Note 1 - Description of the Plan

The following description of the ASR International Corp 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established on January 1, 1996 to provide benefits to eligible employees. The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") covering eligible employees of ASR International Corp. and Contractor Support Services, Inc. (the "Company" or the "Employer") upon hire and are of age twenty one or older.

Assets of the Plan are allocated to participant accounts based on specific contributions made by each participant and respective matches made by the Company. Investment income (loss) is credited to each account based on appreciation (depreciation) of specific assets held in each participant account and any earnings thereon.

Plan Contributions

A participant may elect to have compensation deferred up to the maximum percentage allowable not to exceed certain limitations set forth in the Internal Revenue Code ("IRC"). Each year, participants may elect to defer 1% to 15% of their eligible compensation, as defined by the Plan. In addition, the Employer will contribute to the Plan, on behalf of the participant, a matching contribution equal to 20% of the participant's elective deferrals. The Employer will not match elective deferrals that exceed 4% of the participant's eligible compensation, in which case, the Employer will contribute only 0.8% of the participant's eligible compensation. Participants must make elective deferrals in order to receive the matching contribution. In addition, the Employer may elect to contribute a non-elective contribution on behalf of each participant, which will be allocated to all participants eligible to participate in the Plan. The Employer is not required to make a non-elective contribution to the Plan. For the year ended December 31, 2014, the Employer did not make the non-elective contribution as described above.

Participant Accounts

Each participant's account is credited with the participant's contribution, allocations of the Company's matching and non-elective contributions, and the Plan's gains or losses. Allocations are based on participant earnings, or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Upon enrollment in the Plan, participants direct the investment of their contributions and Company contributions into various investment options offered by the Plan. All Company contributions will be invested in the same proportion as the participants' elected contributions. Participants may change their investments online as frequently as they choose.

Note 1 - Description of the Plan (continued)

Vesting

Participants are immediately 100% vested in their deferred salary, participant voluntary and rollover contributions. If the participant terminates employment due to death, disability or attainment of age 65, the Plan's normal retirement age, the participant will also be 100% fully vested in their total account balances. Vesting in the Company's contribution portion is based on years of continuous service as follows:

Years of Service	Vested Percentage
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

Participants may borrow from their vested accounts a minimum of $500 and up to a maximum equal to the lesser of $50,000 or 50% of the vested portion of their account balance reduced by their respective highest outstanding loan balance during the prior twelve month period. The loans are secured by the vested balance of the participant's account and are repaid with principal and interest, ratably through after-tax payroll deductions on a weekly or bi-weekly basis over a five year period, and may be extended for the purchase of a primary residence, which must be repaid within a period of no more than 30 years. All loans shall bear a reasonable rate of interest in effect in the month the loan is effective. The interest rate is the prime rate as published in The Wall Street Journal on the 14th day of each month plus 2%, effective for any loan processed as of the 16th day of the month. Participants may only apply for one loan each calendar year and must repay any outstanding loan balance before a new loan can be processed. As of December 31, 2014 and 2013, the Plan had notes receivable from participants with principal balances totaling $40,487 and $3,012, respectively, which are included as receivables in the accompanying Statements of Net Assets Available for Benefits.

Participant Investment Rollover

Participants are allowed to transfer or rollover funds into the Plan from other qualified plans. For the years ended December 31, 2014 and 2013, total assets rolled into the Plan were $0, for both years.

Payments of Benefits

Upon termination of service, death or disability prior to normal retirement age, a participant may elect to receive a lump-sum amount equal to the vested portion of his or her account. Otherwise, upon reaching normal retirement age, a participant may elect to receive his or her vested portion as a lump-sum.

Forfeited Accounts

Forfeitures are created when participants terminate employment before becoming 100% vested in their full benefits under the Plan. During the year ended December 31, 2014, forfeited nonvested contributions amounted to $2,087. Forfeitures are used to reduce future employer contributions payable under the Plan. During 2014, $1,790 was applied to reduce employer contributions.

Note 1 - Description of the Plan (continued)

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Company. Loan and benefit payment administration fees are charged directly to the participant's account and are included in administrative expenses. For the year ended December 31, 2014, administrative expenses amounted to $500.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared using the accrual basis in accordance with accounting principles generally accepted in the United States of America. Internal Revenue Service Form 5500, *Annual Return/Report of Employee Benefit Plan* has been prepared using the cash basis of accounting. See Note 9 for a reconciliation of the financial statements to Schedule H of the Plan's Form 5500.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians, and insurance company. See note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are paid by participants who borrow from their own accounts. If a participant ceases to make loan payments and the Plan sponsor deems the loan to be a distribution, the participant loan balance is reduced, and a benefit payment is recorded. Accordingly, no allowance for credit losses has been recorded as of December 31, 2014 and 2013.

Note 2 - Summary of Significant Accounting Policies (continued)

Excess Contributions Payable

At December 31, 2014 and 2013, the Plan had $1,416 and $0, respectively, recorded as excess contributions payable to participants for contributions made in excess of amounts allowed pursuant to the Internal Revenue Service.

Contributions

Contributions from employees and the Company are recorded in the period in which the Company makes the payroll deductions from participant earnings.

Payment of Benefits

Benefits are recorded when paid. For the year ended December 31, 2014, benefits processed and approved for payment amounted to $74,463.

Use of Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and disclosures. Accordingly, the actual amounts could differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

New Accounting Standard Adopted

The accounting standard adopted in the 2014 financial statements described below affected certain note disclosures and impacts the statements of net assets available for benefits and the statement of changes of net assets available for benefits.

ASU No. 2015-12

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Parts I and II early.

Note 3 - Investments (Unaudited)

The Plan's investments were held in trust and administered by the Trustee. All investment information presented in the accompanying financial statements and supplemental schedule, including investments held and net appreciation (depreciation) of investments, and interest and dividends, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Plan Trustee.

Note 4 - Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs of valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy under FASB ACS 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived primarily from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified or contractual term, the level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered investment companies: Valued at daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective investment trust funds: The net asset value is based on the market value of the underlying investments. The net asset value is not a publicly quoted price in an active market

Stable asset fund: The fund is comprised primarily of fully benefit-responsive investment contracts and is valued at the net asset value of units of the bank or insurance collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 - Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

Note 5 - Transactions with Parties-In-Interest

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. These transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA and applicable exemptions promulgated thereunder. The Plan made a direct payment to the Plan's third party administrator in the amount of $500 for the year ended December 31, 2014. The Plan Sponsor pays all other fees related to the operation of the Plan directly.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan document to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the Plan provides 100% vesting and the net assets of the Plan will either be distributed to the participants and beneficiaries of the Plan or the participants' benefits will be transferred to another Plan sponsored by the Company.

Note 7 - Income Tax Status

The Plan sponsor adopted a non-standardized prototype plan effective August 11, 2008, which received a favorable opinion letter from the Internal Revenue Service dated July 8, 2014, which states that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code ("IRC") and is, therefore, not subject to tax under present income tax law. The Plan has been amended since receiving the opinion letter. The Plan is required to operate in conformity with the IRC to maintain qualification. Management is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

Accounting principles generally accepted in the United States of America require Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on technical merits, to be sustained upon examination by the Internal Revenue Service. The Plan sponsor has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain tax positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan sponsor believes it is no longer subject to income tax examinations for years prior to 2011.

Note 8 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note 9 - Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of the financial statements at December 31, 2014 to Form 5500:

Net assets available for benefits per the financial statements	$	747,848
