Notes to Financial Statements

December 31, 2014 and 2013 and Year Ended December 31, 2014

NOTE A - DESCRIPTION OF PLAN

The following brief description of the Rae-Ann Nursing Facilities and Affiliates 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Rae-Ann Holdings, Inc. and Affiliates (the Company and Plan Sponsor) who have completed one year of service for participation as defined by the Plan and have attained the age of twenty-one. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by the Company.

Contributions

Participants may contribute a percentage of their eligible compensation as defined by the Plan on a pre-tax or after tax basis up to the maximum amount allowed by law. The Plan provides for a discretionary employer matching contribution. Additional discretionary profit sharing contributions may be made at the option of the Company's board of directors. There were no employer contributions made during 2014. The Plan allows for catch-up contributions for participants who reach the age of fifty by the end of the plan year. Employees who become eligible to participate but do not enroll or opt out of the Plan are automatically enrolled to defer 3% of compensation as defined by the Plan on a pre-tax basis. The Plan also provides for the acceptance of rollover contributions from other plans qualified under the Internal Revenue Code (IRC).

Participant Accounts

Each participant's account is credited with the participant's contributions and an allocation of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant account earnings or account balances, as defined. The benefit to which a participant is entitled to receive is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their deferral contributions and rollover contributions plus actual earnings thereon. Vesting in the remainder of their account balance is based on years of continuous service. Discretionary employer matching contributions plus actual earnings thereon are 100 percent vested after three years and discretionary employer profit sharing contributions plus actual earnings thereon are fully vested after five years of credited service.

RAE-ANN NURSING FACILITIES AND AFFILIATES 401(K) PLAN

Notes to Financial Statements

December 31, 2014 and 2013 and Year Ended December 31, 2014

NOTE A - DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

On termination of service, a participant may elect to receive a partial distribution or lump-sum amount equal to the value of his or her account. If the value of the vested benefits credited to a participant's account is \$1,000 or less at the time of termination, the entire amount will be distributed.

Active participants may request hardship withdrawals from their elective deferral account balance, subject to Plan provisions. A participant who receives a distribution on account of hardship is prohibited from making deferrals for six months after receipt of the distribution.

Forfeited Accounts

Forfeitures are first used to reduce administrative expenses and any remainder is used to reduce future employer contributions. Unallocated forfeiture balances were \$87 and \$-0- for the years ended December 31, 2014 and 2013, respectively. Forfeitures of \$155 were used to reduce administrative expenses during 2014.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan's investment contract with Minnesota Life Insurance Company (Minnesota Life) is not considered to be fully benefit-responsive due to the restrictions on fund transfers and therefore the investment is included in the statement of net assets available for benefits at fair value. At December 31, 2014 and 2013, the fair value of the investment contract equals contract value because the market value adjustment that would have been applied if the contract was terminated as of those dates was \$-0-.

Investment Valuation

The Plan's investments are recorded at fair value based upon the last trade or current bid prices in active markets. Where there are no readily available last trade or current bid prices, fair value is determined as discussed in Note E.

RAE-ANN NURSING FACILITIES AND AFFILIATES 401(K) PLAN

Notes to Financial Statements

December 31, 2014 and 2013 and Year Ended December 31, 2014

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Income Recognition

Purchases and sales of securities are recorded on a trade date basis. Gains and losses on securities transactions are determined using the average cost method. Interest income is recorded on the accrual basis.

Contributions

Participant contributions are recorded and credited to each participant's account as received by the custodian from the Company. Any contributions attributable to the plan year but not received by the last day of the plan year are recorded as a receivable.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRC are recorded as a liability with a corresponding reduction to contributions. The excess contributions payable at December 31, 2014 of \$3,092 were not distributed prior to March 15, 2015. As a result, the Company will pay the applicable excise taxes upon distribution of the excess contributions.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

Income Taxes

The Company adopted a volume submitter profit sharing plan with cash or deferred arrangement which received a determination letter from the Internal Revenue Service (IRS) dated March 31, 2008, stating that the Plan and related trust was designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Sponsor believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

RAE-ANN NURSING FACILITIES AND AFFILIATES 401(K) PLAN

Notes to Financial Statements

December 31, 2014 and 2013 and Year Ended December 31, 2014

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income Taxes (Continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Sponsor has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Sponsor believes the Plan is no longer subject to income tax examinations for years prior to 2011.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through October 5, 2015, the date which the financial statements were available to be issued.

NOTE C - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has an investment contract with Minnesota Life under which contributions from the Plan are maintained in Minnesota Life's general account. All benefit payments prior to contract liquidation are made at contract value; however the contract restricts participant directed exchanges by limiting transfers between funds to the greater of up to 20% of the participant's account at contract value or \$2,000 in a 12 month period. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. There are no reserves against contract value for credit risk of the contract issuer or otherwise. If the Plan Sponsor terminates the contract, a market value adjustment may apply. The Plan Sponsor does not believe that any events which would limit the Plan's ability to transact at contract value are probable of occurring.

RAE-ANN NURSING FACILITIES AND AFFILIATES 401(K) PLAN

Notes to Financial Statements

December 31, 2014 and 2013 and Year Ended December 31, 2014

NOTE C - INVESTMENT CONTRACT WITH INSURANCE COMPANY (CONTINUED)

The net average yield and crediting interest rates on the contract were both approximately 2.68% and 3.01% for new funds invested in 2014 and 2013, respectively, and 2.96% and 3.09% for renewal funds invested in 2014 and 2013, respectively. Such interest rates are calculated based on new funds and renewal funds and are reviewed and reset annually.

There are no events that allow the issuer to terminate the contract and which require the Plan Sponsor to settle at an amount different than contract value.

NOTE D - CERTIFICATION AND SUMMARY OF INVESTMENTS

Investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2014 and 2013, and net appreciation in the fair value of investments and interest for the years ended December 31, 2014 were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the custodian.

The Plan's investments are 100% participant directed and are held by Minnesota Life. The fair values of investments that represent five percent or more of the Plan's net assets available for benefits are as follows:

	December 31,	
	2014	2013
Minnesota Life Pooled Separate Accounts:		
PIMCO Total Return A	\$ 193,498	\$ 172,820

NOTE E - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price) and establishes a fair value hierarchy based upon the inputs used to measure fair value. The three levels of the fair value hierarchy, which are based upon the inputs used to measure fair value, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices in active markets that are accessible at the measurement date for identical unrestricted assets or liabilities (for example, exchange quoted prices).

Level 2 - Inputs to the valuation methodology are observable inputs, other than Level 1 prices, such as quoted prices for similar assets or liabilities in active markets, quoted prices in markets that are not sufficiently active to qualify as Level 1, other observable inputs, or inputs that can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Inputs to the valuation methodology are significant to the fair value measurement and unobservable (for example, supported by little or no market activity).

Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

The Plan's investments accounted for at fair value as of December 31, 2014 are summarized below:

	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Pooled separate accounts:

NOTE E - FAIR VALUE MEASUREMENTS (CONTINUED)

The Plan's investments accounted for at fair value as of December 31, 2013 are summarized below:

	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Pooled separate accounts:			
Balanced/asset allocation	\$ 903,626		\$ 903,626
Fixed income	212,066		212,066
International	245,679		245,679
Blend	398,796		398,796
Growth	502,177		502,177
Value	<u>302,964</u>		<u>302,964</u>
Total pooled separate accounts	2,565,308		2,565,308
Guaranteed investment contract		\$ 90,308	90,308
	<u>\$2,565,308</u>	<u>\$ 90,308</u>	<u>\$2,655,616</u>

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled separate accounts investing in mutual funds are valued at the net asset value of shares held by the Plan at year end. The net asset value, as provided by the custodian, is used as a practical expedient to estimate fair value. Net asset value is based on the quoted market prices of the underlying investments, net of insurance company fees and expenses. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value.

Pooled separate accounts investing in bonds are valued at the net asset value of shares held by the Plan at year end. The net asset value, as provided by the custodian, is used as a practical expedient to estimate fair value. Net asset value is based on quoted prices in markets that are not active, broker dealer quotations, or other methods by which all significant inputs are observable, either directly or indirectly, net of insurance company fees and expenses. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value.

The guaranteed investment contract is valued at contract value, which approximates fair value (Note C). Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

Notes to Financial Statements

December 31, 2014 and 2013 and Year Ended December 31, 2014

NOTE E - FAIR VALUE MEASUREMENTS (CONTINUED)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2014:

	Guaranteed Investment <u>Contract</u>
Fair value, beginning of year	\$ 90,308
Purchases	132,065
Sales	(2,355)
Fair value, end of year	<u>\$ 220,018</u>

NOTE I - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks.
