General: The Plan is a qualified defined contribution retirement plan which covers substantially all employees of Mondi Akrosil, LLC (the Company) who are at least 18 years of age and have completed three months of service. Eligible employees enter the Plan as of the first day of the month coinciding with or next following the date that eligibility requirements are met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions: Participants may elect pre-tax and/or Roth after-tax contributions up to 100% of their compensation to the Plan, subject to maximum amounts allowed by law. The Plan allows participants to rollover distributions from other qualified plans.

The Company makes a safe harbor matching contribution equal to 100% of each participant's elective deferrals not exceeding 3% of the participant's compensation, plus 50% of each participant's elective deferrals in excess of 3% but not in excess of 5% of the participant's compensation. The Company may additionally make a discretionary non-elective contribution to eligible participants. There were no discretionary non-elective contribution made to the Plan for the years ended December 31, 2014 and 2013.

Vesting: Participants are immediately vested in their elective deferral, safe harbor match and rollover contributions and any income or loss thereon. Vesting in the Company non-elective contributions are subject to a three year cliff vesting schedule.

Investing options: Participants may direct the investment of their account balances into various investment options offered by the Plan. Participants may change their investment options daily through an automated telephone system or via web access.

Participant accounts: Individual accounts are maintained for each participant of the Plan. Each participant's account is credited with the participant's contribution and allocations of the Company's contribution, Plan earnings and administrative expenses paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 – DESCRIPTION OF THE PLAN (continued)

Benefit payments: Benefits under the Plan are paid upon normal retirement (age 65), termination, death or disability. A terminated participant with an account balance of $5,000 or less will receive a lump-sum distribution. If the account balance is greater than $5,000, the terminated participant may elect to defer distribution of their account until normal retirement age or receive a lump-sum distribution immediately.

Forfeitures: Forfeitures are portions of account balances that participants surrender by terminating employment prior to becoming fully vested. Forfeited balances of terminated non-vested participant accounts are used to reduce the amount of the employer contributions. Forfeitures of $0 and $6,085 were used to reduce the employer contribution during the years ended December 31, 2014 and 2013, respectively. The balance in the forfeiture account at December 31, 2014 and 2013 was zero.

Notes receivable from participants: Upon participant request, the Plan Administrator may direct the Trustee to make loans to a participant secured by the participant's account. The amount of the loan (never less than $1,000) may not exceed the lesser of 50% of the participant's vested account balance or $50,000. The repayment of any loan shall not exceed 5 years, unless the loan is made to acquire a principal residence in which case the loan may not exceed 15 years. The loans bear interest at a rate of Prime + 2.00%. As of December 31, 2014 and 2013, interest rates on outstanding loans were 5.25%.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting: The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements of the Plan.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES (continued)

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the Plan Administrator deems the participant to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the Trustee. See Note 5 for a discussion of fair value measurements.

The Plan presents in the Statements of Changes in Net Assets Available for Benefits the net appreciation (depreciation) in the fair value of investments which consists of the realized gains and losses and the unrealized appreciation (depreciation) on those investments. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date.

Payments of benefits: Benefits are recorded when paid.

Investment expenses: Investment related expenses are included in the net appreciation (depreciation) of the fair value of investments.

Administrative expenses: The Plan pays all administrative expenses except where the Company elects to pay such expenses directly. Administrative expenses incurred by the Plan consist of fees paid to the Trustee.

Subsequent events: The Plan Administrator has evaluated events and transactions for potential recognition or disclosure in the financial statements through September 30, 2015, the date on which the financial statements were available to be issued.

NOTE 3 - INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

In accordance with the procedures stated in 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the audit of an independent public accountant need not extend to any statement or information prepared and certified by the Trustee. The Plan Administrator, therefore, has instructed the independent public accountants to exclude the information certified by the Trustee from the scope of their audits.

Common trust funds	125,992	292,996
Net appreciation in fair value of investments	$ 329,318	$ 985,078

NOTE 5 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

NOTE 5 - FAIR VALUE MEASUREMENTS (continued)

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013:

- Mutual funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

- Common trust funds – Valued at the NAV of units held by the Plan at year-end. The NAV, as provided by the administrator of the fund, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund, minus its liabilities, and then divided by the number of units outstanding. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The preceding valuation methodologies may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

NOTE 5 - FAIR VALUE MEASUREMENTS (continued)

The common trust funds' investment objectives use a strategy consistent with the investment focus listed in the tables on the previous page. There is no assurance the objectives of each type of fund can be achieved.

NOTE 6 - PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA, which it has elected to do so subsequent to December 31, 2014. See Note 10 for further information.

NOTE 7 - TAX STATUS

The Plan adopted the Prototype Non-Standardized Profit Sharing Plan (Prototype) administered by the Trustee. The internal Revenue Service (IRS) determined and informed the Trustee by its opinion letter dated March 31, 2008 that the Prototype was designed in accordance with the applicable sections of the Internal Revenue Code (IRC). The Plan Administrator has not requested a separate opinion letter from the IRS for the Plan. The Plan Administrator believes the Plan is currently designed and is being operated in accordance with applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 8 - PARTY-IN-INTEREST TRANSACTIONS

Transactions involving the accounts administered by the Trustee qualify as party-in-interest transactions. Administrative fees paid to the Trustee were $56,709 and $37,736 during the years ended December 31, 2014 and 2013, respectively. The Plan allows participants to obtain loans from the Plan, which are also considered party-in-interest transactions. These transactions are not, however, considered prohibited transactions under Section 408(b) of the ERISA regulations.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

NOTE 9 - RECONCILIATION BETWEEN FINANCIAL AND TAX REPORTING
