NOTES TO FINANCIAL STATEMENTS

NOTE 1 DESCRIPTION OF PLAN

The following description of the EQM Technologies & Energy, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

GENERAL

The Plan is a defined contribution plan covering substantially all employees of EQM Technologies & Energy, Inc. (the Company) on their date of hire who have attained age twenty one or older. The Company pays certain administrative costs of the Plan, and controls and manages the operation and administration of the Plan. Fidelity Management Trust Company serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

PLAN AMENDMENT

No home loans will be available for initiation after December 1, 2014. All existing home loans will remain in effect for the term of the loan.

CONTRIBUTIONS

Each year, participants may contribute up to 60 percent of annual compensation as defined by the Plan. During the 2014 tax year, participants could contribute up to \$17,500 if the participant's age is 49 or less, and \$23,000 if the participant's age is 50 or above. (This figure will be adjusted in the future by the Secretary of the Treasury for cost of living increases). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may contribute a discretionary matching amount in its sole judgment. This additional contribution, if any, will be allocated to all qualified participants eligible to receive a contribution of this type as set forth in the Plan. Matching contributions and matching contributions designated as "qualified matching contributions" will be nonforfeitable and subject to withdrawal restrictions. Effective January 1, 2014, the Company suspended matching contributions to the Plan.

The Company may contribute a discretionary nonelective amount determined in its sole judgment. This additional contribution, if any, will be allocated to all qualified participants eligible to receive a contribution of this type as set forth in the Plan. Nonelective contributions designated as "qualified nonelective contributions" will be nonforfeitable and subject to withdrawal restrictions.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

VESTING

Participants are immediately vested in their contributions, rollover contributions, and the Company's matching contributions, qualified matching contributions and qualified nonelective contributions plus actual earnings thereon. Vesting in the Company's non-qualified nonelective contributions is based on years of continuous service. A participant is 100 percent vested after six years of credited service. The Plan defines "one year of service" as a 12 month period in which the employee works 1,000 hours of service. Non-qualified nonelective contributions also become fully vested when a participant employed by the Company reaches normal retirement age, as defined by the Plan, or is terminated due to death or disability.

NOTES TO FINANCIAL STATEMENTS

PARTICIPANT LOANS

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50 percent of their vested account balance, whichever is less. The loans are secured by 50 percent of the participant's account balance and bear interest at a rate equal to that which the Company's principal bank would charge on a similar loan and must be repaid within no more than five years, except for certain home loans. Principal and interest are payable ratably over the term of the loan not less frequently than quarterly.

PAYMENT OF BENEFITS

On termination, a participant (or participant's beneficiary in the event of death) will receive a lump-sum amount equal to the value of the participant's vested account balance.

FORFEITED ACCOUNTS

Forfeitures of Company contributions are used to pay administrative expenses and reduce Company contributions for the Plan year in which they occur. As of December 31, 2014, and 2013, forfeited nonvested accounts totaled \$3,130 and \$2,317, respectively. During 2014, the Plan did not dispose of forfeited nonvested accounts.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed in the preparation of these financial statements. The financial statements and notes are the representation of the Plan's management, who is responsible for their integrity and objectivity. The policies conform to accounting principles generally accepted in the United States of America and have been consistently applied.

BASIS OF ACCOUNTING

The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts in common collective trusts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

CASH AND CASH EQUIVALENTS

The Plan considers money market accounts and highly liquid debt instruments purchased with maturities of three months or less as cash equivalents.

PAYMENT OF BENEFITS

Benefits are recorded when paid.

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

INVESTMENT VALUATION AND INCOME RECOGNITION

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in fair value of investments includes the plan's gains and losses on investments bought and sold as well as held during the year.

NOTES TO FINANCIAL STATEMENTS

FAIR VALUE MEASUREMENTS

The Fair Value Measurement Topic of the Financial Accounting Standards Board Accounting Standards Codification, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB Accounting Standards Codification are described below:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2014, and December 31, 2013.

Cash and cash equivalents and value of interests in registered investment companies (mutual funds) are valued at the net asset value (NAV) of shares held by the plan at year end (Level 1).

Common collective trusts are valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. Since participants transact at contract value, fair value is determined annually for financial statement reporting purposes only (Level 2).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

SUBSEQUENT EVENTS

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through August 5, 2015, the date on which the financial statements were available to be issued.

During 2014, the Plan investments depreciated in fair value, (including gains and losses on investments bought and sold, as well as held during the year), by \$82,470 as follows:

Value of interests in registered investment companies	<u>\$ (82,470)</u>
---	--------------------

NOTE 4 RELATED-PARTY TRANSACTIONS

Certain plan investments are shares of a collective trust and mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is also the investment trustee, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Participant loans also qualify as party-in-interest investments. Certain administrative fees related to the administration of the Plan are paid by the Plan. Other administrative fees are paid by the plan sponsor on behalf of the Plan.

NOTES TO FINANCIAL STATEMENTS

NOTE 5 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

NOTE 6 TAX STATUS

Effective January 1, 2006, the Plan adopted a non-standardized form of a prototype plan sponsored by Fidelity Management and Research Company. The prototype plan obtained its latest opinion letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as designed then, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the opinion letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the plan is no longer subject to income tax examinations for years prior to 2011.

NOTE 7 INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the plan, has certified to the completeness and accuracy of all investments reflected in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2014, and December 31, 2013, the supplemental Schedule of Assets (Held at End of Year) as of December 31, 2014, and the related investment activity reflected in Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2014.

NOTE 8 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit and market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
