1. Description of Plan

The following brief description of the H.E.P. Materials Corp. 401(k) Profit Sharing Plan ("the Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established October 21, 2005 and is a salary reduction plan pursuant to Section 401(k) of the Internal Revenue Code. It covers substantially all employees of H.E.P. Materials Corp. and Subsidiary ("the Company") who meet certain age and length of service requirements. The Plan is also subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Participation

Employees of the Company are eligible to participate in the Plan if they are at least 21 years of age and have completed one year of service. Once eligibility requirements have been met, participants may enter the Plan on the first day of each month in the plan year.

Contributions

The Company shall make deferred contributions (elective deferrals) on behalf of each participant who has an executed salary reduction agreement in effect with the Company, which is paid in the subsequent plan year. The maximum contribution each participant may make each year is subject to federal limits. Effective January, 2013, the Company's 401(k) profit-sharing plan was amended and restated. The 401(k) profit-sharing plan ceased to be a safe harbor plan and the Company will no longer make safe harbor matching contributions.

The Company may also decide each plan year to make a discretionary profit sharing contribution to the Plan. Such contributions shall be allocated to participating employees in the ratio that each participating employee's compensation bears to the total compensation paid to participating employees. To qualify to receive a discretionary employer contribution, a participant must work 1,000 or more hours and be employed on the last day of the plan year. The Company made no discretionary employer contributions to the Plan in 2014 or 2013. Discretionary employer contributions may vary annually and are determined by the Board of Directors.

Safe harbor contributions remitted in 2014 and 2013 amounted to $-0- and $97,774, respectively.

Departure from accounting principles generally accepted in the United States of America

Accounting principles generally accepted in the United States of America require accrual basis accounting for contributions, benefit payments and administrative expenses. The Plan records these items on a cash basis; that is, when actually received or paid by the trustee.

1. **Description of Plan** (Continued)

Departure from accounting principles generally accepted in the United States of America (Continued)

If the accrual basis of accounting had been used, the net assets of the Plan would have increased as follows:

	2014	2013
Participants deferral contributions	$ -	$ 7,047

Participant accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the Company's matching contribution and discretionary annual profit sharing award and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately 100% vested in their elective deferrals and safe harbor employer matching contributions plus actual earnings thereon. Participants are vested in discretionary employer matching contributions and discretionary profit sharing contributions based on years of continuous service. A vested percentage is determined in accordance with the following schedule:

Years of Service For Vesting	Vesting Percentage
1	0%
2	20%
3	40%
4	60%
5	100%

Forfeitures arising under the Plan are used at the discretion of the plan sponsor to reduce future plan administrative expenses and future employer contributions. Administrative expenses not offset through the application of forfeitures include audit fees paid by the plan sponsor and transaction fees paid by the participants.

Payment of benefits

Upon termination of service due to death, disability, termination, or retirement, the entire account balance, if $1,000 or less, will be distributed in the form of a lump-sum distribution. If the account balance is $5,000 or less, but greater than $1,000, the entire account balance will be distributed as a direct rollover into an individual retirement plan designated by the plan administrator, unless the participant elects to receive a distribution or a direct rollover to an eligible retirement plan. If the account balance is greater than $5,000, no distribution shall be made to the participant until they reach age 59½. In addition, lump-sum distributions may be made, with participant consent, under the following conditions: separation from service and upon the hardship of a participant as provided for in the Plan and in government regulations. Hardship distributions can be distributed only from elective deferrals and are subject to a $500 minimum amount. Participants shall be entitled to receive a distribution of all or a portion of their account upon the attainment of age 59½.

Administrative expenses

Administrative costs of the Plan are reimbursed by forfeitures, with the exception of administrative fees charged by the custodian to individual participants for loan administration.

2. Summary of Significant Accounting Policies

Notes receivable from participants

The minimum principal amount of any loan is $1,000. There is a maximum of one loan outstanding per participant at any given time. Participant's loans are secured by their account balances. Loan setup fees shall be billed or charged in full on the first invoice date following the origination of the loan. Loans must generally be repaid within five years and repayment of principal and interest are made through payroll withholdings. Loans, however, taken for the purpose of purchasing a principal residence may be repaid up to a maximum of ten years. Each loan shall bear interest at a rate charged by commercial lenders for similar loans.

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Basis of accounting

The accounting records are maintained on the modified cash basis.

Contributions are recognized as received. Investment income is recorded on an accrual basis. Benefit payments and administrative expenses are recorded when paid. The purchase and sale of securities are on a trade date basis.

Use of estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Cash equivalents

The Plan considers all highly liquid investments with a maturity of three months or less to be cash equivalents.

Revenue recognition

Purchases and sales of securities are recorded on the trade date basis. Interest and dividends are recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. Summary of Significant Accounting Policies (Continued)

Fair value measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at the end of the year.

2. **Summary of Significant Accounting Policies** (Continued)

Fair value measurements (Continued)

Common collective trust: Underlying investments in investment contracts valued at the contract value of the underlying investments, which approximates fair value. The fund may invest in fixed interest insurance investment contracts, money market funds, corporate and government bonds, mortgage-backed securities, bond funds and other fixed income securities. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Income taxes

The plan evaluates income tax positions for uncertainty to determine any tax positions that may not be fully sustained upon examination by taxing authorities, despite the belief that the underlying tax positions are fully supportable. Tax positions are reviewed on an ongoing basis and are analyzed in light of changing facts and circumstances, including progress of tax audits, developments in case law, and closing of statute of limitations. The Plan administrator had determined that the plan has no uncertain tax positions.

Plan management's review of subsequent events

The plan administrator evaluated events occurring between the end of the most recent plan year and September 29, 2015, the date the financial statements were available to be issued.

3. **Financial Information Certified by the Trustee**

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, the trustee of the Plan, Fidelity Management Trust Company, has certified the completeness and accuracy of all investments and notes receivable from participants reflected on the accompanying statements of net assets available for plan benefits (modified cash basis), the schedule of assets held for investment purposes (modified cash basis), and the related investment activity reflected in the statements of changes in net assets available for plan benefits (modified cash basis).

4. Investments

The following presents the fair value of investments at December 31, 2014 and 2013 that represent greater than 5% of the Plan's net assets:

	2014	2013
Common collective trust	$ 40,662	$ 65,472

5. Related Party Transactions

The Plan invests in shares of mutual funds managed by an affiliate of the trustee, Fidelity Management Trust Company. Fidelity acted as trustee for only those investments as defined by the Plan. Transactions in such investments qualify as party-in-interest transactions which are exempt from prohibited transaction rules.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at anytime and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

7. Tax Status

The Plan obtained its latest determination letter dated December 5, 2001 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter; however, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. They believe that the Plan is qualified and is tax-exempt as of the financial statement date.
