Independent Auditor's Report

To the Trustees of
Santmyer Oil Company 401(k) Profit Sharing Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The Santmyer Oil Company 401(k) Profit Sharing Plan, which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note F, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplementary schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2014 and 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplementary schedule of assets held for investment purposes at end of year as of or for the year ended December 31, 2014, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplementary schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplementary schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

SANTMYER OIL COMPANY 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

NOTE A - DESCRIPTION OF PLAN

The following description of the Santmyer Oil (Company) 401(K) Profit Sharing (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

GENERAL

The Plan is a 401(k) profit sharing plan covering substantially all full-time employees of the Company and related entities under common control who have three months of service and are age twenty-one or older. It is subject to the Employee Retirement Income Security Act (ERISA) of 1974.

CONTRIBUTIONS

Each year participants may contribute up to 75 percent of pretax or after tax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct investment of their contributions into various investments options offered by the Plan. The Plan currently offers several mutual funds as investment options for participants. In 2014, the Company matched 50 percent of the elective deferral contributions. Additional amounts may be contributed at the option of the Company's board of trustees. Contributions are subject to certain limitations.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses and, (c) forfeitures of terminated participants' non-vested accounts based on participant earnings or account balances, as defined in the summary Plan description. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

VESTING

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service. Any participant who attains normal retirement age, becomes disabled, or dies, becomes fully vested regardless of length of service.

PAYMENT OF BENEFITS

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period of time. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. At December 31, 2014, there were no significant amounts to be distributed to participants who had withdrawn from the Plan.

FORFEITED ACCOUNTS

At December 31, 2014 and 2013, there were no forfeited non-vested accounts. Any forfeited non-vested accounts would be used to reduce future employer contributions.

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis for fully benefit-responsive investment contracts.

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

INVESTMENT VALUATION AND INCOME RECOGNITION

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note D for discussion of fair value measurements.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

PAYMENT OF BENEFITS

Benefits are recorded when paid.

ADMINISTRATION EXPENSES

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company and therefore excluded from these financial statements. Fees related to the administration of benefits being paid are charged directly to the participant's account and are included in administrative expenses.

CASH EQUIVALENTS

The Plan considers all highly liquid, short-term investments with an original maturity of three months or less to be cash equivalents.

DATE OF MANAGEMENT'S REVIEW OF SUBSEQUENT EVENTS

Management has evaluated subsequent events through August 31, 2015, which is the date the financial statements were available to be issued.

NOTE D - FAIR VALUE MEASUREMENTS

FASB ASC 820, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the assets or liabilities, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE D - FAIR VALUE MEASUREMENTS - (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds: Valued at the quoted net asset value of shares held by the Plan at year end.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations, considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, a variety of factors are evaluated, including the review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms while others are substantiated utilizing available market data.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment fair value measurements at December 31, 2014 and 2013.

NOTE E - INVESTMENT CONTRACT

The Fidelity Advisor Stable Value Investment Contract Fund is a fixed income fund that invests in a diversified portfolio of fully benefit-responsive investment contracts issued by insurance companies, banks and other financial institutions. The Fidelity Advisor Stable Value Investment Contract Fund utilizes collateralized GIC contracts, which are high quality fixed income securities wrapped by an insurance company, bank or financial institution. The wrap contract provides benefit-responsive withdrawals and book value accounting, while the underlying collateral provides improved credit quality to the fund and reduced exposure to any single industry. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals. The contract value of the Fidelity Advisor Stable Value Investment Contract Fund was \$225,434 and \$182,507 for the years ended December 31, 2014 and 2013, respectively.

The Fidelity Advisor Stable Value Investment Contract Fund is a synthetic GIC, also known as a wrap contract, which is a contract issued by an insurance company or other financial institution, designed to provide a contract value "wrapper" around a portfolio of bonds or other fixed income securities that are owned by the Fund. The assets underlying the wrap contract are units of fixed income collective investment trusts. The wrap contracts are obligated to provide an interest rate not less than zero. These contracts provide that realized and unrealized gains and losses on the underlying assets are not reflected immediately in the net assets of the Fund, but rather are amortized over the duration of the underlying assets through adjustments to the future interest crediting rate. The issuer guarantees that all qualified participant withdrawals will occur at contract value.

NOTE E - INVESTMENT CONTRACT - (Continued)

VARIABLES THAT IMPACT FUTURE CREDITING RATES

Primary variables impacting future crediting rates of wrap contracts include:

- Current yield of the underlying assets within the wrap contract
- Duration of the underlying assets covered by the wrap contract
- Existing difference between the market value and contract value of the underlying assets within the wrap contract

BASIS AND FREQUENCY OF DETERMINING INTEREST CREDITING RATES

The wrap contract crediting rates are reset on a staggered, quarterly basis, with one of three contracts resetting every month.

MINIMUM CREDITING RATES

Wrap contracts provide an interest rate floor of zero percent.

RELATIONSHIP BETWEEN FUTURE CREDITING RATES AND ADJUSTMENT BETWEEN FAIR VALUE (MARKET VALUE) AND CONTRACT VALUE

The crediting rate of the wrap contracts will track current market yields on a trailing basis. The rate reset allows the contract value of the underlying assets to converge to the market value over time, assuming the market value continues to earn the current portfolio yield for a period of time equal to the current portfolio duration.

LIMITATIONS ON THE ABILITY OF THE FUND TO TRANSACT AT CONTRACT VALUE

The benefit-responsive investment contracts, which are agreements with insurance companies and other financial institutions, are designed to help preserve principal and provide a stable crediting rate. These contracts are fully benefit responsive and provide that plan participant initiated withdrawals permitted under the Plan will be paid at contract value.

In addition to certain wrap agreement termination provisions discussed below, wrap contracts provide for withdrawals associated with certain events which are not in the ordinary course of Plan operations, and that the issuer determines will have a material adverse effect on the issuer's financial interest, and will be paid with a market value adjustment to the contract value amount of such withdrawal, as defined in such contracts.

TERMINATIONS AT OTHER THAN CONTRACT VALUE

The wrap contracts are evergreen contracts that contain termination provisions. Wrap agreements permit the Fund's investment manager to terminate upon notice at any time at market value and provide for automatic termination of the wrap contract if the contract value or the market value of the contract equals zero.

The investment income reported in the statement of changes in net assets available for benefits for the year ended December 31, 2014, as well as the information included in the supplementary schedule of assets held for investment purposes at end of year, was certified by Fidelity Management Trust Company.

NOTE G - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is also the investment trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management fees and services amounted to \$100 and \$75 for the years ended December 31, 2014 and 2013, respectively. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

SANTMYER OIL COMPANY 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

NOTE H - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to amend any and all provisions of the Plan, as well as discontinue its contributions and to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts, and the net assets of the Plan would be allocated among the participants and beneficiaries of the Plan in the order provided for by ERISA.

NOTE I - TAX STATUS

On September 16, 2003, the Internal Revenue Service (IRS) stated that the Prototype Plan and related trust adopted by the Plan, as then designed, qualifies under the Internal Revenue Code (IRC) Section 401(a). The Plan has not received a determination letter specific to the Plan itself, however, the Plan administrator believes that the Plan was designed and was being operated in compliance with applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Generally accepted accounting principles requires plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income examinations for the years prior to 2012.

NOTE J - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit and market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE K - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

To the Trustees of
Santmyer Oil Company 401(k) Profit Sharing Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The Santmyer Oil Company 401(k) Profit Sharing Plan, which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note F, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplementary schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2014 and 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplementary schedule of assets held for investment purposes at end of year as of or for the year ended December 31, 2014, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplementary schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplementary schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

SANTMYER OIL COMPANY 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

NOTE A - DESCRIPTION OF PLAN

The following description of the Santmyer Oil (Company) 401(K) Profit Sharing (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

GENERAL

The Plan is a 401(k) profit sharing plan covering substantially all full-time employees of the Company and related entities under common control who have three months of service and are age twenty-one or older. It is subject to the Employee Retirement Income Security Act (ERISA) of 1974.

CONTRIBUTIONS

Each year participants may contribute up to 75 percent of pretax or after tax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct investment of their contributions into various investments options offered by the Plan. The Plan currently offers several mutual funds as investment options for participants. In 2014, the Company matched 50 percent of the elective deferral contributions. Additional amounts may be contributed at the option of the Company's board of trustees. Contributions are subject to certain limitations.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses and, (c) forfeitures of terminated participants' non-vested accounts based on participant earnings or account balances, as defined in the summary Plan description. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

VESTING

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service. Any participant who attains normal retirement age, becomes disabled, or dies, becomes fully vested regardless of length of service.

PAYMENT OF BENEFITS

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period of time. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. At December 31, 2014, there were no significant amounts to be distributed to participants who had withdrawn from the Plan.

FORFEITED ACCOUNTS

At December 31, 2014 and 2013, there were no forfeited non-vested accounts. Any forfeited non-vested accounts would be used to reduce future employer contributions.

SANTMYER OIL COMPANY 401(K) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis for fully benefit-responsive investment contracts.

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

INVESTMENT VALUATION AND INCOME RECOGNITION

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note D for discussion of fair value measurements.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

PAYMENT OF BENEFITS

Benefits are recorded when paid.

ADMINISTRATION EXPENSES

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company and therefore excluded from these financial statements. Fees related to the administration of benefits being paid are charged directly to the participant's account and are included in administrative expenses.

CASH EQUIVALENTS

The Plan considers all highly liquid, short-term investments with an original maturity of three months or less to be cash equivalents.

DATE OF MANAGEMENT'S REVIEW OF SUBSEQUENT EVENTS

Management has evaluated subsequent events through August 31, 2015, which is the date the financial statements were available to be issued.

NOTE D - FAIR VALUE MEASUREMENTS

FASB ASC 820, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the assets or liabilities, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE D - FAIR VALUE MEASUREMENTS - (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds: Valued at the quoted net asset value of shares held by the Plan at year end.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations, considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, a variety of factors are evaluated, including the review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms while others are substantiated utilizing available market data.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment fair value measurements at December 31, 2014 and 2013.

NOTE E - INVESTMENT CONTRACT

The Fidelity Advisor Stable Value Investment Contract Fund is a fixed income fund that invests in a diversified portfolio of fully benefit-responsive investment contracts issued by insurance companies, banks and other financial institutions. The Fidelity Advisor Stable Value Investment Contract Fund utilizes collateralized GIC contracts, which are high quality fixed income securities wrapped by an insurance company, bank or financial institution. The wrap contract provides benefit-responsive withdrawals and book value accounting, while the underlying collateral provides improved credit quality to the fund and reduced exposure to any single industry. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals. The contract value of the Fidelity Advisor Stable Value Investment Contract Fund was \$225,434 and \$182,507 for the years ended December 31, 2014 and 2013, respectively.

The Fidelity Advisor Stable Value Investment Contract Fund is a synthetic GIC, also known as a wrap contract, which is a contract issued by an insurance company or other financial institution, designed to provide a contract value "wrapper" around a portfolio of bonds or other fixed income securities that are owned by the Fund. The assets underlying the wrap contract are units of fixed income collective investment trusts. The wrap contracts are obligated to provide an interest rate not less than zero. These contracts provide that realized and unrealized gains and losses on the underlying assets are not reflected immediately in the net assets of the Fund, but rather are amortized over the duration of the underlying assets through adjustments to the future interest crediting rate. The issuer guarantees that all qualified participant withdrawals will occur at contract value.

NOTE E - INVESTMENT CONTRACT - (Continued)

VARIABLES THAT IMPACT FUTURE CREDITING RATES

Primary variables impacting future crediting rates of wrap contracts include:

- Current yield of the underlying assets within the wrap contract
- Duration of the underlying assets covered by the wrap contract
- Existing difference between the market value and contract value of the underlying assets within the wrap contract

BASIS AND FREQUENCY OF DETERMINING INTEREST CREDITING RATES

The wrap contract crediting rates are reset on a staggered, quarterly basis, with one of three contracts resetting every month.

MINIMUM CREDITING RATES

Wrap contracts provide an interest rate floor of zero percent.

RELATIONSHIP BETWEEN FUTURE CREDITING RATES AND ADJUSTMENT BETWEEN FAIR VALUE (MARKET VALUE) AND CONTRACT VALUE

The crediting rate of the wrap contracts will track current market yields on a trailing basis. The rate reset allows the contract value of the underlying assets to converge to the market value over time, assuming the market value continues to earn the current portfolio yield for a period of time equal to the current portfolio duration.

LIMITATIONS ON THE ABILITY OF THE FUND TO TRANSACT AT CONTRACT VALUE

The benefit-responsive investment contracts, which are agreements with insurance companies and other financial institutions, are designed to help preserve principal and provide a stable crediting rate. These contracts are fully benefit responsive and provide that plan participant initiated withdrawals permitted under the Plan will be paid at contract value.

In addition to certain wrap agreement termination provisions discussed below, wrap contracts provide for withdrawals associated with certain events which are not in the ordinary course of Plan operations, and that the issuer determines will have a material adverse effect on the issuer's financial interest, and will be paid with a market value adjustment to the contract value amount of such withdrawal, as defined in such contracts.

TERMINATIONS AT OTHER THAN CONTRACT VALUE

The wrap contracts are evergreen contracts that contain termination provisions. Wrap agreements permit the Fund's investment manager to terminate upon notice at any time at market value and provide for automatic termination of the wrap contract if the contract value or the market value of the contract equals zero.

The investment income reported in the statement of changes in net assets available for benefits for the year ended December 31, 2014, as well as the information included in the supplementary schedule of assets held for investment purposes at end of year, was certified by Fidelity Management Trust Company.

NOTE G - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is also the investment trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management fees and services amounted to \$100 and \$75 for the years ended December 31, 2014 and 2013, respectively. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

NOTE H - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to amend any and all provisions of the Plan, as well as discontinue its contributions and to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts, and the net assets of the Plan would be allocated among the participants and beneficiaries of the Plan in the order provided for by ERISA.

NOTE I - TAX STATUS

On September 16, 2003, the Internal Revenue Service (IRS) stated that the Prototype Plan and related trust adopted by the Plan, as then designed, qualifies under the Internal Revenue Code (IRC) Section 401(a). The Plan has not received a determination letter specific to the Plan itself, however, the Plan administrator believes that the Plan was designed and was being operated in compliance with applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Generally accepted accounting principles requires plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income examinations for the years prior to 2012.

NOTE J - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit and market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE K - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2014 and 2013, to the Form 5500:
