WASH Multifamily Laundry Systems, LLC 401(k) Plan
Notes to Financial Statements
December 31, 2014 and 2013

(1) DESCRIPTION OF THE PLAN

The following description of the WASH Multifamily Laundry Systems, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering employees who are age 18 or older and not specifically excluded from participation. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). WASH Multifamily Laundry Systems, LLC (the Company), formerly known as Web Service Company, LLC, participates by contributing amounts based on employees' elective salary reductions in addition to a discretionary amount determined annually.

Plan Administration: The Company is the Plan Administrator. Massachusetts Mutual Life Insurance Company is the recordkeeper. State Street Bank and Trust Company is the trustee and the custodian of the Plan.

Participant Accounts: Each participant's account is credited with the participant's salary reduction contribution and allocations of the Company's contribution and Plan earnings, and charged with any withdrawals or distributions requested by the participant, and allocation of administrative expenses, if applicable. Allocations are based on account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant Contributions: Participants may contribute, subject to certain limitations under the Internal Revenue Code (IRC), up to 50 percent of pretax annual compensation, as defined by the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions, as defined by the Plan. The Plan includes an automatic deferral provision that all eligible employees are automatically enrolled at a deferral rate of 3 percent. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Company Contributions: The Plan provides for safe harbor matching contributions, in accordance with the safe-harbor provisions of the IRC, in which the Company matches 100 percent of the participant contributions of the first 3 percent of their salary, plus 50 percent of their salary in excess of 3 percent, not to exceed 5 percent of their salary, as defined by the Plan. The Company made safe harbor matching contributions of $989,494 for the year ended December 31, 2014. The Plan also provides for a discretionary Company profit sharing contribution not to exceed the limits of the IRC. Participants must be employed on the last day of the Plan year to be eligible for the discretionary profit sharing contribution. For the year ended December 31, 2014, the Company made a discretionary profit sharing contribution of $89,401.

Investment Options: Participants may direct contributions among investment options consisting of various mutual funds and a guaranteed investment contract. Contributions may be split between all funds.

(1) DESCRIPTION OF THE PLAN (Continued)

Vesting: Participants are at all times 100 percent vested in their contributions and safe harbor matching contributions plus actual earnings thereon. Vesting in the discretionary profit sharing contribution portion of their accounts is based on years of service. A participant is 20 percent vested after completion of 2 years of service, and an additional 20 percent each year thereafter until 100 percent vested upon 6 years of service. Upon a participant's death, permanent disability or attainment of normal retirement age, as defined, the full amount of the Company contributions becomes 100 percent vested.

Notes Receivable from Participants: Participants may borrow from their accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested interest, whichever is less. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest determined when the loan is made. Loans must be paid within five years by equal payments through payroll deductions unless it is for the purchase of participants' principal residence in which case a longer term may be permitted.

Payment of Benefits: Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of his or her account, or installment distribution. The participants may also choose to roll the benefits to other qualified plans or leave the benefits in the Plan. For termination of service due to other reasons, a participant may receive the value of the vested interest in their account as a lump-sum distribution.

Hardship Withdrawal: Participants may withdraw their pretax contributions from their elective deferrals only to satisfy any of the following immediate and serious financial needs: (1) medical expenses; (2) purchase of principal residence; (3) to prevent eviction from, or foreclosure on, principal residence; (4) to pay for post-secondary education expenses; (5) funeral or burial expenses; or (6) repair damage on principal residence. Participants must first exhaust all other assets reasonably available prior to obtaining hardship withdrawal. The amount is subject to a non-periodic income tax withholding, as required by IRS tax regulations.

Forfeited Accounts: At December 31, 2014 and 2013, forfeited non-vested accounts totaled $2,679 and $7,925, respectively. During 2014, forfeited non-vested accounts of $9,761 were used to pay administrative expenses.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis for fully benefit-responsive investment contracts.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivables from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits: Benefit payments are recorded when paid.

Administrative Expenses: Administrative expenses incurred by the Plan are paid by Plan, unless offset by forfeitures or paid by the Company.

Subsequent Events: The Plan has evaluated subsequent events through October 5, 2015, the date the financial statements were available to be issued.

For the year ended December 31, 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) increased in value by $187,077.

(4) FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Accounting Standards Codification 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels. The hierarchy gives the highest priority to level 1 measurements and the lowest priority to level 3 measurements.

The three levels of the fair value measurements are described as follows:

Level 1 – Quoted market prices are available in active market for identical assets or liabilities as of the reporting date.

Level 2 – Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value is determined through the use of models or other valuation methodologies. A significant adjustment to a Level 2 input could result in the Level 2 measurement becoming a Level 3 measurement.

Level 3 – Pricing inputs are unobservable and shall be used to measure fair value to the extent that observable inputs are not available. The inputs into the determination of fair value are based upon the best information available and require significant management judgment or estimation.

(4) FAIR VALUE MEASUREMENTS (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered Investment Company Shares – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Insurance Company General Account Contracts – Valued at fair value by the insurance company by recording the liquidation value based on a pro rata share of market value of the underlying investments in the separate account. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. The liquidation value is considered unobservable as it is based on the contract's interest in the underlying separate accounts that backs the Fixed Interest Fund, which is based on the unitized value of the separate account rather than publicly traded securities. In determining the reasonableness of the methodology, the Investment Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. The Investment Committee reviews the liquidation values of the underlying securities of the existing contracts and assesses the reasonableness of the values of the guaranteed annuity contracts owned by the plan. Material discrepancies as a result of the management's review are further investigated.

Total	$ 46,929,561	$ 33,897,873	$ -	$ 13,031,688

The following table sets forth a summary of changes in the fair value of the Plan's level 3 in 2013 and level 2 in 2014, assets for the year ended December 31, 2014:

Beginning balance - January 1	$ 13,031,688
Unrealized gain	345,340
Interest income reinvested	421,835
Purchases	453,314

The amount of total gain for the period attributable to the change in unrealized gain relating to assets still held at the reporting date	$ 345,340

During 2014, insurance company general account contracts was changed from level 3 to level 2 since the market value is observable now.

(5) GUARANTEED INVESTMENT CONTRACT

The guaranteed investment contract is a market value separate account investment option with a general investment account guarantee that provides a stated rate of return and insulates participants' accounts from daily fluctuations in the market. Under the terms of the guaranteed investment contract, participants may direct permitted withdrawal and / or transfer transactions of all or a portion of their balance in this investment option at contract value.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the plan by Massachusetts Mutual Life Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events may limit the ability of the Plan to transact at contract value. Such events include but may not be limited to the following: (1) complete or partial termination of the Plan, (2) the establishment or activation of, or material change in, any Plan investment fund, or an amendment to the Plan or a change in the administration or operation of the Plan, including the removal of a group of employees from Plan coverage as a result of the sale or liquidation of a subsidiary or division or as a result of group layoffs or early retirement programs. The Plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

	2014	2013
Average yields:		
Based on actual earnings	3.15%	3.41%
Based on interest rate credited to participants	3.15%	3.41%

(6) INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE AND CUSTODIAN

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by the custodian and trustee and was not subjected to any auditing procedures performed by the independent public accountants:

a. Investments as indicated on the statements of net assets available for benefits as of December 31, 2014 and 2013, and Note 3;

b. Interests, dividends and net appreciation in fair value of investments as indicated on the statement of changes in net assets available for benefits for the year ended December 31, 2014, and Note 3;

c. Supplemental schedule of assets (held at end of year) as of December 31, 2014.

(7) RELATED-PARTY AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds and guaranteed investment contracts managed by Massachusetts Mutual Life Insurance Company. Massachusetts Mutual Life Insurance Company is the trustee, custodian and the recordkeeper as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. The Company and the Plan participants share in Plan expenses. Certain Plan expenses, as defined in the Plan, are deducted from participants' accounts or investment income. The remaining Plan expenses are paid by the Company. The expenses paid using the Plan's assets are generally allocated among the accounts of all participants in the plan. These expenses are allocated either proportionally based on the value of the account balances or as an equal dollar amount based on the number of participants in the Plan. The method of allocating the expenses depends on the nature of the expense itself.

(8) PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

(9) TAX STATUS OF THE PLAN

On May 11, 2009, the IRS stated that the prototype adopted by the Plan, as then designed, qualifies under IRC Section 401(a). The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator and the Plan's tax counsel believe that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. No uncertain positions have been identified that would require the recognition of a tax liability (or asset) or disclosure in the financial statements as of December 31, 2014 and 2013. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

(10) RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

(11) RECONCILIATION TO FORM 5500

The following is a reconciliation of net assets available for plan benefits per financial statements at December 31, 2014 and 2013, to Form 5500.

(12) PROHIBITED TRANSACTIONS

During the year ended December 31, 2013, the Plan had delinquent submission of certain employees' deferrals totaling $11,497 according to the transmission time prescribed by ERISA Section 2510.3-102. As a result, the Plan was owed an estimated total of $26 in lost earnings on delinquent employee contributions and loan payment remittances. In 2014, the Company made contributions in the amount of $26 to the affected participants' accounts.
