ITT CONSOLIDATED HOURLY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1

DESCRIPTION OF THE PLAN

The following description of the ITT Consolidated Hourly Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined benefit pension plan sponsored by ITT Corporation (the "Company" or "Plan Sponsor"). The Plan was originally established to provide for the payment of benefits to eligible participants. The Plan consists of multiple legacy plans. The Plan is closed to new participants and benefits have stopped accruing except for certain active employees who continue to earn vesting service. The Benefits Administration Committee, as appointed by the Board of Directors of the Company, controls and manages the operation and administration of the Plan. Northern Trust (the "Trustee") serves as the trustee of the Plan, and together with the investment managers, manages the Plan's investments, held in the Investment Master Trust of ITT Corporation (the "ITT Master Trust"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Pension Benefits

Participants are eligible for monthly benefit payments upon attainment of early retirement criteria (dependent on provisions of each legacy plan but generally no earlier than age 55) or upon attainment of normal retirement (generally age 62 or age 65 depending on the legacy plan). Early retirement benefits are computed in a manner similar to normal retirement benefits except that they are reduced by certain factors, as outlined in the Plan document, for each month that the early retirement date precedes the normal retirement date. The amount of the accrued benefit is determined by multiplying the benefit rate, which depends upon the period of credited service, by the total number of years of credited service. Certain groups have limited the amount of credited service to be included in the benefit accrual. All terminated participants are 100% vested and certain active employees continue to earn vesting service benefits.

Death and Disability Benefits

A married employee who is a vested participant is automatically covered by the pre-retirement death benefit option, which will provide a benefit for the surviving spouse upon death prior to retirement, unless coverage is waived. The benefit would be equal to the benefit the spouse would have received had the employee retired on the date of death, computed under the normal form of payment and subject to certain limitations as outlined in the Plan document.

No employee has been eligible to qualify for a disability benefit under this Plan since January 1, 2000, or under any prior Plan since the date the prior Plan was merged into this Plan.

Administrative Expenses

Administrative expenses of the Plan are paid by the ITT Master Trust on behalf of the Plan, as provided in the Plan document and the ITT Master Trust agreement. The Plan Sponsor currently provides accounting and other administrative services to the Plan and ITT Master Trust at no charge.

Management fees and operating expenses charged to the Plan for the investments in the collective trust (CT) funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Funding Policy

Contributions to provide benefits under the Plan are made solely by the Company and participant contributions are not permitted by the Plan. Funding requirements under Internal Revenue Service (IRS) rules are a major consideration in making contributions to the Company's postretirement plans. With respect to this Plan, the Company intends to contribute annually not less than the minimum required by applicable law and regulations. While the Company has significant discretion in making voluntary contributions, ERISA, as amended by the Pension Protection Act of 2006 and further amended by the Worker, Retiree, and Employer Recovery Act of 2008, and applicable Internal Revenue Code (IRC) regulations, mandate minimum funding thresholds. Failure to satisfy the minimum funding thresholds could result in restrictions on the Company's ability to amend the Plan or make benefit payments. No mandatory contributions to the Plan were required during 2014 and 2013. The Company will continue to monitor the funded status and minimum funding requirements.

Plan Termination

The Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Plan Mergers

At close of business on December 31, 2013, the ITT Aerospace Controls Pension Plan for Hourly Employees ("ITT Aerospace"), ITT Cannon Employees Retirement Plan for Hourly Non-Bargaining Production and Maintenance Employees ("ITT Cannon"), ITT Control Technologies Pension Plan for Hourly Employees ("ITT Control Technologies"), and ITT Engineered Valves Pension Plan for Hourly Employees at Amory, Mississippi ("ITT Amory") merged into the Plan. Participants of the above mentioned merged plans are participants of the Plan effective January 1, 2014.

The table below provides accumulated plan benefits and net assets available for benefits for the merged plans and were calculated as of the last actuarial valuation date for those plans, which was January 1, 2013 (in \$000s):

NOTE 2

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. It is at least reasonably possible that a significant change may occur in the near term for the estimates of the actuarial present value of accumulated plan benefits. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan participates in the ITT Master Trust which invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, liquidity risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that values realized at the time of sale could materially differ from amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition

The Plan's interest in the ITT Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the ITT Master Trust. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a description of valuation methods. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

NOTE 3

ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions, for service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to: (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits were calculated as of December 31, 2013, the latest valuation date. These amounts include those plans merged on that date. This disclosure below is based solely on the funding valuation. The actuarial present value of accumulated plan benefits as of December 31, 2013, is as follows:

	2013
Vested benefits:	
Participant and/or beneficiaries currently receiving benefits	\$ 65,978,250
Terminated vested participants	26,808,786
Active participants	11,897,110
Total vested benefits	104,684,146
Nonvested benefits	638,502
Total actuarial present value of accumulated plan benefits	\$105,322,648

The changes in the actuarial present value of the Plan's accumulated plan benefits for the year ended December 31, 2013, are as follows:

Actuarial present value of accumulated plan benefits - December 31, 2012	\$ 62,364,686
Increase (decrease) during the year attributable to:	
Benefits accumulated	(83,979)
Benefits paid	(5,385,690)
Interest	4,777,892
Changes in actuarial assumptions	2,555,493
ITT Cannon merger	24,147,487
ITT Aerospace merger	12,354,065
ITT Control Technologies merger	2,414,868
ITT Amory merger	2,177,826
Actuarial present value of accumulated plan benefits - December 31, 2013	\$105,322,648

The actuarial cost method used to measure the present value of accumulated plan benefits is the Unit Cost Method. The significant actuarial assumptions used in the December 31, 2013 valuations were:

- Mortality: RP-2014 Blue Collar Mortality Table with the Buck Modified Projection Scale for ASC 960 purposes. The Buck Modified Projection Scale is a modified version of the MP-2014 improvement scale using a grading period of 15 years to a long-term improvement rate of 0.75%
- Retirement age: Age range from 55 - 70
- Investment return: 8%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements. The change in actuarial assumptions was driven by the change in mortality tables. The actuarial valuation report as of December 31, 2014 has not yet been completed.

NOTE 4

INVESTMENTS

Interest in Master Trust

The Plan's investments are held in the ITT Master Trust, EIN 38-7003271. The ITT Master Trust includes the combined assets of this Plan and another employee benefit plan sponsored by ITT and its subsidiaries (collectively, the "Participating Plans"). The Plan's assets include an undivided interest in an investment account of the ITT Master Trust as of and for the years ended December 31, 2014 and 2013. Use of a master trust permits the commingling of Plan assets with the assets of other participating plans for investment and administrative purposes. Although Plan assets are commingled in the ITT Master Trust, the Trustee maintains records supporting the allocation of the net income of the ITT Master Trust to the Participating Plans. Net investment income is allocated by the Trustee to each Participating Plan based on the relationship of the interest of each Participating Plan to the total of the interests of the Participating Plans.

The table below provides by major category the fair value of the Plan's interest in the ITT Master Trust net assets as of December 31, 2014 and 2013.

- (e) Fixed income - bond CTs invest primarily in investment grade fixed - rate taxable bonds intended to match the performance of the Long Term Credit Bond Index.

Fair Value

In measuring plan assets at fair value as of the measurement date, a fair value hierarchy is applied which categorizes and prioritizes the inputs used to estimate fair value into three levels. The fair value hierarchy is based on maximizing the use of observable inputs and minimizing the use of unobservable inputs when measuring fair value. Classification within the fair value hierarchy is based on the lowest level input that is significant to the fair value measurement. The three levels of the fair value hierarchy are defined as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. The ITT Master Trust did not have any investments classified as Level 1 as of December 31, 2014 or 2013.
- Level 2 inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices (in non-active markets or in active markets for similar assets or liabilities), inputs other than quoted prices that are observable, and inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 inputs are unobservable inputs for the assets or liabilities. The ITT Master Trust did not have any investments classified as Level 3 as of December 31, 2014 or 2013.

As of December 31, 2014 and 2013, all of the ITT Master Trust assets were classified as Level 2 within the fair value hierarchy.

The following is a description of the valuation methodologies used to measure the ITT Master Trust assets at fair value:

- CTs - Fair value is estimated based on NAV, as provided by the investment manager to the Trustee, as a proxy to fair value. There are no unfunded commitments related to the CTs and investments in CTs can be redeemed on a daily basis. CTs are classified within level 2 of the fair value hierarchy.

The valuation methods described above may produce a fair value measurement that may not be indicative of net realizable value or reflective of future fair values. There have been no changes in the methodologies used as of December 31, 2014 and 2013. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement at the reporting date.

Net Investment Income

The net investment income of the ITT Master Trust for the years ended December 31, 2014 and 2013, is summarized below:

	2014	2013
Appreciation (depreciation) in fair value of investments:		
Domestic CTs	\$ 11,410,190	\$ 26,893,000
Developed markets CTs	(2,535,233)	10,589,000
Emerging markets CTs	(580,260)	(694,000)
Fixed income - bond CTs	14,178,762	(1,205,000)
Net appreciation in fair value of investments	22,473,459	35,583,000

Net investment income of ITT Master Trust	\$ 20,642,966	\$ 33,883,000
Plan's interest in ITT Master Trust's investment income	\$ 11,466,732	\$ 10,823,000

NOTE 5

PARTY-IN-INTEREST TRANSACTIONS

A party-in-interest is someone who has a relationship prohibiting that person from engaging in certain transactions with the Plan. This usually includes trustees and actuaries.

Certain ITT Master Trust investments are shares of CTs managed by the Northern Trust, the Plan Trustee; therefore these qualify as party-in-interest transactions. Fees paid to Northern Trust for investment management fees were included as a reduction of the return earned on the investment. Other fees paid to Northern Trust also qualify as party-in-interest transactions.

Certain administrative functions are performed by officers and employees of the Company (who may also be a participant in the Plan) at no cost to the Plan or ITT Master Trust.

NOTE 6

TAX STATUS

The IRS has determined and informed the Company by a letter dated February 8, 2012, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. The Plan has been amended since receiving the determination letter; however, the Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

SUBSEQUENT EVENTS

Subsequent events were evaluated through October 2, 2015, the date the financial statements were available to be issued.

INDEPENDENT AUDITOR'S REPORT

To the Trustees and Participants of the
ITT Consolidated Hourly Pension Plan

Report on the Financial Statements

We have audited the accompanying financial statements of the ITT Consolidated Hourly Pension Plan, which comprise the statement of net assets available for benefits as of December 31, 2014, and the related statement of changes in net assets available for benefits for the year then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the 2014 financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of December 31, 2014, and changes therein for the year then ended, and information regarding the Plan's accumulated plan benefits as of December 31, 2013, and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Asset valuation method

The Actuarial Value of Assets is market value as of the valuation date, including discounted receivable contributions, reduced by 2/3 and 1/3 of the of the gain/(loss) in the prior 2 years, respectively. The gain/(loss) for each period is determined as the actual return on market value during the period less the expected return on market value based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third Segment Rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value, including discounted receivable contributions.
