Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Principal Life Insurance Company, the custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the custodian as of December 31, 2014 and 2013, and for the years then ended that the information provided to the Plan Administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified or provided by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

COLLECTIVELY BARGAINED RETIREMENT PLAN – GAYLORD UAW LOCAL 388
NOTES TO FINANCIAL STATEMENTS
December 31, 2014 and 2013**

Note 1—Description of the Plan

The following brief description of the Cooper-Standard Automotive Inc. Collectively Bargained Retirement Plan – Gaylord UAW Local 388 (the Plan) provides only general information. Participants should refer to their specific Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan covering all employees who are covered by the collectively bargained agreement between International Union, United Automobile, Aerospace and Agricultural Implement Workers of America Local 388 (the Union) at the Plan Sponsor's Gaylord facility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan established an agreement with Principal Life Insurance Company (the Custodian), to act as custodian of the Plan's assets. The Custodian administers and invests the Plan's assets and income for the benefit of the Plan's participants. Effective July 1, 2008, a master trust was formed with other plans administered by the Plan Sponsor to hold and administer all of the Plan's assets. See Note 4 for master trust disclosures.

The amount of any pension benefit otherwise available may be reduced by certain disability payments (but not payments under the Federal Insurance Contribution Act (FICA)). The Plan provides certain survivor and disability benefits, and various optional forms of payment, some actuarially reduced.

Effective July 1, 2012, the Plan was frozen and no participants will be eligible to accrue service in the Plan.

Eligibility

All employees subject to the collective bargaining agreement between the Plan Sponsor and International Union, United Automobile, Aerospace and Agricultural Implement Workers of America Local 388 are eligible for participation in the Plan. The current bargaining agreement is effective through March 13, 2017.

Funding policy/contributions

The Plan is funded entirely through contributions made by the Plan Sponsor. The Plan Sponsor contributes such amounts as are deemed necessary on an actuarial basis to provide the Trust with assets sufficient to meet the benefits to be paid to the Plan's participants. The contributions are designed to fund current service costs and to fund prior service costs over a period of ten to twenty years. The Plan Sponsor's contributions for 2014 and 2013 exceeded the minimum funding requirements of ERISA.

Vesting

Participants are vested after five years of continuous credited service. If participants are hired after age 65, they may receive a monthly pension benefit if they later become vested.

COLLECTIVELY BARGAINED RETIREMENT PLAN – GAYLORD UAW LOCAL 388
NOTES TO FINANCIAL STATEMENTS – CONTINUED
December 31, 2014 and 2013

Note 1—Description of the Plan—continued

Pension benefits

Participants are entitled to monthly pension benefits equal to the amount specified in the plan agreement, which was increased effective March 18, 2008, multiplied by the years of continuous credited service at the time of termination or retirement. If termination occurs prior to eligibility for an immediate pension benefit, vested participants may elect to receive a lump sum distribution in lieu of a deferred pension benefit.

Termination of the Plan

While the Plan Sponsor has not expressed any intent to terminate the Plan or its contributions thereto, it has the right to do so at any time, subject to the provisions of ERISA. In the event of partial or total termination of the Plan, participants' benefits become nonforfeitable.

In the event the Plan terminates, its available net assets will be allocated to benefits as prescribed by ERISA, generally in the following order:

- a. Certain annuity benefits that former employees or their beneficiaries are receiving or that employees eligible for retirement would have been receiving had they retired.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) as discussed below.
- c. All other vested benefits.
- d. All non-vested benefits.

The PBGC guarantees most, but not all, vested retirement benefits and certain disability and survivor's pensions. However, there is a statutory ceiling on the amount of any individual's monthly benefit that PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination, whichever comes later. For younger annuitants, or for those who elect to receive their benefits in some form other than a single-life annuity, the corresponding ceilings are actuarially adjusted.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits, and the level of benefits guaranteed by the PBGC.

Note 2—Summary of significant accounting policies

Basis of accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investments

The fair value of the Plan's interest in the Master Trust is based on the beginning of the year's value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income, less actual distributions and allocated administrative expenses. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements for the underlying assets of the Master Trust.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation includes gains and losses on investments bought and sold as well as held during the year.

Administrative expenses

The administrative expenses of the Plan are paid by either the Plan Sponsor or the Plan.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Estimates are most significantly utilized in determining the actuarial present value of accumulated plan benefits. Actual results could differ from those estimates.

Subsequent events

The Plan Sponsor has evaluated subsequent events through October 5, 2015, the date the financial statements were available to be issued.

Note 3—Investments

All investment information for the year ending December 31, 2014 and 2013 disclosed in the accompanying financial statements, including investments held at December 31, 2014 and 2013, interest and dividends and net appreciation in fair value of investments and investment fees and expenses for the years ended December 31, 2014 and 2013, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Custodian, as of and for the years ended December 31, 2014 and 2013. Such information has not been examined by independent auditors.

Note 4–Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification Topic, Fair Value Measurement, are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include:

- a. Quoted prices for similar assets or liabilities in active markets;
- b. Quoted prices for identical or similar assets or liabilities in inactive markets;
- c. Inputs other than quoted prices that are observable for the asset or liability;
- d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds – These are valued at quoted market prices, which represent the net asset value (“NAV”) of shares held by the Plan at year end. The NAV is based on the fair value of the underlying investments held by the fund, less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Pooled Separate Accounts – Assets held in money market securities where cost approximates fair value.

Note 4-Fair value measurements–continued

Collective Investment Trusts – The fair value of the investments in these categories have been estimated using the net asset value per share. The NAV of these accounts is based on the market value of its underlying investments. The NAV is not a publically quoted price in an active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5—Master Trust

Investments within the Master Trust are valued at their fair value as determined by the Custodian. The Plan's interest in the Master Trust is determined by the Plan's relative asset value to the Master Trust's total asset value at the end of the year. Although assets of participating Plans are commingled, supporting records for the purpose of allocating the net gain or loss of the investment account to the participating Plans are maintained. The net investment income and administrative expenses of the investment assets are allocated by the custodian to each participating Plan based on the relationship of the interest of each Plan to the total of the interests of the participating Plans. The following has been derived from information which the Custodian has certified as complete and accurate as of December 31, 2014 and 2013, and for the years then ended.

The following presents the values of investments in the Master Trust as of December 31, 2014 and 2013:

	2014	2013
Mutual funds	\$ 165,512,334	\$ 149,696,853

Note 6—Federal income tax status

The Plan has received a determination letter from the Internal Revenue Service dated July 19, 2011, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code), and therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes that the Plan is being operated in compliance with the applicable requirements of the Code, and therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 7—Party-in-interest transactions

Certain Plan investments are shares of mutual funds managed by the Custodian, and therefore, these transactions qualify as party-in-interest transactions. There are no known prohibited transactions with a party-in-interest.

Note 8—Actuarial present value of accumulated plan benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired employees or their beneficiaries, (b) terminated employees with vested benefits, (c) beneficiaries of employees who have died, and (d) present employees or their beneficiaries. Benefits for active employees under the Plan are based on the employees' years of credited service computed to the nearest completed 1/12 of a year, multiplied by the pension amount in effect on the valuation date. Benefits payable under all circumstances are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

An actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected dates of payment.

Significant actuarial assumptions used in performing the valuations include: (1) interest rate of 7.15 percent in 2014 and 7.00 percent in 2013; (2) mortality based on the 2014 PPA Static Mortality Tables with separate mortality rates for annuitants and non-annuitants for 2014 and the 2013 PPA Static Mortality Tables with separate mortality rates for annuitants and non-annuitants for 2013; (3) probability table of retirement with ages ranging from 55 to 65 with ten years of service; and (4) disability pension is based upon the 1985 Pension Disability Table.

Note 8—Actuarial present value of accumulated plan benefits—continued

These actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuary has determined the present value of the accumulated plan benefits as of January 1, 2014 and 2013, to be as follows:

	<u>2014</u>	<u>2013</u>
Actuarial present value of accumulated plan benefits		
Vested benefits:		
Participants currently receiving benefits	\$ 5,899,985	\$ 6,062,705
Other participants	<u>3,245,858</u>	<u>3,397,109</u>
Total vested benefits	9,145,843	9,459,814
Non-vested benefits:	<u>84,379</u>	<u>139,683</u>
Total actuarial present value of accumulated plan benefits	<u><u>\$ 9,230,222</u></u>	<u><u>\$ 9,599,497</u></u>

A reconciliation of the changes in the actuarial present value of accumulated plan benefits is summarized as follows:

	<u>2014</u>	<u>2013</u>
Actuarial present value of accumulated plan benefits as of January 1, 2013 and 2012	\$ 9,599,497	\$ 9,372,989
Increase (decrease) during year due to:		
Change in assumptions	(107,818)	235,582
Benefits paid	(771,594)	(767,554)
Change in discount period	644,959	655,531
Benefits accumulated and net actuarial losses	<u>(134,822)</u>	<u>102,949</u>
Actuarial present value of accumulated plan benefits as of January 1, 2014 and 2013	<u><u>\$ 9,230,222</u></u>	<u><u>\$ 9,599,497</u></u>

Note 9—Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
