SUMTER TRANSPORT COMPANY, INC. EMPLOYEE 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2014 AND 2013

NOTE A - DESCRIPTION OF PLAN

The following description of the Sumter Transport Company, Inc. ("Company") Employee 401(k) Savings Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all full-time employees of the Company who have six months of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to, but not in excess of, the 402(g) limit of pretax annual compensation as defined in the Plan. This limit for the year ended December 2014 and 2013 was \$17,500 and \$17,500, respectively. A \$5,500 and \$5,500 catch-up contribution was allowed for individuals age 50 or older for the years ended December 2014 and 2013, respectively. The Company contributes a fixed amount equal to 25% of an employee's salary deferrals not to exceed 6% of the employee's compensation paid. Additionally, the Company's Board of Directors determines any discretionary contribution.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service.

Payment of Benefits

On termination of service for any reason, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

NOTE A - DESCRIPTION OF PLAN (continued)

Forfeited Accounts

Forfeited nonvested accounts are allocated to reduce matching contributions immediately following the plan year in which the forfeiture occurs.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investments Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value corporate common stocks, shares of registered investment companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end.

Notes Receivable from Participants

Loans to participants are reported at their unpaid balance plus any accrued unpaid interest.

Operating Expenses

A portion of the expenses of maintaining the plan are paid by the Employer.

Subsequent Events

The Plan has evaluated subsequent events through October 8, 2015 the date the financial statements were available to be issued.

NOTE C - FAIR VALUE MEASUREMENTS

FASB Statement No. 157, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB Statement No. 157 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include -

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the assets or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets at fair value at December 31, 2014:

Mutual Funds (Registered Investment Companies)- - valued at the quoted market prices.

Common/Collective Trust Funds - valued at the quoted market prices of the investments held in the Trusts.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
