Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Alpin Haus Ski Shop, Inc. 401(k) Profit Sharing Plan (Plan), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Massachusetts Mutual Life Insurance Company, the Custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the Custodian holds the Plan's assets and executes investment transactions. The Plan Administrator has obtained certifications from the Custodian as of December 31, 2014 and 2013, and for the years then ended, that the information provided to the Plan Administrator by the Custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

Supplementary Information

The supplemental schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2014, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with Department of Labor Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of Plan

The Alpin Haus Ski Shop, Inc. (Company) 401(k) Profit Sharing Plan (Plan) was established effective March 1, 1993.

The following is a brief description of the Plan and is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

a. General

The Plan is a defined contribution profit sharing plan with a 401(k) feature covering all eligible employees of the Company. The Plan is drafted on a standardized prototype document and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan assets are held and administered by Massachusetts Mutual Life Insurance Company, the Custodian of the Plan. Company contributions, participant elective deferrals, and participant accounts are also held and managed by the Custodian, who invests cash received and income from investments in accordance with Company and participant instructions, and makes distributions to participants. The Plan's Trustees are responsible for the oversight of the Plan, including investment offerings and monitoring investment performance of the Plan.

b. Contributions

Each year, participants may contribute a percentage or fixed dollar amount of their pre-tax annual compensation to the Plan. In addition, participants may contribute after-tax Roth elective deferral contributions to the Plan. Contributions are subject to certain limitations as defined by the Plan and the Internal Revenue Code (IRC). The maximum participant deferral was $17,500 for both the Plan years ended December 31, 2014 and 2013. Participants who have attained age 50 before the end of the Plan year are also eligible to make additional catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans.

The Company may make matching contributions equal to a discretionary percentage of the employee's elective deferral (up to a maximum of 6% of the participant's total compensation). The Company's discretionary matching contributions totaled $12,453 and $-0- for the years ended December 31, 2014 and 2013.

The Company may also make a discretionary profit sharing contribution at the option of its Board of Directors. There were no discretionary profit sharing contributions made for the years ended December 31, 2014 and 2013.

Participants direct the investment of contributions into various investment options offered by the Plan.

Note 1 - Description of Plan - Continued

c. Plan Eligibility

Employees are eligible to enter the Plan after they have attained the age of twenty-one and have completed one year of service. One year of service is defined as being credited with 1,000 hours of service in a consecutive twelve-month period. Entry dates of the Plan are January 1 and July 1. Participants will share in the employer's profit sharing match regardless of service completed during the year or employment status at the end of the Plan year. Participants who are actively employed at the end of the Plan year will share in the allocation of the employer's discretionary profit sharing contribution regardless of service completed during the Plan year. Participants who are not actively employed at year-end must complete more than 500 hours of service to share in the employer's profit sharing contributions. Participants who are not actively employed at the end of the year due to death, total and permanent disability, or early or normal retirement, but otherwise meet eligibility requirements, will share in the employer's matching and profit sharing contributions.

d. Participant Accounts

Each participant's account is credited with the participant's contributions and an allocation of (a) the Company's discretionary profit sharing and matching contributions; (b) the Plan's investment earnings (losses), net of investment expenses, (c) forfeitures of the nonvested portion of terminated participants' accounts, and (d) administrative expenses paid by the Plan. Allocations are based on participant compensation, account balances, or specific participant transactions, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

e. Vesting

Participants are immediately vested in their contributions and rollovers, plus actual earnings thereon. Vesting in the Company's matching and discretionary contributions is subject to a graduated vesting schedule. A participant is 100% vested upon: (1) disability, (2) death, (3) normal retirement at age 62 with five years of participation, or (4) termination of the Plan. A participant shall have a vested and nonforfeitable interest in his or her account determined by the number of years of service as follows:

Years of Service	Vesting %
Less than 2	0
2	20
3	40
4	60
5	80
6	100

Note 1 - Description of Plan - Continued

f. Participants Notes Receivable

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000, or 50% of their vested account balance. In addition, the $50,000 limit is reduced by the highest outstanding loan balance (of any previous loans made) in the previous twelve months. Loan terms range from one to five years, or if for the purchase of a primary residence, a reasonable number of years as determined by the Plan Administrator. The loans are secured by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest are paid ratably through regular payroll deductions.

g. Payment of Benefits

Upon death, disability, attainment of normal retirement age, or termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum payment. The Plan may distribute account balances to participants whose account balance is $5,000 or less. The Plan also allows hardship distributions up to the participant's vested account balance and in-service distributions for participants upon attaining age 59½.

h. Forfeited Accounts

The nonvested portion of terminated participants' accounts, as defined by the Plan, represents a forfeiture. Forfeitures are used to reduce Company contributions. During the years ended December 31, 2014 and 2013, the Company did not use forfeitures to reduce Company contributions. As of December 31, 2014 and 2013, the Plan has $1,540 and $1,063, respectively, of forfeitures available to reduce future Company contributions.

Note 2 - Summary of Significant Accounting Policies

a. Basis of Accounting and Financial Statement Presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) for defined contribution plans.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Note 2 - Summary of Significant Accounting Policies - Continued

b. Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

c. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Plan's Trustees determine the Plan's valuation polices utilizing information provided by the investment advisors and Custodian.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

d. Participants Notes Receivable

Notes receivable from participants are stated at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. Loans treated as distributions totaled $-0- and $87 for the years ended December 31, 2014 and 2013, respectively.

e. Payment of Benefits

Benefits are recorded when paid.

f. Administrative Fees

Administrative fees of the Plan are paid by the Plan and the Company. Fees related to the administration of participant notes receivable and distributions are charged directly to the participant's account and are included in administrative expenses. Other administrative expenses paid by the Plan are allocated proportionately to participants based on the value of their account balances.

g. Subsequent Events

The Plan has evaluated subsequent events for potential recognition or disclosure through September 30, 2015, the date the financial statements were available to be issued.

Note 3 - Information Certified by Custodian (Unaudited)

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103.8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information, certified by the Custodian of the Plan as complete and accurate, except for comparing such information certified by the Custodian to information including the Plan's financial statements and supplemental schedule:

	December 31,	
	2014	2013
Investments, at fair value	$ 5,117,023	$ 4,707,738

Note 4 - Investments and Fair Value Measurement - Continued

The Plan's investments (including investments bought, sold, and held during the year) appreciated (depreciated) as follows:

	Years Ended December 31,	
	2014	2013
Pooled separate accounts	$ 197,828	$ 908,908
Investment contract	2,721	(96,219)
	$ 200,549	$ 812,689

The framework for measuring fair value prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability, and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have no changes to the methodologies used at December 31, 2014 and 2013.

Cash, held for investment: The carrying amounts of cash approximate fair value because of the short maturity of these instruments.

Pooled separate accounts: Valued at the net asset value (NAV) of shares held by the Plan at year-end of the underlying assets.

Note 4 - Investments and Fair Value Measurement - Continued

Guaranteed investment contract: These investments are principally valued using a market value formula approach. The estimated fair value of the guaranteed investment contract is determined to be the calculated market value of the Contract. The market value is calculated using the following unobservable inputs: (i) the assumed interest rate obtained by MassMutual on new investments where a proxy is the Barclays Capital U.S. Aggregate Index (excluding Treasuries) with an adjustment made to duration; and (ii) the experience rate for the Contract, which is the weighted average of the investment year interest rates for pension account funds. The weighting reflects the distribution of Contract funds to the various investment years.

The following tables set forth by level with the fair value hierarchy, the Plan's asset at fair value:

(a) These funds primarily invest in common stock, other equity securities, fixed income securities, and money market instruments, and seek to invest in companies that appear to offer superior opportunities for growth of capital. While these funds are primarily focused on companies in the United States, portions of the assets held may be securities of issuers with primary operations outside the United States.

(b) These funds primarily invest in common stock, other equity securities, fixed income securities, and money market instruments. While these funds are primarily focused on companies in the United States, portions of the assets held may be securities of issuers with primary operations outside the United States.

(c) These funds primarily invest in the common stocks, preferred stocks, depository receipts, and securities convertible to common or preferred stocks of growth companies that are domiciled or that have their primary operations outside of the United States, and may invest in emerging markets as well as in the developed markets throughout the world, but may also include securities of companies in the United States as well.

(d) These funds primarily invest in inflation-indexed bonds, corporate bonds, bank certificates of deposit, fixed time deposits, mortgage-backed and asset-backed securities, and obligations of the United States government or its agencies or instrumentalities, but may also invest in convertible securities, preferred stocks, warrants, bank loans, and other fixed income securities, including Rule 144A securities of both domestic and foreign issuers. The funds may also enter into repurchase agreement transactions, futures contracts, interest rate swaps, total return swaps, and credit default swaps.

(e) These funds primarily invest in common stocks of companies whose market capitalizations are between $317 million and $394 billion at the time of purchase. The funds may also invest in futures contracts or derivatives. The funds expect that they will engage in active and frequent trading and so will typically have a relatively high portfolio turnover rate.

(f) These funds primarily invest in blue chip equities and investment-grade fixed-income securities, using a balanced approach and a U.S. emphasis. The funds are primarily invested in common stocks, preferred stocks, bonds, convertibles, and cash.

(g) These funds primary invest in securities of issuers in the utilities and commodity industry. The fund primarily invests in equity securities, including common stocks, preferred stocks, securities convertible into stocks, equity interests in real estate investment trusts, and depositary receipts for such securities. The fund's investment objective is to seek total return.

Note 5 - Guaranteed Investment Contract

The Plan has entered into a benefit-responsive investment contract with MassMutual Retirement Services. MassMutual Retirement Services maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Massachusetts Mutual Life Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rates are based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	December 31,	
Average Yields	2014	2013
Based on actual earnings	3.81%	2.76%
Based on interest rate credited to participants	3.81%	2.76%

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations. Upon termination of the Plan, participants will become 100% vested in their accounts. The Custodian will continue to hold the Plan assets and will make distributions of the Plan benefits in accordance with the instructions of the Company and the Plan provisions.

Note 7 - Tax Status

On March 31, 2008, the Internal Revenue Service stated that the prototype Plan document adopted by the Plan, as then designed, qualified under Section 401(a) of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself; however, the Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable requirements of the IRC.

The Plan's management evaluates tax positions taken by the Plan and recognizes a tax liability or asset if an uncertain tax position was taken and it is more likely than not that the tax position would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions.

Note 8 - Related Party and Party-in-Interest Transactions

The Company paid for certain administrative expenses on behalf of the Plan, which totaled $18,875 and $10,346 for the years ended December 31, 2014 and 2013, respectively.

Certain administrative functions are performed by officers or employees of the Company. No such officers or employees receive compensation for such functions from the Plan.

The pooled separate accounts offered as investment options are managed by Massachusetts Mutual Life Insurance Company, the Custodian of the Plan.

Note 9 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
