Independent Auditor's Report

To the Participants and Plan Administrator
Southwest Matching Plan
Middleburg Heights, Ohio

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Southwest Matching Plan (the Plan), which comprise the statement of net assets available for benefits as of December 31, 2014, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by the Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2014, that the information provided to the plan administrator by the trustee is complete and accurate.

Further, as discussed in Note 1, the Southwest Matching Plan has excluded from investments in the accompanying statement of net assets available for benefits certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, Annual Reporting Requirements for 403(b) Plans. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits.

The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not determinable. U.S. generally accepted accounting principles require that these accounts and the related income and distributions be included in the accompanying financial statements.

Disclaimer of Opinion

Because of the significance of the matters described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements referenced to in the first paragraph.

Other Matter - Supplemental Schedule

The supplemental Schedule of Assets (Held at End of Year) as of and for the year ended December 31, 2014 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Other Matter - 2013 Financial Statements

The 2013 financial statements of the Plan were audited by SS&G, Inc. (SS&G), whose directors and professional staff joined BDO USA, LLP effective January 1, 2015 and has subsequently ceased operations. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed SS&G not to perform, and they did not perform, any auditing procedures with respect to the information certified by the Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the trustee of the Plan. SS&G's report, dated September 15, 2014, indicated that (a) because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the financial statements taken as a whole and (b) the form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the 2014 financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Participants should refer to the Plan document for complete information regarding the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Southwest and certain subsidiaries are eligible to participate in the Plan immediately upon hire or as soon as administratively feasible. Rehired employees who were previously participants are eligible for participation immediately upon rehire.

The Plan has excluded from investments in the statements of net assets available for benefits as of December 31, 2014 and 2013 certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, Annual Reporting Requirements for 403(b) Plans. The total amount of net assets available for benefits held under these contracts is not determinable. The investment income and distributions related to such accounts cannot be determined and therefore have also been excluded from the statements of changes in net assets available for benefits for the years ended December 31, 2014 and 2013.

Contributions

Each year, participants may contribute up to the amount allowed by the Internal Revenue Code (IRC). The contributions for a participant are made by payroll deductions and are determined each pay period by multiplying the participant selected contribution rate then in effect by his/her eligible compensation before taxes for such period. The Plan maintains automatic enrollment whereby a participant's deferral is set at 3% of eligible compensation before taxes until changed by the participant. Participants who have attained age 50 before the end of the year are eligible to make catch-up contributions. The Plan Sponsor makes matching contributions equal to 50% of participant contributions for participants not meeting the Rule of 75 and 20% of participant contributions for participants who do meet the Rule of 75 (as defined). The percentage of the Plan Sponsor's matching contributions in both instances shall not be more than 6% of a participant's before-tax compensation. Additional discretionary contributions may be contributed at the discretion of the Chief Executive Officer. There was no discretionary contribution for Plan years 2014 and 2013.

Effective January 1, 2015, the Plan Sponsor will make matching contributions equal to 50% of participant contributions for all active participants; however, the percentage matched continues to be limited to 6% of a participant's before-tax compensation.

Effective January 1, 2016, the Plan will be amended to (1) provide three-year cliff vesting of matching contributions for all employees who are hired on or after January 1, 2016, (2) require participants be employed on December 31 to receive a matching contribution for the applicable Plan Year, unless employment ended due to death, disability, after normal retirement age or due to reorganization and (3) add a points-based Employer contribution, effective initially with the Plan year beginning January 1, 2016, whereby an eligible participant (as defined) is entitled to an additional contribution each Plan year based on total age and service years as of the last day of the applicable Plan year.

See accompanying independent auditor's report

Southwest Matching Plan

Notes to Financial Statements

Participants direct their elective contributions into various investment options offered by the Plan. If a participant is automatically enrolled, their contributions are invested in the applicable life cycle fund based on the participant's age and projected retirement date until the participant changes their election. The Plan Sponsor's contributions are allocated in the same manner as that of the participant's elective contributions.

Participants may also contribute amounts into the Plan from other qualified plans (known as rollover contributions).

Participant Accounts

Each participant's account is credited with the participant's contributions, the Plan Sponsor's matching contributions and allocations of Plan earnings, and is charged with an allocation of administrative expenses. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. Allocations of administrative expenses are based on the participant's account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon.

Effective January 1, 2015, all matching contributions will be 100% vested immediately.

Forfeited Accounts

Forfeitures shall be determined at least once per year. Forfeitures may be used to pay administrative expenses. Forfeitures of matching contributions that have not been used to pay administrative expenses shall be applied to reduce the earliest employer contributions made after the forfeiture was determined. There were no forfeitures in 2014 or 2013.

Notes Receivable from Participants

Participants may borrow from their accounts at a minimum amount of \$1,000 and up to a maximum amount equal to the lesser of \$50,000 (reduced by the participant's highest outstanding loan balance during the preceding 12-month period), or the greater of 50% of their vested account balance or \$10,000, reduced by any outstanding loan balance on the date the new loan is made. Loan terms range from 1-5 years or up to 15 years for the purchase of a primary residence. A participant may only have one outstanding loan at any point in time. The loans bear interest at a fixed rate of 4.25% at the date of issuance as determined by the Plan Sponsor. Principal and interest are paid ratably through biweekly payroll deductions.

If a participant terminates employment with the Plan Sponsor, they may continue to make loan payments through a pre-authorized check agreement. If the loan is not repaid, it will automatically be treated as a distribution to the participant after three months.

Southwest Matching Plan

Notes to Financial Statements

Payment of Benefits

Upon separation from service with the Plan Sponsor due to death, disability, retirement or termination, a participant may elect to receive a lump-sum payment. Additionally, a participant who has attained age 59½ may withdraw at any time, any part of his/her account resulting from elective deferral contributions, matching contributions, discretionary contributions and rollover contributions.

In-service withdrawals are available in certain limited circumstances, as defined by the Plan. These withdrawals are limited to the amount of the participant's elective deferral contributions. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service (IRS), and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Administration

The Plan is administered by Southwest General Health Center (Plan Administrator). Southwest Community Health System (Southwest) is the Plan Sponsor and Employer. The Human Resources department of Southwest General Health Center is responsible for the general administration of the Plan. The Investment Committee of Southwest is responsible for reviewing investment performance as stated in the Investment Policy Statement. The assets of the Plan are maintained and the transactions therein are executed by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company (the Trustee/Investment Manager), a member company of The Principal Financial Group, who also serves as the primary plan record-keeper. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Administrative Expenses

Fees for legal, accounting and other services are paid by Southwest. Administrative and trustee fees for the Plan may be paid out of the Plan's assets, or Southwest may elect to assume these fees to the extent it chooses. These fees were primarily paid by the Plan for the years ended December 31, 2014 and 2013.

Plan Termination

Although the Employer has not expressed any intention to do so, the Employer has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements and supplemental schedule have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

See accompanying independent auditor's report

Southwest Matching Plan

Notes to Financial Statements

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded when earned. Dividends are recorded on the ex-dividend date.

The Accounting Standards Codification (ASC) Topic on Defined Contribution Pension Plans requires that investment contracts held by a defined contribution plan be reported at fair market value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the fixed income account as well as the adjustment from fair value to contract value. The contract value approximates the fair value for the Plan's investment in guaranteed investment contracts at December 31, 2014 and 2013.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the financial statements. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for

See accompanying independent auditor's report

Notes to Financial Statements

fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan is currently evaluating the effect of the ASU No. 2015-07 amendments on its financial statements.

In July 2015, the FASB issued ASU No. 2015-12, (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient - consensus of the Emerging Issues Task Force. The amendments in this update (1) require a pension plan to use contract value as the only measure for fully benefit-responsive investment contracts, (2) simplify and increase the effectiveness of the investment disclosure requirements for employee benefit plans, and (3) provide benefit plans with a measurement-date practical expedient similar to the practical expedient provided to employers in ASU 2015-04, Practical Expedient for the Measurement Date of an Employer's Defined Benefit Obligation and Plan Assets. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Part I and Part II shall be applied retrospectively to all periods presented, while the amendments in Part III shall be applied prospectively. The Plan is currently evaluating the effect of the ASU No. 2015-12 amendments on its financial statements.

Subsequent Events

The Plan has evaluated subsequent events through October 6, 2015, which is the date the financial statements were available to be issued, and has determined that there were no subsequent events that have occurred through the date that have not already been reflected in the financial statements and/or disclosed in the notes.

3. Investment Contract with Insurance Company

The Plan invests in a fully benefit-responsive guaranteed investment contract (GIC or Contract) with Principal Life Insurance Company (Principal). Principal maintains the contributions in a guaranteed interest account, which is backed by Principal general assets. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statements of net assets available for benefits at fair value, which approximates contract value. Contract value, as reported to the Plan by Principal, represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with Principal, but may not be less than 1% or greater than 3%. Such interest rates are reset on a semiannual basis. Changes in future crediting interest rates will not impact the amount reported as an adjustment from fair value to contract value on the statements of net assets available for benefits for the portion of net assets attributable to fully benefit-responsive investment contracts. Fair value is considered book value less early withdrawal charge.

See accompanying independent auditor's report

Southwest Matching Plan

Notes to Financial Statements

	Average Yields	
	Based on Actual Earnings	Based on Interest Rate Credited to Participants
January 1, 2013 - May 31, 2013	2.10%	2.10%
June 1, 2013 - May 31, 2015	2.00%	2.10%
June 1, 2015 - November 30, 2015	1.90%	1.90%

The interest rate history summarized above is prior to any Plan-level, record-keeping expenses being deducted. Any difference between the above summarized interest rates and the actual earned crediting rates for each Plan participant would be due to a rate level service fee, which is a direct offset to the interest rates summarized above.

By definition, the group annuity contract is an insurance contract. As a result, the Plan may transact according to the terms defined in the contract at any time. Transactions are however also subject to specific provisions regarding the existence of competing investment options and the Plan Sponsor's intent to not terminate the Plan's interest. The Plan Sponsor may terminate the Plan's interest at its request, subject to certain surrender charges. A notification of termination is irrevocable and will be made pursuant to the termination request. The Plan Administrator does not believe that the occurrence of any events that would limit the Plan's ability to transact at contract value with participants is probable.

Events that would allow the issuer to terminate the investment contract are: 1) the investment manager or Trustee breaches any of its material obligations under the agreement, 2) any representation of the investment manager is or becomes untrue in any material respect, 3) the investment manager with respect to the contract is terminated, unless a qualified professional manager is duly appointed and is agreed to by the issuer, 4) the issuer determines that the execution, delivery, or performance of the contract constitutes or will constitute a prohibited transaction, 5) failure to pay amounts due to the issuer, and 6) termination of the Plan or disqualification of the trust.

The guaranteed investment contract does not permit the insurance company to terminate the Contract without at least 60-day advanced notice of when no further contributions will be accepted into this Contract. The Contract will be terminated when the remaining balance in the Contract is paid out to participants.

Each investment contract is subject to early termination penalties that may be significant.

4. Investments / Notes Receivable from Participants (unaudited)

All investments and notes receivable from participants information disclosed in the accompanying financial statements and supplemental schedule, including investments and participant notes receivable held at December 31, 2014 and 2013, net appreciation in fair value of investments, and interest and dividend income for the years ended December 31, 2014 and 2013, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the trustee of the Plan.

Notes to Financial Statements

Investments included in registered investment companies and separate accounts on the Statements of Net Assets Available for Benefits that represent 5% or more of the Plan's net assets are separately identified:

<i>December 31,</i>	2014	2013
T. Rowe Price Retirement 2030 Advisor Fund	\$ 19,062,810	\$ 16,681,605
T. Rowe Price Retirement 2020 Advisor Fund	18,082,555	17,305,366
T. Rowe Price Retirement 2040 Advisor Fund	10,303,872	9,357,920
T. Rowe Price Health Sciences Fund	5,602,945	3,649,611
Principal Fixed Income Guaranteed Option	5,579,736	5,080,813

The Plan's investments in shares of registered investment companies (including investments purchased, sold, as well as held during the Plan year) appreciated in fair value by \$4,237,590 and \$11,011,905 during the years ended December 31, 2014 and 2013, respectively.

5. Fair Value Measurements

The Plan follows the provisions of *Fair Value Measurements and Disclosures*, which defines fair value and provides guidance for measuring fair value and expands disclosures about fair value measurements. *Fair Value Measurements and Disclosures* does not require any new fair value measurements, but rather applies to all other accounting pronouncements that require or permit fair value measurements.

Fair Value Measurements and Disclosures establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobserved inputs (Level 3 measurement). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

See accompanying independent auditor's report

Southwest Matching Plan

Notes to Financial Statements

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered investment companies: Fair value of mutual funds is based on quoted redemption values on the last business day of the Plan year and is valued at the net asset value of shares held by the Plan at year-end.

Guaranteed investment contract (GIC): Classified as a Level 3 asset and represents a contract in which the issuer of the GIC takes a deposit from the Plan and purchases investments that are held in the issuer's general accounts. In return, the issuer of the GIC is obligated to repay the principal and specified interest guaranteed to the Plan. The fair value of this fund is considered to be contract value less an early withdrawal charge. The GIC has a 5% surrender fee should the Plan discontinue the contract without proper notification as prescribed in the contract. Contracts cannot be sold or pledged to third parties per the Plan agreement. Proceeds from discontinuation cannot be higher than the fair value of the GIC.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

5. Tax Status of the Plan

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (the Code) and therefore, it is not currently eligible to receive a determination letter from the Internal Revenue Service (IRS). The Plan is required to operate in conformity with the Code to maintain its qualifications under Section 403(b). The plan administrator believes that the Plan is operating in accordance with the applicable requirements of Section 403(b) of the Code and, therefore, believes the Plan is qualified and the related custodial accounts are tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for Plan years prior to 2011.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Southwest Matching Plan

Notes to Financial Statements

7. Transactions with Parties-in-Interest

Certain of the Plan's assets are invested in funds managed by the Plan's trustee. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.
