1 – DESCRIPTION OF PLAN

GENERAL

The Savcop, Ltd 401(k) Plan (the "Plan") is a defined contribution plan, subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan was established and adopted effective January 1, 1996 for the benefit of eligible employees of Savcop, Ltd. and subsidiaries (the "Company"). The Plan was amended and restated effective January 29, 2014. Voya Life Insurance and Annuity Company ("Voya"), formerly known as ING Life Insurance and Annuity Company, served as trustee and record-keeper of the Plan from January 1, 2014 through January 27, 2014. AXA Equitable Life Insurance Company ("AXA") serves as the trustee and record-keeper of the Plan from January 28, 2014 through December 31, 2014. The following description provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

ELIGIBILITY AND PARTICIPANT ACCOUNTS

The Plan covers all employees of the Company who are not nonresident aliens, leased employees or covered by a collective bargaining agreement. Eligibility requirements are that employees complete one year of service and attained 21 years of age. Entry date into the plan will begin the first day of the plan year quarter following the date on which eligibility requirements are satisfied. Each participant's account is credited with the participant's contributions, Company contributions and actual earnings thereon. Investment income or loss is allocated based on the ratio of each participant's account balance. Contributions and earnings are allocated among investment options as selected by the participant. Participants may change their investment allocation at any time.

CONTRIBUTIONS

The Plan is funded through employee elective deferrals and Company contributions. A participant may elect to contribute a portion of his or her pretax compensation, subject to certain maximum limitations imposed by the Internal Revenue Code ("IRC") ($17,500 for 2014). Employees who are eligible to make elective deferrals under the Plan and who have attained the age of fifty before the close of the plan year are also eligible to make catch-up contributions subject to the maximum limitation imposed by the IRC ($5,500 for 2014).

The Company may make matching contributions to the account of each eligible participant on a uniform basis equal to a discretionary percentage, to be determined by the Company. Participants must complete 1,000 hours of service during the year, or have died, retired, or suffered disability during the year to be eligible for the discretionary matching contributions. The Company's matching contribution for the year ended December 31, 2014 totaled $43,308.

1 – DESCRIPTION OF PLAN

INVESTMENT OPTIONS

The Plan provides for participants to direct both their contributions and employer contributions into a variety of pooled separate accounts, mutual funds of registered investment company, and an insurance company general investment contract in accordance with participant investment elections and the provisions of the Trust agreement. Participants should refer to the Plan website for additional fund information.

DISTRIBUTIONS TO PARTICIPANTS

Upon normal retirement age, death, disability, or termination, a participant's benefits are payable in either installment payments or a lump-sum amount equal to 100% of the participant's vested account balance. Account balances of $1,000 or less at the time of distribution will be cashed out as either an involuntary lump-sum payment or by direct rollover into an individual retirement account.

FORFEITURES

Upon separation from service for any reason other than retirement, participants forfeit any unvested portion of their employer contributions. Forfeitures are used to reduce the Plan's expenses and then used to reduce any future employer contributions. Unallocated forfeitures of $148 and $421 were available for future use as of December 31, 2014 and 2013, respectively. During the year ended December 31, 2014, $421 of forfeitures were used to pay Plan expenses.

VESTING

Participants are immediately vested in elective deferrals, and rollover contributions. Vesting in the Company's matching contributions plus actual earnings, thereon, is based on years of continuous service. Participants vest 20% per year beginning after two years of qualified service, and are 100% vested after five years of qualified service or upon occurrence of the participant's retirement, death, or disability, as defined by the Plan document.

NOTES RECEIVABLE FROM PARTICIPANTS

Borrowings are available to all participants. Notes receivable from participants are limited to a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50% of their vested account balance, subject to certain restrictions as defined by the Internal Revenue Service ("IRS"). A one-time origination fee is charged at inception of the note receivable. The notes receivable from participants are secured by the vested balance in the participant's account and bear interest determined by the Plan Administrator. All notes must be repaid within 5 years, unless for the purchase of a primary residence, in which case the repayment period may not exceed 10 years.

Repayments are made through payroll deductions and are reinvested in the participant accounts according to individual investment elections. Notes receivable from participants as of December 31, 2014, have interest rates at 4.25% with maturities of August 2015 through December 2019.

1 – DESCRIPTION OF PLAN

ADMINISTRATIVE EXPENSES

The Company pays certain administrative expenses incurred by the Plan, including recordkeeping, custodian and audit fees. Transaction costs incurred by the Plan are charged to the individual participant who initiated the transaction to which the charge related.

PLAN TERMINATION

The Plan may be terminated by the Company at any time subject to the provisions of ERISA. In the event the Plan is terminated, each of the participants will have a non-forfeitable 100% vested interest in his or her account balance, including all Company contributions, subject to payment of liquidation costs and expenses.

2 – SUMMARY OF ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

ESTIMATES AND ASSUMPTIONS

The preparation of financial statements in conformity with U.S. GAAP requires the Plan's management to make estimates and assumptions that affect certain reported amounts of assets and liabilities, changes therein, and associated disclosures. Accordingly, actual results may vary from the estimates used in preparing the accompanying financial statements.

PAYMENT OF BENEFITS

Benefits are recorded when paid.

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent notes receivables from participants are reclassified as distributions based upon terms of the Plan document or loan policy of the Plan.

2 – SUMMARY OF ACCOUNTING POLICIES

INVESTMENT VALUATION AND INCOME RECOGNITION

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The income earned on participant accounts is allocated on a daily basis using the previous day's ending account balance. Net appreciation (depreciation) includes the Plan's gain and losses on the investments bought and sold, as well as held during the year.

3 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820 for Fair Value Measurements and Disclosures provides the framework for measuring and reporting the fair value of investments. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Significant observable inputs other than quoted prices in active markets for which inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

3 – FAIR VALUE MEASUREMENTS

In establishing a fair value hierarchy for the Plan's investments in accordance with ASC 820, the following methodologies were used for each type of investment:

Pooled separate accounts: Valued at the net asset value ("NAV") of the units held by the Plan at year-end based on information reported by the Trustee. The NAV of each of the separate accounts is calculated in a manner consistent with US GAAP for investment companies and represents the price at which the Plan would be able to initiate a transaction. Several of the separate accounts invest in publicly quoted mutual funds or actively managed stocks. Some of the separate accounts also invest in fixed income securities. The fair value of the underlying mutual funds or stocks and of the underlying securities, which is based on quoted prices of similar assets, is used to determine the NAV of the separate account which is not publicly traded. Investments in these funds can be redeemed daily upon request. There were no significant unfunded commitments as of December 31, 2014.

Mutual funds of registered investment companies: Valued at NAV or quoted market prices of shares held by the plan at year end.

Insurance company general account: Valued at fair value as determined by Voya and AXA based on the crediting rate of interest and account balances and formulas that calculate future payments from the investment contract.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3 – FAIR VALUE MEASUREMENTS

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

6 – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan provided an investment option to invest in a non benefit-responsive guaranteed investment contract with Voya through contributions in Voya general account. The account is credited with a guaranteed and fixed rate of return. The guaranteed investment contract is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan by Voya. The guaranteed investment contract promises contract value for a benefit event, such as a termination, death, disability or retirement. However, there is a market value adjustment, which is also called a surrender charge, when funds are withdrawn prior to their maturity or for a non-benefit event, such as a withdrawal from the account for a change in investment option. The guaranteed investment contract investment in the general account does not have a maturity date. At December 31, 2013 contract value approximated fair value on the guaranteed interest option. The guaranteed minimum rate was 3.0% for December 31, 2013. Interest rates are declared periodically and are communicated monthly. During January 2014, the Plan terminated its contract with no surrender charges.

7 – TAX STATUS OF THE PLAN

For the year ended December 31, 2014, the Plan is based on a volume submitter profit sharing plan developed by AXA Equitable Life Insurance Company, which received a favorable opinion letter dated March 31, 2014, from the IRS stating that the prototype plan constitutes a qualified plan under Section 401 of the IRC. For the year ended December 31, 2013, the Plan is based on a volume submitter profit sharing plan developed by R Barry Johnson & Company PC, which received a favorable opinion letter dated March 31, 2008, from the IRS stating that the prototype plan constitutes a qualified plan under Section 401 of the IRC. The Company believes the Plan, as adopted and amended, is operating within the guidelines of the IRC, and continues to be tax exempt. Accordingly, no provision for federal income taxes has been provided in the accompanying financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the DOL or IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examination for years prior to 2011.

8 – PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in certain pooled separate accounts and an insurance investment contract sponsored by Voya and AXA. The stable value fund investment is backed by the general account of Voya and AXA. As Voya and AXA are the Plan's third-party administrator and hold the Plan's assets, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for various administrative expenses, including investment management services, amounted to $5,542 for the year ended December 31, 2014.

9 – RISKS AND UNCERTAINTIES

The Plan provides for various options of investments. Such investments are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities in the near term could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

10 – SUBSEQUENT EVENTS

The Company has evaluated events and transactions occurring after December 31, 2014, the Statement of Net Assets Available for Benefits date, through September 28, 2015 the date of the financial statements were issued, and determined no such events or transactions, besides the items discussed below, which would impact the financial statements for the year ended December 31, 2014.
