NORTHWEST PUBLICATIONS PENSION PLAN FOR GUILD EMPLOYEES OF SAINT PAUL DIVISION

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Northwest Publications Pension Plan for Guild Employees of Saint Paul Division (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit retirement plan established December 1, 1965. The Plan was restated effective January 1, 2014 to incorporate all amendments to the Plan made since the January 1, 2009 restatement as well as the addition of provisions in order to comply with current laws in place. The Plan is a non-contributory plan covering persons regularly employed by MediaNews Group, Inc. (the "Company") at its Saint Paul Division in a category of employment for which the Minnesota Newspaper Guild is the bargaining representative and who are compensated by that division. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Company is the Plan sponsor, and the Guild Pension Committee administers the Plan. Northern Trust Company ("Northern Trust") served as trustee, managed Plan assets, and maintained the Plan's records through August 11, 2013. As of August 12, 2013, Prudential Retirement Insurance and Annuity Company ("Prudential") serves as trustee, manages Plan assets, and maintains the Plan's records.

Eligible employees become participants in the Plan automatically if they are covered employees as stated above. Participants receive retirement income benefits based on the product of pension service, up to a maximum of 30 years, and the benefit credit applicable to the participant's wage class, as defined by the Plan document.

Effective December 31, 2007 ("Freeze Date"), the Plan was amended to preclude additional individuals from becoming participants under the Plan after the Freeze Date and to cease all benefit accruals under the Plan after the Freeze Date, except as specifically provided in the amendment.

Funding Policy

Contributions to the Plan are based on actuarial determinations provided by the Plan's actuary. All contributions are made by the Company in cash in amounts adequate to meet the minimum funding requirement of ERISA. Contributions of \$2,000,000 and \$3,880,000 were made to the Plan for the years ended December 31, 2014 and 2013, respectively.

Vesting and Payment of Benefits

Participants must complete five years of benefit eligibility service, as defined by the Plan document, before becoming 100% vested and entitled to receive a retirement income benefit. A participant is eligible for normal retirement at age 65. Participants can elect to retire early at any time after age 55, provided they have completed five or more years of benefit eligibility service. The benefit received will be based on service and earnings at the time a participant leaves the Company with a reduction for early commencement.

NORTHWEST PUBLICATIONS PENSION PLAN FOR GUILD EMPLOYEES OF SAINT PAUL DIVISION

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting and Payment of Benefits (continued)

After the Freeze Date, participants who were eligible to participate in the Plan on the Freeze Date continued to accrue benefit eligibility solely for a) the purpose of obtaining 5 years of service to become vested and entitled to receive benefits and b) the purpose of attaining 25 years of service to qualify for the Plan's early retirement subsidy.

Specific benefit provisions and vesting provisions are disclosed in the Plan document. Participants and all others should refer to these documents for specific Plan provisions.

Benefit payments to participants are recorded when paid.

Plan Termination

Although the Company has not expressed any intention to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth by ERISA. In the event the Plan terminates, assets would be set aside first for the payment of benefits to retirees and then for all other participants. The Pension Benefit Guaranty Corporation guarantees the payment of all non-forfeitable (vested) benefits subject to certain limitations prescribed by ERISA.

Valuation of Investments and Income Recognition

The Plan's investments are stated at fair value as reported to the Plan by the trustees. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between participants at the measurement date. See Note 3 for additional fair value measurement disclosures.

The investments of the Plan are comprised of mutual funds, pooled separate accounts, equities, and bonds, which are stated at fair value.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statements of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. The most significant of these estimates relates to the determination of the accumulated plan benefits and the Plan's funded status. Accordingly, actual results could differ from those estimates.

**NORTHWEST PUBLICATIONS PENSION PLAN FOR
GUILD EMPLOYEES OF SAINT PAUL DIVISION**

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Additionally, some investments are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of comparable U.S. companies.

Subsequent Events

The Plan has evaluated subsequent events through the auditors' report date, which is the date the financial statements were available for issuance. There were no material subsequent events that required recognition or disclosure in the financial statements.

Note 2 - Assets Certified by the Trustees

Prudential and Northern Trust have certified in writing to the Plan administrator that the stated amounts for investments at fair value as of December 31, 2014 and 2013 and the income earned or losses incurred on the investments for the years then ended, as reflected in the accompanying financial statements, supplemental schedule of assets (held at end of year), and supplemental schedule of reportable transactions, are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the trustees except for comparing the information contained therein to information included in the financial statements, supplemental schedule of assets (held at end of year), and supplemental schedule of reportable transactions.

Note 3 - Fair Value Accounting

GAAP requires disclosure about how fair value is determined and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 3 - Fair Value Accounting (continued)

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis as of December 31, 2014 and 2013.

Investments measured at fair value as of December 31, 2014 are as follows:

Cash and cash equivalents are not presented in the preceding tables as they are not considered investment assets.

The valuation technique used to measure fair value of the mutual funds, equities, and bonds is based on the quoted daily prices that are directly observable in the marketplace. There are no redemption obligations or restrictions.

- (a) International funds seek to invest in non-U.S. markets directly or through funds.
- (b) Fixed-income funds seek to preserve capital by investing in a short-term diversified portfolio of fixed-income securities along with preservation of capital and prudent investment management.

The Plan's investments in the pooled separate accounts ("separate accounts") are recorded at net asset value ("NAV") reported by the funds' managers as a practical expedient to estimating the fair value as these investments do not have readily determinable fair values. Due to the nature of the investments held by the separate accounts, changes in market conditions and the economic environment may significantly impact the NAV of the separate accounts and, consequently, fair values of the funds' interests in the funds. The fair value of these investments is measured using the NAV per share of the Plan's ownership interest in the separate accounts on an equivalent measure where it is not probable that the fund will sell a separate account at a price other than NAV. These investments are redeemable daily and have a one-day notice period. There were no separate accounts with redemption restrictions or unfunded commitments as of December 31, 2014 and 2013.

GUILD EMPLOYEES OF SAINT PAUL DIVISION**

Notes to Financial Statements

Note 3 - Fair Value Accounting (continued)

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in different fair value measurements at the reporting date.

There were no changes to the valuation techniques used during the years ended December 31, 2014 and 2013.

The Plan's management reaffirms its understanding of the valuation techniques used by its pricing services at least annually.

Note 4 - Income Taxes

The IRS has determined and informed the Plan in a letter dated September 17, 2014 that the Plan is qualified and the trust established under the Plan is tax exempt under the appropriate sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the accompanying financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Administration of the Plan

The Plan pays the cost of certain administrative, accounting, and legal services.

Note 6 - Related Party and Party-in-Interest Transactions

Certain Plan investments are pooled separate accounts managed by Prudential, the trustee as of December 31, 2014 and 2013. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

Note 7 - Accumulated Plan Benefits

The Plan's actuary, Aon Hewitt ("Hewitt"), estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on employees' compensation during their last five years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the five years preceding the Freeze Date. Benefits payable under all circumstances (retirement, death, disability, or termination of employment) are included to the extent they are deemed attributable to employee service rendered prior to the Freeze Date. The actuarial valuation was performed as of January 1, 2014 and 2013. Had the valuation been performed as of December 31, 2013 and 2012, there would be no material difference.

The following table sets forth the accumulated plan benefits:

	<u>January 1,</u>	
	<u>2014</u>	<u>2013</u>
Actuarial present value of accumulated plan benefits		
Vested benefits		
Participants currently receiving payments	\$ 25,220,881	\$ 24,467,893
Vested benefits for other participants	<u>19,773,270</u>	<u>18,899,956</u>
Total vested benefits	44,994,151	43,367,849
Non-vested benefits	<u>227,371</u>	<u>594,284</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 45,221,522</u>	<u>\$ 43,962,133</u>

The change in present value of accumulated plan benefits was as follows:

Actuarial present value of accumulated plan benefits as of January 1, 2013	\$ 43,962,133
Increase (decrease) during the year attributable to	
Interest accumulation	3,190,840
Assumption changes (1)	775,800
Other changes (2)	180,160
Benefit payments	<u>(2,887,411)</u>
Actuarial present value of accumulated plan benefits as of January 1, 2014	<u>\$ 45,221,522</u>

**NORTHWEST PUBLICATIONS PENSION PLAN FOR
GUILD EMPLOYEES OF SAINT PAUL DIVISION**

Notes to Financial Statements

Note 7 - Accumulated Plan Benefits (continued)

- (1) Changes in actuarial assumptions relate to changes in the assumed rate of return on investments and the mortality rate assumption.
- (2) Other changes represent the normal operations of the Plan consisting primarily of the increase due to ongoing benefit accruals and those items of Plan experience that are not associated with Plan asset performance.

The significant actuarial assumptions used by Hewitt in its January 1, 2014 and 2013 calculations are as follows:

Assumed rate of return on investments	7.60% (2014) and 7.50% (2013)
Probability of retirement	7.00% at ages 55-60, 10.00% at ages 61-62, 25.00% at ages 63-64, 33.33% at age 65, 25.00% at ages 66-69, and 100.00% at ages 70+ (2014)
	7.50% at age 55, 3.75% at ages 56-59, 7.50% at ages 60-61, 20.00% at age 62, 15.00% at ages 63-64, 60.00% at age 65, 50.00% at ages 66-69, and 100.00% at ages 70+ (2013)
Mortality basis	2014 Static Mortality Table for Annuitants and Non-Annuitants per Section 1.430(h)(3)-1(e) (2014) and 2013 Static Mortality Table for Annuitants and Non-Annuitants per Section 1.430(h)(3)-1(e) (2013)
Actuarial cost method	Standard Unit Credit Cost Method (2014 and 2013)
Effective interest rate	6.48% (2014) and 6.69% (2013)

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Decrement Timing	Middle-of-year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%).
Surviving Spouse Benefit	It is assumed that 80% of males and 80% of females have an eligible spouse, and that males are three years older than their spouses.
Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of \$210,000.
Valuation of Plan Assets	<p>Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.</p> <p>A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).</p>
Expected Return on Assets 2012 Plan Year	Lesser of 7.50% and the 3 rd segment rate. Actual rate of 7.50%.
2013 Plan Year	Lesser of 7.50% and the 3 rd segment rate. Actual rate of 7.16%.
Trust Expenses Included in Target Normal Cost	The Target Normal Cost includes estimated administrative expenses (based on the prior years' actual amounts) plus the estimated PBGC premiums for the current year. For 2014, this amount is \$350,000.
Actuarial Method	Standard unit credit cost method.
Valuation Date	January 1, 2014.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following non-prescribed assumption changes:

- A change in the benefit commencement rates for retirement eligible terminations from 100% immediate to 25% immediate and 75% deferred.

Decrement Timing	Middle-of-year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%).
Surviving Spouse Benefit	It is assumed that 80% of males and 80% of females have an eligible spouse, and that males are three years older than their spouses.
Benefit Limits	Projected benefits are limited by the current IRC section 415 maximum benefit of \$210,000.
Valuation of Plan Assets	<p>Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.</p> <p>A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).</p>
Expected Return on Assets 2012 Plan Year	Lesser of 7.50% and the 3 rd segment rate. Actual rate of 7.50%.
2013 Plan Year	Lesser of 7.50% and the 3 rd segment rate. Actual rate of 7.16%.
Trust Expenses Included in Target Normal Cost	The Target Normal Cost includes estimated administrative expenses (based on the prior years' actual amounts) plus the estimated PBGC premiums for the current year. For 2014, this amount is \$350,000.
Actuarial Method	Standard unit credit cost method.
Valuation Date	January 1, 2014.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following non-prescribed assumption changes:

- A change in the benefit commencement rates for retirement eligible terminations from 100% immediate to 25% immediate and 75% deferred.
- The retirement rates for active participants were updated.
- The retirement rates for terminated vested participants were updated.
- The withdrawal rates for active participants were updated.

These changes were made to better reflect the anticipated plan experience. These assumption changes did not reduce the funding shortfall and; as such, approval of the Commissioner is not required.
