NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the Phil Long Dealerships, Inc. 401(k) Profit Sharing Plan is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General: The Plan is a defined contribution plan covering all employees of Phil Long Dealerships, Inc. (the Company) who have reached age 18 and have completed six months of service. Individuals that are classified by the Company as an independent contractor, nonresident aliens, and those that are members of a collective bargaining unit whose union contract does not provide for participation are not eligible to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

A participant shall not have the right to receive benefits until the participant terminates service, attains normal retirement age, or meets the requirements for a hardship distribution. A participant is eligible for normal retirement when the participant reaches age 65.

Contributions: Participants can contribute 1% to a maximum of 100% in 1% increments of their gross wages during the Plan year subject to certain limitations. Roth contributions are allowed. Employees, upon meeting eligibility requirements, are automatically enrolled at a deferral rate of 4% unless they elect to change this amount. The Company may make discretionary contributions equal to a specified percentage of participant's deferral. The Company may also make profit sharing contributions at the discretion of the Board of Directors. To be eligible for the Company discretionary contributions, participants must be employed on the last day of the plan year. The Company made a $300,000 discretionary contribution to the plan in 2014, which was allocated based on a percentage of deferrals for those who qualified. There was no profit sharing contribution in 2014.

All employees are automatically enrolled in the Plan upon eligibility but can decline entry electronically via the member services line or the member web site.

Investment Options: Participants direct the investment of their contributions and any Company matching contributions into various investment options offered by the Plan.

Retirement, Death, Disability: A participant is entitled to 100% of his or her vested account balance upon retirement, death, or disability.

Payment of Benefits: On termination of service, a participant may elect to receive either a lump-sum or direct rollover amount equal to the vested account balance. If the participants vested account balance is $5,000 or less, the benefit will be paid in a lump-sum payment.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contribution, and (b) Plan earnings, and charged with his or her withdrawals and an allocation of administration expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participants' vested account.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Vesting: Under the Plan, participants acquire a vested and nonforfeitable interest in a percentage of their account attributable to the Company's contributions and actual earnings thereon as determined from the following table. Participants are vested 100% in their contributions and actual earning thereon at all times.

Years of Service	Percentage Vested and Nonforfeitable
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

Forfeitures: The non-vested portions of terminated participants' accounts are forfeitures. Forfeitures stay under the Plan and are used to offset future employer contributions and plan expenses. During 2014, none of the forfeited balances were used. The remaining balance of forfeitures available to offset future matching contributions and administrative expenses as of December 31, 2014 and 2013 were $32,523 and $20,880, respectively.

Plan Termination: Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at any time. In the event of plan termination, participants would become 100% vested in their accounts.

Notes Receivable from Participants: Participants may borrow from their accounts the lesser of 50% of their vested account balance or $50,000. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid through payroll deductions.

Administrative and Investment Management Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Plan recordkeeping and trustee fees are paid by the Plan and are reflected in the financial statements as administrative expenses. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income reported by the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Payment of Benefits: Benefits are recorded when paid.

Risks and Uncertainties: The Plan holds various investments. Investments are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

> Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
>
> Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
>
> Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Collective trusts: The fair values of participation units held in collective trusts, other than stable value funds, are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices (level 2 inputs). The S&P Mid Cap Index Fun N invests solely in the Blackrock Mid-Capitalization Equity Index Fund F whose objective is long-term capital appreciation. The S&P 500 Index Fund N invests solely in the Blackrock Equity Index Fund F whose objective is to match the performance of the S&P 500 Index Fund N which captures the earnings and growth potential of large US companies. The net asset value of the funds is determined daily. Each collective trust held by the Plan provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement.

Stable Value Fund: The fair values of participation units in the stable value collective trust are based upon the net asset values of such fund, after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund (level 2 inputs). The fund invests all of its assets in the Wells Fargo Stable Return Fund G, a collective trust fund which invests in investment contracts and security backed investments. The investment objective is to seek a moderate level of stable income without principal volatility. The net asset value of the fund is determined daily. Units are issued and redeemed as of the latest net asset value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in such contracts through its investment in a stable value fund. No adjustments from fair value to contract value are presented in the statements of net assets available for benefits, as the amounts of the adjustments have been determined to be immaterial.

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer and certain others. The Plan holds mutual funds with BlackRock, an affiliate of Wells Fargo Bank, N. A. and collective trust with Wells Fargo Bank, N. A. Wells Fargo Bank, N.A. is the Plan trustee and, therefore, these transactions and the Plan's payment of trustee fees and investment management fees to Wells Fargo qualify as party-in-interest transactions. Notes receivable from participants held by the Plan are also considered party-in-interest transactions. Certain administrative functions are performed by officers or employers of the Company. No such officer or employee receives compensation from the Plan. The Company provides certain administrative services at no cost to the Plan.

NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the Phil Long Dealerships, Inc. 401(k) Profit Sharing Plan is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General: The Plan is a defined contribution plan covering all employees of Phil Long Dealerships, Inc. (the Company) who have reached age 18 and have completed six months of service. Individuals that are classified by the Company as an independent contractor, nonresident aliens, and those that are members of a collective bargaining unit whose union contract does not provide for participation are not eligible to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

A participant shall not have the right to receive benefits until the participant terminates service, attains normal retirement age, or meets the requirements for a hardship distribution. A participant is eligible for normal retirement when the participant reaches age 65.

Contributions: Participants can contribute 1% to a maximum of 100% in 1% increments of their gross wages during the Plan year subject to certain limitations. Roth contributions are allowed. Employees, upon meeting eligibility requirements, are automatically enrolled at a deferral rate of 4% unless they elect to change this amount. The Company may make discretionary contributions equal to a specified percentage of participant's deferral. The Company may also make profit sharing contributions at the discretion of the Board of Directors. To be eligible for the Company discretionary contributions, participants must be employed on the last day of the plan year. The Company made a $300,000 discretionary contribution to the plan in 2014, which was allocated based on a percentage of deferrals for those who qualified. There was no profit sharing contribution in 2014.

All employees are automatically enrolled in the Plan upon eligibility but can decline entry electronically via the member services line or the member web site.

Investment Options: Participants direct the investment of their contributions and any Company matching contributions into various investment options offered by the Plan.

Retirement, Death, Disability: A participant is entitled to 100% of his or her vested account balance upon retirement, death, or disability.

Payment of Benefits: On termination of service, a participant may elect to receive either a lump-sum or direct rollover amount equal to the vested account balance. If the participants vested account balance is $5,000 or less, the benefit will be paid in a lump-sum payment.

Participant Accounts: Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contribution, and (b) Plan earnings, and charged with his or her withdrawals and an allocation of administration expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participants' vested account.

(Continued)

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Vesting: Under the Plan, participants acquire a vested and nonforfeitable interest in a percentage of their account attributable to the Company's contributions and actual earnings thereon as determined from the following table. Participants are vested 100% in their contributions and actual earning thereon at all times.

Years of Service	Percentage Vested and Nonforfeitable
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

Forfeitures: The non-vested portions of terminated participants' accounts are forfeitures. Forfeitures stay under the Plan and are used to offset future employer contributions and plan expenses. During 2014, none of the forfeited balances were used. The remaining balance of forfeitures available to offset future matching contributions and administrative expenses as of December 31, 2014 and 2013 were $32,523 and $20,880, respectively.

Plan Termination: Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at any time. In the event of plan termination, participants would become 100% vested in their accounts.

Notes Receivable from Participants: Participants may borrow from their accounts the lesser of 50% of their vested account balance or $50,000. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid through payroll deductions.

Administrative and Investment Management Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Plan recordkeeping and trustee fees are paid by the Plan and are reflected in the financial statements as administrative expenses. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income reported by the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Units are issued and redeemed as of the latest net asset value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in such contracts through its investment in a stable value fund. No adjustments from fair value to contract value are presented in the statements of net assets available for benefits, as the amounts of the adjustments have been determined to be immaterial.
