401(k) Plan

Notes to the Financial Statements
December 31, 2014 and 2013

A. Description of the Plan

The following description of Trans-Expedite Inc.'s (Company) 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. *General.* The plan is a defined contribution plan covering all employees of the Company who have completed 1,200 hours of service in twelve (12) months of service and attained the age of 18. The plan has an auto enrollment feature. It is subject to the provisions of the Employee Retirement Income Security Act (ERISA).
2. *Contributions.* Each year participants may contribute to the Plan on a pretax basis up to the maximum percentage of their salary allowable, subject to certain Internal Revenue Code limitation. Employer contributions are made on a discretionary basis.
3. *Participant Accounts.* Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings and account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
4. *Vesting.* Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Plan Sponsor's contribution portion of their account is based on years of continuous service. A participant is fully vest in the Company's matching contribution after 6 years of service.
5. *Notes Receivable from Participants.* Participants may borrow from their fund accounts a minimum of \$1,000 and to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest rates commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions.
6. *Payment of Benefits.* On termination of service due to death, disability, retirement, or hardship withdrawals, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.
7. *Forfeitures.* Forfeitures are the non-vested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan and are used to reduce future Company contributions. There were no forfeited nonvested accounts as of December 31, 2014 and 2013.

B. Summary of Accounting Policies

1. *Basis of Accounting.* The financial statements of the Plan are prepared under the accrual method of accounting.

Trans-Expedite, Inc.
401(k) Plan

Notes to the Financial Statements
December 31, 2014 and 2013

B. Summary of Accounting Policies (Continued)

2. *Use of Estimates.* The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.
3. *Investment Valuation and Income Recognition.* The Plan's investments are stated at fair market value. Quoted market prices are used to value investments.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.
4. *Payment of Benefits.* Benefits are recorded when paid.
5. *Plan Expenses.* The Plan incurs investment management fees and costs related to the Plan's administration. The Company absorbs a significant portion of these costs at their discretion.

C. Investments

The following presents investments that represent 5 percent or more of the Plan's net assets at December 31:

	<u>2014</u>	<u>2013</u>
Ameritrade Self Directed	\$ 569,115	\$ 719,244
American Funds New Economy R4	312,936	278,298
Vanguard Explorer Inv	175,711	178,302

Ivy Science & Technology	104,694	101,766
BlackRock Health Science Opps Instl	103,135	*

* Investment did not represent 5% or more of net assets

During 2014 the Plan's investments in registered investment companies (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by \$3,767.

D. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Trans-Expedite, Inc.
401(k) Plan

Notes to the Financial Statements
December 31, 2014 and 2013

E. Tax Status

The plan administrator believes the Plan meets the qualification requirements under Section 401(a) and is tax exempt under provisions of the Internal Revenue Code (the Code). The determination letter was filed under a volume submitter. The plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

F. Information Certified by the Custodian

The Plan investments are held by TD Ameritrade Trust Company, the custodian, and are invested in various mutual funds as directed by the participants. The following information included in the financial statements and supplemental schedules was provided and certified by the Plan's custodian as complete and accurate as it relates to the Plan's investments they hold:

- Investments at fair value
- Notes receivable from participants
- Investment income
- Net appreciation or depreciation in fair value of investments

G. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

H. Party-in-Interest Transactions

Aspire Financial Services, LLC is the third party administrator as defined by the Plan, and therefore, the fees charged to the plan for asset management qualify as party-in-interest transactions. The Plan paid Aspire Financial Services, LLC \$19,242 for the year ended December 31, 2014.

I. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

K. Subsequent Events

The Plan has evaluated events subsequent to December 31, 2014 that would possibly require adjustment or disclosure under FASB ASC 855-10-50-1 in these financial statements, through July 20, 2014, the date that these statements were available to be issued. The plan has determined that based on the number of distributions in the current year, that a partial plan termination occurred. The result of this was that participants that took a distribution in 2014 became 100% vested. Those that received distributions during the year were deemed to be fully-vested and received an additional distribution for previously forfeited amounts subsequent to year end.
