Report on the Financial Statements

We have audited the accompanying financial statements of the Remington Products Company Employee Stock Ownership Plan and Trust (the Plan), which comprise the statement of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Remington Products Company Employee Stock Ownership Plan and Trust as of December 31, 2014 and 2013, and the changes in its net assets available for benefits for the year ended December 31, 2014, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our 2014 audit was conducted for the purpose of forming an opinion on the basic financial statements as a whole. The supplemental schedule of assets held at end of year is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosures under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the Remington Products Company Employee Stock Ownership Plan and Trust (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

Remington Products Company (the Company) established the Plan effective as of January 1, 2008. The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (Code), as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by a trustee (the Trustee) appointed by the Company's Board of Directors.

The Plan purchased Remington Products Company common stock (Company Stock) from the Company in exchange for notes payable (Note 9) and holds the Company Stock in a trust established under the Plan. The borrowings are to be repaid over the term of the loans by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal and interest, an appropriate percentage of Company Stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The borrowings are collateralized by the unallocated shares of Company Stock. The Company has no rights against the shares once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2014 and 2013, and for the year ended December 31, 2014, present separately the assets and liabilities and changes therein pertaining to:

- a) the accounts of participants with vested rights in allocated Company Stock (Allocated), and
- b) Company Stock not yet allocated to eligible participants (Unallocated).

Eligibility

The Plan covers substantially all employees of the Company who are at least age 18 and have attained one year of service, providing they worked at least 1,000 hours during such Plan year. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year, are generally not eligible for an allocation of Company contributions for such year.

Employer Contributions

The Plan is funded solely by the Company's discretionary contributions to the Plan as determined by the Company's Board of Directors. Contributions authorized by the Board of Directors for the year ended December 31, 2014, were \$1,995,000. All Company contributions were subject to the limitations imposed under Code Section 404(a)(3).

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN (Continued)

Employer Contributions (continued)

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its notes payable.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company Stock into investments which are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited with an allocation of the Company's discretionary contribution which includes the value of the shares of the Company Stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Allocations of the Company's contributions are given only to eligible participants employed at the end of the Plan year. Contributions are based on participants' eligible compensation, as defined, relative to total eligible compensation, as defined, and subject to applicable limitations for the Plan year. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance to the total. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific transactions, as defined. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's vested account, as defined.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest based on years of continuous service; being fully vested after three years of credited service. A participant will be fully vested in their full account balance if employment ends due to retirement, permanent disability, or death.

Forfeitures

Non-vested shares of terminated participants are redistributed to eligible participant accounts based on the ratio that each eligible participant's compensation bears to the total compensation paid to all eligible participants for the Plan year.

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN (Continued)

Forfeitures (continued)

During the year ended December 31, 2014, approximately 70 shares of Company Stock and \$473 of cash were forfeited and redistributed to the eligible participant accounts. There was no balance in the unallocated forfeiture account at December 31, 2014 and 2013.

Payment of Benefits

Participants terminated for reasons other than death, disability, or retirement may receive their vested benefits upon their normal retirement date. If the participant's account balance is less than \$1,000, the Plan may make an automatic lump-sum distribution to the participant equal to the participant's vested interest in his or her account. If the participant's account balance is between \$1,000 and \$5,000, the Plan may make an automatic rollover of the participant's vested interest in his or her account to a qualified individual retirement account, if the participant does not make an election. For balances between \$5,000 and \$10,000, the plan administrator may make a lump-sum distribution to the participant of the participant's vested account balance in the form of Company Stock or cash or both. For balances in excess of \$10,000, distribution of the balance is made in equal annual payments of cash over five years. If terminated participants do not request distribution of their vested balance after a period of inactivity, the Company's Board of Directors may elect to convert the Company Stock held in the account to cash and transfer it to an investment account to be invested at the participant's direction. Effective January 1, 2014, participants with a converted investment account may receive a lump-sum distribution in the Plan year following the conversion of their account. If the investment account has a balance less than \$1,000, the Plan can make an involuntary cash out of the balance.

Put Option

Under federal income tax regulations, Company Stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current value of the Company Stock. The put option permits the participant to sell Company Stock to the Company at any time during two option periods at the then fair market value as of the last valuation date, as specified in the Plan document. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Voting Rights

The Trustee votes on behalf of the Plan and is required to vote on behalf of the collective best interest of Plan participants and beneficiaries. Plan participants may vote directly on issues related to the merger, sale or liquidation of the Company.

NOTES TO THE FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Adoption of ASU 2015-12

The Plan has elected to early adopt Financial Accounting Standards Board ASU 2015-12 for 2014. As such, the Plan has eliminated certain disclosures related to investments. The statement of net assets available for benefits and certain related disclosures at December 31, 2013, have been retroactively adjusted to conform to the new standard.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Use of Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amount of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

The current method of valuation of investments in Company Stock considers certain assumptions including the Company's current and historical operating performance. These factors are subject to change over time and are reviewed periodically. Further, because of the inherent uncertainty of valuation, those estimated fair values may differ significantly from the values that would have been used had a ready market for the Company Stock existed, and the differences could be material.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Trustee determines the Plan's valuation policies utilizing information provided by its investment advisors and appraiser. See Note 5 for discussion of fair value measurements.

Dividend income is recorded on the ex-dividend date.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits paid from converted investment accounts are recorded on the effective date of the distribution. All other benefits are recorded when paid.

NOTES TO THE FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Plan Expenses

All Plan administrative costs are paid by either the Plan or the Company as provided by the Plan agreement. Expenses that are paid by the Company are excluded from these financial statements. Certain investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Income Taxes

The Plan recognizes and discloses uncertain tax positions in accordance with GAAP. As of December 31, 2014 and 2013 and for the year ended December 31, 2014, the Plan did not have a liability for unrecognized tax benefits. The Plan is no longer subject to examination by federal and state taxing authorities prior to 2011.

Subsequent Events

Plan management has evaluated subsequent events through October 6, 2015, the date the financial statements were available to be issued.

3. INVESTMENTS

The fair value of the Company Stock is determined annually as of December 31 by an independent third-party appraiser. The stock held as a Plan asset is valued using the most recent valuation approved by the Company's Board of Directors. As of December 31, 2014 and 2013, the Plan owned approximately 97% and 100%, respectively, of the outstanding stock of Remington Products Company.

Investment in Company Stock was as follows:

	<u>December 31, 2014</u>	
	<u>Allocated</u>	<u>Unallocated</u>
51,078 and 79,473 shares, respectively, at estimated fair value	<u>\$14,506,034</u>	<u>\$ 22,570,495</u>
	<u>December 31, 2013</u>	
	<u>Allocated</u>	<u>Unallocated</u>
47,709 and 86,715 shares, respectively, at estimated fair value	<u>\$10,925,404</u>	<u>\$ 19,857,783</u>

4. ADMINISTRATION OF PLAN ASSETS

The Plan's assets are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, who invests cash received, including interest and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the notes payable.

NOTES TO THE FINANCIAL STATEMENTS

4. ADMINISTRATION OF PLAN ASSETS (Continued)

Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

5. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access
- Level 2 Other significant observable inputs including: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means
- Level 3 Inputs are significant and unobservable (including the Plan's own assumptions used to determine value)

The assets' fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies utilized at December 31, 2014 and 2013.

Sponsor company common stock: Valued at fair value based upon an annual independent appraisal. This appraisal was based on a combination of the market and income valuation methods consistent with prior years. The appraiser took into account historical and projected cash flows and net income, market comparables, and estimated fair value of Company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

Plan management accumulates the data for the appraiser from the reviewed financial statements of the Company. The appraiser prepares a preliminary report which Plan management, along with the Trustee and the Board of Directors, reviews in detail, discusses and approves.

Mutual funds and money market funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds and money market funds held by the Plan are deemed to be actively traded.

NOTES TO THE FINANCIAL STATEMENTS

5. FAIR VALUE MEASUREMENTS (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets measured at fair value by level, within the fair value hierarchy, are comprised of the following at December 31, 2014:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
<u>Description</u>			
Mutual funds	\$ 1,372,083		
Money market funds	272,734		
Company Stock			\$ 37,076,529
	<u>\$ 1,644,817</u>	<u>\$</u>	<u>\$ 37,076,529</u>

Assets measured at fair value by level, within the fair value hierarchy, are comprised of the following at December 31, 2013:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
<u>Description</u>			
Mutual funds	\$ 536,513		
Money market funds	52,776		
Company Stock			\$ 30,783,187
	<u>\$ 589,289</u>	<u>\$</u>	<u>\$ 30,783,187</u>

Following is a reconciliation of activity for 2014, for the fair value of the Plan's level 3 assets for the year ended December 31, 2014:

Balance - Beginning of year	\$ 30,783,187
Unrealized gains	6,866,808
Realized gain	526,534
Shares used to repay loan	<u>(1,100,000)</u>
Balance - End of year	<u>\$ 37,076,529</u>

There were no transfers between levels in 2014.

6. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated October 22, 2013, that the Plan is qualified under Section 401(a) of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

NOTES TO THE FINANCIAL STATEMENTS

7. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of Remington Products Company common stock, which is the Plan sponsor. Notes payable are owed to the Company. These are related party and party-in-interest transactions.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts. Upon such termination of the Plan, each participant's account will be distributed at such time as described in the Plan document. Also, upon termination, all liabilities and expenses of the Plan will be paid and all shares of financed stock held by the Plan will be sold back to the Company, to the extent deemed necessary in order to repay outstanding notes payable.

9. NOTES PAYABLE

The Plan has term loan agreements with the Company, bearing interest at rates of 4.40% and 4.45% with maturity dates through December 2033. The proceeds from the notes payable were used to purchase Company Stock. The loans outstanding amounted to \$12,454,450 and \$13,402,750 at December 31, 2014 and 2013, respectively. Interest expense of \$596,598 was incurred during 2014. The unallocated outstanding Company Stock owned by the Plan is collateral for the loans.

The maturities of the notes payable are as follows:

2015	\$ 948,300
2016	948,300
2017	948,300
2018	740,050
2019	591,300
Thereafter	<u>8,278,200</u>
	<u>\$12,454,450</u>

In accordance with the Plan document and loan agreements, contributions made are to be sufficient to pay principal and interest on notes payable and contribution amounts in excess of the required loan payments will be allocated to the eligible participants in the Plan.

The investment in unallocated common stock of Remington Products Company is restricted to the extent that it is security for the notes payable. Shares of the unallocated Company Stock become available for allocation to participants based on a ratio of principal and interest paid in the Plan year to the total principal and interest to be paid on the notes in future years.

During 2014, the Plan borrowed \$1,100,000 from the Company which was repaid with shares of Company Stock prior to the year end.

Subsequent to December 31, 2014, the Plan borrowed an additional \$1,000,000 to fund distributions which is expected to be repaid in full by December 31, 2015.

NOTES TO THE FINANCIAL STATEMENTS

10. RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company Stock, which is exposed to various risks such as interest rate, market, and credit risks as well as valuation assumptions based on earnings, cash flows, and/or other such techniques. Due to the level of risk associated with the Company Stock, it is at least reasonably possible that changes in the value of the Company Stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
