Notes to the Financial Statements

1. Description of plan

The following description of the Riverside Radiology and Interventional Associates, Inc. (the Company) 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees. Non-leased employees may enter the Plan at any time after attaining 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may elect to contribute up to 85% of their eligible earnings and 100% of any bonuses paid as defined by the Plan, not to exceed the limits imposed by the Internal Revenue Service (IRS). Participant deferral contributions can be tax deferred contributions, Roth contributions, or a combination of both. The Plan also allows for in-plan Roth rollover contributions. These contributions are fully vested and nonforfeitable.

The Company's Board of Directors adopted a Section 401(k) safe harbor design for the Plan which means that the Plan automatically complies with the nondiscrimination requirements of Section 401 of the Internal Revenue Code. As such, the Company provided for a fully vested qualified, nonelective contribution of 3% of compensation for all eligible participants totaling \$788,203 and \$740,625 during 2014 and 2013, respectively.

The Company may make two separate discretionary contributions; a discretionary matching contribution equal to a uniform percentage of participant deferrals and a discretionary profit sharing contribution equal to a uniform percentage of participant compensation. Participants share in the discretionary contributions regardless of the amount of service completed by participants during the Plan year. During both 2014 and 2013 the Company did not make discretionary matching contributions. The Company made discretionary profit sharing contributions of \$2,044,969 and \$2,040,350 during 2014 and 2013, respectively.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

The Plan appointed Wilmington Trust Retirement and Institutional Services Company (Wilmington Trust), to act as a non-discretionary successor trustee of the trust with the goal of holding all assets of the Plan. Wilmington Trust offers a platform of investment funds to participants and manages self-directed brokerage accounts.

Riverside Radiology and Interventional Associates, Inc.
401(k) Profit Sharing Plan

Notes to the Financial Statements

Financial hardship withdrawals

Financial hardship withdrawals of a participant's deferral contributions are permitted in certain circumstances of immediate and heavy financial need.

Payment of benefits

Benefits are recorded when paid. The participant's account becomes payable upon death, disability, or normal retirement. Normal retirement age is 62. Participants will receive account balances in a lump sum payment. However, former participants of the money-purchase pension plan have the option of either equal monthly installments in the form of an annuity or a lump sum payment. In-service withdrawals are permitted for participants who have reached age 62 or those electing to make an in-Plan Roth rollover. For termination of service due to other reasons, a participant will receive the value of the vested interest of his or her account as a lump sum payment. However, participants of the money-purchase pension plan also have the option of equal monthly installments in the form of an annuity.

Forfeitures

Forfeitures arising from balances of terminated participants with less than fully vested interests in the Plan are applied to reduce employer contributions. As of December 31, 2014 and 2013, forfeited amounts available to reduce employer contributions totaled \$19,741 and \$41,073, respectively. For the Plan year ended December 31, 2014, \$19,741 of the forfeited nonvested accounts was applied to reduce employer contributions through the employer-discretionary contribution receivable. For the Plan year ended December 31, 2013, \$41,073 of the forfeited nonvested accounts was applied to reduce employer contributions.

Vesting

Participants are immediately vested in their deferral contributions, rollover contributions and safe harbor contributions plus actual earnings thereon. Vesting in the plan sponsor's discretionary matching and profit sharing contributions plus actual earnings thereon is based on years of service. A participant is 100% vested in the discretionary contributions after three years of credited service, as defined in the plan document and 0% vested with less than three years of credited service.

2. Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Recent accounting pronouncement

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the Net Asset Value ("NAV") per share practical expedient. Instead, the amounts measured using the NAV per share (or its equivalent) must be provided to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits. Additionally, ASU 2015-07 removes

Riverside Radiology and Interventional Associates, Inc.
401(k) Profit Sharing Plan

Notes to the Financial Statements

the requirement to make certain disclosures (FASB ASC 820-10-50-6A) for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. ASU 2015-07 is effective for nonpublic business entities for fiscal years beginning after December 15, 2016. The Company has not early adopted this ASU though it is permitted.

In July 2015, the FASB issued ASU 2015-12, which removes the requirement to present individual investments that represent 5% or more of net assets available for benefit along with the net appreciation (depreciation) for investments by type. Additionally, under ASC 820-10, classes of assets are grouped and disclosed on the basis of nature, characteristics, and risks. ASU 2015-12 removes this requirement and now requires that investments (both participant-directed and nonparticipant-directed investments) of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways. ASU 2015-12 is effective for nonpublic business entities for fiscal years beginning after December 15, 2015. The Company has early adopted this ASU as is permitted.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

The Plan reports variable annuity contracts at fair market value. The variable annuity contract the Plan holds includes provisions that could cause an impairment of the asset value upon liquidation or other occurrence. The provisions include a surrender charge value of \$25,493 and \$34,678 as of December 31, 2014 and 2013, respectively. Upon liquidation or other occurrence the aforementioned provisions would decrease the amount received as they would offset the contract value.

Purchases and sales of investment securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative fees

The Plan paid administrative expenses of \$221,505 and \$182,839 to Wilmington Trust and a third-party administrator for the years ended December 31, 2014 and 2013, respectively. All other professional fees for the administration and audit of the Plan are paid by the Company on behalf of the Plan.

Risks and uncertainties

The Plan provides for various investment options. The underlying investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participants' individual account balances.

Riverside Radiology and Interventional Associates, Inc.
401(k) Profit Sharing Plan

Notes to the Financial Statements

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Reclassifications

Certain 2013 amounts on the statements of changes in net assets available for benefits have been reclassified to conform with the 2014 financial statement presentation, with respect to the net appreciation and fair value of investments and administrative expenses. Certain investment fees are now able to be presented as gross amounts and no longer shown net in the appreciation of investment fair value.

Subsequent events

The Plan has evaluated events and transactions that occurred between January 1, 2015 and September 14, 2015 which is the date that the financial statements were available to be issued for possible recognition or disclosure in the financial statements.

3. Investments

All information relating to the net assets available for benefits and changes thereto, except contributions received and benefits paid to participants included in the financial statements and supplemental schedule of the Plan, was prepared and certified to be complete and accurate by the trustee, Wilmington Trust as of and for the years ended December 31, 2014 and 2013, respectively.

4. Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Riverside Radiology and Interventional Associates, Inc.
401(k) Profit Sharing Plan

Notes to the Financial Statements

If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds, exchange traded funds, index-linked notes, fixed income bonds and large cap unit investment trusts: Valued at the net asset value of shares or units held by the Plan at year-end.

Common and preferred stocks: Valued at the closing price reported on the active market in which the individual securities are traded.

Variable annuity: Valued at the contract value, which approximates fair value.

Real estate investment trust: The Hines Real Estate Investment Trust (REIT) invests primarily in institutional-quality office properties located throughout the United States. The amount of dividends paid, if any, is uncertain. There currently is no public market for common shares of the REIT. Therefore, it may be difficult to sell shares of the REIT and if sold they could be at a discount. The REIT also has restrictions and limitations under a share redemption plan on the ability to have all or any portion of the shares redeemed. Under the share redemption plan shares may be redeemed, subject to a monthly limitation of 1/12th of 10% of the shares outstanding as of the prior calendar year-end. There were no unfunded commitments as of December 31, 2014 and 2013. The REIT is valued at the offering price reported on the prospectus, which represents the selling price to the public at year end.

The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to the Financial Statements

5. Income tax status

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code.

The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the tax authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Plan termination

Although the plan administrator has not expressed any intent to do so, the plan administrator has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will be 100% vested in their accounts.

7. Parties-in-interest

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer and certain others. Professional fees for the administration and audit of the Plan are paid by the Company on behalf of the Plan.

Plan investments are managed by various investment brokers, including Wilmington Trust, who are the trustees and as defined by the Plan qualify as parties-in-interest.

8. Department of Labor audit

On February 18, 2014, the U.S. Department of Labor (the "DOL") notified the Company that the Plan had been selected for audit. The DOL audit included on-site examination of selected Plan records for the period January 1, 2011 through December 31, 2013, an interview with the Plan administrators, and a review of the Company activities as they affect the Plan. The Company has fully cooperated with all requests from the DOL. As of September 8, 2014 the audit officially concluded. As part of the audit finding the Plan Sponsor was required to make a contribution to the Plan in the amount of \$90 for lost opportunity costs associated with untimely remittance of participant contributions. Because the Plan Sponsor took corrective action, the DOL will take no further action with respect to this matter.
