Report of Independent Auditor

To the Trustees of the International Intimates Inc.
Retirement Plan:

Report on the Financial Statements
We were engaged to audit the accompanying financial statements of International Intimates Inc. Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520, 103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform any auditing procedures with respect to the information summarized in Note 4, which was certified by Principal Life Insurance Company, Principal Life Insurance Company on behalf of Union Bond and Trust, and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the custodians of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the custodians hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained a certification from the custodians as of December 31, 2014 and 2013 and for the year ended December 31, 2014, that the information provided to the plan administrator by the custodians is complete and accurate.

Disclaimer of Opinion
Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter
The supplemental schedule of Form 5500 Schedule H, Line 4i – Schedule of Assets Held for Investment Purposes as of December 31, 2014 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations
The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE 1 – DESCRIPTION OF PLAN

The following description of the International Intimates Inc. Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a qualified defined contribution plan covering all eligible employees of International Intimates Inc. (the "Company", "Employer" or "Plan Sponsor"), which was amended and restated effective January 7, 2003 (the "Amendment"), under which participants may elect to make pre-tax contributions under Section 401(k) of the Internal Revenue Code. The Employer contracts with a trustee for investing, safekeeping and accounting of the Plan's assets and valuation of the individual participant's accounts. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA")

Eligibility

Employees who have attained the age of eighteen with six months of service are eligible to participate in the Plan. Prior to the Amendment, an employee was eligible for participation when they had attained the age of twenty one, with one year of service defined as at least 1,000 hours of service during a period of 12 consecutive months.

Plan Management

The Company, who is the Plan administrator, is empowered to appoint or remove the trustees, establish the Plan's funding policy and method, make contributions and amend or terminate the Plan.

Contributions

Participants are permitted to make pre-tax contributions equal to 15% of remunerations, subject to IRS limitations. The Company makes a matching contribution equal to 25% of each participant's contribution, such contributions being limited to 4% of the employee's remunerations. The Company may make additional contributions to the Plan at its discretion. For the years ended December 31, 2014 and 2013, the Company made matching contributions of $140,950 and $139,734 respectively.

Participant Accounts

Participant accounts are credited with participant contributions; the Company's matching contribution, investments earnings and a pro-rata allocation of the Company contributions based upon employee remunerations.

Vesting

Vesting is based on the years of continuous service and whether the Plan has been top-heavy in the Plan year. Participants are immediately vested 100% in their voluntary contributions plus actual earnings thereon. The Plan was not subject to the top-heavy regulations for the years ended December 31, 2014 and 2013. Participants commence vesting in all employer contributions in accordance with the following schedule.

Years of Service	Vested Interest	(Top-Heavy)
1	0%	0%
2	0%	20%
3	20%	40%
4	40%	60%
5	60%	80%
6	80%	100%
7	100%	100%

Participants become fully vested upon the attaining their normal retirement age or in the event of death or total and permanent disability.

Payment of Benefits

On termination of services due to death, disability or retirement, a participant may elect to receive either a lump sum distribution equal to the value of the participant's vested interest in his or her account or annual installments of at least $1,000 payable for a specified number of years. For termination of services due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or annual installments. However, if the vested interest does not exceed $3,500, the administrator may direct that a single lump sum distribution be paid to the participant immediately following the date on which services terminated.

Forfeitures

Participants who terminate employment, but have not become fully vested, must forfeit the unvested balance in their account. Forfeited amounts will be used first to pay any administrative expenses of the plan, and then to reduce the Company's contribution for the Plan year. At December 31, 2014 and 2013, forfeited nonvested accounts totaled $7,341 and $2,195, respectively. In 2014, employer contributions were reduced by $6,666 from forfeited nonvested accounts.

Plan Expenses
All Plan administrative expenses may be paid out of the Trust Fund unless paid by the Company. Administrative expenses of approximately $7,500 were paid by the Company for the Plan for the years ended December 31, 2014 and 2013.

Participant Loans
A participant may request a withdrawal from his or her account in the form of a loan. The amount of the loan must be in excess of $1,000 and, when added to the outstanding balance of all other loans to the participant, shall not exceed the lesser of one half of the participants vested balance or $50,000, as adjusted by the Plan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Plan's financial statements have been prepared in conformity with generally accepted accounting principles. A summary of the significant accounting principles and policies used by the Plan are as follows:

Basis of Accounting
The financial statements of the Plan are prepared under the accrual method of accounting.

Valuation of Investments and Income Recognition
The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

The Plan invests participants' account balances at the direction of the participant in any mutual funds administered by the Principal Financial Group ("Principal"). These investments are valued at the net asset value reported by the fund managers. Fair values of the underlying investments are based upon the latest published market quotations. Participant loans are valued at cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates
The preparation of the Plan's financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for plan benefits at the date of the financial statements and the changes in net assets available for plan benefits during the reporting period and, when applicable, disclosures of contingent

assets and liabilities at the date of the financial statements. Actual results may differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded based on the terms of the Plan agreement.

NOTE 3 – INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets:

	2014	2013
Principal LifeTime 2035 SEP Acct	$ 1,765,774	$ 1,326,629
Principal Stable Value Fund	1,106,765	1,069,071

Principal Large Cap Growth SEP Acct	849,258	*
Principal LifeTime 2015 SEP Acct	*	735,780

* represents investment under 5% in applicable year

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) resulted in an increase in value of $853,726 as follows:

Pooled separate accounts	$ 848,396
Mutual funds	(2,994)
Common collective trust	8,324
Total	$ 853,726

NOTE 4 – INFORMATION CERTIFIED BY CUSTODIAN

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under the Employee Retirement Security Act of 1974. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Principal Life Insurance Company, Principal Life Insurance Company on behalf of Union Bond and Trust, and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the custodians of the Plan, as complete and accurate, except for comparing such information certified by the custodians to information included in the plan's financial statements and supplemental statements:

	2014	2013
Investments, at fair value		
Pooled separate accounts	$ 13,400,090	$ 12,056,493
Registered investment companies	563,726	453,668
Common collective trust	1,106,765	1,069,071
Adjustment from fair value to contract value for interest in collective trust related to fully benefit-responsive investment contracts	(11,638)	(6,471)

The following investment income was also certified by the custodians for the year ended December 31, 2014:

Dividends and interest	$ 24,027
Net appreciation of fair value	853,726
Administrative fees	(21,820)
	$ 855,933

NOTE 5 – PLAN TERMINATION

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate its participation in the Plan, subject to the provisions of ERISA. In the event of a Plan termination, participants will become 100% vested in their account balance.

NOTE 6 – FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in the active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Mutual Funds (Registered Investment Companies): Fair values are based on unadjusted quoted prices in active markets for identical assets or liabilities. Level 1 assets primarily include exchange-traded equity securities, mutual funds and US Treasury Bonds. Prices are obtained from readily available sources for market

transactions involving identical assets or liabilities and these are classified as Level 1 investments.

Common Collective Trust and Pooled Separate Accounts: The underlying investments of the common collective trust and pooled separate accounts are primarily in a pool of investment contracts that are issued by insurance companies and commercial banks, and in contracts that are backed by high-quality bonds, bond trusts, and bond mutual funds. The fair value is the amount Plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other than death, disability, termination or retirement. The fair value has been estimated using the net asset value per share of the underlying investments.

These methodologies may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013:

(a) Balanced/Asset Allocation: This asset class is generally comprised of a combination of fixed income and equity investment options. These investment options may include balanced, asset allocation, target-date, and target-risk investment options. Although typically lower risk than investment options that invest solely in equities, all investment options in this category have the potential to lose value.

(b) Fixed Income: This asset class is generally comprised of investment options that invest in bonds, or debt of a company or government entity (including U.S. and Non-U.S.). It may also include real estate investment options that directly own property. These investment options typically carry more risk than short-term fixed income investment options (including, for real estate investment options, liquidity risk), but less overall risk than equities. All investment options in this category have the potential to lose value.

(c) International Equity: This asset class is comprised of investment options that invest in stocks, or shares of ownership in companies with their principal place of business or office outside the United States. These investment options often carry more risk than U.S. equity investment options but may have the potential for higher returns. They may be an appropriate choice for long-term investors who are seeking the potential for growth. All investment options in this category have the potential to lose value.

(d) Large U.S. Equity: This asset class is generally comprised of investment options that invest in stocks, or shares of ownership in large, well-established, U.S. companies. These investment options typically carry more risk than fixed income investment options but have the potential for higher returns over longer time periods. They may be an appropriate choice for long-term investors who are seeking the potential for growth. All investment options in this category have the potential to lose value.

(e) Small/Mid US Equity: This asset class is generally comprised of investment options that invest in stocks, or shares of ownership in small to medium-sized U.S. companies. These investment options typically carry more risk than larger U.S. equity investment options but have the potential for higher returns. They may be an appropriate choice for long-term investors who are seeking the potential for growth. All investment options in this category have the potential to lose value.

(f) Short-Term Fixed Income: This asset class is generally comprised of short-term, fixed-income investment options that are largely liquid and are designed to not lose much value. These investment options may include stable value, money market, short-term bond, and guaranteed interest accounts. They are considered to be among the least risky forms of investment options. However, they typically have a lower rate of return than equities or longer-term fixed income investment options over long periods of time. Depending on the objectives of the investment options, they may experience price fluctuations and may lose value.

NOTE 7 – GUARANTEED INVESTMENT CONTRACT WITHIN COLLECTIVE INVESTMENT TRUST

The Plan's Principal Stable Value Fund is a collective investment trust ("CIT") that invests in a fund that is an insurance contract. This is a CIT for which the net asset value ("NAV") is based on the contract value. Investments held by a CIT are required to be reported at fair value, however, contract value is the relevant measurement characteristic for that portion of the net assets of a CIT attributable to fully benefit-responsive investment contracts. This is because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the underlying defined-contribution plans. The fair value of conventional contracts is determined using a discounted cash-flow methodology where the individual contract cash flows are discounted at the prevailing interpolated yield curve rate as of year-end. Individual assets of the synthetic investment contract are generally valued at representative quoted market prices. Short-term securities, if any, are stated at amortized cost, which approximates market value. Debt securities are valued on the basis of valuations furnished by a pricing service approved by the trustee, which determines valuations using methodology generally recognized by institutional traders. Accrued interest, if any, on the underlying investments is added to the fair value of the investments for presentation purposes. Plan sponsors will need to assess the valuing and reporting of their participating trusts investment in the Principal Stable Value Fund. The assets held at fair value in the fund are predominantly categorized as a Level 2 fair value measurement. Unfunded commitments typically are found in private equity funds and therefore are not applicable to CIT's.

The fair value of the Principal Stable Value Fund at December 31, 2014 and 2013 was $1,106,765 and $1,069,071, respectively.

NOTE 8 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of the net assets available for plan benefits per the financial statements for the years ended December 31, 2014 and 2013 to Schedule H of the Form 5500:

	2014	2013
Net assets available for benefits per financial statements	$ 15,543,936	$ 13,905,777
Add:		
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	11,638	6,471
Net assets available for benefits per Form 5500	$ 15,555,574	$ 13,912,248

The following is a reconciliation of net increase in net assets available for plan benefits per the financial statements for the year ended December 31, 2014 to Schedule H of the Form 5500:

Net increase in assets available for benefits per financial statements	$ 1,638,159
Add:	
Prior year adjustment from fair value to contract value for fully benefit-responsive investment contracts	(6,471)
Less:	
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	11,638
Net income per Form 5500	$ 1,643,326

On the Form 5500, the Union Bond and Trust Company Principal Stable Value Fund and the appreciation of the fund are reported at fair value. These financial statements report the fund at contract value.

NOTE 9 – RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of various funds managed by Principal Financial Group and, therefore, any transactions between the Plan and Principal Financial Group are considered related party transactions. For the years ended December 31, 2014 and 2013, fees paid to Principal amounted to 21,820 and 17,856, respectively.

NOTE 10 – TAX STATUS

The Plan has adopted a prototype plan sponsored by Principal Life Insurance Company. The Internal Revenue Service has determined and informed Principal Life Insurance Company by a letter dated March 31, 2008, that the prototype plan is designed in accordance with the applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently operating in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the Plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

NOTE 11 – RISKS AND UNCERTAINTIES

The Plan provides for various investments in stocks, bonds and money markets which are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect participants' account balances and the amounts in the statement of net assets available for plan benefits.

NOTE 12 – SUBSEQUENT EVENTS

The Plan Administrator has evaluated all subsequent events through October 8, 2015, the date the financial statements were available to be issued.
