EMPLOYEES' SAVINGS INVESTMENT PLAN**

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

1. DESCRIPTION OF PLAN

The following description of the Bermello, Ajamil & Partners, Inc. Employees' Savings Investment Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. Bermello, Ajamil & Partners, Inc. (the "Plan Administrator" or the "Company") is the Plan sponsor.

General

The Plan's original effective date was July 1, 1994. The Plan is a defined contribution plan covering all employees of Bermello, Ajamil & Partners, Inc. (the "Employer") who have worked for six consecutive months of service during which the participants complete at least one hour of service and are at least age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan Custodian

The Plan assets are maintained by Great West Life and Annuity Insurance Company ("Great West"), which serves as the Custodian of the Plan.

Contributions

Each year, participants may elect to have the Company contribute a portion of their total annual compensation to the Plan ("elective deferrals"). For any calendar year, a participant's elective deferrals may not exceed \$17,500 in 2014 and 2013, as determined by the Internal Revenue Service ("IRS"). Participants may contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover contributions, catch-up contributions and IRA contributions). The Company may make a matching contribution or profit sharing contribution equal to a discretionary percentage of each participant's salary deferrals, which percentage will be determined each year by the Company. In order to share in the matching and profit sharing contributions, a participant must be actively employed on the last day of the Plan year and must have completed at least 1,000 hours of service during the Plan year. The Company made no matching contribution for the years ended December 31, 2014 and 2013.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Company's matching contributions and Plan earnings thereon and allocations of (a) the Company's profit sharing contributions and (b) Plan earnings related to those profit sharing contributions. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Certain minimum service hour requirements must be met for employees to be entitled to allocations of Company matching and/or non-elective contributions. Forfeited balances of terminated participants' non-vested accounts are used to reduce future Company contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participants direct the investment of their contributions into various investment options offered by the Plan. Company contributions are invested in accordance with the respective employee's investment allocation elections. At their discretion, participants may change their investment options and deferral percentages at any time.

BERMELLO, AJAMIL & PARTNERS, INC.
EMPLOYEES' SAVINGS INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

1. DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately vested in their voluntary contributions (elective deferral and rollover accounts) and Company basic matching contribution plus actual earnings thereon. Vesting in the Company's discretionary non-elective contribution (profit sharing contributions are based on a different year of service basis) and forfeitures is based on years of service in accordance with the following:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures

As of December 31, 2014 and 2013, forfeited non-vested amounts totaled \$5,276 and \$3,980, respectively. These amounts are used to reduce future employer contributions.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document. Participants may borrow from their fund accounts a minimum of \$1,000 and up to a maximum equal to the lesser of (a) \$50,000 or (b) 50% of their vested account balance. However, the \$50,000 amount in the preceding sentence is reduced by the highest outstanding loan balance under the Plan provisions during the previous twelve-month period. The notes receivable are secured by the balance in the participant's account and bear an interest rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. Notes receivable from participants outstanding at December 31, 2014 and 2013 had various interest rates ranging from 4.25% to 7.75%. Principal and interest is paid ratably through semi-monthly payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability or normal retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or in annual installments over a period of time not to exceed their (or their beneficiaries) assumed life expectancy. For termination of service due to other reasons, a participant may receive the value of the participant's vested interest in his or her account of \$5,000 or less in a lump-sum amount as soon as the participant's termination date has been established by management. Upon termination, account balances that do not exceed \$1,000 are automatically distributed.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. The Plan's group annuity contract with Great West is not "fully benefit-responsive." Therefore, for financial statement purposes, this contract must be carried at fair value. Fair value also means market value. Great West pooled separate accounts are reported at fair value.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See NOTE 9 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment Management Fees and Operating Expenses

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned and are reflected as a component of net appreciation in fair value of investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses of the Plan are paid by the Plan or the Plan's Sponsor as provided in the Plan Document. Substantially all of the administrative expenses for the Plan for the years ended December 31, 2014 and 2013 were paid by the Plan's Sponsor.

Plan Termination

Although it has not expressed any intention to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Subsequent Events

The Plan has evaluated events through October 6, 2015, which is the date the financial statements were available to be issued.

Recent Accounting Pronouncements

Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans in ASU No. 2011-04

In July 2013, the Financial Accounting Standards Board ("FASB") issued an accounting standard update which defers indefinitely the effective date of certain required disclosures in Accounting Standards Update No. 2011-04 of quantitative information regarding the significant unobservable inputs used in Level 3 fair value measurements of investments held by a plan not subject to the Securities and Exchange Commission's filing requirements ("nonpublic employee benefit plan") in its plan sponsor's own nonpublic entity equity securities as well as equity securities of its plan sponsor's nonpublic affiliated entities. The update does not defer the effective date for certain quantitative disclosures for other nonpublic entity equity securities held in the nonpublic employee benefit plan or any qualitative disclosures. The update is effective upon issuance for any financial statements that have not been issued. The implementation of this update did not have a material effect on the Plan's financial statements.

Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)

In May 2015, FASB the issued an accounting standard update which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The update also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The update is effective for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. A reporting entity should apply the update retrospectively to all periods presented. Early adoption is permitted. The Plan is currently evaluating the effect the update will have on its financial statements.

3. TAX STATUS

The Plan adopted its latest Prototype Non-standardized Profit Sharing Plan with a cash or deferral arrangement developed by Orchard Trust Company, effective January 31, 2006, which obtained a favorable IRS determination letter on March 31, 2008 in which the IRS stated that the form of the underlying prototype plan was acceptable under provisions of the Internal Revenue Code ("Code") and that any employer adopting this form of the plan will be considered to have a plan qualified under the Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

The Plan uses the net asset value ("NAV") to determine the fair value of all the underlying investments which (a) do not have a readily determinable fair value and (b) prepare their financial statements consistent with the measurement principles of an investment company or have the attributes of an investment company. The following table lists all investments with a reported estimated fair value using net asset value per share:

The fund is non-diversified.

(p) - The investment seeks to provide long-term growth of capital. The fund invests primarily in common stocks of issuers in Europe and the Pacific Basin that the investment adviser believes have the potential for growth. Investment Strategies (continued)

(q) - The investment seeks capital appreciation. The fund normally invests assets primarily in foreign equity securities, including emerging-market equity securities. It may invest a relatively high percentage of the fund's assets in a single country or a small number of countries. The fund focuses on investing assets in the stocks of companies that it believes are undervalued compared to their perceived worth.

(r) - The investment seeks long-term capital appreciation. The fund normally invests in common stocks of companies outside the United States that the advisor believes have favorable investment potential. It primarily invests in equities of small- to mid-capitalization issuers however it can invest in companies of any size. The fund may also invest in securities issued in both developed and emerging markets.

(s) - The investment seeks the highest level of return consistent with preservation of capital and substantial credit protection. The fund normally invests at least 80% of net assets in mortgage-related securities that have been issued or guaranteed by the U.S. government or its agencies or instrumentalities. It normally invests in private mortgage pass-through securities and collateralized mortgage obligations. The fund may invest in commercial mortgage-backed securities, asset-backed securities, and investment grade corporate bonds.

(t) - The investment seeks investment results, before fees and expenses that track the total return of a benchmark index that measures the performance of publicly traded equity real estate investment trusts ("REITs"). Under normal circumstances, the fund invests at least 80% of its net assets (plus the amount of any borrowings for investment purposes) in securities included in the Dow Jones U.S. Select REIT IndexSM. The benchmark index is a market capitalization-weighted index of publicly traded equity REITs. It is non-diversified.

(u) - The investment seeks investment results that track the debt securities that comprise the Barclays Capital U.S. Aggregate Bond Index. The fund normally invests at least 80% of net assets in securities included in the Benchmark Index and, using sampling techniques, a portfolio of securities designed to give the Portfolio the relevant comparable attributes of the Benchmark Index. This may be accomplished through a combination of fixed income securities ownership and owning futures contracts on the Benchmark Index and options on futures contracts.

(v) - The investment seeks long-term capital appreciation primarily through investments in underlying portfolios that emphasize equity investments. The fund usually invests in underlying equity funds according to the following asset allocation ranges: 10% to 40% of assets in large cap funds, 10% to 40% of assets in international funds, 15% to 45% of assets in mid cap funds, and 5% to 35% of assets in small cap funds, and 0% to 10% in bonds and 0% to 10% in short term bonds. The fund is non-diversified.

(w) - The investment seeks investment results that track the total return of the common stocks that comprise the S&P 500 Index. The fund invests at least 80% of net assets (plus the amount of any borrowings for investment purposes) in common stocks included in its benchmark index. It will seek investment results that track the total return of the common stocks that comprise the benchmark index by owning the securities contained in the benchmark index in as close as possible a proportion of the portfolio as each stock's weight in the benchmark index.

(x) - The investment seeks long-term growth of capital. The fund invests the majority of the assets in equity securities issued by large companies with market capitalizations of at least \$10 billion. While it invests primarily in U.S. companies, the fund may also invest in foreign companies.

The fund invests primarily in common stocks and seeks to invest in companies that appear to offer superior opportunities for growth of capital. It may invest a portion of its assets in securities of issuers domiciled outside the U.S. The fund may also hold cash or money market instruments.

(aa) - The investment seeks long-term growth of capital. The fund invests primarily in the common stocks of large companies that are selected for their long-term growth potential. It normally holds a core position of between 20 and 30 common stocks. The fund may invest without limitation in foreign securities. It is non-diversified.

(ab) - The investment seeks long-term capital growth. The fund normally invests in stocks of companies the portfolio managers believe will increase in value over time.

4. INVESTMENTS (CONTINUED)

Investment Strategies (continued)

(ad) - The investment seeks a high level of current income with a secondary consideration of steady growth of capital. The fund invests at least 80% of its net assets (including the amount of any borrowings for investment purposes) in dividend-paying common and preferred stocks. It may invest up to 25% of its net assets in foreign investments.

(ae) - The investment seeks investment results that track the total return of the common stocks that comprise the EAFE (Europe, Australasia, Far East) Index. The fund normally invests at least 80% of its net assets in common stocks of the EAFE index or in derivative securities economically related to EAFE index.

(af) - The investment seeks long-term growth of capital. The fund normally invests at least 80% of its assets in equity securities of companies with small market capitalizations and related investments. The portfolio managers use a growth-oriented investment style that emphasizes small U.S. companies.

5. INSURANCE CONTRACT

The Plan entered into a not "fully benefit-responsive" group annuity investment contract with Great West. Great West receives the contributions and deposits them into either a guaranteed portfolio fund or into pooled separate accounts. The pooled separate accounts' income consists of interest less administration expenses. The net appreciation in fair value of investments represents the net change in the market value of the pooled separate accounts exclusive of changes due to deposits, withdrawals, and investment income. The investment yield is the overall percentage gain or loss experienced by the separate pooled accounts during the year. The pooled separate accounts are reported at fair value and the guaranteed portfolio fund is reported at contract value which equals fair value. The contract is included in the financial statements at fair value as reported to the Plan by Great West.

8. PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments include pooled separate accounts and funds held in insurance company general accounts administered by Great West. Great West is the custodian as defined in the Plan, and therefore, these transactions qualify as party-in-interest transactions. Notes receivable from participants also qualify as party-in-interest transactions.

9. FAIR VALUE MEASUREMENTS

The FASB Accounting Standards Codification ("ASC"), *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy under FASB ASC are described as follows:

**BERMELLO, AJAMIL & PARTNERS, INC.
EMPLOYEES' SAVINGS INVESTMENT PLAN**

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

9. FAIR VALUE MEASUREMENTS (CONTINUED)

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means; and
 - If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Funds Held in Insurance Company General Accounts: Valued at fair value. Fair value represents the amount Plan sponsors would receive if they terminated the contract at the reporting date, which is book value less an early withdrawal charge (See NOTE 5).

Pooled Separate Accounts: Valued at fair value. Fair value of shares of an underlying fund equals the number of shares of the respective underlying fund multiplied by the closing net asset value per share quoted by that fund. The net asset value of pooled separated accounts is based on the market value of its underlying investments. (See NOTE 2).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013.
