determination of value as reported to the Plan by BMO. The average yield earned by the Plan is equal to the average yield earned by the plan adjusted to reflect the actual interest rate credited to plan participants. The interest rate on the Stable Value Principal Fund was 1.84% at December 31, 2014 and 1.81% at December 31, 2013.

Evenflo Company, Inc. 401(k) Retirement Plan

Notes to Financial Statements

Note 5. Fair Value Measurements

The Plan has determined the fair value of certain assets through application of accounting guidance that establishes a framework for measuring fair values. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no material changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued based on quoted market prices of the funds in active markets.

Collective investment funds: Fair value is measured as the NAV per unit based on the fair value of the underlying investments. The collective investment funds provide for daily redemptions by the Plan at reported NAV per share, with no notification requirements.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

The following table sets forth by level and major category, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2014			
	Level 1	Level 2	Level 3	Total
Mutual funds:				
Balanced	\$ 1,002,933	\$ -	\$ -	\$ 1,002,933
Fixed income	147,424			147,424
International	137,505			137,505
Small cap	64,266			64,266

Large cap	2,765,860			2,765,860
Other	376,986			376,986
Collective investment funds	-	276,056		276,056
	<u>\$ 4,707,962</u>	<u>\$ 276,056</u>	<u>\$ -</u>	<u>\$ 4,984,018</u>
	2013			
	Level 1	Level 2	Level 3	Total
Mutual funds:				
Fixed income	\$ 1,462,922	\$ -	\$ -	\$ 1,462,922
International	145,773			145,773
Small cap	49,605			49,605
Mid cap	198,798			198,798
Large cap	2,491,997			2,491,997
Collective investment funds	-	269,873		269,873
	<u>\$ 4,349,095</u>	<u>\$ 269,873</u>	<u>\$ -</u>	<u>\$ 4,618,968</u>

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2014, there were no transfers between funds.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Evenflo Company, Inc. 401(k) Retirement Plan

Notes to Financial Statements

Note 7. Party-in-Interest

Certain Plan investments are shares of collective investment funds and registered investment companies managed by BMO. BMO is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan to BMO amounted to \$3,496 for the year ended December 31, 2014.

Note 8. Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated July 14, 2010, that the Plan and related trust are designed in accordance with the applicable requirements of the Internal Revenue Code. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan's administrator has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2011.

Note 9. Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10. Reconciliation of Differences Between these Financial Statements and the Financial Information Required on Form 5500

The following is a reconciliation of the differences between these financial statements and the financial information shown on Form 5500:

Notes to Financial Statements

Note 11. Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued ASU 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Assets Value per Share (or Its Equivalent)*, (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. It also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. ASU 2015-07 will be effective for the Plan beginning in the first quarter of 2016, with early adoption permitted and will be applied retrospectively. The Plan Administrator is currently evaluating the standard and does not believe it will have a material impact on the Plan's financial statements.

In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-12, Plan Accounting: *Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this Update is to simplify plan accounting.

The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan*, as a direct filing entity, disclosure of that investment's strategy will no longer be required.

The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The Update may be adopted in whole or by part (I, II and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. Plan management is currently evaluating the impact this Update will have on the Plan's financial statements.
