NOTE 1. Description of the Plan

The following description of the Great American Gaming Corporation 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan and was established January 1, 2000 as a single employer defined contribution 401(k) savings plan to provide retirement benefits to eligible employees. All employees who have completed 3 months of service (at least 1 hour) and have reached 18 years of age following the date of hire qualify for the Plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), and meets ERISA's minimum funding requirements. The provisions of the plan are subject to revision due to changes in laws due to pronouncements by the Internal Revenue Service (IRS) or Department of Labor (DOL).

Contributions:

The participating employer has the discretion to match employee's contributions to the Plan. The participating employer contributed an amount equal to 10 percent of eligible employees' contributions to the plan for 2014. The participants may generally contribute a set dollar amount or a percentage of their pre-tax and/or after-tax (Roth) compensation up to the maximum dollar limit set by the IRS which currently is $17,500 with the option of catch-up contributions of $5,500 for employees aged 50 and over per year.

Participants' Accounts:

Investments in participants' accounts are self-directed. Each participant's account is credited with an allocation of (a) the participating employer's matching contribution and (b) Plan earnings (or losses) as defined in the Plan agreement. Unclaimed benefits may be forfeited and held in a suspense account and applied to reduce employers' future contributions to the Plan. Subsequent claim to these benefits will result in the reinstatement of the benefit. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the employers' contributions portion of their accounts plus earnings thereon is based on years of continuing service as follows:

Years of Service	Percentage
1	20%
2	40%
3	60%
4	80%
5	100%

Notes Receivable from Participants:

Participants may borrow from their fund accounts up to the lessor of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at 4.25%, which was commensurate with local prevailing rates at the time the loans were made. Principal and interest is paid ratably through payroll deductions.

NOTE 1. Description of the Plan (continued)

Payment of Benefits:

Under the terms of the Plan agreement, participants will receive their pension allowance at the normal retirement age of 65, termination of employment, or if disabled at any age.

Forfeited Accounts:

At December 31, 2014 and 2013 forfeited nonvested accounts totaled $825 and $110, respectively. These accounts will be used to reduce future employer contributions.

Subsequent Events:

As of October 1, 2015, the date which the financial statements were available to be issued, management has determined there are no subsequent events that are required to be recorded or disclosed in the financial statements under generally accepted accounting principles.

NOTE 2. Summary of Significant Accounting Policies

Basis of Accounting:

The financial statements of the Plan are prepared under the accrual basis of accounting.

Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits:

Payments of benefits to participants are deducted from net assets available for benefits when paid.

Notes Receivable from Participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses:

All expenses of maintaining the Plan are paid by the Plan.

NOTE 3. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs are observable, either directly or indirectly, but are not quoted prices includable in Level 1, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 were only used when Level 1 inputs were not available. No level 3 inputs were available to the Plan.

Level 1 Fair Value Measurements

The fair market value of pooled separate accounts that are invested in mutual funds or domestic equity securities, is measured by using quoted prices in active markets for identical assets.

Level 2 Fair Value Measurements

The pooled separate accounts that are directly invested in fixed maturity securities are measured based on the pricing data provided by outside valuation service providers who in turn generally use the mean of bid and ask prices but may also use alternative observable pricing inputs for certain securities. The stable value option investment choice provided through a group annuity contract is valued at contract value as disclosed in Note 5.

December 31, 2014	Fair Value	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
Pooled separate accounts	$ 2,655,696	$ 2,134,327	$ 521,369
Stable value option	500,634	---	500,634
TOTAL	$ 3,156,330	$ 2,134,327	$ 1,022,003
December 31, 2013			
Pooled separate accounts	$ 2,474,630	$ 1,815,511	$ 659,119
Stable value option	315,376	---	315,376
TOTAL	$ 2,790,006	$ 1,815,511	$ 974,495

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2014 are reported in net appreciation in fair value of investments.

NOTE 4. Information Prepared and Certified by Custodian

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the custodian.

	2014	2013
Investments at fair value	$ 3,156,330	$ 2,790,006
Investment gain	$ 158,012	

NOTE 5. Fully Benefit Responsive Investment Contracts

The Plan entered into a fully benefit-responsive investment contract with Transamerica through the stable value option investment choice provided through a group annuity contract. Under the terms of the group annuity contract, interest is credited based on the daily balance at a rate that is the daily equivalent of the effective annual rate of interest applicable for the six month period. Effective annual rates are established on January 1st and July 1st for the corresponding six month period.

Because the stable value option with Transamerica is considered fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the stable value option. The stable value option is presented on the face of the statement of net assets available for benefits at fair value. The stable value option is considered fairly valued at contract value. Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The average yield earned is calculated by dividing the annual interest credited to the Plan during the plan year by the average annual fair value. The average interest rate credited to participants is calculated by dividing the annual interest credited to the participants during the plan year by the average annual fair value.

Since the stable value option investment choice is an obligation of Transamerica, the occurrence of an event that limits the ability of the investment to transact at contract value between Transamerica and a participant holding the investment is not probable.

	2014	2013
Average yields:		
Based on actual earnings	0.80%	0.80%
Based on interest rate credited to participants	0.80%	0.80%

NOTE 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 7. Investments

The Plan's investments are held in an Administered Trust fund. The following table presents investments as of December 31, 2014 and 2013. Investments that represent 5% or more of the Plan's net assets available for benefits are marked with an *.

Pooled Separate Accounts	$ 154,557
Total	$ 154,557

NOTE 8. Related Party Transactions

Certain Plan investments are shares of accounts managed by Transamerica is the contract administrator as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services were $25,312 for the year ended December 31, 2014.

NOTE 9. Reconciliation of Financial Statements to Schedule H of Form 5500

There are no differences between these financial statements and Schedule H of Form 5500; therefore, the reconciliation required by ERISA is not applicable.

NOTE 10. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated May 30, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

The Plan's Annual Return/Report of Employee Benefit Plan (Form 5500) is open to examination for a period of three years after the filing date.

NOTE 11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
