NOTE A - DESCRIPTION OF THE PLAN

The following brief description of the INEOS Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution plan for the benefit of eligible employees of INEOS USA LLC and its participating affiliates (together, the Company). Employees, excluding non-residents and employees represented by a union unless the union and the employer have entered into a collective bargaining agreement that provides participation in the Plan, employed by the Company as of the effective date will become participants of the Plan. A person who becomes an employee after the effective date will become eligible to participate in the Plan on his or her date of employment.

Effective January 1, 2013, the Plan document was amended and restated. The restated Plan document amended the participant eligibility definitions to qualify for employer transition credit contributions following the freeze of the pension plans.

Contributions and Vesting

Participants can contribute from 1% to 75% of their eligible earnings before and after taxes. Pretax contributions are subject to contribution limitations of the Internal Revenue Code (IRC). Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions, subject to the limitation from the IRC.

Effective January 1, 2014, the matching contribution for all employees equals a $1-for-$1 matching contribution up to 6% of compensation on pretax and catch-up contributions for all employees hired after the effective date of the amendment, with the exception of non-union salaried employees and NOVA Indian Orchard Union employees.

Participants direct the investment of their contributions into various investment options offered by the Plan.

Participants are 100% vested at all times in all participant contributions made to the Plan plus actual earnings thereon. A participant will be 100% vested in his or her Company matching contribution if he or she is credited with at least three years of service, attains age 65, is declared permanently disabled, dies, or his or her employment with each commonly controlled entity is terminated.

Other Company contributions that participants may be eligible for include Company base contributions and transition credits. Eligibility for additional Company contributions depends on the participant's date of hire, Company heritage union status and whether or not the participant opted out of his or her pension plan.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contribution, and allocations of Plan earnings and losses, and is charged with an allocation of administrative expenses.

Notes Receivable from Participants

Participants may borrow from their vested fund accounts with a minimum of a $1,000 up to a maximum equal to the lesser of $50,000, or 50%, of their vested account balance. The loans are secured by the balance in the participant's account. The interest rate associated with each participant Plan loan will be fixed throughout the term of the loan and will equal one plus the prime rate. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service due to retirement, death, disability, separation of service or hardship, a participant or the participant's beneficiary will receive an amount equal to the value of the participant's vested account in the form of a lump-sum amount.

Forfeited Accounts

Forfeitures are used to reduce Company matching contributions or pay reasonable Plan expenses. At December 31, 2014 and 2013, forfeited non-vested accounts totaled approximately $393,000 and $278,000, respectively. During 2014 and 2013, Plan forfeitures in the amount of approximately $353,000 and $233,000, respectively, were used to reduce matching contributions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in a collective trust. The statements of net assets available for benefits present the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract-value basis.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. See note D for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit loss has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to participants' accounts and are included in administrative expenses. Investment-related expenses are netted with net appreciation in fair value of investments.

NOTE C - INVESTMENTS

During the year ended December 31, 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Brokerage account - common stock	$ (211,449)
Brokerage account - mutual fund	46,559
Collective trust fund	939,932
Mutual funds	10,196,849
Net appreciation in fair value of investments	$10,971,891

NOTE D - FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board (FASB) has issued guidance that establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the FASB guidance are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value as of December 31, 2014 and 2013:

Mutual funds - Valued at the quoted net asset value (NAV) of shares held by the Plan at year-end, which is obtained from an active market.

Common stock - Investments in stock are valued at quoted market prices in an active market.

Collective trust - Valued at the NAV of the units of the bank collective trust. The NAV is based on the fair value of the underlying securities, minus liabilities, and then divided by the number of units held by the Plan at year-end. Redemptions are permitted daily. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily without restriction. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

NOTE E - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of Employee Retirement Income Security Act of 1974, as amended (ERISA). In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE F - TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated September 4, 2013, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is currently designed and being operated in all material respects in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan is qualified and that the related trust is tax-exempt as of the financial statement dates.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE G - RISKS AND UNCERTAINTIES

In general, the investments provided by the Plan are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE H - RELATED-PARTY TRANSACTIONS

The Company pays certain administrative costs of the Plan and provides certain administrative services to the Plan at no charge. The cost of providing these services and the payment of these costs by the Company, which is a party in interest, constitute exempt party-in-interest transactions under ERISA.

Certain Plan investments are managed by T. Rowe Price, the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Additionally, the Plan has loads to participants that also qualify as party-in-interest transactions.

NOTE I - INFORMATION CERTIFIED BY TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, T. Rowe Price have certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:
