Effective January 1, 2013, the Plan Sponsor changed its legal name from The Minster Machine Company to Nidec Minster Corporation (the Company, Plan Sponsor and Employer). Accordingly, the Plan changed its name from The Minster Machine Company 401(k) Retirement Savings Plan to Nidec Minster Corporation 401(k) Retirement Savings Plan. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions which are available from the plan administrator.

General: The Plan is a defined contribution plan covering all regular full-time and part-time employees of Nidec Minster Corporation who have attained age 18. The Company's participants are made up of the Minster office group and Minster union employees. Leased employees, nonresident aliens, co-op students and temporary employees are ineligible for participation in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute the maximum percentage and dollar limits permissible under Section 402(g) not to exceed the limits of sections 401(k), 404 and 415. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants who have attained age 50 before the end of Plan year are eligible to make catch-up contributions. The Company may make a safe harbor and non-safe harbor contributions for eligible participants. The Company makes a matching contribution for both office and shop employees. The match for office employees is equal to 50% of a participant's deferral, up to 4%. The match for shop employees is equal to 50% of a participant's deferral, up to 6%. The Company authorized a discretionary contribution of \$526,175 that was made in 2015 for the 2014 Plan year. Forfeitures of \$67,215 were used in March 2015 to fund a portion of this contribution for a net discretionary contribution of \$458,960.

Rollovers: The Plan allows rollovers received by a participant as a distribution from another qualified plan after approval from the Plan sponsor. Participants are fully vested in these amounts.

Participant accounts: Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Company's matching contribution and allocations of (1) Company discretionary contributions and (2) Plan earnings and charged with an allocation of Plan losses, distributions or withdrawals and fees. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. Company matching contributions are subject to a 3-year cliff vesting schedule. Nonelective safe harbor contributions are 100% vested immediately.

Notes receivable from participants: Participants may borrow from their vested accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from 1-5 years and are not to exceed 5 years. The loans are collateralized by the balance in the participant's account and bear an interest rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through bi-weekly payroll deductions. Interest rates on participant loans were 4.25% as of December 31, 2014 (4.25% to 7.25% as of December 31, 2013).

Payment of benefits: On termination of service due to death, disability, or retirement, or other reasons, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Forfeited accounts: Upon termination of employment, a participant's nonvested portion of Company contributions and related earnings are forfeited. At December 31, 2014 and 2013, forfeited non-vested accounts totaled \$55,694 and \$2,374, respectively. These amounts were used in March 2015 to reduce Employer contributions related to the discretionary contribution receivable that was recorded at December 31, 2014.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) in accordance with the Financial Accounting Standards Board Accounting Standards Codification.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits, as of December 31, 2014 and 2013, presents the fair value of the Plan's investment contract, as well as the adjustment of the investment contract, from fair value to contract value. The statement of changes in net assets available for benefits was prepared on a contract-value basis for the year ended December 31, 2014.

Investment valuation and income recognition: The Plan's participant-directed investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in dividends.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: All administrative expenses of the Plan are paid by the Company.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Subsequent events: The Plan has evaluated subsequent events for potential recognition and/or disclosure through October 8, 2015, the date the financial statements were available to be issued.

Note 3. Information Certified by the Plan's Trustee, T. Rowe Price Trust Company

The information related to investments and notes receivable from participants that is included throughout the Plan's financial statements and supplemental schedules as of December 31, 2014 and 2013 and for the year ended December 31, 2014 was prepared by or derived from information provided by the trustee and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that information provided to the Plan administrator by the trustee related to these Plan assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for

Note 3. Information Certified by the Plan's Trustee, T. Rowe Price Trust Company (Continued)

Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Notes 4 and 5 and the supplemental schedules related to the Plan's assets.

T. Rowe Price Trust Company also certified to the completeness and accuracy of \$63,097 of net appreciation in fair value of investments, \$2,031,432 of dividends related to investments and \$12,551 of interest income from notes receivable from participants for the year ended December 31, 2014.

Note 4. Investments

The following presents the fair value of investments that represent 5% or more of the Plan's net assets at December 31:

	2014	2013
Common collective trust:		
T. Rowe Price Stable Value Fund	\$ 7,674,965	\$ 7,631,310
Mutual funds:		
T. Rowe Price International Growth & Income	*	1,894,062
T. Rowe Price Equity Income Fund	3,599,465	3,417,067
T. Rowe Price Capital Appreciation Fund	3,634,540	3,290,410

T. Rowe Price Retirement Fund 2030	2,337,774	1,906,832

* Fund did not represent 5% or more of net assets.

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in fair value by \$63,097 as follows:

Mutual funds	43,676
Brokerage securities	19,421
	<u>\$ 63,097</u>

Participant contributions and investment earnings were directed by the individual plan participants to the following investment choices offered under the Plan: T. Rowe Price Stable Value Fund; 25 mutual funds (which are disclosed in the supplement schedule) and a participant-directed brokerage account through which participants are able to invest in a variety of common stock securities and a mutual fund.

Note 5. Fair Value Measurements

The Plan has determined the fair value of certain assets through application of accounting guidance that establishes a framework for measuring fair values. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

Nidec Minster Corporation 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Mutual funds are valued based on net asset values reported in the active market and shares held by the Plan at year-end.

Common/collective trusts: Valued at the net asset value (NAV) of shares held by the Plan at year end, as reported to the Plan by the trustee. A fund's NAV reflects an exit price, is the same for all holders of the fund and provides the basis for current transactions.

Brokerage securities: Valued based on the fair value of the underlying assets in the brokerage account, which consist of common stock securities and mutual funds.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5. Fair Value Measurements (Continued)

Note 6. Related-Party Transactions

Certain plan investments are shares of mutual funds and common collective trust managed by T. Rowe Price Trust Company, the Plan trustee and, therefore, these transactions qualify as party-in-interest transactions.

Notes to Financial Statements

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their accounts.

Note 8. Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2014, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter, however, the plan management believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan administrator evaluated the Plan's tax positions and concluded that there are no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations for years before 2011.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31:

Note 11. Recently Issued Accounting Pronouncement

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force). The purpose of this Update is to simplify Plan accounting.

- The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investments contracts will be presented at contract value; accordingly, there will no longer be an adjustment from fair value to contract value on the face of the financial statements where applicable.
- The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy will no longer be required.
- The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The Update may be adopted in whole or by part (I, II and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. Plan management is currently evaluating the impact the Update will have on the financial statements.
