NOBEL BIO CARE USA 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

1. DESCRIPTION OF PLAN

The following description of the Nobel Biocare USA 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Nobel Biocare USA, LLC (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Effective January 1, 2014, employees are automatically enrolled in the Plan at a 4% deferral rate (unless the employees opt-out or elect to defer a different amount) on the first day of the month after completing one month of service.

Administration

The Plan is administered by the Company.

Contributions

Participants may elect to contribute up to 100% of eligible pre-tax or post-tax compensation, not to exceed the limits of the Internal Revenue Code (IRC). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

During 2014, the Company made safe harbor matching contributions of 100% of the participant's deferral, up to the first 4% of eligible compensation deferred. The Company may also make discretionary matching and/or profit sharing contributions. The Company did not make any discretionary contributions for the 2014 or 2013 years.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company safe harbor contributions, as well as allocations of the Company's profit sharing contributions, if any, and Plan earnings. Participant accounts may be charged with an allocation of Plan expenses that are paid by the Plan. Allocations are based on participant's eligible compensation, contributions, investment elections, specific participant transactions and/or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

NOBEL BIOCARE USA 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

1. DESCRIPTION OF PLAN - (Continued)

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Participants employed on or after January 1, 2007 are immediately vested in the Company's matching and discretionary contributions, plus actual earnings thereon. For participants terminated on or prior to December 31, 2006, vesting in the Company's matching and discretionary profit sharing contributions, plus actual earnings thereon, is based on years of service according to the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 1	0%
1	34%
2	68%
3	100%

Forfeitures

The unvested portion of a terminated participant's account will be forfeited and used to reduce future Company contributions or to pay Plan expenses.

Notes Receivable

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Loan terms can range up to 5 years or within a reasonable period of time that is longer, but not to extend beyond 30 years, for the purchase of a primary residence. The loans are secured by the balance in the participant's account. The interest rate will generally be the prime interest rate charged by banks as published in the *Wall Street Journal* as of the loan processing date, plus 1%. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's interest in his or her account. Participants may also elect to rollover their account to another tax deferred account or remain in the Plan until they are legally required to begin taking distributions. All account balances not exceeding \$1,000 may be immediately distributed in a lump-sum payment. All vested account balances exceeding \$1,000, but not exceeding \$5,000, may be rolled into an Individual Retirement Account. With the plan administrator's approval, participants may withdraw part of their aggregate contributions in the event of financial hardship.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and New Accounting Pronouncements

The financial statements of the Plan are prepared under the accrual method of accounting.

In May 2015 and July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Updates ASU 2015-07 and ASU 2015-12, respectively, which include guidance related to plan investment disclosures and fully benefit-responsive investment contracts. This guidance revises the presentation for fully benefit-responsive investment contracts and disclosures related to these contracts as well as other disclosures related to plan investments. This guidance is effective for plan years ending after December 15, 2016 (ASU 2015-07) and December 15, 2015 (ASU 2015-12), with early application permitted. The Plan has elected to early adopt the provisions of these ASUs, including the retroactive application of their provisions.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the period. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. Delinquent participant loans are reclassified as distributions based upon the terms of the plan agreement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Plan expenses are generally paid by the Plan, unless paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Certain transactional fees are charged directly to the participant's account and are included in administrative expenses.

Subsequent Events

The Company has evaluated subsequent events through the date of the independent auditors' report, which is the date the accompanying financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

The FASB provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under this framework are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTES TO THE FINANCIAL STATEMENTS

3. FAIR VALUE MEASUREMENTS - (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered investment companies: These investments are public investment vehicles valued using the net asset value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

Common/collective trusts: Valued at the NAV per share/unit reported at the close of business every day. Shares/units in common/collective trusts can be redeemed daily on demand. The NAV is used as a practical expedient to estimate fair value.

Interest-bearing cash: Interest bearing cash consists of money market investments. The carrying value is believed to be representative of its fair value based on the short-term nature and is classified within level 1 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. FAIR VALUE MEASUREMENTS - (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

Description	Total	Level 1	Level 2	Level 3
<u>December 31, 2014</u>				
Registered investment companies	\$56,412,201	\$56,412,201	\$ -	\$ -
Total assets in the fair value hierarchy	56,412,201	<u>\$56,412,201</u>	<u>\$ -</u>	<u>\$ -</u>
Investments measured at NAV ^(a)	6,140,558			
Investments at fair value	<u>\$62,552,759</u>			
<u>December 31, 2013</u>				
Registered investment companies	\$52,058,505	\$52,058,505	\$ -	\$ -
Interest bearing cash	5,872,883	5,872,883	-	-
Investments at fair value	<u>\$57,931,388</u>	<u>\$57,931,388</u>	<u>\$ -</u>	<u>\$ -</u>

^(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

In regards to the classification of investment options offered by the Plan, there were no reclassifications between levels 1, 2 and 3 during the year ended December 31, 2014.

4. TAX STATUS

The Company adopted a Non-Standardized Prototype Profit Sharing Plan which received a favorable opinion letter from the Internal Revenue Service (IRS), on March 31, 2008, which stated that the Plan, as then designed, was in accordance with applicable sections of the IRC. The Plan has since been amended. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

5. PLAN TERMINATION

Although it has not expressed intent to do so, the Company has the right to terminate or amend the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

6. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Wilmington Trust, the trustee of the Plan, has certified to the completeness and accuracy of the following information which is included in the financial statements and supplemental schedule of assets (held at end of year), as of December 31, 2014 and 2013, and for the years ended December 31, 2014.

	<u>2014</u>	<u>2013</u>
Investments	\$ 62,552,759	\$ 57,931,388
Notes receivable from participants	2,652,418	2,411,140
Net appreciation in fair value of investments	58,295	n/a
Dividend income	3,153,777	n/a
Interest income on notes receivable from participants	104,384	n/a

7. PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain Plan investments are held by Wilmington Trust, the trustee of the Plan. The Plan paid \$108,922 in contract administration fees to Newport Retirement Services during 2014. The Plan also paid \$129,408 to other service providers for administration and broker fees during 2014. The plan issues loans to participants, which are secured by the balances in the participant's accounts. The Company paid certain administrative expenses of the Plan, including recordkeeping and audit fees. These transactions qualify as party-in-interest transactions for which a statutory exemption exists.

The Plan has an expense reimbursement arrangement with the trustee whereby a certain percentage of revenues collected by the trustee is remitted back to the Plan to be held in an expense reimbursement account. This account can then be used to pay eligible plan expenses or be allocated to participants. During 2014, the Plan received \$83,355 in fee reimbursements/credits. During 2014, \$76,026 was allocated to participants. As of December 31, 2014, the Plan had a \$5,449 available to offset future plan expenses or allocate to participants. During the year ended December 31, 2014, the Plan's expense reimbursement account also received \$120 in earnings and the Plan applied \$2,000 towards qualified plan expenses.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500
