NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following description of the NN, Inc. 401(k) Profit Sharing Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution trust covering substantially all employees of the Company and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company is made up of NN, Inc. – Ball & Roller Division, Delta Rubber Company, Industrial Molding Corporation and Whirlaway Corporation. NN, Inc. acquired the assets of V-S Industry on January 30, 2014. NN, Inc. also hired all of V-S Industry's employees effective that date. Therefore, the balances in those employees' retirement plan accounts rolled over into the NN, Inc. 401(k) Plan.

Eligibility – All employees are eligible for participation in the Plan immediately upon their employment. Plan entry occurs on the first day of each month.

Contributions – Under the provisions of the Plan, the participant and the employer are both allowed to make contributions. The participants are allowed to contribute a portion of their salary to the Plan, subject to those limitations provided for in Section 401(k) of the Internal Revenue Code. The Company contributes a sum that is determined by the Company. There is no set amount or percentage for the amount of the Company's contribution; the amount is totally at the discretion of the Company. Forfeitures, if any, will be used to reduce future Company contributions to the Plan.

Participant Accounts – Each participant has two accounts, with each account designated for participant contributions and employer contributions, respectively. Participant contribution accounts are credited with the participant's contributions and the earnings of the specific investment vehicles selected. Participants may self-direct contributions into several different mutual funds. Allocations are based on participant earnings or account balances, as defined. The benefit to which the participant is entitled is the benefit that can be provided from the participant's account. Participants may also elect to take out loans against their balance. Loans must be for at least $1,000 and can be made for an amount up to the lesser of half the participant's account balance or $50,000.

Vesting – Participants are immediately 100% vested in their voluntary and employer contributions plus actual earnings thereon upon entering the Plan.

Forfeitures – Since all contributions are fully vested there are no forfeitures.

Payment of Benefits – Upon normal retirement age or death, a participant or beneficiary may receive a lump-sum amount equal to the value of the participant's account, or if elected by the participant, under a systematic withdrawal plan (installments.) A participant (or the participant's beneficiary) who is receiving distribution under a systematic withdrawal plan may elect to accelerate installment payments or to receive a lump sum distribution of the remainder of his account balance at any time. The account balance may also be rolled directly into an eligible IRA or other qualified retirement account. Benefits are also payable in the event of normal termination and under certain in-service circumstances.

2. Summary of Accounting Policies

Basis of Accounting – The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair Value Measurement – Investments are stated at fair value on the last business day of the year. In accordance with the policy of stating investments at fair value, net unrealized appreciation or depreciation for the year is reflected in the statement of changes in net assets available for Plan benefits. Fair Value of investments is further discussed in Note 7.

Securities transactions are recognized on the trade date (the date the order to buy or sell is executed). Income from investments is recorded as earned on an accrual basis.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

Risks and Uncertainties – The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for benefits.

Concentrations of credit risk exist if a number of investments are engaged in similar activities and have similar economic characteristics that could cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions. The Plan has invested in a variety of financial instruments and investments involving diverse industries and geographic areas to mitigate exposure to credit risks.

Certification – Certain information related to investments and notes receivable disclosed in the accompanying financial statements and supplemental schedules, including investments and notes receivable held at December 31, 2014, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2014, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Fidelity Management Trust Company.

3. Administration of Plan Assets

The Plan assets are held by the Trustee of the Plan. Employer and participant contributions are invested by the Trustee as directed by the participants. The administrative expenses associated with the third-party administrator for the Plan are paid directly by the employer. Other expenses associated with the Trustee of the Plan are paid by the participants.

4. Plan Termination

Although it has not expressed any intent to do so, the Company has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

5. Notes Receivable

Participants of the Plan are permitted to withdraw loans from their account balance as long as they meet certain requirements. Interest rates on these loans range from 4.25% to 6.25% at year-end.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

The following table represents the loan receivable balances at December 31, 2014 and 2013:

	December 31,	
	2014	2013
Loans to Participants	$ 1,891,265	$ 1,702,000

6. Investments

The Plan's investments are held by a broker-administered trust fund.

The following table represents the fair values of investments. Investments that represent five percent or more of the Plan's net assets are separately identified.

	December 31,	
	2014	2013

Total Investments at Fair Value	$ 36,578,013	$ 33,886,751

7. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds: Valued based on the Net Asset Value (NAV) of shares held by the Plan as of the close of business of the NYSE at year end.

Common/Collective Trust: Valued based on a blend of the contract's rate of return and the liquidity component's daily mile rate.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following information included in the accompanying financial statements and supplemental information was obtained from data that has been prepared and certified to as complete and accurate by the Trustee.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

	December 31, 2014	December 31, 2013	Level
Investments at Cost:			
Short-Term Money Market	$ 2,898,458	$ 3,217,871	N/A
Investments at Fair Value:			
Managed Income	1,863,925	2,585,178	2
Lifecycle	11,041,874	9,188,586	1
Bond	2,960,611	2,478,890	1
Balanced/Hybrid	1,007,896	892,034	1
Domestic Equity	15,576,883	14,315,055	1
International/Global Equity	1,228,366	1,209,137	1
Total Investments at Fair Value	$ 36,578,013	$ 33,886,751	

The Plan's investments appreciated in fair value as determined by quoted market price as follows:

	December 31, 2014	December 31, 2013
Net Appreciation (Depreciation) in Fair Value		
Mutual Funds	$ (304,695)	$ 3,834,614
Common Collective Trust	12,668	10,171
	$ (292,027)	$ 3,844,785

8. Tax Status

The Internal Revenue Service has determined, in its letter dated November 12, 1996, that the Plan (before merger) is a qualified plan under Section 401(a) of the Internal Revenue Code, and the Plan, under which the Plan operates, is exempt from federal income taxes under Section 501(a) of the Internal Revenue Code. In addition, the Plan has submitted information to the IRS to receive a determination letter for the combined Plan.

The Plan has been amended since receiving its latest determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan has adopted the "uncertain tax positions" provisions of accounting principles generally accepted in the United States of America. The primary tax position of the Plan is its filing status as a tax exempt entity. The Plan determined that it is more likely than not that its tax positions would be sustained upon examination by the Internal Revenue Service (IRS), or other State taxing authority. There were no penalties or interest related to income taxes recognized during the years ended December 31, 2014 and 2013. The Plan is no longer subject to U.S. federal income tax examinations by tax authorities for the years prior to 2010.

9. Reconciliation of Financial Statements to Schedule H of Form 5500

The accompanying financial statements show different amounts for contributions than what is represented in Schedule H of the Form 5500 because those amounts that are receivable at year end are not reflected on the Form 5500.
