Eide Bailly LLP 401(k) Profit Sharing Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 1: Description of Plan

The following description of Eide Bailly LLP 401(k) Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

General

The Plan is a defined-contribution plan sponsored by Eide Bailly LLP (Company) for the benefit of its full-time employees and partners. Eide Bailly Financial Services, a related employer, also participates in the Plan. In 2013, other related participating employers included Eide Bailly Technology Consultants and Eide Bailly Training. The Plan has no age or service requirements to make elective deferrals, but participation in the profit-sharing feature requires participants to have one year of service and be age twenty-one or older. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Five members of Plan management from the Company collectively serve as Plan Trustee. Alerus Financial, N.A. (Alerus) serves as the Plan custodian.

Contributions

The Plan permits eligible employees through a salary deferral election to make annual contributions of up to 60% of eligible compensation. Employees are automatically enrolled to contribute 3% of compensation unless the employee makes a contrary election. Employee rollover, Roth and catch-up contributions and in-plan Roth conversions are also permitted.

The employee (non-partner) Company contribution is 4% of eligible compensation with an annual deposit made by January 15 after the end of the applicable Plan calendar year. To be eligible for this Company contribution, all participants must be employed on December 31 of each year and have 1,000 hours of service in the previous calendar year. The partner age-weighted contributions are a percentage of eligible compensation, based on age. The eligibility requirements are waived for termination because of normal retirement age, disability or death.

The Company contributes and allocates profit-sharing contributions to eligible employees and partners as a percentage of their eligible compensation based on the following schedule:

Participant	Contribution Percentage
Employee	4%
Partner not yet attained age 40 by end of Plan year	6%
Partner age 40 but not attained age 45 by end of Plan year	9%
Partner age 45 or over by end of Plan year	11%

Notes to Financial Statements

December 31, 2014 and 2013

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing his contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of the Company's contribution and Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100% vested after seven years of continuous service, if the participant terminated prior to July 1, 2005. Effective July 2, 2005, the Plan was amended to allow participants to be 100% vested after five years of continuous service. Effective September 1, 2010, employees of the Medical Practice Group were fully vested due to the sale of the group. Forfeitures are first used to pay administrative expenses. Any remaining forfeitures are used to reduce Company contributions. Beginning in late 2014, the Plan decided to no longer use forfeitures to pay administrative expenses as they are now generally utilized to reduce Company contributions.

Payment of Benefits

Upon termination of service, participants may elect to receive a lump-sum amount or installments equal to the value of their accounts. Withdrawals other than for termination are permitted under certain circumstances provided by the Plan.

Notes Receivable From Participants

The Plan Document includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant that demonstrates a safe harbor hardship. The minimum amount of a loan shall be \$1,000. The maximum amount of participant loans is determined by the available loan balance restricted to the lesser of \$50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a primary residence) through payroll withholdings or periodic payments. Interest on the loans is based on market rates.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivables are reclassified as distributions based upon the terms of the Plan Document.

Eide Bailly LLP 401(k) Profit Sharing Plan

Notes to Financial Statements

December 31, 2014 and 2013

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.

Effective January 2, 2015, participants in the Frisco and Vail locations are 100% vested due to the sale of those locations.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets available for benefits. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Quoted market prices, if available, are used to value investments. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid. The designated beneficiary is entitled to a death benefit equal to the participant's vested account balance.

Eide Bailly LLP 401(k) Profit Sharing Plan

Notes to Financial Statements

December 31, 2014 and 2013

Plan Tax Status

The Plan operates under a nonstandardized profit-sharing 401(k) plan agreement in connection with a prototype retirement plan and trust/custodial document sponsored by Alerus Financial, N.A. This nonstandardized prototype plan document has been filed with the appropriate agency. The Plan has not obtained or requested a determination letter. The Plan has been amended since the nonstandardized plan received its determination letter; however, the Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Note 3: Certification of Plan Custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Alerus, the custodian of the Plan, has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits and related disclosures as of December 31, 2014 and 2013
- Investment income and interest income from notes receivable from participants as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2014 and 2013
- Investment information included in the accompanying schedule of assets (held at year end) as of December 31, 2014

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 5: Disclosures About Fair Value of Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

The assets' fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Recurring Measurements

The following tables present the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2014 and 2013:

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation technique during the year ended December 31, 2014. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include mutual funds and a money market fund. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. There are no Level 2 or Level 3 investments in the Plan.
