Hyland Software 401(k) Plan
Notes to the Financial Statements
December 31, 2014 and 2013

A. PLAN DESCRIPTION

The following description of the Hyland Software (the “Company”) 401(k) Plan provides only general information. Participants should refer to the Plan document and adoption agreement for a more complete description of the Plan’s provisions.

General - The Plan is a defined contribution plan covering all eligible employees of the Company who have three months of service and are age twenty-one or older. Effective August 1, 2013, the Plan was amended so that employees are eligible on the date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions - Prior to August 1, 2014, participants were able to contribute up to 100% of pre-tax or post-tax (“Roth”) annual compensation, as defined in the Plan, limited to the Internal Revenue Code (“IRC”) 402(g) limit. Effective August 1, 2014, the Plan was amended to reduce the maximum deferral contribution to 75% of their compensation on a pre-tax or Roth basis. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may make a discretionary matching contribution up to the percentage of the amount of the salary reduction a participant elected to defer. The actual matching percentage will be determined each year by the Company. Additional profit sharing amounts may be contributed at the option of the Company’s board of directors. Company contributions are allocated at the ratio that an eligible employee’s compensation bears to the total compensation of all eligible employees, as defined in the Plan.

The Plan also permits rollover contributions from other qualified retirement plans and certain IRA’s.

Forfeitures & Non-Vested Holding Accounts - Forfeitures are created when participants who terminated employment before becoming fully vested either take a distribution or reach a five year break in service. Upon separation, funds are held in the participant’s account until a distribution is requested. If a distribution is not requested, funds are held in the participant’s account for a period of five years before becoming forfeitures. Forfeited amounts are used to reduce the Company’s matching contributions to the Plan. In 2014 and 2013, employer contributions were reduced by \$95,557 and \$54,263, respectively, from the forfeiture account. The non-vested funds holding accounts totaled \$6,577 and \$0 for the years ended December 31, 2014 and 2013, respectively.

Participant Accounts - Each participant’s account is credited with the participant’s deferral contribution, employer matching contribution, allocation of the Company’s discretionary profit sharing contribution, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which the participant is entitled to is the participant’s vested account balance.

Participants may direct their contributions to any or all of the various investment funds provided. Participants may change their allocation of contributions or transfer money between investment options any time during the year.

Vesting - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. A participant is 100% vested in the Company’s matching and discretionary contributions plus actual earnings thereon after three years of service.

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balance reduced by any outstanding loan balance, whichever is less. Loan terms range from one to five years unless used for the purchase of

a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate determined at the time the loan is taken based on prime plus 2% (5.25% at December 31, 2014 and 2013). Principal and interest is paid ratably through payroll deductions.

Payment of Benefits - Upon termination of service, the participant may elect to receive his or her account balance as a lump-sum payment or in periodic installments. The Plan Administrator may automatically make a lump-sum distribution for account balances less than \$5,000. Participants terminated are entitled to receive their benefits as soon as administratively feasible. Distributions of a participant's 401(k) account balance may be authorized at any time by the Plan Administrator under certain hardship conditions.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment in the stable value fund as well as the adjustment of the investment in the stable value fund from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis. See Note E.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Except for the stable value fund, investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisors, custodian, and trustee. See Note F for discussion of fair value instruments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - Administrative expenses, including third party administrative expenses and investment management fees, are paid from the Plan. Fees attributable to loans, distributions and deferred payouts are paid by the participants. All other expenses of maintaining the Plan are paid by the Company. Investment related expenses are included in net appreciation of fair value of investments.

	<u>\$ 5,200,078</u>

Hyland Software 401(k) Plan

Notes to the Financial Statements

December 31, 2014 and 2013

E. INVESTMENT CONTRACT WITH INSURANCE COMPANY

As required by the Financial Accounting Standards Board (“FASB”), the following schedule reflects both the fair value as well as the adjustment to contract value for the Principal Stable Value Fund, deemed fully benefit responsive:

	December 31,	
	2014	2013
Investments at fair value	\$ 3,689,538	\$ 3,579,595
Investments at contract value	3,650,741	3,557,929
Adjustment to contract value	<u>\$ (38,797)</u>	<u>\$ (21,666)</u>

The Principal Stable Value Fund is included in the financial statements at contract value as reported to the Plan. Contract value represents contributions and reinvested income, less any withdrawals plus accrued interest, because these investments have fully benefit-responsive features. For example, participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against contract values for credit risk of contract issues or otherwise. The average yield was approximately 1.436% and 1.255% for 2014 and 2013, respectively. Asset charge rate for the investment was 1.862% and 1.503% at December 31, 2014 and 2013, respectively.

F. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The levels of the fair value hierarchy under Financial Accounting Standards Board guidance in these financial statements are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Hyland Software 401(k) Plan

Notes to the Financial Statements

December 31, 2014 and 2013

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (“NAV”) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate accounts: Market values of units held in the pooled separate account are determined daily based upon the initial value assignment, the net asset value of the mutual fund investments and the applicable investment management and administrative charges, as set forth in the group annuity contract.

Common/collective trust: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (See Note E).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan’s assets at fair value as of December 31, 2014 and 2013.

G. RELATED-PARTY TRANSACTIONS

Certain Plan investments are managed by Principal, the custodian of the Plan. The transactions involving these investments are allowable party-in-interest transactions under ERISA.

H. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

I. FEDERAL INCOME TAX STATUS

The Company has chosen not to obtain a determination letter on its Plan document as it is using Principal's prototype document which received Internal Revenue Service ("IRS") approval on March 31, 2008. The Plan has been amended since this date. The Plan Administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the Internal Revenue Code and has no income subject to unrelated business income tax. They believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America, require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits

by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

J. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

K. PLAN AMENDMENTS

In February 2013, the Company acquired the assets of AnyDoc Software, Inc. The Plan was amended on February 28, 2013 to allow AnyDoc Software, Inc. employees to participate in the Plan.

Effective August 1, 2013, the Plan was amended for the following changes:

- Participant eligibility requirements were changed from 3 months of service to immediate eligibility.
- The participant entry date was changed from the date the entry requirements are satisfied to the beginning of each month.
- Increased 25% pay limit for maximum elective deferral contribution to 100%.
- Permits Roth elective deferral contributions.
- Clarifies that elective deferrals can be matched based on a percentage determined by the Plan sponsor.

Effective August 1, 2014, the Plan was amended to reduce the maximum deferral contribution from 100% to 75% of pretax annual compensation.

L. RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500
