INDEPENDENT AUDITORS' REPORT

To the Board of Trustees
Cambro Manufacturing Company Employees 401(k) Retirement Plan
Huntington Beach, California

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Cambro Manufacturing Company Employees 401(k) Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Fidelity Management Trust Company (FMTC), the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2014 and 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule H, line 4i - Schedule of Assets held at end of year as of or for the year ended December 31, 2014, is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1: Description of Plan

The following description of the Cambro Manufacturing Company ("Company") Employees 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering the eligible employees of the Company who have completed three months of service as defined and age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants are automatically enrolled upon eligibility, and may contribute a percentage of their annual compensation, as defined in the Plan, subject to annual limitations prescribed by the IRS. Participant who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Company contributes to each participant's account a matching contribution equal to 50% of the participant's deferred salary that does not exceed 6% of compensation, once the participant has obtained one year of service.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, and (b) Plan earnings. Allocations are based on participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeited Accounts

At December 31, 2014 and 2013, there were no balances in the forfeiture accounts. These accounts are used to reduce future employer contributions. During 2014 and 2013, employer contributions were reduced by forfeitures of $27,519 and $3,277, respectively.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's matching contributions is based on years of continuous service. A participant is 100 percent vested after five years of credited service.

Benefits

Upon termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account, either in a lump-sum or annual installments over a period of not more than the assumed life expectancy. In-service distributions from a participant's account may be permitted if the participant has a financial hardship for certain qualifying expenses as defined in the plan document, or if the participant has attained age 59½.

Benefit payments are recorded when paid.

Note 1: Description of Plan (Continued)

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $1,000, up to the lessor of 50% of their vested account balance or $50,000. Loan transactions are treated as a transfer between their investment fund and loan security accounts. Loan terms range from 1-5 years, unless the loan is used for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates, as determined quarterly by the plan administrator. Loans must bear a reasonable rate of interest and require regular, periodic repayment through substantially level amortization.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions in various investment options offered by the investment contract with Fidelity Management Trust Company ("FMTC"), the trustee of the Plan. Participants may change their investment options on a daily basis directly with FMTC.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

Accounting Change

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Contribution Pension Plans (Topic 962): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general typed; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Parts I and II early.

Note 2: Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation polices utilizing information provided by the investment advisers, and the financial institution as trustees. See Note 8 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Expenses

Certain expenses incurred maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Participant's accounts in the Plan are only subject to loan set-up fees of $50 and overnight fees of $25. Investment-related expenses are included in net appreciation of fair value of investments.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events for inclusion in these financial statements through September 17, 2015, the date the financial statements were available to be issued.

Note 3: Plan Termination Option

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

Note 4: Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5: Information Prepared and Certified by Custodian

The following unaudited information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by FMTC for 2014 and 2013.

	2014	2013
Investments, at fair value	$ 36,087,733	$ 33,918,349
Notes receivable from participants	2,129,048	2,173,752
Dividends	2,087,928	1,649,899
Net appreciation (depreciation) in fair value of investments.	(407,753)	2,544,892

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) changed in value by $407,753 (depreciation).

Note 6: Reconciliation of Financial Statements to Form 5500

The Form 5500 Schedule H - Asset and Liability Statement differs from the financial statement of Net Assets Available for Benefits by the excess contributions payable recorded in the financial statements of $12,334 as required to satisfy the relevant nondiscrimination provisions of the Plan, and as a result the contributions from participants as reported on the Form 5500 are higher by $12,334. The Form 5500 expenses differ by the payment of the prior year's financial statement liability for excess contributions of $21,817. In addition, the Form 5500 reports the Stable Value Fund at fair value of $3,237,647 versus the contract value of $3,181,181 in the financial statements; since contract value is the relevant measure of value in the financial statements, the financial statements do not include the investment gain of $5,810 included in the Form 5500 income for the change in the adjustment from fair value to contract value of the Stable Value Fund.

Note 7: Common Collective Trust Investment

The Stable Value Fund, an investment option offered by the Plan, is a common collective trust that is fully invested in a portfolio of synthetic investment contracts. These contracts meet the fully benefit-responsive criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts

Note 7: Common Collective Trust Investment (continued)

because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represent contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

The key difference between a synthetic investment contract and a traditional investment contract is that the Plan owns the underlying assets of the synthetic investment contract. A synthetic investment contract includes a wrapper contract, which is an agreement for the wrap issuer, such a bank or insurance company, to make payments to the Plan in certain circumstances. The wrapper contract typically includes certain conditions and limitations on the underlying assets owned by the Plan. With traditional investment contracts, the Plan owns only the contract itself. Synthetic and traditional investment contracts are designed to accrue interest based on crediting rates established by the contract issuers.

The synthetic investment contracts held by the Plan include wrapper contracts that provide a guarantee that the credit rate will not fall below 0 percent. Cash flow volatility (for example, timing of benefit payments) as well as asset underperformance can be passed through to the Plan through adjustments to future contract crediting rates. Formulas are provided in each contract that adjusts renewal crediting rates to recognize the difference between the fair value and the book value of the underlying assets. Crediting rates are reviewed monthly for resetting.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the IRS Code or the failure of the trust to be tax-exempt under Section 501(a) of the IRS Code.
2. Premature termination of the contracts.
3. Plan termination or merger.
4. Changes to the Plan's prohibition on competing investment options.
5. Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines.
2. A breach of material obligation under the contract.
3. A material misrepresentation.
4. A material amendment to the agreements without the consent of the issuer.

Note 8: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Basis of Fair Value Measurement:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical investments that the Plan can access at the measurement date.

Level 2 Inputs other than quoted prices included within Level 1 that are observable for the investment, either directly or indirectly, such as:

a) Quoted prices for similar assets or liabilities in active markets
b) Quoted prices for identical or similar assets in inactive markets
c) Inputs other than quoted prices that are observable for the asset
d) Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset.

Level 3 Inputs to the valuation methodology that are unobservable inputs for the asset.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds: Valued at the daily closing price reported on the active market on which the individual funds are traded.

Fidelity Prime Fund and Fidelity Lifecycle Funds: Valued at the net asset value ("NAV") of shares held by the plan at year-end as calculated by Fidelity, and dependent upon the type of underlying investment.

Stable Value Collective Trust Fund: A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchase and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to insure that securities liquidations will be carried out in an orderly business manner.

Note 8: Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

Assets at Fair Value as of December 31, 2014

	Level 1	Level 2	Level 3	Total
Fidelity Prime Fund	$ 1,112,998	$ -	$ -	$ 1,112,998

Investments at fair value	$ 30,708,827	$ -	$ -	$ 33,918,349

Note 8: Fair Value Measurements (Continued)

Investment Measured Using the Net Asset Value per Share Practical Expedient:

The following table summarizes investment for which fair value is measured using the net asset value per share practical expedient as of December 31, 2014, and 2013, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2014	Fair Value	Unfunded Commitments	Frequency (If Currently Eligible)	Redemption Notice Period
Stable value collective trust fund	$ 3,181,181	n/a	Daily	12 months

December 31, 2013	Fair Value	Unfunded Commitments	Frequency (If Currently Eligible)	Redemption Notice Period
Stable value collective trust fund	$ 3,209,522	n/a	Daily	12 months

Note 9: Excess Contributions

Contributions received from participants for 2014 are net of payments of $12,334 made in March 2015 to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. The amount is also included in the Plan's statement of net assets available for benefits as excess contributions payable at December 31, 2014.

Note 10: Related Party and Party In Interest Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity is the trustee as defined by the Plan. These transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for loan related fees were $5,875 for the year ended December 31, 2014.

Note 11: Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Note 1: Description of Plan

The following description of the Cambro Manufacturing Company ("Company") Employees 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering the eligible employees of the Company who have completed three months of service as defined and age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants are automatically enrolled upon eligibility, and may contribute a percentage of their annual compensation, as defined in the Plan, subject to annual limitations prescribed by the IRS. Participant who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Company contributes to each participant's account a matching contribution equal to 50% of the participant's deferred salary that does not exceed 6% of compensation, once the participant has obtained one year of service.

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, and (b) Plan earnings. Allocations are based on participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeited Accounts

At December 31, 2014 and 2013, there were no balances in the forfeiture accounts. These accounts are used to reduce future employer contributions. During 2014 and 2013, employer contributions were reduced by forfeitures of $27,519 and $3,277, respectively.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's matching contributions is based on years of continuous service. A participant is 100 percent vested after five years of credited service.

Benefits

Upon termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account, either in a lump-sum or annual installments over a period of not more than the assumed life expectancy. In-service distributions from a participant's account may be permitted if the participant has a financial hardship for certain qualifying expenses as defined in the plan document, or if the participant has attained age 59½.

Benefit payments are recorded when paid.

Note 1: Description of Plan (Continued)

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $1,000, up to the lessor of 50% of their vested account balance or $50,000. Loan transactions are treated as a transfer between their investment fund and loan security accounts. Loan terms range from 1-5 years, unless the loan is used for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates, as determined quarterly by the plan administrator. Loans must bear a reasonable rate of interest and require regular, periodic repayment through substantially level amortization.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions in various investment options offered by the investment contract with Fidelity Management Trust Company ("FMTC"), the trustee of the Plan. Participants may change their investment options on a daily basis directly with FMTC.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

Accounting Change

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Contribution Pension Plans (Topic 962): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general typed; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Parts I and II early.

Note 2: Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation polices utilizing information provided by the investment advisers, and the financial institution as trustees. See Note 8 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Expenses

Certain expenses incurred maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Participant's accounts in the Plan are only subject to loan set-up fees of $50 and overnight fees of $25. Investment-related expenses are included in net appreciation of fair value of investments.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events for inclusion in these financial statements through September 17, 2015, the date the financial statements were available to be issued.

Note 3: Plan Termination Option

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

Note 4: Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5: Information Prepared and Certified by Custodian

The following unaudited information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by FMTC for 2014 and 2013.

	2014	2013
Investments, at fair value	$ 36,087,733	$ 33,918,349
Notes receivable from participants	2,129,048	2,173,752
Dividends	2,087,928	1,649,899
Net appreciation (depreciation) in fair value of investments.	(407,753)	2,544,892

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) changed in value by $407,753 (depreciation).

Note 6: Reconciliation of Financial Statements to Form 5500

The Form 5500 Schedule H - Asset and Liability Statement differs from the financial statement of Net Assets Available for Benefits by the excess contributions payable recorded in the financial statements of $12,334 as required to satisfy the relevant nondiscrimination provisions of the Plan, and as a result the contributions from participants as reported on the Form 5500 are higher by $12,334. The Form 5500 expenses differ by the payment of the prior year's financial statement liability for excess contributions of $21,817. In addition, the Form 5500 reports the Stable Value Fund at fair value of $3,237,647 versus the contract value of $3,181,181 in the financial statements; since contract value is the relevant measure of value in the financial statements, the financial statements do not include the investment gain of $5,810 included in the Form 5500 income for the change in the adjustment from fair value to contract value of the Stable Value Fund.

Note 7: Common Collective Trust Investment

The Stable Value Fund, an investment option offered by the Plan, is a common collective trust that is fully invested in a portfolio of synthetic investment contracts. These contracts meet the fully benefit-responsive criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts

Note 7: Common Collective Trust Investment (continued)

because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represent contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

The key difference between a synthetic investment contract and a traditional investment contract is that the Plan owns the underlying assets of the synthetic investment contract. A synthetic investment contract includes a wrapper contract, which is an agreement for the wrap issuer, such a bank or insurance company, to make payments to the Plan in certain circumstances. The wrapper contract typically includes certain conditions and limitations on the underlying assets owned by the Plan. With traditional investment contracts, the Plan owns only the contract itself. Synthetic and traditional investment contracts are designed to accrue interest based on crediting rates established by the contract issuers.

The synthetic investment contracts held by the Plan include wrapper contracts that provide a guarantee that the credit rate will not fall below 0 percent. Cash flow volatility (for example, timing of benefit payments) as well as asset underperformance can be passed through to the Plan through adjustments to future contract crediting rates. Formulas are provided in each contract that adjusts renewal crediting rates to recognize the difference between the fair value and the book value of the underlying assets. Crediting rates are reviewed monthly for resetting.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the IRS Code or the failure of the trust to be tax-exempt under Section 501(a) of the IRS Code.
2. Premature termination of the contracts.
3. Plan termination or merger.
4. Changes to the Plan's prohibition on competing investment options.
5. Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines.
2. A breach of material obligation under the contract.
3. A material misrepresentation.
4. A material amendment to the agreements without the consent of the issuer.

Note 8: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Basis of Fair Value Measurement:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical investments that the Plan can access at the measurement date.

Level 2 Inputs other than quoted prices included within Level 1 that are observable for the investment, either directly or indirectly, such as:

a) Quoted prices for similar assets or liabilities in active markets
b) Quoted prices for identical or similar assets in inactive markets
c) Inputs other than quoted prices that are observable for the asset
d) Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset.

Level 3 Inputs to the valuation methodology that are unobservable inputs for the asset.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds: Valued at the daily closing price reported on the active market on which the individual funds are traded.

Fidelity Prime Fund and Fidelity Lifecycle Funds: Valued at the net asset value ("NAV") of shares held by the plan at year-end as calculated by Fidelity, and dependent upon the type of underlying investment.

Stable Value Collective Trust Fund: A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchase and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to insure that securities liquidations will be carried out in an orderly business manner.

Note 8: Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

Assets at Fair Value as of December 31, 2014

	Level 1	Level 2	Level 3	Total
Fidelity Prime Fund	$ 1,112,998	$ -	$ -	$ 1,112,998
Mutual Funds	7,113,007	-	-	7,113,007
Fidelity Lifecycle Funds	24,680,547	-	-	24,680,547
Total assets in the fair value hierarchy	32,906,552	-	-	32,906,552
Stable Value Fund at NAV value	-	-	-	3,181,181
Investments at fair value	$ 32,906,552	$ -	$ -	$ 36,087,733

Assets at Fair Value as of December 31, 2013

	Level 1	Level 2	Level 3	Total
Fidelity Prime Fund	$ 962,662	$ -	$ -	$ 962,662
Mutual Funds	6,799,634	-	-	6,799,634

Investments at fair value	$ 30,708,827	$ -	$ -	$ 33,918,349

Note 8: Fair Value Measurements (Continued)

Investment Measured Using the Net Asset Value per Share Practical Expedient:

The following table summarizes investment for which fair value is measured using the net asset value per share practical expedient as of December 31, 2014, and 2013, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2014	Fair Value	Unfunded Commitments	Frequency (If Currently Eligible)	Redemption Notice Period
Stable value collective trust fund	$ 3,181,181	n/a	Daily	12 months

December 31, 2013	Fair Value	Unfunded Commitments	Frequency (If Currently Eligible)	Redemption Notice Period
Stable value collective trust fund	$ 3,209,522	n/a	Daily	12 months

Note 9: Excess Contributions

Contributions received from participants for 2014 are net of payments of $12,334 made in March 2015 to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. The amount is also included in the Plan's statement of net assets available for benefits as excess contributions payable at December 31, 2014.

Note 10: Related Party and Party In Interest Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity is the trustee as defined by the Plan. These transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for loan related fees were $5,875 for the year ended December 31, 2014.

Note 11: Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.
