Porex Corporation 401(k) Savings Plan

Notes to Financial Statements

1. Description of the Plan

The following description of the Porex Corporation 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan maintained by Porex Holding Corporation and subsidiaries (the Company and Plan Sponsor) for the benefit of its eligible employees and the eligible employees of certain participating affiliated employers that have adopted the Plan. The Plan is a defined contribution plan under Sections 401(a) and 401(k) of the Internal Revenue Code (IRC) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Fidelity Management Trust Company (the Trustee) serves as Trustee for the Plan. An affiliated company of the Trustee provides record keeping services for the Plan.

Eligibility

All active employees of the Company, excluding leased employees and nonresident aliens with no source of income in the United States, who have completed six months of service, as defined by the Plan, and are at least 21 years of age, are eligible to participate in the Plan. Participants become eligible to participate on the first Plan entry date (first of each month) following completion of the eligibility requirements.

Contributions

Eligible employees may elect to contribute, on a pretax basis, up to 50% of their eligible compensation to the Plan, not to exceed the limit under the IRC. In addition, eligible participants are permitted to make catch-up contributions, which are not eligible for matching contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% with automatic annual increases of 1% until a maximum of 5% is reached. The Company provides a matching contribution equal to 100% of the participant's contribution up to 3% of annual compensation plus 50% of the next 2% of the participant's annual compensation contributed to the Plan.

Porex Corporation 401(k) Savings Plan

Notes to Financial Statements

1. Description of the Plan (cont.) Contributions (cont.)

For any Plan year, deferral contributions in excess of 5% of the participant's compensation are not eligible for Company matching contributions. The Company's matching contributions are in the form of cash and are directed into various investments by the participants. In addition, the Company, at its discretion, may elect to make additional annual profit-sharing contributions (Profit-Sharing Contributions) to the Plan. Participants must be employed on the last day of the Plan year to be eligible for any Profit-Sharing Contributions made for that Plan year. Profit-Sharing Contributions, if any, will be allocated to eligible participants in the ratio that each eligible participant's eligible compensation bears to the total eligible compensation paid to all eligible participants for the Plan year. Profit-Sharing Contributions will be invested at the discretion of participants. No Profit-Sharing Contributions were made in 2014.

Vesting

Participants are always 100% vested in their pretax contributions, Company matching contributions and any earnings thereon.

Discretionary Profit-Sharing Contributions (and the earnings thereon) are vested in accordance with the following schedule:

Years of Service	% Vested
Less than one	0%
One	20%
Two	40%
Three	60%
Four	80%
Five or more	100%

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's Profit Sharing Contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Porex Corporation 401(k) Savings Plan

Notes to Financial Statements

1. Description of the Plan (cont.)

Notes Receivable from Participants

A participant may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of the participant's vested account balance. Loans are secured by the participant's account balance and bear interest at a reasonable rate of interest as determined by the Trustee based on prevailing interest rates charged for similar loans in the loan market. Repayments of the loans are made in substantially equal payroll deductions amortized over the life of the loan. The loan must be repaid within five years unless the loan is used to purchase a primary residence, in which case the repayment period may not extend beyond ten years from the date of the loan. The principal amount of the loan, together with all accrued interest, shall immediately become due when the participant is no longer employed by the Company.

Forfeitures

Forfeited account balances are utilized to reduce future Company contributions or pay Plan fees. There was no forfeiture account balance as of December 31, 2014 and 2013.

Benefit Payments

A participant becomes eligible for benefits at the normal retirement date (age 65), at early retirement date (age 55 and five years of service), upon termination from the Company, or at the date the participant dies or becomes totally disabled. In addition, a participant is eligible to receive distributions without termination of employment upon attainment of age 59½ without penalty. A participant may elect to receive the benefits either as a lump-sum distribution, installment payments over a specified period of time, or a direct roll-over distribution.

Administrative Expenses

All expenses of the Plan are paid by the Company, with the exception of express mail service fees on participant withdrawal and loan checks and individual loan setup and maintenance fees which are charged to the respective individual participant accounts.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, participants would become 100 % vested in their account balances.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that could affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value, which is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 4 for disclosure of the Plan's fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the Plan year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued by unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Subsequent Events

The Plan has evaluated subsequent events through the date of the auditor's report, which is the date the financial statements were available to be issued.

3. Information Prepared and Certified by the Trustee (unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly Fidelity Management Trust Company has provided certification that the financial information included in the financial statements and supplemental schedule as of December 31, 2014 and 2013 and for the year ended December 31, 2014 provided to the Plan is complete and accurate. The information as to investment assets and transactions therein, and investment income included in the accompanying financial statements and supplemental schedule as of December 31, 2014 and 2013 and for the year ended December 31, 2014 is covered by such certification and has not been audited by independent auditors.

The Plan's investments (including investments purchased, sold as well as held during the year) appreciated in fair value as determined by quoted market prices in the active market as follows:

<i>Year ended December 31,</i>	2014
Mutual funds	\$ 5,642
	\$ 5,642

The fair value of individual investments that represent 5% or more of the Plan's net assets are as follows:

	2014	2013
Fidelity Capital Appreciation Fund	\$ 2,607,298	\$ 2,499,742
Fidelity Blue Chip Growth Fund	\$ 2,915,338	\$ 2,742,945

4. Fair Value Measurements

Fair value is measured according to a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means; and if the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2014 and 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds, registered with the Securities and Exchange Commission (SEC), and are deemed to be actively traded. These funds are required to publish their daily Net Asset Value (NAV) and to transact at that price.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated March 31, 2008, stating that the Plan is qualified under Section 401(a) of the IRC; therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Sponsor believes the Plan is being operated in compliance with the applicable requirements of the Code; and therefore believes that the Plan, as amended and restated, is qualified and the related trust is tax exempt.

Notes to Financial Statements

-
5. **Income Tax Status (cont.)** Accounting principles generally accepted in the United States of America require Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.
6. **Risks and Uncertainties** The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
7. **Party-In-Interest Transactions** Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity is the Trustee as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. Notes receivable from participants are also defined by ERISA as party-in-interest transactions.
8. **Delinquent Participant Contributions** During 2014, employee contributions of \$118,830 were not remitted within the appropriate time period by the Company. These transactions constituted prohibited transactions as defined by ERISA. The Company remitted the late deposits during 2014 and has remitted the lost earnings during 2014, but has elected not to do so through the Voluntary Fiduciary Correction Program (VFCP) given the immaterial amount.
9. **Reconciliation of Financial Statements to Form 5500** The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2014 and 2013, to Form 5500:

<i>December 31,</i>	2014	2013
Net assets available for benefits per the financial statements	\$ 32,645,501	\$ 31,479,207
