Gerber Legendary Blades Union 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Gerber Legendary Blades Union 401(k) Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

General: The Plan is a defined contribution plan covering all collectively bargained employees of the Gerber Legendary Blades Division of Fiskars Brands, Inc. (the Company) who have at least 90 days of service and are age 18 or older and will enter the first of the month after completing the requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may elect to make before tax contributions to the Plan up to the maximum allowed by the Internal Revenue Service. Participants are subject to an automatic deferral amount which will require 3 percent of compensation to be withheld unless the participant elects a contrary election. Notwithstanding any of the foregoing, a participant may elect to defer zero percent. As of April 1, 2014, the automatic deferral amount was increased to 6 percent of compensation to be withheld unless the participant elects a contrary election. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution Plans. Effective March 15, 2015, participants may make Roth contributions. The Company contributes 100 percent of the first 3 percent of compensation that a participant contributes plus 50 percent of the next 3 percent of compensation. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in all of their accounts.

Investment options: Upon enrollment in the Plan, participants direct the investment of their account balances into a variety of investment options as more fully described in the Plan's literature. Participants may change their investment options daily.

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50 percent of their account balance. The notes are secured by the balance in the participant's account and bear interest at rates which are commensurate with a commercially reasonable rate of return, which the Company has determined to be the prime rate as determined by the Plan's Trustee or its affiliate, plus one percent. Note terms shall not exceed five years, except for the purchase of a primary residence. Principal and interest is paid ratably through payroll deductions.

Payment of benefits: On termination of service due to death, disability, retirement or termination, a participant may elect to receive an amount equal to the participant's account balance as a lump-sum distribution or installment payments, or roll it over to another qualified retirement plan.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Gerber Legendary Blades Union 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 2. Significant Accounting Policies (Continued)

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of estimates: The preparation of financial statements in conformity with generally accepted accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Total Rewards Committee determines the Plan's valuation policies utilizing information provided by the investment trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accounted for on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Recent accounting pronouncement: In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-07, Fair Value Measurement (Topic 820): *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. Plan management is currently evaluating the impact this update will have on the Plan's financial statements.

Note 2. Significant Accounting Policies (Continued)

In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), *Defined Contribution Pension Plans* (Topic 962), *Health and Welfare Benefit Plans* (Topic 965) – (I) *Fully Benefit-Responsive Investment Contracts*, (II) *Plan Investment Disclosures*, and (III) *Measurement Date Practical Expedient* (a consensus of the FASB Emerging Issues Task Force). The purpose of this Update is to simplify plan accounting.

- The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value, accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.
- The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy will no longer be required.
- The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The Update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. Plan management is currently evaluating the impact this Update will have on the Plan's financial statements.

Subsequent events: The Plan's management has evaluated subsequent events through October 7, 2015, the date the financial statements were available to be issued.

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under the ASC 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	<p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Shares of registered investment companies: Shares of registered investment companies are valued at the daily closing price as reported by the fund. The funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Interest in collective investment trusts: Interest in collective investment trusts are valued based on the NAV units of the interest in collective investment trusts. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

- (a) The fund has invested all of its assets in Wells Fargo Stable Return Fund G, a collective trust fund sponsored by the Wells Fargo Bank, N.A. The value of this investment is based on the underlying unit value reported by Wells Fargo Stable Return Fund G. As of December 31, 2014, the Wells Fargo Stable Return Fund N35 held a 5.29 percent ownership interest in the Wells Fargo Stable Return Fund G. As of December 31, 2013, the Wells Fargo Stable Return Fund N35 held a 6.38 percent ownership interest in the Wells Fargo Stable Return Fund G.

The Wells Fargo Stable Return Fund G invests in investment contracts and security-backed contracts. An investment contract is a contract issued by a financial institution to provide a stated rate of return to the buyer of the contract for a specified period of time. A security-backed contract has similar characteristics as a traditional investment contract and is comprised of two parts: the first part is a fixed-income security or portfolio of fixed-income securities; the second part is a contract value guarantee (wrapper) provided by a third party. Wrappers provide contract value payments for certain participant-initiated withdrawals and transfers, a floor credit rate, and return of fully accrued contract value at maturity.

- (b) The fund is an index fund that invests in debt securities to approximate the return, before fees and expenses, of the Index. The Index is a broad index that is designated to capture the aggregate performance of the U.S. market for high quality government and corporate bonds.

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2014, there were no transfers in or out of Level 3.

The table below sets forth a summary of changes in fair value of the Plan's Level 3 assets for the year ended December 31, 2014:

	<u>Stable Value</u>
Balance, beginning of year	\$ 964,018
Realized gains	874
Unrealized gains relating to investments still held at reporting date	14,730
Purchases	204,122
Sales	(218,448)
	<u>\$ 965,296</u>
The amount of total gains for the period attributable to the change in unrealized gains relating to assets still held at the reporting date	<u>\$ 14,730</u>

Note 6. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 7. Related-Party Transactions

Certain plan investments in collective investment trusts are managed by Wells Fargo Bank, N.A. Wells Fargo Bank, N.A. is the trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. The Plan paid approximately \$12,000 in fees to Wells Fargo Bank, N.A. during the year ended December 31, 2014.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the trustee's fees are paid directly by the plan sponsor.

Notes to Financial Statements

Note 8. Income Tax Status

The Plan has adopted a non-standardized form of a prototype plan sponsored by Wells Fargo Bank, N.A. The prototype plan received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since the prototype plan received the opinion letter. However, the Plan Administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. The Plan has filed for a determination letter from the Internal Revenue Service regarding the Plan's qualification under Section 401(a) and the related trust's tax-exempt status under the provisions of Section 501(a) of the Code. The Total Rewards Committee believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the Code. The Total Rewards Committee will make any changes deemed necessary to ensure that the Plan is granted tax-exempt status.

Management evaluated the Plan's uncertain tax positions and concluded that the Plan had maintained its exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by U.S. federal, state or local tax authorities for the years before 2011.

Gerber Legendary Blades Union 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Gerber Legendary Blades Union 401(k) Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

General: The Plan is a defined contribution plan covering all collectively bargained employees of the Gerber Legendary Blades Division of Fiskars Brands, Inc. (the Company) who have at least 90 days of service and are age 18 or older and will enter the first of the month after completing the requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may elect to make before tax contributions to the Plan up to the maximum allowed by the Internal Revenue Service. Participants are subject to an automatic deferral amount which will require 3 percent of compensation to be withheld unless the participant elects a contrary election. Notwithstanding any of the foregoing, a participant may elect to defer zero percent. As of April 1, 2014, the automatic deferral amount was increased to 6 percent of compensation to be withheld unless the participant elects a contrary election. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution Plans. Effective March 15, 2015, participants may make Roth contributions. The Company contributes 100 percent of the first 3 percent of compensation that a participant contributes plus 50 percent of the next 3 percent of compensation. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in all of their accounts.

Investment options: Upon enrollment in the Plan, participants direct the investment of their account balances into a variety of investment options as more fully described in the Plan's literature. Participants may change their investment options daily.

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50 percent of their account balance. The notes are secured by the balance in the participant's account and bear interest at rates which are commensurate with a commercially reasonable rate of return, which the Company has determined to be the prime rate as determined by the Plan's Trustee or its affiliate, plus one percent. Note terms shall not exceed five years, except for the purchase of a primary residence. Principal and interest is paid ratably through payroll deductions.

Payment of benefits: On termination of service due to death, disability, retirement or termination, a participant may elect to receive an amount equal to the participant's account balance as a lump-sum distribution or installment payments, or roll it over to another qualified retirement plan.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Note 2. Significant Accounting Policies (Continued)

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of estimates: The preparation of financial statements in conformity with generally accepted accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Total Rewards Committee determines the Plan's valuation policies utilizing information provided by the investment trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is accounted for on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Recent accounting pronouncement: In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-07, Fair Value Measurement (Topic 820): *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. Plan management is currently evaluating the impact this update will have on the Plan's financial statements.

Note 2. Significant Accounting Policies (Continued)

In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), *Defined Contribution Pension Plans* (Topic 962), *Health and Welfare Benefit Plans* (Topic 965) – (I) *Fully Benefit-Responsive Investment Contracts*, (II) *Plan Investment Disclosures*, and (III) *Measurement Date Practical Expedient* (a consensus of the FASB Emerging Issues Task Force). The purpose of this Update is to simplify plan accounting.

- The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value, accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.
- The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy will no longer be required.
- The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The Update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. Plan management is currently evaluating the impact this Update will have on the Plan's financial statements.

Subsequent events: The Plan's management has evaluated subsequent events through October 7, 2015, the date the financial statements were available to be issued.

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under the ASC 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	<p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Shares of registered investment companies: Shares of registered investment companies are valued at the daily closing price as reported by the fund. The funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Interest in collective investment trusts: Interest in collective investment trusts are valued based on the NAV units of the interest in collective investment trusts. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

- (a) The fund has invested all of its assets in Wells Fargo Stable Return Fund G, a collective trust fund sponsored by the Wells Fargo Bank, N.A. The value of this investment is based on the underlying unit value reported by Wells Fargo Stable Return Fund G. As of December 31, 2014, the Wells Fargo Stable Return Fund N35 held a 5.29 percent ownership interest in the Wells Fargo Stable Return Fund G. As of December 31, 2013, the Wells Fargo Stable Return Fund N35 held a 6.38 percent ownership interest in the Wells Fargo Stable Return Fund G.

The Wells Fargo Stable Return Fund G invests in investment contracts and security-backed contracts. An investment contract is a contract issued by a financial institution to provide a stated rate of return to the buyer of the contract for a specified period of time. A security-backed contract has similar characteristics as a traditional investment contract and is comprised of two parts: the first part is a fixed-income security or portfolio of fixed-income securities; the second part is a contract value guarantee (wrapper) provided by a third party. Wrappers provide contract value payments for certain participant-initiated withdrawals and transfers, a floor credit rate, and return of fully accrued contract value at maturity.

- (b) The fund is an index fund that invests in debt securities to approximate the return, before fees and expenses, of the Index. The Index is a broad index that is designated to capture the aggregate performance of the U.S. market for high quality government and corporate bonds.

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2014, there were no transfers in or out of Level 3.

The table below sets forth a summary of changes in fair value of the Plan's Level 3 assets for the year ended December 31, 2014:

	<u>Stable Value</u>
Balance, beginning of year	\$ 964,018
Realized gains	874
Unrealized gains relating to investments still held at reporting date	14,730
Purchases	204,122
Sales	(218,448)
	<u>\$ 965,296</u>
The amount of total gains for the period attributable to the change in unrealized gains relating to assets still held at the reporting date	<u>\$ 14,730</u>

Note 6. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 7. Related-Party Transactions

Certain plan investments in collective investment trusts are managed by Wells Fargo Bank, N.A. Wells Fargo Bank, N.A. is the trustee as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. The Plan paid approximately \$12,000 in fees to Wells Fargo Bank, N.A. during the year ended December 31, 2014.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the trustee's fees are paid directly by the plan sponsor.

Note 8. Income Tax Status

The Plan has adopted a non-standardized form of a prototype plan sponsored by Wells Fargo Bank, N.A. The prototype plan received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since the prototype plan received the opinion letter. However, the Plan Administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. The Plan has filed for a determination letter from the Internal Revenue Service regarding the Plan's qualification under Section 401(a) and the related trust's tax-exempt status under the provisions of Section 501(a) of the Code. The Total Rewards Committee believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the Code. The Total Rewards Committee will make any changes deemed necessary to ensure that the Plan is granted tax-exempt status.

Management evaluated the Plan's uncertain tax positions and concluded that the Plan had maintained its exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by U.S. federal, state or local tax authorities for the years before 2011.
