1. Description of Plan

The following brief description of the Southwest Diagnostic Imaging, Ltd. 401(K) Plan A (the "Plan") is provided for general information purposes only. Participants should refer to the summary plan description for a more complete description of the Plan's provisions.

General

The Plan was established on January 1, 2013. The Plan is a defined contribution plan covering certain eligible employees, as defined by job class, of Scottsdale Medical Imaging, Ltd., Valley Radiologists, Ltd. and Southwest Diagnostic Imaging, Ltd., (collectively, the "Company") who are 21 years of age or older, have completed one year of service and have worked 1,000 hours during the plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Merger

In January 2014, Scottsdale Medical Imaging, Ltd. 401(k) Plan and Valley Radiologists, Ltd. Defined Contribution Plan and Trust were merged with the Plan, and the eligible assets of these two plans were transferred to the Plan.

Contributions

Each year, participants may contribute up to 100% of their pretax compensation or after tax Roth contributions to the Plan, subject to limitations prescribed by the Internal Revenue Service. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan includes a Safe Harbor Contributions provision. Under this provision, the Company contributes 3% of compensation to all eligible participants, as defined, during the Plan year. Additionally, each year at the Company's discretion, the Company may contribute to the Plan a percentage of the participants' contributions. The Company may also elect to make a discretionary non-elective contribution to the Plan. For the year ended December 31, 2014, approximately $576,000 was profit sharing contributions. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions and safe harbor matching contributions, plus actual earnings thereon. Vesting in the Company's discretionary matching and non-elective contribution portion of their accounts, plus actual earnings thereon, is based on years of credited service. Participants vest 20% after two years of credited service and 20% each year thereafter until the participant becomes 100% after six years of credited service.

Notes Receivable from Participants

Participants may borrow from their accounts an amount up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms are up to 5 years or up to 15 years for the purchase of a primary residence. The loans are collateralized by the balance in the participant's account and bear interest rates ranging from 3.25% - 4.25%. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

A participant who is employed by the Company after reaching age 59 1/2, may elect to receive all or part of the balance of his or her vested account, other than his or her Money Purchase Plan Merger Sub-Account, for which a participant must attain age 62. Upon a participant's termination of service or attaining normal retirement age, as defined, a participant may elect to receive either a lump-sum payment or an installment-type payment in an amount equal to the value of the participant's vested account balance.

Forfeited Accounts

At December 31, 2014, forfeited non-vested accounts totaled approximately $4,000. Forfeited non-vested accounts are used to reduce future employer contributions and/or reduce administrative expenses.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis.

Investment contracts held by a defined contribution plan are reported at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of changes in net assets available for benefits is prepared on a contract value basis for fully benefit-responsive investment contracts.

Financial Statement Presentation

The Plan has elected early application of Accounting Standards Update 2015-12 Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965); I. Fully Benefit-Responsive Investment Contracts, II. Plan Investment Disclosures, III. Measurement Date Practical Expedient. Regarding defined contribution plans, the amendments in this update (1) requires fully benefit-responsive investment contracts to be measured, presented and disclosed only at contract value, thus eliminating the requirement to record such contracts at fair value and provide a reconciliation of contract value to fair value, when those measures differ, on the face of the financial statements; (2) eliminates the requirement to disclose individual investments that represent 5 percent or more of net assets for benefits; (3) eliminates the requirement to disaggregate and disclose net appreciation or depreciation in investments by general type; and (4) requires that investments be grouped only by general type, eliminating the need to disaggregate investments in multiple ways.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets and the reported amounts of additions to and deductions from net assets. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Other than the investment contract, which is reported at contract value, investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan administrator determines the Plan's valuation policies utilizing information provided by Great-West. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net change in fair value of investments includes realized and unrealized gains and losses on investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payments of Benefits

Benefits are recorded when paid

Administrative Expenses

The Plan permits administrative expenses to be paid from the Plan's assets and to be allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of participants in the Plan. Expenses relating to specific participant transactions (i.e. loan setup, distribution requests, etc.) may be charged directly against the appropriate participant's account.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures* are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds

Investments in mutual funds are based on quoted market prices for the identical security in an active market.

Collective Funds

Collective funds represent investments with various investment managers. The respective fair values of these investments are determined by reference to the funds' underlying assets, which are principally marketable equity and fixed income securities. Units held in common/collective trusts are valued based on the market prices of the underlying investments in the funds at year-end.

Self-directed Accounts

Self-directed accounts primarily consist of common stocks and mutual funds, which are based on quoted market prices for the identical security in an active market.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

	2014			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 1,384,180	$ -	$ -	$ 1,384,180
Collective funds	-	2,820,664	-	2,820,664
Self-directed accounts	602,925	-	-	602,925
Total investments, at fair value	$ 1,987,105	$ 2,820,664	$ -	$ 4,807,769

4. Party-In-Interest Transactions

Great-West Trust Company, LLC ("Great-West") is the trustee, as defined by the Plan. Transactions with Great-West qualify as party-in-interest transactions which are exempt from the prohibited transaction rules of ERISA.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

6. Information Provided by the Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Great-West, the trustee of the Plan, has certified to the completeness and accuracy of all investment information reflected on the accompanying statement of net assets available for benefits as of December 31, 2014, the supplemental schedule as of December 31, 2014, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2014.

7. Income Tax Status

The IRS has determined and informed the Company by a letter dated September 17, 2015, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. There are currently no audits for any tax periods in progress.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:

	2014	2013
Net assets available for benefits as reported in the financial statements	$ 5,909,248	$ 804,978

The Plan has evaluated subsequent events through October 5, 2015, the date the financial statements were available to be issued.
