Certain non-resident aliens, leased employees, and union employees of the Company are excluded from participation in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The plan administrative committee, as provided in the plan agreement, is the plan administrator and has responsibility for the administration of the Plan. BMO Harris Bank N.A. is the Plan's trustee. Investment management fees and recordkeeping fees are paid by the Plan in accordance with the plan agreement.

Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Plan provides for employer safe harbor matching contributions equal to 100 percent of the participant's contributions not to exceed 3 percent of the employee's compensation plus 50 percent of the participant's contributions up to the next 2 percent of compensation.

Certain participant contributions in 2014 were paid after the timeframe required by the Department of Labor. The Company has has taken actions to remit lost earnings related to the contributions as of December 31, 2014.

Note 1 - Plan Description (Continued)

Payment of Benefits - Upon termination of employment, the participant or, in the case of death, the surviving spouse can elect to receive the participant's account balance in a single lump sum. A participant may take an installment distribution solely to the extent necessary to satisfy the required minimum distribution rules. In-service withdrawals are permitted for participants after attainment of age 59½. Account balances less than $5,000 are paid in a single lump sum upon termination.

Hardship Withdrawals - Participants may request that all or a portion of their accounts be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future Company contributions or to pay administrative expenses of the Plan. At December 31, 2014 and 2013, forfeited account balances totaled $2,166 and $27,771, respectively. During 2014, forfeitures of $25,547 were used to reduce employer contributions.

Note 1 - Plan Description (Continued)

Party-in-interest Transactions - Certain plan assets are in investment funds managed by BMO Harris Bank N.A. or its affiliates. BMO Harris Bank N.A. is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition - Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 18, 2015, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

BMO Harris Bank N.A. (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2014 and 2013.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

Note 4 - Fair Value Measurements (Continued)

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds - Mutual funds are valued at closing quoted prices reported in active markets.

Common Collective Trust Fund - The common collective trust fund investment is stated at fair value with an adjustment to contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is based on the fair value of the underlying net assets at the measurement date by the issuer of the fund. The Plan's interest in the common collective trust fund is based on its proportionate ownership interest in the fair value of the common collective trust fund.

The common collective trust fund primarily holds guaranteed investment contracts and synthetic investment contracts. The fair value of the guaranteed investment contracts is based on current yields of similar instruments with comparable durations taking into account the contract terms including interest reset intervals and the credit rating of the issuer.

The issuer determines the fair value of the underlying fixed-income securities held in the synthetic investment contracts using market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. The fair value of a wrapper contract provided by a security-backed contract issuer is based on the replacement cost methodology, which is the present value of the difference between the replacement wrapper fee and the contracted wrapper fee. Participants may transfer in and out of the fund on a daily basis without prohibitive restrictions. The issuer may limit withdrawals in order to maintain sufficient liquidity. There were no unfunded commitments to the fund

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5 - Tax Status

The Plan, as adopted, is a volume submitter plan which does not require an application for a determination letter from the Internal Revenue Service (IRS). The volume submitter plan has received a favorable notification letter from the IRS dated November 2, 2012. The Plan has not individually sought its own determination letter.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2011.
