Litchfield Cavo LLP 401(k) Plan

Notes to Financial Statements

December 31, 2014 and 2013

Note 1: Description of the Plan

The following description of the Litchfield Cavo LLP 401(k) Plan (Plan) is provided for general information purposes only. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Litchfield Cavo LLP (Firm) who have completed six months of service. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA), as amended by subsequent legislation.

Wilmington Trust is the trustee under a contractual agreement with the Firm and manages all investments. Pattillo Brown & Hill LLP (PB&H) is the recordkeeper for the Plan. The recordkeeping agreement provides that the recordkeeper shall keep account of all receipts and disbursements, benefit payments and other transactions, and shall provide annually a report setting forth such transactions and the status of the fund at the end of the period.

The amounts in the accompanying statements were accumulated from the reports of the recordkeeper.

Contributions

Each year participants may contribute up to 85% of annual compensation, as defined in the Plan. Participants may designate their deferral as pre-tax or Roth contributions and cannot exceed $17,500 in 2014 in accordance with the Internal Revenue Code. Age 50 and over participants can contribute an additional $5,500 in 2014 in accordance with the Internal Revenue Code. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Effective February 1, 2008, all new participants are automatically enrolled, upon satisfying the eligibility requirements and automatically defer 5% of annual compensation for each payroll period, unless an alternative election is made by the participant.

The Firm will contribute a safe harbor non-elective contribution of 3%, based on a participant's limited gross compensation for the plan year, to those who have completed the eligibility requirements.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Firm's contribution and plan earnings, and charged with an allocation of investment and administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and the Firm contributions plus actual earnings thereon.

Investments

Participants self-direct the investment of contributions into various investment options offered by the Plan. Investment options include a collective trust stable value fund and registered investment companies. Participants may change their selection of investments at any time.

Notes Receivable from Participants

Participants may borrow from their fund account a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates. Principal and interest are paid ratably through payroll deductions. Interest rates for the outstanding loans are 4.25% at December 31, 2014.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may receive the value of their account balance in a lump sum.

Forfeited Accounts

Forfeited nonvested accounts are used to reduce employer contributions or to pay the Plan's ordinary and necessary administrative expenses. At December 31, 2014 and 2013, there were no forfeitures available for future use.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The Plan's investments in registered investment companies are valued at quoted market prices. The Plan's investments in collective trust funds are stated at fair value as described below.

Purchases and sales of securities are reflected on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fully Benefit-Responsive Investment Contract

Investment contracts held by a defined contribution plan are reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. At December 31, 2014 and 2013, the Plan invests in investment contracts through a collective trust fund. The statement of net assets available for benefits presents the fair value of the investment in the collective trust fund as well as the adjustment from fair value to contract value and is based on information reported by the issuer of the collective trust fund at year-end. The statement of changes in net assets available for benefits is prepared on the contract basis. The contract value of the funds represent contributions plus earnings, less participant withdrawals and administrative expenses. The average yield of the underlying investment contracts was 1.46% in 2014. The average yield credited to participants in 2014 was 1.41%.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

Certain administrative and trustee fees related to the general administration of the Plan are paid directly by the Firm and not reimbursed by the Plan. Certain investment fees are netted against the net appreciation. Administrative expenses paid by the Plan of $12,573 during 2014 are reported as incurred.

Note 3: Investments

The following presents investments that represent 5% or more of the Plan's net assets at December 31:

	2014	2013
Investments, at fair value		
Morley Stable Value Fund	$ 1,963,752	$ 2,137,188

*Investment does not exceed 5% of net assets available for benefits.

The Plan's investments (including investments bought, sold and held during the year) appreciated as follows for the year ended December 31, 2014:

	2014
Collective trust fund	$ 10,000
Registered investment companies	1,608,623
	$ 1,618,623

Note 4: Fair Value Measurements

Generally accepted accounting principles provide a uniform framework for the definition, measurement and disclosure of fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The financial accounting standards establish a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The financial accounting standards describe three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

The net asset values of the collective trust fund are based on the market value of its underlying investments. These funds contain synthetic investment contracts comprised of both underlying investment and contractual components which have observable Level 1 and Level 2 pricing inputs, including quoted prices for similar assets in active and non-active markets.

The fair value of registered investment companies is determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013:

		Fair Value Measurement at Reporting Date Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

(a) The Stable Value Fund is a Deposit Administration Group Annuity Contract. The contract is a fixed, deferred group annuity available to qualified retirement plans. It provides guaranteed protection of principal with a set rate of return. The Fund seeks a high level of current income consistent with preservation of capital by investing in U.S. government securities, cash, guaranteed interest contracts, separate account contracts and synthetic investment contracts. The Stable Value Fund is guaranteed by Union Bond and Trust Company. Investments in this category can be redeemed daily at the current net asset value per share based on the contract value of the underlying assets, with no required notice period.

Note 5: Risks and Uncertainties

The Plan invests in investment securities. Investment securities are exposed to various risks such as changes in interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 6: Financial Information Certified by the Trustee

The plan administrator has elected the method of annual compliance reporting permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The following information included in the financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by Wilmington Trust, the trustee:

- Investments, at fair value, with the exception of the collective trust fund that was certified at contract value, and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2014 and 2013.
- Investments, at fair value, and participant loans as reported on the supplemental schedule of assets (held at end of year) at December 31, 2014.
- Investment income components and interest from participant notes receivable, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2014.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 7: Plan Termination

Although it has not expressed any intent to do so, the Firm has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA as amended by subsequent legislation.

Note 8: Tax Status

The Company adopted a Prototype Non-Standardized Profit Sharing Plan, sponsored by Patillo Brown & Hill LLP Mutual Insurance Society, with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service dated March 31, 2014, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the opinion letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan has been amended since receiving the determination letter; however, the plan administrator and trustees believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

Note 9: Subsequent Events

Effective January 1, 2015, the Plan was amended to increase the auto-enrollment maximum contribution rate to 15%. The amendment also added an auto-escalation feature in which the employee's initial automatic deferral amount will increase by 1% of compensation up to a maximum of 15% of compensation; deferral elections made in dollars will be converted to a percentage and increased to nearest whole percent; deferral election of zero will be escalated to 1%. The escalation provision applies as of the first date of each calendar year.

Plan management has evaluated subsequent events through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.
