Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of First Credit Union Cash Balance Defined Benefit Retirement Pension Plan, which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the statement of accumulated plan benefits as of December 31, 2013, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by MG Trust Company, LLC the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that MG Trust Company, LLC holds the Plan's investment assets and executes investment. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2014 and 2013 that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2014 is required by the DOL Rules and Regulations for Reporting and Disclosure under the ERISA, and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the ERISA.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

NOTE 1 DESCRIPTION OF PLAN

The First Credit Union Cash Balance Defined Benefit Retirement Pension Plan (Plan) was established February 1, 1996. The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a defined benefit plan covering all employees of First Credit Union (the Plan Sponsor or Credit Union) who have attained age 21 and completed one year of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended. The Trustees are responsible for the oversight of the Plan. They determine the appropriateness of the Plan's investment offerings and monitor investment performance.

Pension Benefits

Employees with five or more years of service are entitled to annual pension benefits beginning at normal retirement age (65) equal to 1.25% of their final 3-year average annual compensation for each year of service plus 0.65% of the average salary in excess of the covered compensation multiplied by the number of years of service prior to January 1, 2006 plus 2.00% of average salary multiplied by years of service after January 1, 2006, up to a total of 25 years. The Plan permits early retirement at ages 55-64 with reduced benefits. Employees may elect to receive their pension benefits in the form of a joint and survivor annuity. If employees terminate before rendering one year of service, they forfeit the right to receive any portion of their accumulated plan benefits. Employees may elect to receive the value of their accumulated plan benefits as a lump-sum distribution upon retirement or termination, or they may elect to receive their benefits as a life annuity payable monthly from retirement.

Effective May 22, 2009 management of First Credit Union approved a plan to freeze the Plan which would prevent further accumulation of years of service attained and average annual compensation through December 31, 2008. The freeze dictates that participants will receive benefits that are already accrued, but no new benefits will be accrued. Effective July 1, 2013, the Plan was unfrozen to amend the vesting schedule and to add a cash balance feature. Funding of the plan will be equal to 3% of compensation for eligible participants, while retaining the accrued benefits determined prior to May 22, 2009.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Vesting

Vesting in the Plan is based on years of continuous service. Vesting prior to June 30, 2013, was a one year cliff, with 100% vesting after one year of service. Vesting after June 30, 2013 is as follows:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 3 year	0%
3 years or more	100%

Death and Disability Benefits

If an active employee dies, a death benefit equal to the present value of the employee's accumulated pension benefits is paid to the employee's beneficiary. Active employees who become totally disabled receive disability benefits that are equal to the retirement benefits they have accumulated as of the time they become disabled.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting.

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make a number of estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies utilizing information provided by the investment advisors, custodians, and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income (loss) is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on the three highest consecutive years of employee compensation. The accumulated plan benefits for active employees are based on their highest average compensation during three consecutive years of the given compensation history as of the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of January 1, 2014 were (a) life expectancy of participants (RP 2000 Combined Table projected to 2014 by scale AA), (b) assumed average retirement age of 65, and (c) investment return of 4.00%. The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2014. Had the valuation been performed as of December 31, 2013, there would be no material differences.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The January 1, 2014, actuarial valuation also included changes in actuarial assumptions relating to the discount rate decreasing from 6.27% for the January 1, 2013 valuation to 5.77% for the January 1, 2014 valuation, that resulted in a increase in the actuarial present value of accumulated plan benefits of \$218,058 for the year ended December 31, 2013.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Certain administrative expenses of the Plan are paid by the Credit Union. Asset based fees and distribution fees are paid by the Plan.

Subsequent Events

The Plan has evaluated subsequent events through October 5, 2015, the date the financial statements were available to be issued.

NOTE 3 INVESTMENTS CERTIFIED BY THE CUSTODIAN AND INSURANCE COMPANY

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian and insurance company have certified that the data included in the accompanying financial statements and schedule are complete and accurate.

- a. Total investments as shown in the accompanying statements of net assets available for benefits of \$7,873,811 and \$7,682,568 as of December 31, 2014 and 2013, respectively.
- b. Net investment income as shown in the accompanying statements of changes in net assets available for benefits of \$355,051 and \$872,333 for the years ended December 31, 2014 and 2013, respectively.

The value of individual investments that represent five percent or more of the Plan's net assets as of December 31 are as follows:

	<u>2014</u>	<u>2013</u>
CUNA Mutual Insurance Society:		
Interest in CUNA Mutual Retirement		
Pension Collective Investment Trust	\$ 7,873,811	\$ 7,682,568

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 4 FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

FIRST CREDIT UNION CASH BALANCE DEFINED BENEFIT RETIREMENT PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Collective investment trust: The collective investment trust is valued at the net asset value (NAV) per share. The NAV, as provided by CUNA Mutual, is used as a practical expedient to estimate fair value. The NAV is based on the value of the underlying holdings that are primarily comprised of fixed income and equity mutual funds. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The following is a description of the nature and risks of the categories of pension plan assets by major security type.

Collective investment trust: Trust seeks long-term, stable interest rate returns on pension deposits and is guaranteed by CUNA Mutual Insurance Society.

NOTE 5 TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Credit Union by a letter dated March 31, 2010, that the Prototype Plan adopted by the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator and plan sponsor believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and are not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions and is currently undergoing an audit by the IRS for the plan year ended December 31, 2013. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 6 PLAN TERMINATION

Although it has no plans to do so, the Credit Union has the right to discontinue its contribution and terminate the Plan at any time. In the event of termination, all participants would become fully vested.

In the event the Plan terminates, the net assets of the Plan would be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All nonvested benefits.

FIRST CREDIT UNION CASH BALANCE DEFINED BENEFIT RETIREMENT PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

NOTE 6 PLAN TERMINATION (CONTINUED)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 7 FUNDING POLICY

Each year the Credit Union will contribute a sum of money necessary to fund the benefits specified by the Plan, subject to the IRS full funding limit test. The amount of this annual contribution will be actuarially determined. Employees are not required to make contributions to the Plan. The Plan has met the ERISA minimum funding requirement for the years ended December 31, 2014 and 2013.

NOTE 8 RELATED-PARTY TRANSACTIONS

The Plan's investment at is a collective investment trust managed by CFMG Life Insurance Company through MG Trust Company, LLC, and, therefore, the investment transactions qualify as party-in-interest transactions.

NOTE 9 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.
