Report on Comparative Financial Statements in Year of Adoption of Liquidation Basis

We have audited the accompanying financial statements of Mansfield Plumbing Products, LLC Cash Balance Pension Plan (Plan), which comprise the statement of net assets available for benefits in liquidation as of December 31, 2014 and the statement of net assets available for benefits as of December 31, 2013, and the related statement of changes in net assets available for benefits in liquidation for the year ended December 31, 2014 and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits in liquidation as of December 31, 2014, and changes therein for the year then ended, and its financial status as of December 31, 2013, and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America applied on the bases described in the Note 2 to the financial statements.

Emphasis of Matter

As described in Note 3 to the financial statements, the Plan sponsor elected during 2014 to terminate the Plan. As a result, the Plan changed its basis of accounting for periods subsequent to December 31, 2013 from the going concern basis used in presenting the 2013 financial statements to the liquidation basis used in presenting the 2014 financial statements. Our opinion is not modified with respect to this matter.

NOTE 1 - DESCRIPTION OF THE PLAN

The following brief description of the Mansfield Plumbing Products, LLC Cash Balance Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General: The Plan is a defined benefit pension plan covering salaried employees and specified non-bargaining hourly employees of Mansfield Plumbing Products, Inc. (the "Company"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. As discussed in Note 3, the Plan was terminated September 30, 2014.

Eligibility: Prior to April 1, 2005, each salaried or specified non-bargaining hourly employee was eligible to participate in the Plan upon the completion of 1,000 hours with the Company. Effective April 1, 2005, the Plan was frozen, not allowing any employee hired after that date to become a participant in the Plan. The Plan was amended to freeze accruals effective July 31, 2007.

Normal Retirement Benefit: Prior to July 31, 2007, on a monthly basis, a percentage, based on years of service, of each participant's compensation (as defined) was credited to the participant's retirement benefit account (the "contribution benefit"). The contribution benefit earns interest monthly at varying rates as defined in the Plan. The combination of the contribution benefit and the interest earned thereon by the participant is referred to as the "accrued benefit". Effective July 31, 2007, participants no longer received a contribution benefit and only received monthly earnings on the accrued benefit. Each participant who retires from employment on his/her normal retirement date, as defined in the Plan agreement, shall be entitled to receive a retirement benefit equal to the actuarial equivalent of his/her accrued benefit on that date. The normal form of benefit payable to a participant is expected to be in the form of an annuity for the life of that participant or a joint and 50% survivor annuity, if married. A lump-sum payment may be elected in lieu of an annuity.

Termination of Employment: Upon termination of employment, the participant's non-forfeitable percentage of the accrued benefit is determined as follows:

<u>Completed Years of Service</u>	<u>Percentage of Accrued Benefit</u>
Less than 3	0%
3 or more	100%

Participants are immediately 100% vested upon death, disability, and attainment of normal retirement age.

All forfeitures are used to reduce the cost of the Plan to the Company and are not allocated to the remaining participants.

A lump sum payment based on completed years of service is available at any age following termination.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: As of and for the year ended December 31, 2013, the accompanying financial statements have been prepared under the accrual basis of accounting for an ongoing plan (going concern basis) in accordance with accounting principles generally accepted in the United States of America. As a result of the decision to terminate the Plan in 2014, the accompanying financial statements as of and for the year ended December 31, 2014 have been prepared under the liquidation basis of accounting in accordance with accounting principles generally accepted in the United States of America.

The Plan's adoption of the liquidation basis of accounting had no effect upon the Plan's net assets as of December 31, 2014 and the changes in net assets for the year ended December 31, 2014, as the fair values of the Plan's investments have been determined to approximate liquidation values, and no amounts were accrued for costs to be incurred, income to be earned and contributions to be received by the Plan from January 1, 2015 through the date of final liquidation, as such amounts were determined not to be reasonably estimable. The Plan's actuary has reported to the Plan Administrator that the estimated impact of adoption of the liquidation basis of accounting upon the present value of accumulated plan benefits for the year ended December 31, 2014 will be an increase of approximately \$100,000 as a result of changes to prior actuarial assumptions.

Investment Valuation and Income Recognition: The Plan's interest in the Master Trust for Retirement Plans for Mansfield Plumbing Products, LLC (the "Master Trust") is reported at estimated fair value based upon the fair values of the underlying investments held in the Master Trust. Purchases and sales of securities are reflected on a trade-date basis. The Plan presents in the statements of changes in net assets available for benefits the Plan's interest in the Master Trust investment gain (loss), which consists of the Plan's interest in realized gains or losses, unrealized appreciation (depreciation), and dividend income of specific investments of the Master Trust. Dividend income earned by the Master Trust is recorded on the ex-dividend date. Net appreciation (depreciation) of the Master Trust includes gains and losses on investments bought and sold as well as held during the year.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make significant estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. It is reasonably possible that a significant change may occur in the near term for the estimate of the actuarial present value of accumulated plan benefits.

Risk and Uncertainties: Contributions are made to the Plan and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

The investments held by the Master Trust are exposed to various risks, such as interest rate, overall market volatility, liquidity and credit risks. Due to the level of risk associated with certain investments, it is possible that changes in the value of investments will occur in the near term and such changes could materially affect the amount reported in the statement of net assets available for benefits.

Payment of Benefits: Benefits are recorded when paid.

NOTE 3 - PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA and its related regulations. In the event the Plan terminates, the net assets of the Plan will be allocated among the participants and beneficiaries of the Plan in the order provided by ERISA.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Whether all participants receive their benefits should the Plan terminate at some future time depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the Pension Benefit Guaranty Corporation at that time. Refer to the Plan document for specific priorities on termination.

On June 14, 2014, the Board of Managers of Mansfield Plumbing Products, LLC authorized the officers of the Company to submit a request to terminate the Plan subject to the approval of the Internal Revenue Service (IRS) and the Pension Benefits Guaranty Corporation. The effective date of termination was September 30, 2014. The Plan received a favorable determination letter from the IRS dated October 9, 2014 allowing the termination to proceed. Liquidation of the Plan is considered to be imminent and unlikely not to occur. As of the effective date of termination, all participants are 100% vested in their accrued benefits.

The Company's plan of termination includes locating and notifying participants of their vested accrued benefits under the Plan and liquidating assets of the Master Trust in order to pay benefits within the required statutory time frame. Accumulated benefits are expected to be paid, as elected by Participants, either in the form of a lump sum paid directly to them, a qualified rollover, or an annuity contract purchased in their name from an insurance company selected by the Company. Participants who cannot be located or do not elect a form of payment will receive an annuity contract in their name also administered by an insurance company chosen by the Company. Assets of the Master Trust are expected to be liquidated at fair value with no adjustments for costs to sell outside the normal course of business. All benefits under the Plan are expected to be paid by December 31, 2015.

NOTE 4 - ADMINISTRATIVE AND INVESTMENT MANAGEMENT EXPENSES

The Company may pay all expenses incurred in the administration of the Plan, but they are not obligated to do so. Thus, any such expenses and fees not paid by the Company shall be paid by the Plan. Certain administrative expenses of the Plan were paid by the Company during 2014 and 2013. The Plan's trustee fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Master Trust as a reduction of investment return and included in the investment income (loss) reported by the Master Trust.

NOTE 5 - FUNDING POLICY

The Company contributes such amounts as are necessary on an actuarial basis to provide the Plan with assets sufficient to meet the benefits to be paid to Plan participants. The Plan has met the minimum funding requirements of ERISA for 2014 and 2013. Earnings or losses on the Plan's investments are used to reduce or increase the Company's contributions to the Plan and are not distributed to participants. Participant contributions are not permitted under the Plan.

NOTE 6 – FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

- Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
- Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique is used to measure fair value that may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held as underlying investments of the Master Trust:

Common Stock, Registered Investment Companies, and Exchange Traded Funds: The fair values are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Corporate, Governmental, and International Bonds: The fair values are estimated based on most recent bid prices in the principle market in which such securities are traded, or are valued based on information provided by a pricing service (level 2 inputs).

Hedge Fund of Funds: The fair values are based on the net asset values of the shares as reported by the fund managers at year end in audited financial statements (level 2 inputs). The investment objectives of the hedge funds of funds include capital appreciation through the use of leverage and short positions, as well broad diversification with positions in global currency, financial and commodity markets. A portion of the plans' investment in hedge funds of funds allow for quarterly redemptions, with 65 days advance notice. Otherwise, there are no restrictions on redemptions or advance notice requirements.

NOTE 6 – FAIR VALUE MEASUREMENTS (Continued)

The Company, or its agents, exercise reasonable skill and caution in making investment decisions. A number of factors are evaluated in determining if an investment strategy will be employed by the Master Trust. These factors include, but are not limited to, investment style, investment risk, investment manager performance and costs.

During 2013, the Plan's net investment gain in the Master Trust (including gains and losses on investments bought and sold, as well as held during the year and dividend income) was \$320,763.

NOTE 8 - ASSETS HELD IN MASTER TRUST

The Plan's investment assets are held in the Master Trust account at the New York Life Trust Company, the trustee. Use of the Master Trust permits the commingling of trust assets of both pension plans of the Company for investment and administrative purposes. Although assets of the plans are commingled in the Master Trust, the trustee maintains supporting records to identify the specific investments attributable to each participating plan for the purpose of allocating the investment income or loss, expenses, and net assets of the investment account to the participating plans. Investment income or loss is allocated based upon each plan's interest in the specific underlying investments held in the trust. Each plan's interest in the net assets of the Master Trust is based on the plan's interest as of the beginning of the year plus actual contributions and actual investment income or loss on investments identified by the trustee to be held for the plan, less actual distributions and an allocation of trust expenses. Trust expenses are allocated based upon each plan's percentage interest in the net assets of the trust.

The Plan's interest in the Master Trust was approximately 10% at December 31, 2014 and 2013.

The following table presents the net assets of the Master Trust as of December 31, 2014 and 2013:

Total investment income	<u>\$ 2,299,851</u>	<u>\$ 4,111,880</u>

NOTE 9 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are expected future periodic payments that are attributable under the Plan's provisions to the service employees have tendered. Accumulated plan benefits include benefits expected to be paid to either the employees or their beneficiaries. Benefits payable to Plan participants are based on credited years of service, as defined under the Plan agreement.

The actuarial present value of accumulated plan benefits is that amount which results from applying actuarial assumptions to reflect the time value of money (through discounts for interest) and the probability of payment (by considering factors such as death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the December 31, 2013 valuation were as follows:

Rate of return on investments	4%
Mortality basis	RP-2014 mortality tables and MP-2014 generational projection tables (Total rates)
Assumed retirement age	55-60: 5.0% 66: 32.0% 61: 10.0% 67: 34.0% 62: 20.0% 68: 38.0% 63: 10.0% 69: 42.0% 64: 5.0% 70: 100.0% 65: 72.0%
Cash balance interest crediting rate	3%
Form of payment	Lump sum for participants with a cash balance; life annuity otherwise

NOTE 9 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. An actuarial valuation of the Plan as of December 31, 2014 has not yet been completed.

The actuarial present value of accumulated Plan benefits as of December 31, 2013 is as follows:

Vested benefits of participants and beneficiaries receiving payment	\$ 737,975
Other vested benefits	<u>1,944,224</u>
Total vested benefits	2,682,199
Nonvested benefits	<u>18,666</u>
Total actuarial present value of accumulated Plan benefits	<u>\$ 2,700,865</u>

The following is a reconciliation of the change in the total actuarial present value of accumulated Plan benefits between the December 31, 2013 and 2012 valuation dates:

Present value of accumulated Plan benefits at December 31, 2012	\$ 2,163,197
Change in present value of accumulated Plan benefits due to:	
Benefits accumulated and experience	(41,055)
Benefits paid	(168,061)
Change in actuarial assumptions	601,143
Decrease in discount period	<u>145,641</u>
Total actuarial present value of accumulated Plan benefits at December 31, 2013	<u>\$ 2,700,865</u>

The change in present value of accumulated plan benefits related to changes in actuarial assumptions is due to the updating of mortality tables from the IRS 2013 Mortality Table with Static Projections to the RP-2014 mortality tables and MP-2014 generational projection tables (Total rates), as well as a decrease in the assumed rate of return on investments from 7% to 4%.

NOTE 10 - INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated October 9, 2014 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC").

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the Department of Labor or Internal Revenue Service, however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 11 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor (DOL) regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Master Trust is managed by New York Life Trust Company (NYL), the trustee of the Plan. The trustee represents a party-in-interest as they also provide administrative services to the Plan. Certain assets of the Master Trust are held in custody at Morgan Stanley Smith Barney, LLC (Morgan Stanley).

During 2014 and 2013, administrative expenses were paid by the Plan to NYL and Morgan Stanley, as well as to New York Life Investment Management, LLC, the Plan's actuary. These expenses constitute party-in-interest transactions. Other fees were paid to investment advisors and auditors, which also constitute party-in-interest transactions. The Master Trust also holds certain investments issued by Morgan Stanley, which constitute party-in-interest investments.

NOTE 12 - SUBSEQUENT EVENTS

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Plan Name: Mansfield Plumbing Products LLC Cash Balance Pension Plan
Plan Sponsor: Mansfield Plumbing Products LLC

EIN: 31-1739929
PN: 008

Actuarial Cost Method**Funding Target / Target Normal Cost**

An Actuarial Cost Method is an allocation of the expected cost of a pension plan on a year-by-year basis. The primary objective of an Actuarial Cost Method is to accumulate enough assets prior to each participant's retirement to provide the promised pension benefits.

The Pension Protection Act of 2006 (PPA) mandates the use of the Traditional Unit Credit Actuarial Cost Method. Under this method, the accrued benefit is estimated based upon service and, if applicable, earnings as of the valuation date. The Funding Target is equal to the actuarial present value of all accrued benefits as of the valuation date. The Target Normal Cost is the actuarial present value, as of the valuation date, of the expected increases in projected accrued benefit attributable to service expected to be completed during the plan year (i.e. if applicable, one year's salary growth is reflected in the determination of Target Normal Cost).

For tax deduction purposes, the Funding Target may reflect the value of future pay increases on accrued benefits, if applicable.

PPA Discounting Method

The plan sponsor is responsible for making the following decisions with regard to the discounting method:

- Full yield-curve spot rates or a segmented yield-curve of 24-month average rates of corporate bond rates
- If the segmented yield curve is used, the rates as of the month of the valuation may be used or as of a lookback month up to 4 months prior to the valuation date (the full yield curve must use the rates as of the month of the valuation starting in 2010)

For purposes of this valuation, the following discounting method was used and is assumed to be approved by the plan sponsor:

- Segment rates through the month of December preceding the valuation date adjusted such that each segment rate is no less than the applicable minimum percentage* of the corresponding 25-year average segment rate for the calendar year that contains the first day of the plan year and no more than the applicable maximum percentage** of that 25-year average segment rate.

Asset Valuation Method

The Plan Assets for purposes of this Actuarial Valuation are valued under the asset averaging method, including, if applicable, discounted receivable contributions. The value of plan assets is set equal to the average of the fair market value of assets on the valuation date and the adjusted fair market value of assets (including expected earnings) determined for the two earlier annual determination dates. Expected earnings are calculated using a rate no greater than the third segment rate of the segmented yield-curve in effect at the beginning of each valuation year. The resulting average value must be constrained so that it falls between 90 and 110 percent of the fair market value of assets on the valuation date.

* The applicable minimum percentage is 90% for 2014 through 2017, 85% in 2018, 80% in 2019, 75% in 2020, and 70% in 2021 and later.

** The applicable maximum percentage is 110% for 2014 through 2017, 115% in 2018, 120% in 2019, 125% in 2020, and 130% in 2021 and later.

Summary of Plan Provisions

Summary of Plan Provisions

Employee:	Each salaried Employee (and specified non-bargaining hourly employees) of an Employing Unit which has adopted the Plan.
Eligibility Requirements:	None unless employee is scheduled for less than 1,000 hours per year, then completion of one year with 1,000 hours is required.
Plan Entry Date:	Immediate for employees scheduled to work 1,000 hours. Otherwise, the last day of the year of hire or plan year during which 1,000 hours is worked. Plan entry was frozen effective April 1, 2005. No employee hired after this date shall become a participant in the plan.
Year of Service (Benefit Accrual and Vesting):	Elapsed time from date of hire. No further benefit service will be accrued after July 31, 2007.
Normal Retirement Date:	First of the month coincident with or next following attained age 65.
Compensation:	Compensation means the annual basic wage paid inclusive of (i) and (ii), but exclusive of (iii): (i) overtime, bonus, and commissions, (ii) 401(k) contributions on behalf of an individual, (iii) severance compensation and other extraordinary items of compensation. Compensation earned after July 31, 2007 shall be disregarded.
Normal Retirement Benefit:	Monthly benefit provided by the Account Balance.
Normal Form of Benefit:	The normal form of benefit payable to a participant shall be an annuity for the life of that participant and, if married, inclusive of 50% continuation after the participant's death to his or her spouse.
Accrued Benefit:	Accrued Benefit means, at the time of reference, an annual amount of benefit in the form of a single life annuity, commencing at Normal Retirement Date, where the single life annuity is the Actuarial Equivalent of the current value of the Account Balance.

Summary of Plan Provisions

Early Retirement Benefit: An actively employed Participant who has attained age 55 may elect to retire prior to his Normal Retirement Date. In such case, he shall receive a Retirement Benefit, commencing on his Normal Retirement Date, equal to his vested Accrued Benefit as of his Normal Retirement Date.

In lieu of such Retirement Benefit commencing on his Normal Retirement Date, the Participant may, at any time on or after his termination of employment, elect a reduced Retirement Benefit to commence as of the first day of any month thereafter which is prior to his Normal Retirement Date. In such case, the Participant shall receive a Retirement Benefit which is the Actuarial Equivalent of his vested Accrued Benefit as of his Commencement Date.

Late Retirement Benefit: If a Participant remains employed beyond his Normal Retirement Date, he shall be entitled to receive a Retirement Benefit equal to his Accrued Benefit as of his Late Retirement Date, commencing on his Late Retirement Date.

Vesting: In the event of termination of employment, the percentage of the Accrued Benefit to which a Participant shall have a nonforfeitable right shall be determined from the following table by reference to the completed years of Service at the date of termination of employment:

<u>Completed Years of Service</u>	<u>Percentage of Accrued Benefit</u>
Less than 3	0%
3 or more	100%

Summary of Plan Provisions

Account Balance:	The Account established and maintained for each Participant. Such Accounts are intended only as bookkeeping accounts and neither the maintenance nor the credits thereto shall be considered an allocation of any assets to such Account. Benefits provided under the Plan shall be considered an allocation of any assets to such Account. Benefits provided under the Plan shall be paid from the general assets of the fund.
Initial Account Balance:	The present value of the benefit accrued by a participant at the date that cash balance accounts were established in the plan. This present value was based on an interest rate of 8% and mortality after assumed commencement of UP-1984.
Account Pay Credits:	5% of Monthly Compensation credited at the end of each month if service as of that date is less than 15 years. 6.5% of Monthly Compensation credited at the end of each month if service as of that date is 15 years or more. No further pay credits shall be credited after July 31, 2007.
Account Interest Credits:	Credited at the end of each month. The rate is the one month average of One-Year Treasury Constant Maturities for the 12 months ending the November 30 prior to the plan year the interest is credited in. If this average rate is not a multiple of $\frac{1}{4}\%$, the closest higher interest rate which is a multiple of $\frac{1}{4}\%$ is used.
Pre-Retirement Death Benefit:	A benefit shall be payable to a participant's Beneficiary in accordance with (a) or (b) below as applicable and subject to adjustment as provided for in (c) below: (a) For Non Spousal beneficiaries, there shall be paid to such Beneficiary as of the first day of the month following the month in which the Participant's death occurs an amount equal to the value of his Account as of the last day of the month in which the death of the Participant occurs.

Summary of Plan Provisions

(b) If the Participant's Beneficiary is the spouse, such spouse shall be entitled to receive a Retirement Benefit for life commencing on the date the Participant would have attained Normal Retirement Date if he had survived to such date. Such benefit to the spouse shall be a single life annuity, payable monthly, where such annuity is the Actuarial Equivalent of the Accrued Benefit to which such Participant would have been entitled had he terminated employment on his date of death, survived to his Normal Retirement Date, and commenced to receive a Retirement Benefit as of such date. Notwithstanding the foregoing, the spouse of a Participant may elect to commence receiving a Retirement Benefit for life in the form of a single life annuity commencing on the first day of any month on or after the date the Participant died. The monthly amount of such benefit to the spouse shall equal the monthly amount payable under a single life annuity where such single life annuity is the Actuarial Equivalent of the Retirement Benefit to which such Participant would have been entitled had he terminated employment on his date of death, survived to such commencement date, and commenced to receive a Retirement Benefit as of such date. Alternatively, the spouse may request to receive, in lieu of any other benefits under the Plan, a distribution of the value of the Participant's Account as of his date of death, payable as soon as practicable after the Participant's death.

(c) The foregoing provisions shall apply in the case of the death of a Vested Terminated Participant who was less than 100% vested on his termination of employment only with respect to that portion of his Account (or Accrued Benefit) in which he is so vested on his date of death.

Changes in Actuarial Assumptions and Methods

The assumed investment return was lowered from 7.00% as of January 1, 2013 to 4.00% as of January 1, 2014. There were no other additional changes in assumptions and methods other than those mandated to remain in compliance with IRS standards (specifically, the interest discounting rates and mortality table with static projections have been updated by one year).
