## GOODWILL COLUMBUS 403(b) RETIREMENT PLAN

### NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2014 AND 2013

#### NOTE 1 - DESCRIPTION OF THE PLAN

The following description of The Goodwill Columbus 403(b) Retirement Plan (the Plan) is provided for general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

**General** - The Plan is a defined contribution plan covering all employees of Goodwill Columbus (the Organization). The Plan was established and became effective as of December 1, 1985, and on January 1, 2009, the Plan was amended and restated. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

**Contributions** - Each year, participants may contribute up to the lesser of 100% of pretax annual compensation, as defined in the Plan, or the annual limit. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Employer matching contributions are equal to a discretionary percentage of each participant's contribution, as determined by the Organization's Board of Directors. There were no such contributions in 2014 or 2013. Contributions are subject to certain limitations.

**Participant Accounts** - Each participant's account is credited with the participant's contributions and allocations of (a) the Organization's contribution and (b) Plan earnings. Earnings for each fund are allocated to the applicable participants' accounts based on the ratio of each participant's account balance to the total of all participants' account balances in that fund, as defined. Forfeited balances of terminated participants' nonvested accounts are first used to pay plan expenses; any remaining forfeitures offset future employer contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Vesting** - Participants are immediately vested in their voluntary contributions and actual earnings thereon. Vesting of employer discretionary match contributions is based on years of continuous service. Vesting in employer match contributions occurs at 20% intervals, with 100% vesting after five years of credited service. Participants become fully vested in the event of death, disability or early retirement.

**Participant-Directed Investment Options** - Each participant may direct his/her contributions in any of the 25 investment options available under the Plan.

**Payment of Benefits** - On termination of service, disability, retirement or death, a participant may elect to receive either a lump-sum amount equal to the value of his or her account or periodic payments for a specific number of years. Participants may also withdraw their vested interest in the Plan under certain hardship conditions, as defined in the Plan document.

**Payment of Expenses** - Since the inception of the Plan, the Organization has elected to pay the administrative expenses of the Plan, except expenses relating directly to the investments of the Plan, which are paid directly by the Plan. If the Organization would select not to pay all or part of any expenses, the trustee would be required to pay these expenses from the net assets of the Plan.

NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2014 AND 2013

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of significant accounting policies consistently applied by the trustee in preparation of the accompanying financial statements follows:

**Basis of Accounting** - The financial statements are prepared on the accrual basis of accounting.

**Guaranteed Investment Contracts** - Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. No adjustment was necessary for 2014 or 2013, as contract value approximated fair value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

**Investment Valuation and Income Recognition** - The Plan's investments are stated at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 8 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**Use of Estimates** - The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in the net assets available for benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

**Risks and Uncertainties** - The Plan provides for various investment options in any combination of mutual funds, which include investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

## GOODWILL COLUMBUS 403(b) RETIREMENT PLAN

### NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2014 AND 2013

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recent Accounting Pronouncements - In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12 Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. This ASU reduces the complexity in employee benefit plan reporting. Part I designates contract value as the only required measure for fully benefit-responsive investment contracts. Currently, fully benefit-responsive investment contracts are required to be measured at contract value with a reconciliation of contract value to fair value, when these measures differ, on the face of the plan financial statements. Part II eliminates the requirement to disclose individual investments representing 5% or more of net assets available for benefits for both participant-directed investments and nonparticipant-directed investments. Additionally, net appreciation or depreciation in investments for the period is no longer required to be disaggregated and disclosed by general type, however, should still be presented in the aggregate. Part II also requires that investments of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts (e.g., a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. This ASU is effective for nonpublic entities for fiscal years beginning after December 15, 2015. A reporting entity should apply the amendments to Parts I and II retrospectively to all periods presented, while Part III should be applied prospectively. Early application is permitted. The Plan administrator is currently assessing the impact of this ASU.

Subsequent Events - Management has evaluated subsequent events through October 5, 2015, which is the date that the financial statements were available to be issued.

#### NOTE 3 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Organization has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

#### NOTE 4 - TAX STATUS

The Plan was established under Section 403(b) of the IRC. At this time, the Internal Revenue Service has not established a process for issuing determination and opinion letters for 403(b) plans. The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be substantiated by the taxing authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes that the Plan is no longer subject to income tax examinations for years prior to 2011.

NOTE 6 - CERTIFICATION

The Plan administrator has received certification from Principal, the trustee of the Plan's assets, as to the completeness and accuracy of the investments and related investment income. Such information includes the composition and current value of the investments reported in the statement of net assets available for Plan benefits and the related investment income reported in the statement of changes in net assets available for Plan benefits.

NOTE 7 - TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain Plan investments are shares of mutual funds managed by the Principal Financial Group, Inc., an affiliate of the Principal Trust Company, trustee as defined by the Plan, and, therefore, these transactions qualify as party-in-interest.

NOTE 8 - FAIR VALUE MEASUREMENTS

Generally accepted accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under generally accepted accounting standards are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

GOODWILL COLUMBUS 403(b) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS  
DECEMBER 31, 2014 AND 2013

NOTE 8 - FAIR VALUE MEASUREMENTS (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

*Mutual Funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

*Guaranteed Investment Contract:* Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Investment Committee evaluates a variety of factors, including review of existing contracts, economic conditions, industry and market developments and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date), while others are substantiated utilizing available market data (for example, swap curve rate).

Unrealized gains/(losses) from the guaranteed investment contract are not included in the statement of changes in net assets available for benefits because the contract is recorded at contract value for purposes of the net assets available for benefits.

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

| Instrument                     | Fair Value | Principal Valuation Technique       | Unobservable Inputs   | Range of Significant Input Values |
|--------------------------------|------------|-------------------------------------|-----------------------|-----------------------------------|
| Guaranteed Investment Contract | \$322,885  | Assumed proceeds at discontinuance* | Composite Credit Rate | 2.0%                              |
|                                |            |                                     | Surrender Charge      | 5.0%                              |

\*Fair value is considered contract value less early withdrawal charge. The Custodial Guaranteed Interest Contracts have a 5% early withdrawal charge should the Plan discontinue the contract without proper notification as prescribed in the contract. Contract cannot be sold or pledged to third parties per benefit plan agreement. Proceeds from the discontinuation cannot be higher than the fair value amount reflected here.
