Note 1 - Plan Description

The following brief description of A. Raymond Corporate NA, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan that provides benefits to eligible participants as determined according to the provisions of the plan agreement. Employees are eligible to participate in the Plan after completing 30 days of service with the plan sponsors, A. Raymond Corporate NA, Inc., Rayconnect, Inc., A. Raymond Tinnerman Automotive, Inc., A. Raymond Tinnerman Manufacturing, Inc., A. Raymond Tinnerman Industrial, Inc., Raydiall Automotive, Inc., Rayce Americas. Inc., RayWal North America, Inc., and Raynet Americas, Inc., (collectively, the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Under provisions of the Plan, both the employee and the employers may make contributions. Participants' accounts are invested as directed by the participants in any one or more of the available investment alternatives. During 2013, the Company remitted one employee group's deferrals and loan repayments in the amount of $9,689 to the Plan after the Department of Labor's required timeframe. A contribution of lost earnings was made to the Plan during 2014. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Company matches 100 percent of contributions up to 3 percent of compensation and 50 percent of contributions on the next 2 percent of compensation. All employee and employer qualified matching contributions are 100 percent vested and nonforfeitable.

The employers may make additional discretionary contributions, which become vested over a period of time. The Company did not make any discretionary contributions during 2014 or 2013.

The vesting schedule for employer matching contributions and discretionary employer contributions and the income thereon is as follows:

Years of Service	Vesting Percentage
Less than two	0
Two	25
Three	50
Four	75
Five	100

Note 1 - Plan Description (Continued)

Participant Accounts - Each participant's account is credited with the participant's contribution, the employer-matching contribution, and an allocation of any employer nonelective contributions, plan earnings, and expenses. Allocations to the various investment options are based on participants' elections. Plan earnings and expenses are allocated to the participants' accounts based on a ratio of the individual account balances in relation to the aggregate of all account balances. The benefit to which a participant is entitled is the amount included in each individual participant's account.

Participant Notes Receivable - Participants may borrow from their accounts subject to certain maximum and minimum amounts as prescribed in the Plan and in the Internal Revenue Code. Participant notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Nationwide Financial Services, Inc. (Nationwide). Nationwide is the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Certain administrative expenses of the Plan are paid by the Company, which qualify as party-in-interest transactions as well.

Payment of Benefits - Upon termination of service, a participant will receive his or her vested account balance in a lump-sum amount, an annual annuity, or a rollover distribution to another qualified retirement plan.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future Company contributions.

Hardship Withdrawals - Participants may request that all or a portion of their account be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Termination - Although it has not expressed any intention to do so, the Company has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants become 100 percent vested in their account balances and the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value except as noted below. The common collective trust fund investment is valued at contract value. Contract value represents investments at cost, plus accrued interest income, less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is based on the fair value of the underlying net assets at the measurement date by the issuer of the fund. The Plan's interest in the common collective trust fund is based on its proportionate ownership interest in the fair value of the common collective trust fund. The common collective trust fund primarily holds fixed-income securities and derivatives. The fair value of the fixed-income securities is valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. The fair value of a wrapper contract provided by the contract issuer is based on the replacement cost methodology, which is the present value of the difference between the replacement wrapper fee and the contracted wrapper fee.

The money market fund is valued at fair value based on its outstanding balance. All other investments are valued based on quoted market prices. See Note 6 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (Continued)

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 30, 2015, which is the date the financial statements were available to be issued.

Note 3 - Tax Status

The Plan, as adopted, is a volume submitter plan of Nationwide Financial Services Inc., which does not require an application for a determination letter from the Internal Revenue Service (IRS). The volume submitter plan has received a favorable notification letter from the IRS dated March 31, 2014.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes it is no longer subject to tax examinations for years prior to 2011.

Note 4 - Unaudited Information

Nationwide Financial Services, Inc., including its subsidiary Nationwide Trust Company, FSB, a division of Nationwide Bank (the "Custodian"), holds the Plan's investment assets and participant notes receivable and executes all related transactions. The participant notes receivable, investment balances, and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at year end are based solely on information provided by the Custodian.

Total additions per Form 5500	$ 10,687,439

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2014 and 2013.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

There were no unfunded commitments or redemption restrictions on the investments described above.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2014 and 2013.
