THE HOURLY 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

A. PLAN DESCRIPTION:

The following description of The Hourly 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all hourly employees of Standex International Corporation and participating affiliates (the "Company") who have completed one hour of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Participants may contribute up to 100% of pre-tax or after-tax "Roth" annual compensation, as defined by the Plan, subject to Internal Revenue Code ("IRC") limitations. Participants who do not make a separate deferral election upon meeting the Plan's eligibility requirements will be automatically enrolled to defer 1% of their pretax annual compensation into the Plan. Participants who are at least age 50 may make an additional pre-tax "catch-up" contribution subject to IRC limitations. Participants may also contribute amounts representing rollover distribution amounts from other qualified defined benefit or contribution plans.

At its discretion, the Company may contribute an amount determined by the Company or match the participant contribution for those eligible employees that have met the allocation requirements. The Company may also make discretionary profit sharing contributions. No employer discretionary profit sharing contributions were made during 2014. Except as described below, a participant may receive employer contributions for the plan year only if the participant is employed as an employee of a qualifying division on the last day of the Plan year.

Participants employed at the American Permanent Ware and American Wyott Corporation divisions must complete 90 days of service in order to be eligible for employer matching contributions. Participants in these divisions receive employer contributions equal to 50% of participant deferrals up to 6% of eligible compensation for a maximum match of 3% of compensation.

Participants employed at the Standex Engraving, LLC division must complete 6 months of service to be eligible for employer matching contributions. Participants in this division receive employer contributions equal to 100% of participant deferrals up to 2% of compensation. In addition, these participants receive an additional fixed employer contribution of 3% of plan compensation.

Participants employed at the Baker's Pride Oven Co. division receive employer matching contributions equal to 100% of participant deferrals up to 6% of compensation.

THE HOURLY 401(k) SAVINGS PLAN NOTES TO FINANCIAL STATEMENTS

As a result of the pension plan freeze, participants employed at the Master-Bilt, Barbecue King Industries, Standex Electronics, Custom Hoists, Mullen Testers, Mold-Tech and Standex Engraving Group NA Administration divisions receive a fixed employer contribution of 1% of plan compensation. In addition participants employed at Mold-Tech and Standex Engraving Admin are eligible to receive employer contributions equal to 100% of participant deferrals up to 3% of compensation.

Participants employed at the Nor-Lake, Inc. division receive employer matching contributions equal to 100% of participant deferrals up to 3% of compensation and 50% of participant deferrals up to the next 2% of compensation. Participants are also eligible to receive discretionary profit sharing contributions. In 2014 the Company made a discretionary profit sharing contribution in the amount of 1.5% of compensation.

Participant Accounts

A separate account is established for each participant upon enrollment in the Plan. Each participant's account is credited with the participant's contributions, employer contributions, rollover contributions and an allocation of earnings and expenses of the funds in which the participant's account is invested. Allocations of earnings and expenses are credited ratably among the accounts of all participants based on the number of shares of each fund held in their account. Employer contributions are credited to participants' accounts when funded. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants determine the percentage in which contributions are to be invested in each fund. Participants may change their investment options as set forth in the plan document.

Vesting

The benefit to which a participant is entitled is equal to the value of the participant's vested interest in their account. Except as described below, participants are immediately vested in their voluntary contributions and contributions made by the Company, and earnings thereon. Prior to July 1, 2012 participants vest in their employer discretionary profit sharing contribution accounts according to a six-year graded vesting schedule. After July 1, 2012 participants are immediately vested in their employer discretionary profit sharing contributions. Participants become fully vested immediately upon death, total and permanent disability, or attainment of normal retirement age.

Participants employed by the American Permanent Ware and American Wyott Corporation divisions' employer contributions vest according to a five-year graded vesting schedule. Participants employed by the Standex Engraving, LLC division's employer contributions vest according to a six-year graded vesting schedule. Participants employed by the Baker's Pride Oven Co. division's employer contributions vest according to a three-year cliff vesting schedule. Participants employed by the Nor-Lake division's employer matching contributions are immediately fully vested. Nor-Lake participants' discretionary profit sharing contributions vest according to a six-year graded vesting schedule.

NOTES TO FINANCIAL STATEMENTS

Forfeitures

When certain terminations of participation in the Plan occur, the nonvested portion of a participant's account represents a forfeiture, as defined by the Plan. If a forfeiting participant is re-employed and fulfills certain requirements, as set forth in the Plan, the participant's account will be restored. Remaining forfeitures are used to pay administrative expenses or to reduce profit sharing contributions. During 2014, \$1,021 of forfeitures were used to pay administrative expenses. Total unapplied forfeitures were \$30,069 and \$17,415 at December 31, 2014 and 2013, respectively.

Payment of Benefits

Plan benefits may be distributed to participants following retirement or termination of employment with the Company. Participants may also request a withdrawal of all or any portion of their rollover contributions at any time. Distributions under the Plan may be made in lump sums.

A participant may also request a withdrawal, subject to limitations, upon attainment of age 59 1/2 or upon demonstration by the participant to the plan administrator that the participant is suffering from "hardship". Hardship is defined in applicable regulations promulgated or to be promulgated pursuant to Section 401(k) of the Internal Revenue Code or standards established by the Secretary of the Treasury or his delegate.

Former participants of the Standex Engraving, LLC Money Purchase Plan and Trust's employer money purchase contribution accounts will be distributed in the form of an annuity unless otherwise elected. These account balances are not eligible for any in-service withdrawals.

Notes Receivable from Participants

Participants may borrow from their 401(k) account balances from a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their account balances. Loan transactions are treated as transfers between the investment funds and the loan fund. Loan terms range from six months to five years. The loans are secured by the balance in the participant's account and bear interest based on the prime rate plus 1% at the time the loan is made. Principal and interest are paid through participant payroll deductions. Loans are not available from the employer money purchase contribution account of those participants formerly of the Standex Engraving, LLC Money Purchase Plan and Trust. Participant loans are valued at the unpaid principal balance plus any accrued but unpaid interest and categorized as notes receivable from participants on the statements of net assets available for plan benefits. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

B. SUMMARY OF ACCOUNTING POLICIES:

Basis of Accounting

The financial statements of the Plan have been prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for plan benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for plan benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for plan benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options in mutual funds and a common collective trust that invest in any combination of stocks, bonds, fixed income securities and other investment securities. These investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk and uncertainty associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits and the statement of changes in net assets available for benefits.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Substantially all administrative expenses of the Plan are paid by the Company.

During the year ended December 31, 2014 the Plan's mutual funds (including investments bought, sold and held during the year) appreciated in value by \$269,389.

D. FAIR VALUE MEASUREMENTS:

Accounting standards establish a framework for measuring fair value. That framework sets forth a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below.

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; or other inputs that are observable or can be corroborated by observable market data for substantially the full terms of the assets or liabilities.

THE HOURLY 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

Level 3 - Inputs to the valuation methodology are unobservable and supported by little or no market activity and are significant to the fair value of the assets or liabilities.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used by the Plan. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds – Valued at the net asset value of the shares held by the Plan at year end as determined by quoted market prices.

Common collective trust – Valued at the net asset value of units of a collective trust. The net asset value, as provided by the fund manager, is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level and by investment class, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

Description	2014

The common collective trust held by the Plan is a stable value investment which has an objective to preserve capital and to provide a competitive level of income over time that is consistent with the preservation of capital. To achieve this objective the fund invests in fixed-income securities, bond funds and money market funds. Twelve months notice is required for a complete liquidation, however the trustee, at their discretion, may waive the twelve month waiting period. Participant directed redemptions are allowed daily with no restrictions. There are no unfunded commitments.

E. TAX STATUS:

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated May 22, 2015, that the Plan and related trust is designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable provisions of the IRC.

Accounting standards require recording uncertain income tax positions that exist in the Plan's financial statements. Plan management has determined there are no uncertain tax positions and believes there is no adjustment or disclosure required in the Plan's financial statements. The Plan did not recognize any interest and penalty expense for the year ended December 31, 2014. The Form 5500 remains subject to examination by the IRS for the years ended December 31, 2011 through December 31, 2014.

F. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

G. COMPLIANCE AND ERISA:

The plan administrator has elected the method of compliance permitted under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, no auditing procedures with respect to the information certified by Fidelity Management Trust Company, the trustee, were performed by the independent auditors except for comparing the information to the financial statements and supplemental schedule. The trustee has certified as to the completeness and accuracy of the investments (including notes receivable from participants) held by the Plan as of December 31, 2014 and 2013, the plan investment earnings and other investment related transactions of the Plan for the year ended December 31, 2014, and the information contained in the supplemental schedule relating to the Plan.

H. PARTIES-IN-INTEREST:

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan or an employer whose employees are covered by the Plan. Accordingly, loans to participants and transactions with investment funds managed and held by the trustee are considered party-in-interest transactions.

I. SUBSEQUENT EVENTS:

The Company has evaluated subsequent events through September 21, 2015, the date these financial statements were available for issuance.

September 21, 2015

To Ross McGovern and management of The Hourly 401(k) Savings Plan:

We have conducted a DOL limited-scope audit of the financial statements of The Hourly 401(k) Savings Plan for the year ended December 31, 2014 and have issued our report thereon dated September 21, 2015. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note G to those financial statements. Because of the significance of the information that we did not audit, we are unable to, and have not, expressed an opinion on those financial statements and supplemental schedule taken as a whole. We did, however, audit the form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, in accordance with auditing standards generally accepted in the United States of America and found them to be presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated October 27, 2014. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by The Hourly 401(k) Savings Plan are described in Note B to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year. We noted no transactions entered into by the plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. There were no sensitive accounting estimates used in the Plan's financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements.

In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated September 21, 2015.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

US GAAS requires that the auditor must evaluate any control deficiencies identified during an audit and report any deficiencies to the those charged with governance and the Plan's management that are believed to be material control weaknesses or significant control deficiencies. A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis.

We encountered no material control weaknesses.

This information is intended solely for the use of Ross McGovern and management of The Hourly 401(k) Savings Plan and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,
